PREPARING TO FIGHT.

Monday a Day of Vital Importance to Olneyville Strikers.

Story of Rebellion Among Atlantic Operators

Disproved by Figures Shown in a Canvass Made by Strike Leaders.

PROVIDENCE, June 1.—The Olneyville mill strikers are getting into line for Monday's decisive battle against capital. On that day all the mill gates will be open, in response to an alleged request of the operatives that they be allowed to go to work. The strikers realize that but a short time is left for them in that to get their forces into line, and that vigorous efforts must be put forth to prevent the entire disruption of the strike.

The request that the mill gates be opened is alleged to have come from Atlantic mill operatives, who sent a delegation to wait upon Mayor Olney, and from what the mayor said the information has been generally spread that the Atlantic operatives were in open rebellion against the Textile union, as well as their own executive board.

Something had to be done to contravert such a statement, and accordingly a special committee of 35 was appointed two days ago, with instructions to make a personal canvass of all the Atlantic mill help. This canvass was made as thoroughly as possible, and the reports of the committee are claimed to show that but two operatives out of the original 2500 who went out on April 10 said that they wanted to go back to work on the old schedule wages. This report, if it is founded on fact, indicates that the number who will apply for work next Monday may be extremely limited.

Gave Up the Fight.
BOSTON, June 1.—The Commonwealth Mutual Insurance company of Boston, which started out to do a large mercantile insurance business throughout the country 16 months ago, has passed into the hands of a receiver. It has been almost three months since the insurance commissioner stated that in his judgment the company could never regain its solvency and asked the supreme court to wind up the concern. The company thought differently, and a compromise was entered into and the court gave the company 90 days in which to collect the assessment which had been levied upon the policy holders, and the proceeds of which, it was thought, would once more put the company upon a sound financial footing. But the assessment was not successful.

On Beacon Hill.
BOSTON, June 1.—The Senate referred to the next general court the bill for a ferry over the Aushnet river between Fairhaven and New Bedford. The house reconsidered the adoption of an order of prorogation for tonight, by adjourning until Monday. The senate passed over the veto of the governor the bill to increase the salary of the clerk of the Brockton police court. The senate sustained the veto of the stock held by the Fair estate in San Francisco will lessen the European demand upon Atlantic stocks.

Rutland's Rum Business.
RUTLAND, June 1.—Large quantities of liquor were seized in 11 of the principal saloons in this city yesterday. For the past year the saloons have been running in this city, with no attempt at concealment, having conducted business night and day, with doors wide open, on the principal thoroughfares. Monday morning the state's attorney and the sheriff's department began active and systematic operations. The raiding will be continued.

Daniels Chosen.
MALDEN, June 1.—The Malden school committee last night elected Mr. Daniels superintendent of schools by a vote of 8 to 2. This action settles a controversy of three years' standing. Last year Mr. Daniels was a hold-over, as the board failed to elect any one for the office.

Young Doran's Body Found.
DERBY, Conn., June 1.—The body of 8-year-old Charlie Doran, who has been missing for a week, was found yesterday in Housatonic river. It is claimed that the boy, during a fight with a schoolmate, was pushed into the water. The matter will be investigated.

Youthful Burglars.
GARDNER, Me., June 1.—Eugene Long-fellow and George Jones, each aged about 18 years, are under arrest for breaking and entering the store of H. A. Billings. Jones confessed, also acknowledging complicity in various other breaks during the past two years.

May Move South.
NASHUA, June 1.—The stockholders of the Jackson mill yesterday voted to double their present amount of capital stock, making it \$1,200,000. The company manufactures cotton goods, and will move south if a satisfactory location can be found.

Painters' Bad Fall.
PROVIDENCE, June 1.—A staging on a house on Westminster street gave way yesterday, carrying with it three painters to the ground, a distance of 20 feet. Ernest Lovett, who died of his injuries, Granville Baker and John Fish will recover.

The A. P. A. in Evidence.
LYNN, June 1.—The A. P. A. won a victory in the Republican caucuses held in every ward of the city last night to elect members of the city committee for 1895. Out of 25 members elected 15 are members of the A. P. A. The result is a big surprise.

Burglar's Victim Improving.
BRIDGEPORT, June 1.—The condition of Elizabeth Linsley of Stratford, who was brutally beaten by a burglar at her home, is somewhat improved. The police say they are on the track of the burglar, and that there is little chance of his escape.

Bailey Owns Wild West Show.
BRIDGEPORT, June 1.—The Buffalo Bill Wild West show was attached by John Hunt, who claimed \$300 for services. The attachment, which was afterward released, disclosed the fact that James A. Bailey is the sole owner of the Wild West show.

Must Reduce Figures.
AUGUSTA, June 1.—The supreme court, in hearing the case where action was brought to recover damages for injuries received by Mrs. Holmes on the Maine Central, causing death, rendered a decision that a new trial would be granted unless the administrator deducts from the finding of the lower court all money over \$5000. The verdict of the lower court was for \$7046.54, which the law court deems excessive.

Higher Pay Than Predecessor.
NEW HAVEN, June 1.—F. C. Kendall was unanimously elected superintendent of schools last night by the board of education at a salary of \$3500 a year, an increase of \$200 from the salary paid the present superintendent.

Clark's Offer Rejected.
ANSONIA, Conn., June 1.—Wallace & Sons, insolvent brass and copper manufacturers, will not pass under the control of W. A. Clark, who has been negotiating with the firm. The stockholders have refused his offer.

Death of an Old Landlord.
NORTH ADAMS, June 1.—Albert E. Richmond, 75, a prominent citizen, died last evening. He was once a representative to the legislature, owned the 30-shire house in this place and the Mansion house in Troy.

Held Without Bail.
PORTSMOUTH, June 1.—Joseph L. Roberts, who attempted to kill his wife and her paramour, Edgar D. Stoddard, was held for the October term of the supreme court, and remained to jail without bail.

A Generous Offer.
HADLEY, Mass., June 1.—Dr. D. K. Pearson of Chicago will give to Mount Holyoke college \$50,000 on condition that \$10,000 additional shall be raised within a year, this sum to be used for endowments.

Stone Cutters' Threats.
HARTFORD, June 1.—The members of the Stone Cutters' union threaten to go out on a strike unless the Stone Layers' union agrees to hereafter to leave all cutting of ashlay stones to their union.

Candidate For Congress.
HAVERHILL, June 1.—In reply to a letter asking his position on the vacancy in the Sixth congressional district, District Representative Mark W. Brewster announced that he is a candidate for the nomination.

Blaze at Taverion.
TAVERTON, June 1.—The four-story brick building, owned and occupied by Charles H. Washburn, house furnisher, was gutted yesterday afternoon. The loss will aggregate \$10,000.

Fell Off a Dock.
PROVIDENCE, June 1.—William Wadsworth, 12 years old, fell into the Providence river while playing on the docks last evening and was drowned.

Slept on the Track.
LYNN, June 1.—James A. Shields, colored, was struck by a freight train while asleep on a track in the freight yard and died soon after.

Katahdin Does Well.
BATH, June 1.—The Katahdin made a progressive trip, and made the best showing thus far, exceeding her required speed by nearly a knot.

Fell Off Logs.
BANGOR, June 1.—While playing on logs in South Brewer yesterday, Franklin Foster, aged 6, fell between the logs and was drowned.

New England Briefs.
LOUISE Korowoski, a little child, fell from a second story of its parents' house at New Haven and sustained fatal injuries. Daniel Stearns, one of Windsor's (Vt.) oldest residents, died after a long sickness. He was 87 years old, and had filled many positions of trust.

Rev. Frank O. Hall of the First Universalist church of Lowell has accepted the call to the Massachusetts Avenue church of Cambridge.

Thomas Coleman of Middletown, Conn., wanted for the desertion of his wife, has been located in Ireland. His wife is very sick in the New Haven hospital.

Joseph Smith, an engineer at Arnold's foundry at Norwalk, Conn., while engaged in making repairs in the engine room, fell and was fatally injured.

Next Tuesday from the shipyard at New London, where it has laid since hauled out to repair damages sustained last fall.

The Relief of Newfoundland.
LONDON, June 1.—The Chronicle editorially congratulates Newfoundland upon her issue from her embarrassment. The conclusion of the loan, The Chronicle says, shows that her finances are not so irretrievably bad as the public has been led to suppose. It means, also, that Newfoundland is no longer under compulsion to change her political status. We still believe her best interests would be consulted by joining Canada.

Books All Right.
GALESBURG, Ill., June 1.—The expert who has been examining the books of the Brotherhood of Railway Trainmen found no shortage in the accounts of the officers. He reported that the printing plant had been run at a loss of \$8000 last year. The convention accepted his report and adopted a system of graded insurance policies to be \$800, \$800 and \$1000.

Jockey's Neck Broken.
WASHINGTON, June 1.—During the last race at St. Asaph yesterday afternoon, as the horses were coming around the turn into the home stretch, Kirkover, ridden by Corbely, fell, breaking the jockey's neck. Two other horses fell on him. Donnelly, on Punch, the favorite, was injured about the head. Punch broke his leg and had to be killed.

BUSINESS EXPANDING.

Important Industries Starting Up and Wages Being Increased.

Fears of Damage to Crops Not Well Founded.

Upward Tendency of Prices Continues in the Commercial World.

NEW YORK, June 1.—Reports to Bradstreet's from manufacturing industries at 75 cities east of the Rocky mountains show that more than 227 important manufacturing concerns started up between April 1 and a week ago, by reason of which 53,000 employees have secured work. But the additional and significant fact is found in the report that wages of no fewer than 178,000 industrial employees have been advanced within this period an average of 10 per cent, of whom six-sevenths received the advance without striking.

The tendency of prices this week is again upward, notably so for steel and iron, which are in better demand, despite higher prices, as are cereals and cotton and leather and shoes, which, with some other staples, in all 16, close higher on the week. Coffee, sugar, flour, lumber, coal and tin plates are firm at last week's prices, while declines in quotations are 1-16 cent for print cloths, petroleum 4 cents, Pennsylvania tobacco at Philadelphia, and live cattle at Omaha and Kansas City.

Wool continues in slow sale, interior prices being about what eastern manufacturers are willing to pay. Cotton goods remain firm on the strength of cotton, but staple cottons move slowly, as operatives are still well supplied.

Woolen dress goods are quiet, but the mills are said to have a good number of orders for fall delivery. At the larger eastern cities the volume of business is slowly but steadily expanding now that summer weather has appeared, and the improvement in the iron and steel industries has developed into buoyancy.

Seasonable fabrics, shoes, groceries, hardware and metals, lead as to demand.

Dun's Review.
R. G. Dun & Co.'s weekly review of trade says:

More far-reaching than any other change during the past week, if not more so, by facts, is the continued rise in prices of wheat and cotton. Real scarcity of either would affect all business. Happily there is still room to hope that accounts of injury are greatly exaggerated, although there has been some evidence during the week that both the great crops have suffered more than at first appeared. Other changes are almost all favorable, and some highly encouraging. Labor troubles are clearly less threatening. Monetary conditions are satisfactory, and the substantial increase in the commercial demand is a good sign.

The failures during the past week have been 125 in the United States, against 181 last year.

Wheat is largely supported by public buying, and the purchasing orders from farming regions are supposed to indicate an opinion of the yield. Yet wheat comes forward freely, as it would not at current prices if a short crop were assured, and western receipts for the month have been \$944,574 bushels, against 5,535,365 last year. Nor do Atlantic exports reflect increased haste to buy abroad—amount in four weeks, flour included, 6,183,420 bushels, against 9,716,097 last year.

Accounts still indicate that spring wheat was not injured, and promises well. In spite of some hot days, but in a few of the winter wheat states the yield has been cut down, how much cannot yet be judged. The sale of the stock held by the Fair estate in San Francisco will lessen the European demand upon Atlantic stocks.

Corn is 2 1/2 cents lower, pork 25 cents and hogs 20 cents per 100 pounds, but lard is 10 cents per 100 pounds higher.

Over the Border.
Bradstreet's today says: The advance of prices of staples in the Dominion of Canada has stimulated business notably. Retail stocks at Montreal, which had long been depleted, are being replenished, and the volume of business is larger than a year ago. Hot weather has increased the demand for summer goods at Toronto, and it is striking that wheat at Ontario points is commanding \$1. Nova Scotia crop prospects are favorable, but trade is not active. Much distress continues among Newfoundland fishermen. Imports into that colony this year are only about one-half the usual amount in a like period last year. There were 25 business failures reported from Canada this week.

Divs in the Tolls.
HAVANA, June 1.—Zouy Diva, who was authorized by the revolutionary committee in New York to raise rebel bands and to prepare for the landing of the expedition organized by Enrique Collazo, arrived in Cuba on the steamer Mascotte. When taken by the police, a paper was found in his necktie containing the name of a colonel. Several houses in Havana and Matanzas have been searched.

No Improvement.
WASHINGTON, June 1.—Miss Abigail Dodge lingered yesterday without improvement, having lapses of semi-consciousness, alternating with total unconsciousness. Her strength is gradually failing on account of the excessive heat and her inability to take natural nourishment.

Two Bulls in His Head.
TROY, N. Y., June 1.—Michael Ganson of Chautauqua shot himself twice in the forehead yesterday on a street in West Troy. His identity was discovered by a Bible presented to him by the King's Daughters. He will probably recover.

Killed From Ambush.
VANCEBURG, Ky., June 1.—Major William Hardman, aged 74, was shot from the back and killed on a lonely road near Escalopia Springs. It is said he had a deadly enemy who had sworn to kill him.

On September 15, at Waltham, in a coasting tournament wherein seven or eight of the leading bicycles were represented, "The Spalding" finished first, second and third. The greatest tribute to the coasting ability of "The Spalding" Bicycle was paid by Capt. Allen of Philadelphia. On the trip to Glen Summit he was the only one able to come down the mountain without a mishap, which feat in itself should clearly establish the superiority of "The Spalding" at coasting, when the extraordinary declivity of Glen Summit is considered.

He is capable of estimating job work of all descriptions, and will canvass the city for job printing and advertising.

REMODEL CITY HALL.

The Work Would Pay for Itself in Sixteen Years.

The new court house for Quincy seems to be a thing of the past. While we do not approve of the City Council appropriating money for anything but absolute necessities, we do think that the rebuilding and extension of our City Hall should now be more thoroughly considered.

The plan brought before the Council some time ago contemplated the extension of present building about 28 feet on the rear and extending 18 feet toward the street.

In this extension arrangements were made for a police station on the first floor with ample accommodations for the demands of our growing city. The second floor provided for a court room 45 by 30 feet with a room for clerk of court 12x18 and a room for the judge 12x17, also a witness room 11x15.

The total cost of remodeling the present building and building the extension was estimated at \$20,000, this was based on bids submitted by builders in our city. If the bonds were issued to the amount of \$20,000 at four per cent., \$2,000 being paid each year, the total cost to the city would be \$24,400.

The expense to the city for outside accommodations at the present time amounts to \$741 per year. This of course would be saved as all departments of the city government would be provided for in the new building. The amount thus saved for rent for 16 years would be \$11,856. There seems to be no doubt but that the county commissioners would be willing to pay \$800 per year for the court room and the rent from this would amount to \$12,800 for the 16 years, and together with the \$11,856 amounts to \$24,656, or the work would pay for itself in 16 years.

The necessity of better accommodation at City Hall is apparent, and there is much space that is not utilized to advantage. Then the records should be more carefully protected. There is need of a better police station and it would be more economical to remodel City Hall than the old steamer house. Whether accommodations are provided for the court or not City Hall should be remodelled.

Blue Hill Predictions.

Sa	2	3	Mo	Tu	W	Th	Fr	Sa
1	2	3	4	5	6	7	8	

During the coming week the coolest days will probably be the 2d to 3d, and the warmest the 6th to 7th. Probably considerably cooler by the evening of the 1st or morning of the 2d, and quite warm again on the 6th to 7th. The week will probably average warmer than the past week. The greatest probability of rain is on the 2d to 3d, and possibly the afternoon of the 7th. The greatest probability of clear weather is between the 4th and 6th.

Messrs. Sanborn & Damon, who for years have been located at No. 166 Hancock street, are now in their new store under the PATRIOT office. This store has been thoroughly remodelled and is now one of the largest and pleasantest in the city. The stock they carry is of the best. They can furnish anything from the most elaborate heating apparatus down to the smallest piece of tin or wooden ware. They solicit and deserve the continued patronage of the people of Quincy.

THE SOCIAL REALM.

The June Weddings to Break All Records.

POPULAR MONTH OF THE YEAR.

Engagements, Personals and Social Items of Interest.

That we have not outlived the age of superstition is evidenced by the fact that May is the most unpopular month of the whole year for marriages says the Table Talk. Ovid says, "The common people profess it is unlucky to marry in the month of May," but he gives no reason for the fancy, which has certainly proved enduring, and is limited to no class nor condition of people. It is probable, however, the stigma attached itself to the month on account of a custom the Romans had of celebrating in May the feast of the dead. Accordingly, as May is unpopular, June is the favorite marriage month, and the joybells will ring out merrily through the leafy, rose-scented month just budding. Nor are marriages in Lent at all common, and this is an additional reason why the ceremony is so frequently solemnized in June. Some wiseacre long ago evolved the brilliant admonition, "Marry in Lent, and you'll live to repent." There were a few, however, who dared brave the omen last month.

Lewis K. Conant will be valedictorian of the class of '95, Dedham High school, Miss Adele M. Fisher salutatorian, and Warren B. Seabury, the class prophet.

The new rooms of the Weymouth club were opened last Saturday evening. They are nicely furnished and cosy. The club has 64 members and the officers are: President, Judge James H. Flint; vice president, John E. Hunt; secretary, Frank E. Mason; treasurer, J. E. Hunt; house committee, Arthur Pratt and T. E. Mason; membership committee, D. J. Pierce, W. B. Denton, Joel F. Sheppard and George E. Bicknell.

The marriage of Miss Belle A. Smith and Mr. Norman E. Ross, is announced for this month.

The Chapin Club of Brockton have made arrangements for a trolley ride to Quincy, June 7. They will leave Brockton at 6 o'clock in the evening and will enjoy a dance at the hotel and supper before returning.

Rev. Henry S. Huntington of Milton will preach at Dedham on Sunday.

Among the late arrivals on Jerusalem road are: F. P. McCall and family in Col. Pope's cottage; Hon. George C. Crocker and family; S. S. Spaulding and family of Buffalo, N. Y.; J. E. Holmes in the Hyde Dickinson cottage; W. D. Mandell and family in Mr. Brame's cottage; Mr. and Mrs. Silas C. Dizer at the Richardson cottage; Edwin Pope and family, cottage opposite Black Rock.

Mr. Horace H. Stevens and family are at their summer residence at Hingham.

The engagement of Mr. George Inches to his cousin, Miss Annie Hasbrouck, is bringing out a host of congratulations. Miss Hasbrouck is a sister of Mrs. John Ware Denny. The wedding is announced for June 8, at Milton, at the home of Mr. Howard Hasbrouck, the bride's brother.—Globe.

Mrs. George T. Magee has returned from a brief trip to New York.

Fashionable carriages come to town almost daily. Miss Florence R. Emery was presented this week with a pony and meadowbrook.

Charles A. Howland and daughter go abroad this month.

There was a pretty home wedding at Hyde Park, Wednesday evening. Miss Edith Eleanor Foster and Mr. Henry M. Roberts being united in marriage by Rev. Perley B. Davis and Rev. Dr. Archibald. The bride was charmingly gowned in white satin with duchess lace and ribbon trimming. The maid of honor Miss Mary E. Foster, wore white muslin trimmed with satin. Mr. Poole was best man and the ushers, Mr. W. B. Foster, Mr. W. W. Poole, Mr. George Hodges, Mr. Edward Badger and Mr. Arthur Savage.

Mr. George A. Fletcher of Milton is driving a very handsome five-year old "Edgemark" colt that is a beauty.

Dr. and Mrs. Henry E. Spaulding of Hingham have issued invitations to their twenty-fifth anniversary to be celebrated this afternoon from 3 to 6.

Rev. and Mrs. Crane are visiting Mr. Crane's father, Mr. Joseph Crane of Quincy avenue, Braintree. Mr. and Mrs. Crane are from Wrentham.

BRAINTREE.

The Thayer Academy Athletic association gives its play this evening at Long's hall. The patronesses are: Mrs. J. B. Sewall, Mrs. C. A. Pitkin, Mrs. E. C. Bumpus, Mrs. Theo. King, Mrs. G. D. Willis, and Mrs. N. E. Hollis. These young men will act as ushers: Will Holbrook, Horace R. Drinkwater, Percy Harrison, Fred Allen, James Bailey and Herbert Chase.

The invitations are out for the Founder's day reception and dance to be from three till seven at the Academy hall, Wednesday, June 8.

Stevens played Whitman from the High school, Tuesday, on the Academy court and won a easy victory. Hollis defeated Stevens again last week.

The Adams Academy team next Monday on the common. A hot game. Instructor Arnold intends to hold an informal meet sometime next week to select the sprinters to train next winter.

Young Men's Christian Association.

About fifty boys enjoyed the talk, descriptive of the boys' summer camp, Wednesday evening by Mr. C. C. Hodges. Mr. Hodges had a model of the camp equipment, with maps to make the account realistic.

The illustrated prospectus of the camp is now ready and can be secured by applying at the rooms.

A large number of persons visited the rooms Memorial day, including a number of out-of-town visitors.

Plans are being made for a reception and entertainment for members and friends June 13. Among other things the wonderful sleigh-ride symphony will be given.

The third annual athletic test of the Y. M. C. A. of Massachusetts and Rhode Island will be held at Springfield Saturday, June 22, at the new Training School grounds on Massasoit lake. The contest will include the Pentathlon events: 100-yards dash, running high jump, hammer throw, pole vault and mile run. In addition to these events there will be a ten-mile bicycle road race.

Big Show Coming.

Scribner & Smith's New United Enormous shows will be at Quincy, June 4. It is bigger and grander than ever before, fully twice its former size. They will have 300 men and women, 100 thoroughbred horses, 3 bands of music, 3 golden tableaux cars, 15 gilded cages, 3 open dens of wild beasts, 8 big tents. It is without doubt the best 25 cent circus that you have had an opportunity to visit.

One of the principal features of this big show is Bazel, the giant elephant, the largest of the brute creation. Another added attraction with this enormous traveling organization is the Blessbok, an animal idolized by the Egyptians as an omen of good luck.

Don't fail to see the grand free street parade at 12 noon on day of the show.

A lady from South Boston who, with her husband was boarding, made a visit at a friend's house in Weymouth. While there she made this remark: "I do wish I could keep house but my husband earns small pay and we cannot get enough ahead to buy an outfit." The Weymouth lady replied, "just take ten dollars and go to Guy's Coliseum and he will put in an outfit. He has done it for hundreds of people and will for you—just think of it, ten dollars is all you need and the balance can be paid so easily that you will not feel it." The South Boston lady heeded the advice and was soon settled in a cosy home of her own. Go and see Mr. Guy if you want any furniture.

School marmes are in demand. Brockton will lose thirteen school teachers at the conclusion of this term, and nearly all of them are to be married.

A little girl in the Infant department was given a card with this passage of scripture on it for her lesson the next Sabbath. "Blessed are the peacemakers." The next Sunday on being asked by her teacher what her lesson was, rose from her seat and solemnly said, "Blessed are the Policemen!"

Edward Carney was fined \$7 for drunkenness at Quincy.

Eugene M. Moran of Weymouth was fined \$80 for the single sale of intoxicating liquor.

The case of Isaac Woodbury came up on continuance for drunkenness this morning, when he was fined \$5. He was also fined \$10 for overdriving a horse.

Judge Pratt rendered a verdict on the Morrison vs. Alden cruelty to animal case of Randolph. This has been one of the hardest fought cases Randolph has ever had. Many witnesses were examined and the trial occupied a good part of several days. Judge Pratt found Alden guilty and imposed a fine of \$20 from which he appealed.

I Am Glad

To tell what Hood's Sarsaparilla has done for me. I had the grip and its ill effects settled all over me. I had cramps in my legs and frequently I had to get up at night and walk to relax the muscles. I also had stomach troubles. I then took Hood's Sarsaparilla. One bottle cured the cramp, and another has helped my stomach each trouble greatly. I have taken 8 bottles and use Hood's Pills which are the best I ever took." H. A. MELVIN, Sisters, Oregon.

THE SCHOOL CENSUS.

Nearly 5000 Children Between Five and Fifteen.

TOTAL RAPIDLY INCREASING.

Three Districts Have Doubled within Ten Years.

Mr. D. V. Pierce, who has just completed the school census of Quincy, finds 4,571 children in the city, an increase of 128 since May 1894. The Centre district is the only one to show a decrease, the total being 12 less than last year.

The following summary shows the census for the years 1885, 1890, 1894 and 1895. Each district shows an increase over 1885 and 1890. In the South, West and Wollaston it has more than doubled in ten years, while Atlantic very nearly doubled. The Point district gained but 81 in ten years, while the West gained 74 and the South 604.

District.	1885.	1890.	1894.	1895.
Centre	49	485	553	541
Point	338	325	373	389
South	530	1024	1183	1214
West	693	1161	1444	1477
Wollaston	229	332	47	501
Atlantic	257	378	433	449
Total	2,416	3,603	4,443	4,571

The school census in 1885 was 20 per cent. of the population, and in 1890 nearly 22 per cent. If 4571 is 20 per cent., our present population is 23,000. If 22 per cent., our population is but 21,000. It is safe therefore to estimate the population of Quincy at from 21,000 to 23,000.

Another summary of the school census will be of interest showing the number at each age in each district. In Wollaston the five-year-olds lead; in the West the six-year-old, and in the other four districts the seven-year-olds:

Age	Centre	Point	South	West	Wollaston	Atlantic	Total
Five	55	38	140	161	65	48	510
Six	54	45	145	225	51	47	507
Seven	68	51	157	172	62	59	569
Eight	76	47	136	153	52	40	484
Nine	54	32	122	139	39	44	430
Ten	50	30	105	133	30	46	414
Eleven	41	38	100	125	47	42	383
Twelve	55	39	107	110	44	32	387
Thirteen	58	30	91	93	41	47	360
Fourteen	50	39	111	163	50	44	437
Total	541	389	1214	1477	511	449	4571

Scrofula, salt rheum, and all diseases of the blood, dyspepsia, headache, kidney and liver complaints, and catarrh are cured by Hood's Sarsaparilla, the great blood purifier.

Behring Sea Again.

LONDON, June 1.—After the Whitsuntide recess, Sir E. Gray will introduce in the House of commons a bill to provide for the prohibition of the catching of seals at certain periods in Behring sea and the adjacent parts of the Pacific ocean. The measure is based on the stipulations agreed upon at that Behring sea conference.

Plenty of Help.
BLUEFIELD, W. Va., June 1.—The four larger coal operators in West Virginia have begun mining with a good force. Most of the Virginia soldiers left Pocahontas yesterday, and the few remaining will leave in the course of 10 days. The guard force at the West Virginia mine has been increased.

Crooked Cycling.
CHICAGO, June 1.—Fred Rau, the winner of the second prize for the fastest time in the Chicago road race Thursday, was disqualified yesterday. He admitted that he did not ride over the whole course. A thorough investigation of all the leading men in the races will now be made.

Not a Marvel.
LONDON, June 1.—The Field says that certainly in light weather, and probably in a breeze, Howard Gould's new Herreshoff built yacht Niagara will not be such a terror as the Dakotah.

Lord Douglas Weds.
SAN JOSE, Cal., June 1.—Lord Sholto Douglas and Loretta Addis, the Bakersfield actress, were married yesterday by a justice of the peace, and left here for San Francisco.

I have two little grand children who are teething this hot summer weather and are troubled with bowel complaint. I gave them Chamberlain's Colic, Cholera and Diarrhoea Remedy and it acts like a charm. I earnestly recommend it for children with bowel trouble. I was myself taken with a severe attack of stomach flux, with cramps and pains in my stomach; one third of a bottle of this remedy cured me. Within twenty-four hours I was out of bed and doing my household work. Mrs. W. L. DUNAGAN, Bonanza, Hickman Co., Tenn.

—Weymouth hopes the census will show a population of 12,000 that she may become a city.
—Rufus Kendrick, who has a fine orchard in Greenwood, has spent considerable time and money in obtaining an effective and safe solution for spraying trees. Mr. Kendrick has written to various authorities and the following receipt from Amherst Agricultural college has been used with success: One teaspoonful of Paris green to two gallons of water and one tablespoonful of molasses. Stir the solution well and apply with a Johnson pump—or any kind of a pump.

Rev. E. N. Hardy has accepted the call of the Congregational church, and his letter will probably be read Sunday morning from the pulpit.

Opinions differ as to where the fire originated in the Park tenement house Tuesday morning. James Park is quite positive it did not start in his tenement as reported.

Bernard Mannley has notified the city that he has commenced a suit for damages received May 1, by being thrown from his team on Randolph avenue, owing to a defect in the street.

Charles H. Johnson, the new real estate agent, reports Memorial Day to have been a busy one with him. He had four parties looking for land at President's Hill, Houghs Neck and North Weymouth.

The Harbor and Land Commissioners gave a hearing June 4, on petitions of the Squantum Yacht club to build a pile wharf, and also to Albert J. Miller to construct a bulkhead in Quincy bay.

Rev. Edward Norton will speak at the Young Men's Christian Association rooms tomorrow at 3.30 o'clock. Subject: "The Bible's Own Answer to the question, 'What the Bible is?'"

The bowling contest over the Memorial day silver cup at the Duck's Neck, Wollaston, for the highest three-string candle pin score, was won by Mr. H. B. Sanborn, his score being 274. He was closely followed by Geo. F. Briggs, 270, H. W. Bateson, 260, and W. I. Dewson, 227. Briggs has bowled the highest single score this month, 106.

Mr. George W. Wright of Granite street, died this morning after a lingering illness of consumption. Mr. Wright was at Grand Army headquarters Memorial Day but was unable to take any part in the exercises. He was a member of the 12th Mass. Vols. Paul Rvere Post 88, G. A. R., will meet Sunday at 1.45 to attend the funeral.

The swamp in the vicinity of Green's pond, Wollaston, is again filling up, caused by the caving in of the Farrington street culvert. The water has not only backed up in the Green's pond swamp, but also in the low lands on the east side of the track. The residents on the land adjacent to the swamps fear a typhoid fever epidemic caused by this stagnant water.

Some time ago the management of the N. Y. N. H. & H. R. R. company, in response to a petition presented by Wollaston lodge, K. of H., agreed to take measures to lessen the danger from accidents at the Wollaston station. Attention is now called to this as recently there have been several narrow escapes from accidents to people crossing the tracks from trains suddenly darting out from the Beale street bridge. The road has done nothing towards lessening the danger at that station. It has been suggested that the lodge now appeal to the Railroad Commission, as at first contemplated.

In some parts of New Mexico there grows a grass which produces a somniferous effect on the animals that graze upon it. Horses, after eating this grass, in nearly all cases sleep standing, while cows and sheep almost invariably lie down. It has occasionally happened that travelers have stopped to allow horses to feed in places where the grass grew pretty thickly, and the animals have had time to eat a considerable quantity before its effects manifested themselves. In such cases horses have gone to sleep on the road, and it is hard to arouse them. The effect of the grass passes off in an hour or two, and no bad results have ever been noticed on account of it.

—The Monatquot yacht club hold a meeting this evening.

This property contains about 17½ acres of land and a large mansion, recently the residence of C. F. Adams, Esq., and is located upon President's Hill in this city, within two minutes' walk of Quincy station, N. Y., N. H. & H. R. R. By reason of its natural advantages and the liberal expenditure of its former owner, being well graded and interspersed with beautiful trees and shrubbery of many years' growth, make it one of the most desirable locations for a home of any of the many beautiful sections surrounding Boston. Wide avenues are now building—the property has been divided into lots of reasonable sizes for residential purposes, and are now for sale under proper restrictions. STRUCK FROM BEHIND.

Body of Patrick Gallagher of Providence Found In the Woods.

Had Quarreled With Wife a Few Hours Previous.

Three Young Men on Their Way Home Stumbled Over the Corpse.

PROVIDENCE, June 3.—Early Sunday morning three young men who were on their way home through a path that runs from Admiral street through the Corliss woods found the body of a man, who had evidently been struck down by a blow from behind. The body was three hours after identified as that of Patrick Gallagher of this city, a melter at the Franklin iron foundry.

The men who made the discovery were Robert Spencer, Michael Delahanty and John McCarthy. It was about 12:30 a. m. when they stumbled over the body. At first they thought it was a drunken man, and were about to shake him when they observed blood on the ground under his head. Then they hastened for a doctor. The police were notified, and the body was removed to Tanner's undertaking rooms.

The body was not identified until about 4 o'clock, when Mrs. Patrick Gallagher reported to the police of station 2 that her husband was missing. Mrs. Gallagher stated that her husband went to call on a sick friend Saturday afternoon and came home about 9 o'clock. He was angry because his supper was not ready, and started off again. Mrs. Gallagher was taken to the undertaking rooms and identified the body as that of her husband.

Ample Evidence.

Medical Examiner Palmer held a post mortem examination yesterday and found a round bruise over the right eyebrow and another under the eye. There was also a big lump back of the right ear, which had been caused by a blow. Dr. Palmer said death was due to violence. A blow had caused the rupture of a blood vessel and a clot at the base of the brain.

The police are looking for several well-known characters from the North End who attended a picnic near where the body was found. On Thursday the Foresters held a picnic there, and their tents and fixtures were used Saturday by the Bachelors' club. Gallagher attended the picnic Thursday and got into a row with several North End men. The latter also attended Saturday's picnic, but all who attended Saturday did not see Gallagher there on that day. It was learned by the police that there was a light in one tent as late as 12 o'clock Saturday night, about 20 minutes before the body of Gallagher was found.

The last time Gallagher was seen alive by his friends was about 9:30 o'clock Saturday evening, at the corner of Polk street. He had two glasses of beer a few minutes before, but all his friends state that he was not a heavy drinker. He was 35 years of age, his mouth at the time, and it was found broken about 10 feet away from where the body was found.

He leaves a widow, and a daughter, not yet 2 years old. He was 35 years of age, and had been married three years.

Probably Crazy.

GREENFIELD, Mass., June 3.—The townspeople are wondering as to the identity of a man who has been seen wandering about on Rocky mountain and in the vicinity of Bears' Den entirely nude. He was seen near the latter locality on Saturday, and Saturday night shouts and cries were heard, which are supposed to have come from him. Parties have been searching for him, but without success. He is supposed to be insane.

Thought to Be With a Hartford Man.

HARTFORD, June 3.—Mrs. Lizzie S. Tyson, wife of Frank E. Tyson of Burnside, left her home May 2 taking all her clothing, jewelry, etc. She left a note stating that she had gone for good. Their married life was happy. Tyson believes that his wife joined a Hartford business man who left a month before.

Body Found In the Woods.

ROCKLAND, Mass., June 3.—The body of Mrs. James A. Munroe of this place was found in the woods yesterday. Mrs. Munroe disappeared from her home last January while partially deranged, and no trace of her could be found, although at the time the ponds were dragged and the woods searched.

Admits His Guilt.

LYNN, June 3.—John Tasswell, 25 years old, of this city, was arrested by Swampscott on a charge of incendiarism. He confessed that he fired a barn on the Fay estate and attempted to burn a house adjoining on the night of May 22. No motive is known for the act.

Twenty Years a Bishop.

PORTLAND, June 3.—The celebration of the 20th anniversary of the consecration of Rt. Rev. Father Henry as bishop of the Catholic diocese of Maine occurred here yesterday. High mass was celebrated by the bishop, assisted by many of the clergy of this diocese.

Won't Go to Gotham.

SPRINGFIELD, June 3.—An extract from a letter from Rev. Dr. Moxom, dated at New York, says: "I have this day declined the call to the West Presbyterian church of New York city." Dr. Moxom's parishioners are much pleased at his decision to remain here.

New Evidence Promised.

PORTLAND, June 3.—June 12 has been assigned for a hearing on the motion for a new trial of James L. Welch, who was convicted of the murder of Byron G. Coburn at Gorham. Important new evidence has been promised.

Poisonous Ice Cream.

LAWRENCE, June 3.—Mrs. Buckley, her three daughters and three visitors were poisoned yesterday by eating ice cream of the home-made variety. It required two hours of the hardest work before they were out of danger.

Drowned in Greenwich Bay.

PROVIDENCE, June 3.—William Dott and his son, Victor, aged 21, were drowned in Greenwich bay. The boat was upset in a thunder squall. Herman Miller and John Bomille were rescued in an exhausted condition.

Lawrence Girls Drowned.

LAWRENCE, June 3.—Nellie Reardon and Alice Rowan, each aged about 15 years, were returning from Glen Forest in a row boat with John Guilfoyle. One of the girls attempted to change seats with Guilfoyle and the boat was overturned. All three were thrown into the water. Miss Rowan sank almost immediately. Guilfoyle tried to save Miss Reardon, but was unsuccessful. Guilfoyle was rescued by a man in a passing boat. The drowned girls were spinners.

Robbed His Employers.

PROVIDENCE, June 3.—John H. McPherson, a night employee of the Gorham Manufacturing company, is under arrest for systematically stealing melted gold and silver. He has acknowledged his guilt.

Y. M. C. A. Building Dedicated.

AMESBURY, Mass., June 3.—The new building of the Y. M. C. A., completed at a cost of \$30,000, was dedicated yesterday. Addresses were made by A. S. Roe and State Secretary Armstrong.

Will Cost \$20,000.

BOSTON, June 3.—It has been decided to make permanent repairs to the steamer Sagamore at this port. The work will occupy about a week and will cost \$20,000.

Burns Caused Death.

SANFORD, Me., June 3.—The 4-year-old daughter of Benjamin Ramsdell fell upon a heap of live coals and was so badly burned that she died shortly afterward.

Fell From Launch.

BOSTON, June 3.—George Beslandes, 35 years old, fell from a steam launch in the Charles river last night and was drowned.

No Guilty.

NORWICH, June 3.—Eli Raeloot, charged with killing Henry Hervieux, was acquitted by the jury.

AN ERA OF PROSPERITY

Has Superseded the Gloomy Forebodings of War in Nicaragua.

Timely Evacuation of Corinto by the British

Was the Means of Avoiding a Still Further Complicated Row.

WASHINGTON, June 3.—Special correspondence from Managua, under date of May 18, gives the following information: Mercantile and all other kinds of business in Nicaragua appear to have revived to their former activity since the evacuation of the island of Corinto by the British, and many of the soldiers, volunteers and enlisted men in Nicaragua's army for defense against a British advance into her territory have returned to their usual occupations.

The government, however, is actively preparing to submit to arbitration all questions at issue between Nicaragua and Great Britain that have arisen out of Nicaragua's successful efforts in 1893 and 1894 to maintain her sovereignty over the Mosquito reservation.

It is claimed by the irritated people here that Admiral Stephenson and several of his officers, when at Corinto, on April 23, just before they took armed possession of that port and island, publicly declared to many persons, among whom was W. T. Thistle, a United States citizen and the agent for the Pacific Mail Steamship company, that the "Monroe doctrine," so often referred to in the United States press and by that people, is a myth that the United States would not and could not, if they desired, enforce," and it is added that the British officers asserted that the occupation of Corinto was intended to test the question. It should be noted in conclusion, however, that it has been denied that there was any truth in the story that the British officers made such statements.

A Narrow Escape.

It is known that if the British had occupied Corinto a little longer than they did, they would have been able to capture a British steamer, the Deby, which arrived there on May 18, loaded with a full supply of modern and improved field artillery, rifles, equipments and ammunition for about 5000 officers and soldiers of the Nicaraguan army, and Admiral Stephenson would thus have been able to collect the \$15,000 claimed by Great Britain as an indemnity from Nicaragua without any difficulty.

It is considered more than likely that Admiral Stephenson would have seized and detained the Deby until the indemnity was paid, and therefore there is a great deal of rejoicing here at its escape, for it would have made an admirable substitute for the port and customs dues of Corinto, which the British admiral was prevented from collecting by the fact that the Nicaraguan government declared the port closed shortly after it was occupied by the British.

Nobody here doubts that had the British admiral captured this supply of war material and satisfied Great Britain's claim against Nicaragua by its sale, that the act would have so thoroughly humiliated the present government of Nicaragua as to have caused its overthrow, at once, by a revolution among the people. It is not doubted that Admiral Stephenson could have taken possession of the Deby's cargo, in spite of the fact that the steamer was under the British flag, as the war material was purchased in Germany, in 1894, by the present government of Nicaragua.

People here insist that Great Britain was desirous of obtaining a "cooling station" on the island of Corinto and another "cooling station" on Corn Island, near the Atlantic entrance to the proposed interoceanic canal through Nicaragua, and thus Great Britain would have been able to control both entrances of the proposed canal.

Three Perished.

HALIFAX, June 3.—Brig Reeper, bound by Bay Chaleur from Jersey, with salt and general cargo, was lost near Channel, N. F., during a dense fog. The chief officer and three seamen were saved. Captain Gibb, two seamen and a passenger were drowned. Nothing whatever was saved.

Sold For McKinley.

YOUNGSTOWN, O., June 3.—Judge Lewis W. King, who belongs to the Foraker faction in this state, states that the Ohio delegation to the national Republican convention will be sold for McKinley for the presidency. He says there is no quarrel between McKinley and Foraker.

As Usual.

CONSTANTINOPLE, June 3.—The sultan has expressed to the English, French and Russian ambassadors here his profound regret at the Jeddah outrage, and says that the offenders will be punished. It is feared that it will be difficult to discover the real offenders.

No Robbery.

LEADVILLE, June 3.—The sensational report of the wrecking by thieves of a train on the Denver and Rio Grande railroad, near Buena Vista, for the purpose of robbing the passengers, was untrue, the only basis for it being a slight accident to the train.

Labour Turmoil at Buffalo.

BUFFALO, June 3.—The union plumbers, gas and steam fitters of this city, to the number of about 800, struck today. The men are receiving \$2.50 to \$2.75 a day for nine hours' work. They want \$3 a day and eight hours to constitute a day's labor.

Consul Ballard Dead.

WASHINGTON, June 3.—The state department is informed of the death of W. J. Ballard, United States consul at Hull, Eng. No particulars were given in the dispatch announcing the death. The vice consul took charge of the office.

Leyden Called Upon.

BERLIN, June 3.—The dowager empress of Russia has summoned Professor Leyden, the eminent specialist on pulmonary complaints, to examine her son, Grand Duke George, the czar's nephew.

Penniman & Sons are making extensive alterations to their stable on Washington street, made necessary by their increasing business. An addition has been built on the back of the building and here the stalls have been located the room being unusually well ventilated. A new carriage house, wash room and office will also be finished off and when completed it will be one of the finest appointed stables in the city. A large stable like this, however, should never be located in a thickly settled residential part of our city.

THE OPENING RACE.

The New Swirl an Easy Winner Saturday.

CLOSE CONTEST IN THE FIRST.

No Third Class Boats Were Entered in the Contest.

The opening race of the Quincy Yacht club was sailed Saturday afternoon. While not as many boats entered as desired, the race was an interesting one, especially in the second class, as ex-Commodore Faxon was on hand with the new Swirl and Councilman Rice with his new boat Kayoshk, while Mr. Barker showed up smiling in the prize winner Opeechee. The light wind prevented good racing.

The preparatory gun was fired at 3.30 and five minutes later the first class got under way, the Gleaner, Moondyne and Adolph crossing the line in the order given. The last mentioned steadily gained on the Moondyne and passed her on the run to Wreck buoy, after which the Moondyne withdrew. The Adolph then closed up on the Gleaner and finished but about 30 seconds astern, and she may get the race on time allowance, when the boats are measured and the correct time is known. This class did not finish until within a few minutes of the time limit.

At 3.40 the second class got away, the Kayoshk crossing first with the Swirl a good second, and the Opeechee third. On the run out the Opeechee gained the lead and upon rounding Jack-knife buoy the first time round had a lead of 15 seconds over the Swirl, but on the run to the stake boat she fell rapidly behind, and upon crossing the line the first time was over three minutes behind the Swirl, which also lead the Kayoshk 37 seconds.

On the run to Sheep island the Opeechee gained some but lost it again on the run from Sheep island to Jack-knife while the Swirl continued to increase her lead. After rounding Jack-knife for the final run home a little puff of wind from the south-west sprung up and the skipper of the Kayoshk found his rudder much too small and he was unable to steer her and she fell behind crossing the line last.

Although Captain Barker was beaten by the Swirl he smiled inwardly to himself at the thoughts of how he might whollop the Swirl with his new cape boat which will arrive early in July and then it is that an interesting race may be looked for.

None of the third class boats appeared and consequently there was no race in that class.

The prizes were \$7 and \$3 in each class and a leg in the championship cups offered by John W. Sanborn.

The judges were James S. Whiting, George G. Saville and Harrison A. Keith. Many ladies watched the race from the club house piazzas.

The summary:

A certain parcel of land with the buildings thereon, situated in that part of Quincy known as Wollaston Park, being lot No. 173 on plan of Charles E. Miller, dated April, 1890, and recorded with Norfolk Deeds, book on plan No. 13, page 566, and bounded and described as follows: Northwest by Elm avenue, 52.5 feet, more or less, partly in a curved line; northeasterly by Willow street, 120 feet, more or less, partly in a curved line, southeasterly, 52.5 feet, by a part of lot No. 174; southwesterly 120 feet, by No. Lot 172. Containing according to said plan, 5,399 square feet of land. Meaning to convey said lot with the curve existing in it as delineated upon said plan at the corner of said Willow street and Elm avenue with said corner is to remain a curved line as shown upon said plan. Being the same premises conveyed to me by Josiah P. Quincy and Josiah Quincy, trustees, by their deed dated May 29, 1891, recorded with said deeds, libro 655, folio 318, and subject to the restrictions therein recited. Will be sold subject to all unpaid taxes.

Terms to be announced at sale.

FATAL DOMESTIC ROW.

Aged John Cuniff Was Not on Good Terms With His Daughter.

Husband Finally Compelled to Take a Hand.

As a Result He is Now Locked Up on a Charge of Murder.

BOSTON, June 4.—John Cuniff, 65 years old, was killed during a family quarrel at his home, 17 Clifton street, Roxbury district, about 7:30 o'clock last night. His son-in-law, William D. Ricker, is locked up charged with murder, and his wife and her brother, John Cuniff, are held as witnesses.

John Cuniff, the victim, boarded at 17 Clifton street with his son-in-law, Ricker. The family have had frequent quarrels, and Sunday night the police were called in to quell a disturbance between Cuniff and his daughter. The woman was badly used up at the time, one of her eyes having been closed and her face cut.

Yesterday morning the Rickers ordered Cuniff out of the house, and his daughter went to station 9 and had a warrant sworn out, charging him with assault and battery. Cuniff also called at station 9 and asked for a warrant for the arrest of his daughter, but it was not granted.

About supper time, Cuniff called at the house of his son, Peter Cuniff, 101 Cabot street, and said he wanted him to accompany him home, as he expected trouble. They

Were Refused Admittance by Ricker and his wife, and the Cuniffs forced an entrance. A row immediately started, and the elder Cuniff began an assault on Ricker on the second floor.

Ricker's wife Mary had joined in and attempted to stop her brother Peter from taking part. The furniture was smashed and dishes broken in the melee.

Finally, the elder Ricker and Cuniff reached the stairway, where Cuniff threw his son-in-law. At this point it is supposed Ricker plunged the blade of a pocketknife he held in his hand into the back of his father-in-law. The latter reared his head and staggered toward the front door, blood pouring from the wound in streams. Ricker endeavored to stop the flow, and led Cuniff to the sidewalk.

Neighbors notified Drs. Finn and Murphy, and when they reached the scene, about 20 minutes after the stabbing, Cuniff was breathing his last.

The younger Cuniff threatened Ricker, and the latter made his escape, but was captured. He admitted that the knife found on him, and which was covered with blood, was his, and said: "If I did it, I did it with that knife and in self-defense."

Ricker's two children, a boy aged 7 and a girl 8 years old, were witnesses of the row. The little girl's dress was covered with blood from Cuniff's wound.

Ricker is a carpenter by trade, and weighs 220 pounds. It was found that Cuniff's jugular vein had been severed.

On Beacon Hill.

BOSTON, June 4.—In the senate, after a sharp fight for reconsideration of reference to the next general court of the Fairhaven ferry bill, reconsideration was carried—16 to 14. The vote coming again on the main question, it was again referred to the next general court—17 to 15.

The house, by a vote of 175 to 25, passed the veterans' preference bill over Governor Greenhalge's veto. Now the matter lies with the senate, and no one knows what this branch will do. The governor's veto of the bill increasing the salary of Insurance Commissioner Merrill did not cause any surprise in either branch of the legislature.

No Compromise.

PROVIDENCE, June 4.—The employees of the Atlantic mills express themselves as satisfied with the situation, and state that they consider the strike as only begun and fear it will last all summer. Of all the Olneyville weavers not more than 2 per cent returned to work yesterday when the gates were opened. Out of 800 operatives in Olneyville, less than 200 are at work.

At a meeting of the Textile union it was voted to continue the demand for an increase of wages. A suggestion of a compromise was dismissed without discussion.

Little Girl Assaulted.

BOSTON, June 4.—While a patrolman was passing the Fitchburg railroad yards in Charlestown late evening he was attracted by cries and screams. He found Hattie A. Stowell, aged 12 years. Her clothing was torn in shreds. She said she had been enticed into the yards by a man and when she entered he had gagged and assaulted her. Thomas C. Costello, aged 34, an inmate of the Malden almshouse, was arrested on suspicion. The little girl identified him. She is in a critical condition.

Forgetful Court.

WILLIMANTIC, June 4.—The trial of the case of the state of Connecticut vs. School Fund Commissioner Olney of Hartford, for the alleged misappropriation of \$50,000 of state funds, which was to have been held here today, has been postponed on account of the failure of the superior court to appoint one of their number to try the case. The case will not be tried now until September next.

Pupils Prostrated.

PITTSFIELD, June 4.—During a heavy shower, lightning struck the public school building on School street, Lenox. Several pupils were prostrated, the building was set on fire and a panic among the children was averted by the coolness of the teachers. The fire was extinguished before much damage was done. None of the pupils were severely injured.

Clark Out of It.

NEW HAVEN, June 4.—The deal by

which W. H. Clark, the multi-millionaire of Montana, was to take a controlling interest in the big plant of Wallace & Sons in Ansonia has fallen through. Mr. Clark withdrew absolutely from the negotiations. Thomas Wallace says that Mr. Clark withdrew over a matter of minor detail.

Given Due Notice.

BIDDEFORD, June 4.—The liquor dealers here, who have been enjoying comparative freedom of late, were notified last night to close their saloons. Deputy Sheriff Small of Saco, who recently had a falling out with the party leaders, is to start on the warpath at once.

Practically a Life Sentence.

SALEM, June 4.—J. L. Johnson was yesterday charged with breaking and entering in the night time, being armed with a dangerous weapon, the house of Jacob T. Crosby at Merriam on Aug. 17, 1894, and he was sentenced to serve 12 years in state prison, in addition to a former sentence of 20 years imposed for killing Henry T. Crosby at the same time. This is the same sentence as that pronounced upon F. C. Hunt, his pal, Frank Little, another accomplice, having turned state evidence, was allowed his liberty on his own recognizance.

No Clue to Murderers.

PROVIDENCE, June 4.—The identity of the murderers (for it is thought there were at least two of them) of Patrick Gallagher remains a mystery. A short piece of galvanized iron piping and a rusty iron chain were found within a few feet of where the body lay. These are the probable weapons with which Gallagher was killed.

American Won.

BOSTON, June 4.—At the Suffolk Athletic club last night, Leslie Pearce of Philadelphia was given a decision over Stanton Abbott of England at the end of a 26 round contest. The contest was clean and scientific and was hard fought throughout. Both men were in excellent condition at 135 pounds.

Destructive Hail.

SOUTHINGTON, Conn., June 4.—A hail storm prevailed yesterday afternoon smashing hundreds of windows, besides destroying all the glass in a local greenhouse. L. F. Southwith picked up a hail stone five inches in diameter. The station at Plainville was struck by lightning.

Big Drop Noted.

AUGUSTA, June 4.—Maine's loan and building associations have fallen off in capital dues during the past six months \$100,000. This is a matter of surprise to the state assessors, as the returns of the last six months of 1894 showed a substantial increase in the investments.

Cordage Company Insolvent.

BOSTON, June 4.—The United States Cordage company has gone into insolvency, and yesterday Judge Court appointed John S. Waterbury and William E. Strong as receivers on request of the counsel of E. R. Morse, the latter being a stockholder.

They Can't Agree.

MILFORD, Mass., June 4.—John Connelly was arrested yesterday on a complaint of his wife for going about with a revolver and making threats to shoot her. Connelly and his wife have had trouble and at present are not living together.

For Killing Lattimer.

LYNN, June 4.—The trial of Annie A. M. Brewer, charged with manslaughter in shooting Gideon W. Lattimer last December at her home, where he called to break off an engagement to marry her, was begun yesterday.

Not Dealing in Railway Bonds.

WATERVILLE, Me., June 4.—This city, by a vote of 533 to 44, defeated the proposition to guarantee for 10 years the 5 per cent interest on \$50,000 worth of bonds of the proposed Waterville and Wiscasset railroad.

All Republicans.

NORWICH, June 4.—The election of a city government resulted in a clean victory for the Republican candidates by a uniform plurality of about 400 votes.

Old Man Wants to Die.

POCASSETT, Mass., June 4.—Oliver Wing, station agent here, cut his throat yesterday. He will probably die. He is about 70 years old.

New England Briefs.

The Biddeford school board re-elected Royal E. Gould superintendent of schools for a term of five years.

The Plainville (Conn.) railroad depot was struck by lightning and two men were prostrated by the shock.

Professor Edwin V. Morgan of Harvard has accepted the chair of history in Adelbert college of Western Reserve university.

The bodies of Nellie Reardon and Alice Rowan, the victims of Sunday night's drowning accident at Lawrence, were found.

A Lynn man arrested on a charge of drunkenness was locked up in the police station all night while suffering from a broken shoulder.

The Gargoyles, the new senior society at Williams college, held its initiation, and 20 juniors who were elected Memorial day were taken into membership.

Eugene Gates, aged 45, a farmer of West Leyden, Mass., was thrown under the wheels of his heavy wagon, and they inflicted injuries from which he died.

Joseph Langdon, aged 84 years, died at Hartford as the result of being knocked down by a trolley car. He was a dry goods merchant in Hartford for 54 years.

Water Bill Passed.

The Metropolitan Water bill came up in the Senate Monday. An amendment submitting the bill to the voters of the district for acceptance was defeated as was also an amendment providing that the citizens of Boston shall have a chance to vote on the question whether or not it should take water from Nashua river at a cost of \$27,000,000. The bill was then passed to be engrossed.

More Water Wanted.
Mayor Hodges forwarded a communication of the Water Commissioners as to the inadequacy of our water supply, and urging that immediate action be taken. This was referred without debate to the Committee on Water Supply.

Chairman Pattee of the Water Board followed this up with a communication enclosing the estimate of Engineer Tidd as to the cost of new reservoirs to enlarge our present water supply. He estimated the cost and capacity of new reservoirs as follows:

Basin No. 2, to take the overflow of present reservoir, capacity 320,000 gallons per day, cost \$54,894.
Basin No. 1, near present reservoir, to be fed from the Blue Hill river, capacity 3,800,000 gallons per day, cost \$223,390.
Basin No. 3, on Blue Hill river, dam located above outlet at Braintree Great Pond, capacity 965,000 gallons per day including water from Ponkapog pond; cost \$410,206.
Total daily capacity 6,105,000 gallons; cost \$888,280, exclusive of land and damages.
Councilman Adams moved to suspend rules that the matter might be considered now.
Councilman Bigelow opposed and favored reference to committee.
The motion to suspend was lost, 12 to 10, not the necessary two-thirds.
Councilman Bigelow then moved to refer.
Councilman Adams opposed saying the whole Council should have light.
Councilman Bigelow favored full investigation, and expected the committee would give a public hearing.
Councilman Rice and Bryant favored suspension of rules, and Councilman Bigelow withdrew his motion, and upon his motion it was voted to give a public hearing at this time.
Miller Stille.
The advertised public hearing on the closing of Miller stite interrupted at this point, but no one desired to be heard, and the hearing was promptly closed and the order recommitted.
Water Again.
Councilman Bryant desired the presence of Superintendent Cavanagh of the water works, and the messenger summoned him.
Commissioner Pattee
Believed it a necessity to enter the Metropolitan system, and do it now before plans are perfected. Otherwise the 48-inch pipe to Milton and 36-inch to Third Hill, Quincy, would not be laid. It would cost \$5,000, \$10,000 or \$15,000 more to enter system later. Quincy will be short of water in September or October. Something must be done right away. Our supply was inadequate.
To Councilman Geary, he understood Blue Hill supply would last until 1920.
Ex-Commissioner Whitman
Said Quincy was practically without a supply of water this year if it was a dry season. No question but an adequate supply can be obtained at Blue Hill, but was question as to cost. To Engineer Tidd's figures must be added land damages, water rights, conduits, more machinery, etc. From the Metropolitan assessment of \$22,000 a saving of about \$39,000 for maintenance of pumping station could be effected.
Councilman Bryant got Mr. Whitman to say that Basin No. 2, with additional capacity of 320,000 gallons per day might last ten years.
To Councilman Bigelow he said as much water went to waste over the dam as was used.
To Councilman Phillips he admitted there was a large leakage, perhaps 250,000 gallons per day.
To Councilman Bigelow he didn't remember testifying that Blue Hill supply would last forty years.
To Councilman Shackley—Couldn't store only about so much water from a certain area.
To Councilman Bigelow he acknowledged after awhile that a trench could be

WATER REIGNED.

The City Council Devotes Another Evening to

THE METROPOLITAN SYSTEM.

And Other Means of Increasing the Supply of Water.

Those present at the meeting of the City Council Monday evening were carried back to the old town meeting days and its discussions. One heard from many of the same orators and there were flings at the "wisdom corner." All the Councilmen were present, and also Mayor Hodges and most of the department officials, and for nearly four hours water was the theme, in the discussion of which all citizens were invited to participate. All the speakers were cross-examined at length and in very many cases their arguments did not hold water. When all had been said it was too late to take any action, and it was laid upon the table. The plans for the new schoolhouses were also heard from and an order was given one reading without discussion. There was some other business, which is all reported below.

More Water Wanted.
Mayor Hodges forwarded a communication of the Water Commissioners as to the inadequacy of our water supply, and urging that immediate action be taken. This was referred without debate to the Committee on Water Supply.

Chairman Pattee of the Water Board followed this up with a communication enclosing the estimate of Engineer Tidd as to the cost of new reservoirs to enlarge our present water supply. He estimated the cost and capacity of new reservoirs as follows:

Basin No. 2, to take the overflow of present reservoir, capacity 320,000 gallons per day, cost \$54,894.
Basin No. 1, near present reservoir, to be fed from the Blue Hill river, capacity 3,800,000 gallons per day, cost \$223,390.
Basin No. 3, on Blue Hill river, dam located above outlet at Braintree Great Pond, capacity 965,000 gallons per day including water from Ponkapog pond; cost \$410,206.
Total daily capacity 6,105,000 gallons; cost \$888,280, exclusive of land and damages.
Councilman Adams moved to suspend rules that the matter might be considered now.
Councilman Bigelow opposed and favored reference to committee.
The motion to suspend was lost, 12 to 10, not the necessary two-thirds.
Councilman Bigelow then moved to refer.
Councilman Adams opposed saying the whole Council should have light.
Councilman Bigelow favored full investigation, and expected the committee would give a public hearing.
Councilman Rice and Bryant favored suspension of rules, and Councilman Bigelow withdrew his motion, and upon his motion it was voted to give a public hearing at this time.
Miller Stille.
The advertised public hearing on the closing of Miller stite interrupted at this point, but no one desired to be heard, and the hearing was promptly closed and the order recommitted.
Water Again.
Councilman Bryant desired the presence of Superintendent Cavanagh of the water works, and the messenger summoned him.
Commissioner Pattee
Believed it a necessity to enter the Metropolitan system, and do it now before plans are perfected. Otherwise the 48-inch pipe to Milton and 36-inch to Third Hill, Quincy, would not be laid. It would cost \$5,000, \$10,000 or \$15,000 more to enter system later. Quincy will be short of water in September or October. Something must be done right away. Our supply was inadequate.
To Councilman Geary, he understood Blue Hill supply would last until 1920.
Ex-Commissioner Whitman
Said Quincy was practically without a supply of water this year if it was a dry season. No question but an adequate supply can be obtained at Blue Hill, but was question as to cost. To Engineer Tidd's figures must be added land damages, water rights, conduits, more machinery, etc. From the Metropolitan assessment of \$22,000 a saving of about \$39,000 for maintenance of pumping station could be effected.
Councilman Bryant got Mr. Whitman to say that Basin No. 2, with additional capacity of 320,000 gallons per day might last ten years.
To Councilman Bigelow he said as much water went to waste over the dam as was used.
To Councilman Phillips he admitted there was a large leakage, perhaps 250,000 gallons per day.
To Councilman Bigelow he didn't remember testifying that Blue Hill supply would last forty years.
To Councilman Shackley—Couldn't store only about so much water from a certain area.
To Councilman Bigelow he acknowledged after awhile that a trench could be

Water Bill Passed.

The Metropolitan Water bill came up in the Senate Monday. An amendment submitting the bill to the voters of the district for acceptance was defeated as was also an amendment providing that the citizens of Boston shall have a chance to vote on the question whether or not it should take water from Nashua river at a cost of \$27,000,000. The bill was then passed to be engrossed.

WATER REIGNED.

[Continued from second page.]

dig in an emergency to bring in Blue Hill water for nominal sum.

Engineer Tidd

Was asked about leakage and testified that water passed all dams. Surplus of present supply was 320,000 gallons per day which could be stored. This increased supply might last five years. Quality figured in supply, and therefore all the water could not be drawn. Bottom of new reservoir should be cleared. Present reservoir only partly cleared.

To Councilman Bigelow—Reservoir could not be constructed at Blue Hill as cheaply as the present one was built.

To Councilman Bryant—Didn't remember testifying for Water Company that present supply would last until 1905. Didn't think there was sufficient water among Blue Hills to last 50 years. Thought Blue Hill supply would equal Metropolitan in purity.

Henry H. Faxon

Would as lief die of a water famine as taxation. It would be disastrous to Quincy to enter Metropolitan system. Believed city would lose in population if extravagance continued. The pipes should have been extended to Houghs Neck. Will never pay.

Superintendent Cavanagh.

Councilman Spear asked the superintendent why he advocated extension to Houghs Neck if water famine was on, and he replied that he believed in making all the extensions that would pay a certain revenue.

To Mr. Faxon, Mr. Cavanagh said there were 400 cottages at Houghs Neck and it was reasonable to suppose they would take water. Quincy used about 100,000 gallons per day more in summer than winter.

To Councilman Bigelow—Believed supply ample to supply Houghs Neck.

To Councilman Nickerson—It had not been determined what should be charged at Houghs Neck. Would not be less than \$5.

To Councilman Adams—Thought extensions could now be made which would return six per cent without any increase in population.

To Councilman Spear he admitted that Chairman Patten of the board was extravagant in saying a water famine was probable this year.

To Councilman Bryant—Last year was a very dry year; dryer than for five or more years. Would not say whether he considered the supply ample for this year; depended on rain.

To Mr. Faxon—Couldn't estimate supply needed for Houghs Neck.

When Councilman Bigelow expressed surprise, the Superintendent said he believed one-half the houses would take water.

W. B. Rice

Spoke earnestly in favor of entering the Metropolitan system. We are a part of the Metropolitan district. He was afraid of taxes if they didn't return a revenue. Economy was often the rankest extravagance. The State had employed the best engineers and expended \$40,000 in investigating all the best sources in New England. That of the Nashua river was the best in quality, and nothing is satisfactory but the best. Cost of maintenance for district would be reduced one-half under Metropolitan system. As apportionment was made every five years the rights of the people would be protected. Should estimate 100 gallons per head per day as a safe supply. Eventually we must enter Metropolitan system, and it was better to go in the ground floor. Water commissioners of Quincy should postpone building reservoir on Third Hill if possible for it was included in the Metropolitan system. We should look ahead 30 years. Would have been more economical to have put in Metropolitan system 30 years ago. He urged Council to investigate fully.

To Councilman Bigelow he said it would certainly cost more to enter 20 years hence.

Councilman Bigelow

Spoke vigorously against the Metropolitan system. He claimed the amount Quincy would be assessed was not known. Quincy have told us about the little nuisances around our present supply, but not how much it was going to cost to abolish the tanneries on the Nashua river, or to clean out its backbones.

Ex-Councilman Pinkham

Reviewed the introduction of water, spoke of the poor quality, and queried why should not Houghs Neck have water? We should vote to get into Metropolitan system as soon as we can. We want clear water.

Henry H. Faxon

Said he did look into the future. With his large real estate interests he should be the last man to oppose improvements. More houses now to let in Quincy than even before. Rents were decreasing. I have over 200 tenants.

Ex-Mayor Porter

A member of the State Board of Health, spoke as a citizen with inside knowledge. The bill gave the board the authority to clean out all tanneries, mills, etc. He reviewed the Metropolitan system. The Nashua river supply would last until 1900 and could be supplemented by supply from other rivers. It was purely an economical question. The Blue Hill river supply would last only until 1921, and would cost \$500,000. Interest would swell the amount so that the total would be \$125,000 in excess of cost of Metropolitan assessment. It should be remembered that the water was furnished free, the city extending mains in its own territory at pleasure. As it would not be necessary to pump water a saving of about \$250,000 would be effected

Reports of Less Damage by Frost Than Was Generally Anticipated.

Boston, June 4.—The following weather-crop bulletin for the week ending June 3 is issued by the New England weather bureau:

A very beneficial rain fell on the 27th or 28th over most of the central and western part of New England, soaking the ground up well and putting a new color on most crops. Occasional local showers have prevailed also during the middle and last of the week, and field crops and grass are starting along fast and growing finely, except where the showers missed a section.

The first part of the week was quite cool, but the last part, up to Monday, has been far warmer than the normal; it has given most sections one of the hottest spells on record for this season. A heavy thunder storm, accompanied by severe wind and rain and hail, caused considerable damage in New Hampshire on the 3d.

More Rain Needed.

Moderate to heavy showers occurred in south central Maine on the night of the 30th, and there crops are growing fast and grass is looking as well as can be expected. But in the greater part of this state there has been either no rain during the week or only a light sprinkle, and more moisture is badly needed. In Cumberland county, especially, grass is suffering and feed getting short. One correspondent from a county reports that the fields contain only one-third less grass than is usual at this season.

There has been comparatively little complaint of failure of seeds to sprout, and the plants look comparatively healthy, but in most sections they have grown very slowly during the past week. There is considerable planting yet to be done in all sections. The outlook for apples is not very encouraging. One correspondent from Androscoggin county states that apples are looking badly; another from Penobscot county thinks the crop will be very light, and another in Lincoln says that the prospect for apples is poor. The weather bureau observer at Eastport reports the total rainfall for May to be the smallest on record for this month in 10 years. It was only 1.29 inches, which is only 38 per cent of the normal.

Dry In New Hampshire.

Planting is being fast completed in New Hampshire, and hoeing has begun on early land. Most crops have sprouted well and are coming up evenly, except in the southeastern part of the state, where the ground on high land is dry to the depth of six to eight inches, and seeds lately put in have not sprouted at all. Over one inch of rain fell in showers on the 31st in southern central New Hampshire, and although the extremely warm weather of the last of the week has dried this up fast, still it worked great good to crops, and crop growth much improved here; generally, however, much more rain is needed in the next two weeks to insure a full hay crop. In parts of Merrimack county the present indications are for nearly a failure in the apple crop.

Crops Doing Well.

In southern Windham county grass is feeling the effects of dry weather and late frosts, but throughout the greater part of Vermont abundant rain has been during the week, and grass has improved wonderfully, while with the warm weather following the rains, all field crops are coming up quickly and growing very fast. One correspondent from Chittenden county says that for nearly 48 hours on the 1st of the week there was no rain, and the soil was so dry that it was never so dry in the spring. One in Addison county says he never saw the surface of the country looking better. The wild berry bushes are blossoming quite well. Large fruit, growing in abundance, and are very promising. One correspondent in Orange county reports a very early start in strawberries. The early blossoms escaped the frost, and adds that he has raised strawberries for over 25 years, and this is the first time he has ever found ripe ones in May. Canker worms are doing a great deal of damage to orchards in all eastern sections.

Good Growth Reported.

The weather for the week has been very favorable in this state and most crops have made good growth. Light showers have fallen, and the temperature of the last part of the week has been considerably above the normal. Apples are looking well. Some potatoes rotted in the ground in Washington county and the ground has been replanted. Some corn is still being planted, but most early crops are up and hoeing has begun. Grass is reported to be very light in Providence county.

Grass Is Thin.

All field crops appear to be doing well in Connecticut, but grass needs more rain for its proper development. It is running up thin and coming to maturity very fast. Considerable rain fell on the 27th, especially in the western part of the state, and several light showers have come to most places since that date, but with the hot sun and drying winds the top of the ground is getting very dry again everywhere. Corn is not yet all planted, though most of the early crops are up and hoeing has begun. The fruit prospects grow better and more encouraging, as it is found there is less damage from frost than was at first feared. Tobacco setting has begun, but the plants have to be watered. In the vicinity of Greenfield Hill, in Fairfield county, onions are reported thin and much damage being done by cut worms.

A RECKLESS MILKMAN

Held Responsible for the Typhoid Epidemic at Stamford.

Manslaughter Charge Preferred Against Him.

Twenty-One Deaths Out of Four Hundred Cases of Typhoid Fever.

STAMFORD, Conn., June 5.—The typhoid fever scare, which attracted the attention of the public a month or more since, has taken on a sensational phase in the arrest of Henry J. Blackham, the much-berated milkman.

A great deal of feeling has been expressed against Blackham since the local and state boards of health announced that they had traced the origin of the epidemic to his dairy, where his milk cans had been washed in water drawn from an infected well.

The pulp, too, took the matter up, and one minister suggested that Blackham should be tarred and feathered and then ridden out of town on a rail.

There was talk of criminal proceedings, but no move was made until yesterday, when a warrant was served on Blackham, charging him with manslaughter.

The complaint is that Blackham recklessly used water from a well containing the germs of typhoid fever to wash his cans, and that he sold milk in which poisonous substances were contained in solution.

The prosecuting attorney says that he has looked up the authorities in every way connected with such a case and is confident that he can secure a prompt conviction.

Blackham is in jail and will doubtless remain there, since it will be extremely difficult for him to secure a bondsman in or about Stamford. He takes his arrest coolly.

During the epidemic there were 400 cases of fever, and 21 persons died from it.

On Beacon Hill.

BOSTON, June 4.—When the veterans' preference bill was reached in the senate it was passed over the governor's veto and became a law—28 to 7. The governor sent in two vetoes, one of the act to increase the salary of the district attorney for the southeastern district, the other of the act to increase the salary of the justice of the second district court of eastern Middlesex. The house, in the case of the former, refused to pass the bill over the veto—18 to 17—and in the case of the latter—38 to 139. The house sustained the veto of the salary bill of Insurance Commissioner Merrill. The vote was 77 to 89.

Strikers Going Back.

PROVIDENCE, June 5.—The manufacturers report big gains in their working forces at the Olneyville mills. At the Atlantic mills 800 of the 950 operatives are at work. At the Riverside mill 132 more have gone in, making a total of 854. In this mill it is reported that the force is so well balanced that all departments are running. In the mills of the Fletcher combination the gain is 150 over Monday. Other mills have made smaller gains.

Mrs. Howe at the Head.

NEWTON, June 5.—About 700 representative women from all sections of the state assembled here yesterday at the annual meeting of the Massachusetts Federation of Women's clubs. Mrs. Julia Ward Howe presided over the meeting. The secretary reported an increase from 56 to 55 clubs during the past year, with a total individual membership of about 8000. Mrs. Julia Ward Howe was elected president.

Claims \$10,000 Damages.

PROVIDENCE, June 5.—Sheriff Ham arrested Patrick C. Kellet, a tea merchant, yesterday, at the instigation of Edward Eliason of New York, who sues to recover \$10,000 damages for alleged false imprisonment. Kellet had Eliason arrested for debt after he had taken the poor debtor's oath a short time ago, but he was quickly released on a writ of habeas corpus, the court finding that the arrest was illegal.

Suits in Order.

EXETER, June 5.—The Squamscott National bank of Exeter has demanded payment of \$500 on a No. 8 bond of the town of Newton. Town Treasurer Axtell refuses to pay, claiming it a forgery. N. K. Johnson of Haverhill also demands payment for another No. 8 bond for \$500, which Newton officials also say is forged, and refuse to pay. Suits against the town of Newton are expected.

The Providence Mystery.

PROVIDENCE, June 5.—New evidence leads to the supposition that Patrick Gallagher was waylaid and killed, and his body dragged some distance and placed along the path where found. Gallagher's coat indicates this, and there being no dust on his trousers, would make it appear that he was dragged by the legs.

Fish Figures For May.

GLOUCESTER, June 5.—Fish receipts for May were as follows: Codfish, 3,300,000 pounds; halibut, 825,000 pounds; lake, 380,000 pounds; eels, 400,000 pounds; haddock, 142,400 pounds; pollock, 155,000 pounds; fresh herring, 142 barrels; alewives, 135 barrels; fresh mackerel, 15 barrels; salt mackerel, 7 barrels.

Eight Cars Piled Up.

HUNTON, Mass., June 5.—A freight train was wrecked when nearly opposite the depot here yesterday afternoon. The wreck was caused by one of the trucks on a box car in the middle of the train breaking. Eight loaded cars were derailed and piled up indiscriminately. No one was injured.

The Cuniff Murder Case.

BOSTON, June 5.—William V. Ricker was arraigned yesterday for the murder of his father-in-law on Monday night. He pleaded not guilty, waived examination and was committed without bail. He had no counsel. Peter Cuniff, son of the murdered man, was held in \$500 as a witness.

Contract Divided.

LAWRENCE, June 5.—The public property committee last night awarded one-half the contract for furnishing the new Tarbox school to Buckley, McCormick & Sullivan. The other half was awarded to Gately, O'Gorman & Lynch. Both are Lawrence firms.

New Hampshire S. of V.

WEIR, N. H., June 5.—The 13th annual encampment of the New Hampshire division Sons of Veterans began here with a fair attendance. Yesterday's session was devoted to general work. Last evening a concert and ball occurred.

Weary of Life.

BLACKSTONE, Mass., June 5.—The body of Marie Johnson was found in the pond at Blackstone cotton mills yesterday. She had committed suicide. Other than a wrapper, she was not clothed, as she left her boarding house early in the morning.

A Point For Labor.

BOSTON, June 5.—The state board of arbitration has received notice from the board of conciliation of Haverhill that the latter would accept the price list submitted to them, and would post the price list in the 117 shoe factories in the city.

Lewiston Strikes.

LEWISTON, June 5.—Fifty weavers left the Androscoggin mill at noon yesterday, which makes a total of about 250 that are on a strike for higher wages. Fifty employees of the Lewiston bleaching also struck yesterday for an increase.

Evidence of Disaster.

BOSTON, June 5.—Fishing schooner Ralph Russell, just arrived, reports having seen off the Georges banks a vessel's deckhouse and newly painted companion way slip aloft. Apparently there has been a disaster recently.

Coventry Mill Shuts Down.

PROVIDENCE, June 5.—The Spring Lake woolen mill in Coventry shut down yesterday for an indefinite period, and 150 operatives were notified that their services are no longer required, the lessees of the mill having failed.

Was Lightly Clad.

PORTSMOUTH, June 5.—A man who was found wandering about the streets here, clad only in a shirt, is dying at Cottage hospital. He is thought to be a demented person named Terence Ward of Lewiston.

Ready For Delivery.

PROVIDENCE, June 5.—The Bishop Brooks memorial, to be placed in Trinity church, Boston, was completed yesterday by the Gorham Manufacturing company. It will be taken to Boston in a day or two.

Recovery Unlikely.

BRIDGEPORT, June 5.—Miss Linsley, the aged woman who was assaulted and brutally beaten by a burglar at her home in Stratford, is very low, and her physician has small hopes of her recovery.

Embezzlement Charged.

HAVERTHILL, June 5.—W. E. Patch, bookkeeper for Knipe Bros., shoe manufacturers, was arrested last night on a charge of embezzlement. The amount of the shortage is \$1000.

Out of Jail.

PORTSMOUTH, June 5.—Joseph T. Roberts, who has been confined in jail, charged with attempting to murder his wife and E. D. Stoddard, was released on bail last evening.

Astor Residence Rented.

NEWPORT, June 5.—R. C. Derby, real estate agent, has rented the William Waldorf Astor residence, known as Beaulieu, to Calvin S. Beece of Ohio. The price paid is \$15,000.

Probably Fell Overboard.

BOSTON, June 5.—John Dennison, a well-known resident of South Boston, was found drowned in the Fort Point channel yesterday. Death is believed to have been accidental.

Errors of Judgment.

HALIFAX, June 5.—There is a spot on the northeast bar of Sable island where thousands of seals go to huddle their young. It is alleged that permission has been granted to set traps there, which means great persecution of the seals. Foxes were also landed on the island three years ago, the avowed object being the extermination of the cats which abounded, but instead the foxes have driven away the black and shell ducks from what was a favorite resort. The matter will be brought to the notice of the department to whose province the island is in.

Mystery Deepens.

SAN FRANCISCO, June 5.—After many hours' work on the murder of Nellie Harrington, the police are completely baffled as to the motive of the crime or of the identity of the murderer. Ex-Senator Buck, the murdered woman's most intimate friend, died yesterday from injuries sustained by a fall from a cart in which he was being driven by a policeman to the office of the chief of police for consultation. With his death, the detectives are at a loss to secure a clue or suggest a motive for the murder.

The Congregationalists.

SARATOGA, June 5.—The Congregational Home Missionary society began its 60th anniversary last evening. The principal address was made by the president, Major General Howard, who said that the society, girdled up the achievements of workers who are distributed all over the land. He pleaded for help to extend the scope of the work. In conclusion, he said the spirit was ready to go before them in high and low places throughout the broad land, and prayed for a re-baptism of the Holy Spirit.

A D-spond nt Merchant.

PHILADELPHIA, June 5.—Henry P. Schwartz, a prosperous merchant and a member of the firm of W. Schwartz & Co., carpet manufacturer, committed suicide by sending a bullet through his brain. Mr. Schwartz was 31 years old. He was a great sufferer from nervous trouble, coupled with a morbid disposition.

The Gulf stream is 100 miles wide and from 400 to 600 fathoms deep.

It is said that the organization of the Democratic committee of Boston this week means the nomination of Josiah Quincy for mayor.

The high school club is debating today the resolve, that successful self-made men are better educated than the average college graduate.

The Presbyterian presbytery appointed a committee Tuesday to consider the case of Rev. William Steele of Quincy in Boston June 15.

A party of young people made an excursion over the Quarry railroad Memorial day, another on Tuesday, and a party from Wellesley college is expected the Seventeenth.

Now that a special election has been ordered on the acceptance of the Sewerage act it would not be a bad idea for the voters of this city to enlighten themselves a little on this important matter.

Mr. Robert Josselyn of Wollaston has purchased the fine estate of James Hughes, located corner of Hancock and Clay streets.

The sale was made through the office of George H. Brown.

The Catherine Lowry estate on Water street which Auctioneer Crane sold Tuesday by order of the commissioner, was purchased by N. B. Farnall for \$1,645. The lot contains 4,170 feet. The bidding was active and the price is a good one.

F. Warsaw has established at 127 Copeland street the West Quincy Dyeing and Cleansing company, and a trial will convince Quincy people that he does good work. Satisfaction guaranteed on ladies' and gentlemen's clothing and household goods.

Word has been received that the steamship on which Miss Mabel Adams sailed for Europe some few days ago has arrived safely in port. Miss Adams went with a party of friends from Boston and will be absent about four months, visiting the important European ports.

Granite business at West Quincy seems to be on the increase, that is if anything can be judged from the amount of granite shipped by rail. The amount during the month of May being over 12,000,000 pounds, which is larger than for several months. This includes that which came over the Quarry railroad.

It would have been impossible to have accommodated a larger crowd than that at the circus Tuesday night. In fact the crowd was so large that all of the seats were filled and all of the space between the seats and the ring was crowded with people. The performance was a very creditable one.

Mr. Nelson Hersey very successfully moved a piano to the residence of Mr. Frank N. Benson at the Quincy Adams station yesterday. It had to be hoisted to a second-story window, as it could not be carried up the stairway. Mr. Hersey is getting to be quite an expert in moving furniture.

A horse attached to a grocery wagon owned by Charles H. Backus, Wollaston, ran away on Tuesday. He started from the store and dashed across the depot platform onto the tracks. He fell, but was secured before doing any damage, either to himself or to the wagon. This is the horse that ran away last week and injured one of Boynton & Russell's horses.

CHILD LOST.

Anxiety for Whereabouts—New Fire Alarm Signal Established.

Margaret Fitzgerald, the six-year-old child of William Fitzgerald of 81 Cana street is missing, and her parents are very much alarmed as to her whereabouts.

She attended school and at noon came to the centre to see the circus procession.

She was seen in front of the post office while the procession was passing and later in the afternoon a girl answering her description was seen at South Quincy.

She did not return home to dinner, but her parents were not alarmed until the other children returned home at 4 o'clock and said they had seen nothing of her. A search was immediately instituted, but up to the hour of going to press no further trace of her had been found.

This morning one of her brothers went to Somerville where the circus is today, but has not returned as yet. Others of the family are also visiting the different schools in hopes to find some trace of her.

As stated above the little girl is six years of age and when last seen she wore a brown straw hat with wide brown ribbon. She also wore a calico tier and a red dress with two rows of black cashmere on the bottom. She had on a plaid cloak with cape and gray trimmings on the front and sleeves.

She had light hair which hung down her back and was banded in front.

The new fire alarm signal 4444 may be rung this afternoon to gather an army of searchers.

The need of calling together an army of searchers on just such occasion as this has prompted Chief Engineer Williams to establish a call for a child lost which will be 4 blows 4 times. A more appropriate call might be eight or nine blows followed by box number as it would assemble the crowd where needed.

TODAY'S COURT.

Alden Holbrook was fined \$7 for drunkenness at Braintree.

Catherine Turley of Quincy was arraigned for disturbing the quiet and peace of mind of that part of Union street in the vicinity of Whiche's shop on the night of May 31, by loud talk of an unladylike nature, it was also said Catherine had been looking upon the wine when it was red in the cup. Catherine said not guilty. The court said guilty and placed her on probation until the 14th, and if any more disturbance was heard between now and then she would have to go to Dedham.

The liquor seized from Martin L. Smith of Randolph was forfeited to the Commonwealth.

The liquors seized from I. Willie Hayden at Randolph were forfeited to the Commonwealth.

TURKEY HOLDS BACK.

Unwilling to Grant Reforms Asked For by the Powers.

Armenia May Yet Be Severed From the Empire.

Outline of Demands Made by British, French and Russian Nations.

LONDON, June 5.—The correspondent of The Standard at Constantinople telegraphs as follows: I learn from a trustworthy source that the reply of the Porte to the British, French and Russian notes in reference to reforms in Armenia rejects the proposal to appoint a high commissioner in Armenia and a mixed commission, and proposes that merely to apply the reforms provided for in the old Aris-tarchi code, which has been nominally in force during the last half century. The reply also grants amnesty to all Armenians who have been implicated in recent events in Armenia.

In an editorial article commenting on the foregoing dispatch from Constantinople, The Standard suggests that the rejection of the scheme proposed by the powers is a device for the purpose of gaining time. The Sultan, it says, must make his choice. He must accept the reforms proposed or sever Armenia severed from his empire.

Despite the statement of the Porte that the presence of the 17 British warships at Beyrut has no significance, it is yet quite possible that England anticipated the rejection of the Armenian proposals and intended the squadron as a threat to the Sultan. According to the above dispatch he did not care.

What Was Demanded.

The reforms demanded in the notes sent to the Porte by England, France and Russia are applicable to the administrative, financial and judicial systems of Armenia. In the six vilayets of Van, Erzerum, Sivas, Bitlis, Kharput and Trebizond the governors are to be Mohammedan or Christian, according to the majority of the people; but the vice governor shall be of the minority faith.

The boundaries of subordinate districts are to be adjusted as to group together people of the same faith as far as possible. The taxes are not to be collected by soldiers or treasury agents, but are to be collected by municipal agents in accordance with a general rate determined by the provincial council.

Each communal treasury shall retain what is needed for local expenses and send the remainder to the district treasury; it shall in like manner send its surplus to the provincial treasury; and it, finally, to Constantinople. In every particular this tax system will be the exact reverse of that now in force. In judicial matters reforms are equally sweeping.

The whole court system is to be reorganized. Arrests are to be made only on due warrant, and prompt trial must follow, with immediate release in case of acquittal. Judges are to be Mohammed

MRS. ROLLINS HOPEFUL.

That Her Husband Has Not Been Murdered In Lower California.

Was Interested In Mines In the Far West.

A Massachusetts Man Who Has Filled Many Positions of Honor.

HYDE PARK, Mass., June 5.—A dispatch from Los Angeles states that General H. G. Rollins, ex-surveyor of that state, is missing, and is thought by many of his friends to have been murdered in Lower California, while prospecting there last month. General Rollins' wife is now residing at 11 Central avenue with her invalid mother.

GENERAL ROLLINS.

Being a mining prospector, he is known to have carried considerable wealth around with him, and for this reason it is believed that thugs enticed him to some lonely spot and there killed him. Searching parties have been sent out from Los Angeles, and every county seat in the state has been alarmed. Telegrams have been sent to New Mexico and Arizona, where it is known he owned mining property, in hopes of securing some news of the general.

A reporter visited the residence of Mrs. Rollins last evening. She said that she had not received a letter from her husband for a long time, and she had become so alarmed she had made inquiries of friends in Los Angeles of him. She further said: "I have not given up hopes of his being alive, if not well. There have been times since my return seven years ago when I have not received a letter from him for a much longer period."

"Since he has been in the west he has engaged extensively in the mining business, purchasing a mine and selling it out if he could get his figure. In that way he has been on the move most all the time since I came home. I shall not believe that he has been murdered until I receive the best of evidence that such is the case. I do not think that there is anything to alarm me yet."

A Bay State Man.

General Rollins was born in Groveland, Mass., in 1838. After receiving a common school education he attended the Merriam academy in Groveland, and afterward the Topsfield academy. He then entered the law office of Colonel Stone of Newburyport with the fixed determination of becoming a full-fledged lawyer. After passing a creditable examination he was admitted to the bar, and for many years afterwards he practiced at his chosen vocation in this state.

When the war broke out he laid aside his law books and joined the Forty-eighth Massachusetts regiment as a private. He served through the war, and his bravery won him not only the respect of the other soldiers, but promotion. He rose to the position of captain and also served as sergeant-major in the Department of the Gulf. At the close of the war he went to California and was appointed surveyor general of the state. He entered politics extensively, being a staunch Republican.

For a term he served the county of Nevada in the legislature. During the second term of President Grant's administration he was appointed registrar of land for California and United States surveyor general. Later he went to Arizona, where he was elected a member of the territorial council. The next year he was honored with a seat in the territorial assembly. The Democrats and Republicans that year had a deadlock, but on the vote General Rollins was elected speaker.

In 1871 he conducted the campaign for Governor Gorham of California, and in the next year he succeeded in carrying the state for President Grant. For a term he served the county of Nevada in the legislature. During the second term of President Grant's administration he was appointed registrar of land for California and United States surveyor general. Later he went to Arizona, where he was elected a member of the territorial council. The next year he was honored with a seat in the territorial assembly. The Democrats and Republicans that year had a deadlock, but on the vote General Rollins was elected speaker.

In 1870 General Rollins married Miss Helen Hudson, daughter of the late George Hudson of Springfield.

Rain at Last.

RUSSELL CITY, Pa., June 5.—Rain came last evening and is still pouring in torrents. The fires in the houses are out and there is no further danger in this vicinity. The damage to lumber and oil property is enormous, over 3000 acres of valuable timber and \$100,000 worth of oil property have been destroyed. No lives were lost at Coon Run, and the people will return to their homes today, that is, those who have homes left.

Giants Fell Down and the Bostons Captured the Game.

Boston, June 4.—Ewing was very anxious to get a game in Boston, and for seven innings his men held the Bostons well and played good ball, but in the eighth they fell down badly, and the famous player himself was partly responsible for the way the home team piled up runs in that inning. The infield and outfield of the visiting club worked badly together.

A Good Suggestion.

LONDON, June 5.—The Daily News this morning discusses the desirability of the Presidents of France and the United States visiting England as a means of increasing the friendly relations between those countries. Continuing, The Daily News says: We should be delighted to receive a visit from the President of the United States. There is surely no reason why the pleasure of travel—and even possible duty—of visiting foreign capitals should be left to monarchs alone.

Governor Morton's Leniency.

ALBANY, June 5.—Governor Morton yesterday pardoned Charles Giblin, the New York murderer. For more than two years past Giblin has been confined to the hospital suffering from a complication of diseases, and the physician now reports that he cannot possibly survive more than a few weeks. His wife has died recently, and so very urgent an appeal was made that, out of consideration for his children, he will be permitted to die outside the prison.

Worked Too Hard.

OSWEGO, N. Y., June 5.—All the spinners in Oswego Falls Woolen mills struck yesterday rather than work over time three nights a week. Several hundred persons are employed in the mills, which will have to close unless the strike is settled. Wages are satisfactory, but the spinners state that they are unable to work 15 hours a day during the summer months in a room with a temperature over 100 degrees.

Said to Be Sure of State Portfolio.

WASHINGTON, June 5.—Attorney General Olney has not yet been appointed Judge Gresham's successor as secretary of state. Unless all signs fail, however, he will be in the near future. The only man who is certain of the facts is President Cleveland. But while the president holds his peace, all other straws are blowing Mr. Olney's way.

The Porte's Rascality.

LONDON, June 5.—This morning's Daily Graphic prints an appeal from the Christians of Beirut to Europe against Turkish oppression, massacre, robbery and violation in that section of the porte's domain. The appeal asserts that even Christian bishops are bribed by the porte to hide the state of affairs.

Grieved at Gresham's Death.

MANAGUA, June 5.—The Nicaraguan flag was half-masted here on all public buildings when the news reached this capital of the death of Walter Q. Gresham. Statements of sympathy were expressed in official circles at the death of the American statesman.

ASA POTTER IS FREE.

No Further Prosecution of the Ex-President of Maverick Bank.

Great Secrecy Maintained as to Court's Decision.

One of the Most Famous of Bank Wrecking Cases Thus Ended.

Boston, June 6.—The last indictment against Asa P. Potter, president of the defunct Maverick National bank of this city, has been not pressed. Many indictments were brought against Potter for false certifications of checks and other acts, which, together with those of certain directors of the bank, caused its wreck. There are still a few obsolete indictments in the clerk's office of the United States district and circuit courts, but the case will never be brought to trial. Thus ends the last of one of the most famous cases in the country.

ASA P. POTTER.
The indictment that is now not pressed is that which charged Asa P. Potter with the false certification of checks. It is likewise the one upon which he was tried before Judge Putnam and convicted by a jury on Feb. 9, 1893, sentenced to pay a fine of \$1000 and to be imprisoned in Cambridge jail for a period of 60 days. Potter took exceptions at the trial, which were prosecuted in the supreme court of the United States, with the result that this court recently sustained them. On April 29 last a mandate was issued directing the circuit court to act hereafter in the case.

In Conformity With the Decision.
The entry of the nol. pros. is in this form: "The United States will not further prosecute this indictment. George D. Robinson, Sherman Heer."
After this entry was made, the clerk, as is his custom when cases are disposed of, put the indictment away on the back files. Here it has rested in obscurity ever since. The greatest secret of the case was its reference to the disposition that had been made. It was only by a personal perusal of the indictment itself that the fate of the case was learned.
The trial of Potter began immediately in the latter part of January and ended on Feb. 9, 1893. The substance of the indictment was that the defendant falsely certified checks for Irving A. Evans & Co., while he was president of the Maverick bank. There was another indictment against him for the alleged making of false entries in the books of the bank, but upon this he was found not guilty, and discharged.

On Beacon Hill.
Boston, June 6.—There was but little business transacted beyond taking up loose ends, and the house cleared its calendar early, leaving plenty of time, which was fully availed of, for the mock session. The bill relative to replacing defective ballot boxes was passed to be considered. The house concurred in the senate amendments to the bill to provide for a hospital for consumptive and tubercular patients. The house engrossed the bill to repeal the act of 1894 relative to political committees and caucuses. Mr. Drew announced the death of Representative W. H. Burges of Kingston. The senate reversed its previous action on the consumptive hospital bill and then engrossed it. The bill providing for indeterminate sentences in the state prison was passed to be engrossed. The senate passed to be engrossed the five house resolves respectively in favor of certain unpaid veterans of 81st, 82nd, 83rd, 84th, and 85th regiments, East Bridgewater, Stoneham and North Bridgewater (Brockton). The customary thanks were extended to presiding officers and the legislature adjourned.

Crippled Vessel Reaches Port.
GLoucester, June 6.—Schooner Elector arrived from a salt bank trip yesterday with 150,000 pounds of coal. Captain Gayton reports: May 27, went ashore at Grand Etrees, Magdalen islands; threw overboard 100 hogheads of salt, lightening the vessel so she came off, losing rudder and almost all her keel. Although leaking 150 strokes an hour, Captain Gayton started for home, making the run in eight days.

Child Missing.
QUINCY, June 6.—Margaret, the 6-year-old daughter of William Fitzgerald of 81 Canal street, has been missing since Tuesday, and it is feared she has either become lost in the woods or has been drowned in some pond. She went to school Tuesday morning, and, at noon, with other children, went to the center to view a passing circus procession. This was the last seen of her.

Headed Off.
PORTLAND, June 6.—It has leaked out that an attempt was made on Monday night to burn the large manufacturing plant of K. T. Burrows by two men, who were discovered by the watchman and

driven away. The police have no clue to the incendiaries, but it is thought they are a gang of crooks who intended to start a big fire and during the excitement rob houses.

Colonel Read Dead.
CAMBRIDGE, June 6.—Colonel Samuel B. M. Read died yesterday at his home, 24 Greenough avenue, this city, of paralysis. He was born in Newport 60 years ago. He enlisted at first lieutenant in company E, Second Rhode Island regiment, and came home as colonel. He was wounded twice. He has lived in this city for about 15 years. He leaves a wife, a son and a daughter.

Evidence Insufficient.
WINTHROP, Me., June 6.—Steve and Harry Ferguson, brothers (colored), were arraigned here yesterday, charged with intent to assault and rob S. K. Plummer of the firm of Plummer & Thompson, merchants, at Monmouth Saturday evening. The boys were in the store after Plummer had counted his cash, when one of them was going home. He kept his team in a shed near his store. Before entering the shed a strong presentiment induced him to light a match, which revealed the presence of the boys, as he asserts, with cuddles in their hands. The court considered the evidence insufficient to hold them.

Dr. Noble's Alleged Crime.
NEW BEDFORD, June 6.—Dr. Ezekiel H. Noble is under arrest on the charge of performing a criminal operation on Laura N. Atwood on April 30. The girl died last Tuesday night. She lived in Middleboro and was visiting relatives here. Anderson W. Kelley, a bookkeeper, is charged with being accessory before the fact.

Safe at Gray Gables.
BUZZARD'S BAY, June 6.—The special train bearing Mrs. Cleveland and her two children and two maids reached Gray Gables station at 10:35 p. m. last night. Carriages were in waiting at the station and the president's family were driven directly to Gray Gables. Mrs. Cleveland was not in the least fatigued.

Cogswell's Memory Honored.
GLoucester, June 6.—At the meeting of the Business Men's association last evening City Solicitor Charles A. Russell and the committee of the Essex county bar appeared at the last meeting to draw up resolutions on the death of Colonel Cogswell offered appropriate resolutions, which were adopted.

Gains and Losses.
PROVIDENCE, June 6.—The industrial situation remains about the same. A few operatives yesterday joined those already at work, while a number left the mills. The Riverside mills have nearly 1000 operatives at work. Fletcher's mills gained 100 employees in the worsted department yesterday.

Conducted Secretly.
SALEM, June 6.—Judge Advocate General Champin held a private investigation here yesterday into the shooting of John J. Donahoe at General Cogswell's funeral, when a salute was fired. Each witness was examined in private, and the result will not be known for several days.

Liberal Catholics.
FALL RIVER, June 6.—Bishop Harkins has raised \$600 toward the debt of St. Vincent's orphanage to be dedicated June 23. A meeting of the prominent Catholics was held at the Clover club, and the amount stated was subscribed in a few minutes by 20 men.

To Prevent Delay.
AUGUSTA, June 6.—A special session of the governor's council was held last evening to confirm the appointment of William C. Marshall as a member of the board of state assessors, in order that the work of the board of assessors might not be hindered.

Tried to Cut His Throat.
LAWRENCE, June 6.—Edwin B. Townsend, an operative, aged 22 years, cut his neck in three places with a razor yesterday afternoon. He was intoxicated, and had quarreled with his sister-in-law. The cuts are not serious. He was locked up.

Daley Irresponsible.
SALEM, June 6.—Timothy R. Daley was arraigned here yesterday, charged with shooting John Hughes, at Lynn, two months ago. The court adjudged him of unsound mind, and he was ordered to the Danbury asylum.

No New Developments.
PROVIDENCE, June 6.—The Gallagher murder still remains a mystery. The theory that Gallagher was robbed is entertained by the detectives working on the case, but beyond this they refuse to make any statement.

Furnished \$3000 Bonds.
STAMFORD, Conn., June 6.—Henry J. Blackham, the milk dealer arrested Tuesday night, charged with manslaughter by selling milk contaminated with the germs of typhoid fever, was released last night on \$3000 bonds.

Boys' Pranks.
PITTSFIELD, June 6.—Some small boys built a bonfire in the loft of H. S. Russell's barn, in the rear of his house on Goodrich street, and the structure was soon in flames. Part of the barn was saved. Loss, \$1000.

Knows Nothing About It.
HOLYOKE, June 6.—Frank F. Nourse states that he has not given his permission for the use of his name in bringing suit against the Northern Investment company, and that he knows of none being brought.

Had Been Visiting Friends.
LOWELL, June 6.—Miss N. M. Farnham, the school teacher who was reported missing since Memorial day, returned to her home and school yesterday. She had been visiting friends in Worcester.

Probably Fatal Injury.
PAWTUCKET, June 6.—The team of Abraham Orlick, a peddler, was struck last night by a train at Central Falls. Orlick was thrown out, and his injuries will probably prove fatal.

Subway Is Victorious.
BOSTON, June 6.—In the supreme court Judge Knowlton, after a most exhaustive hearing, refused the application for an injunction to stop the work on the Boston subway.

Brussels Carpets.

Our Spring stock is particularly strong in Brussels, of self-colored designs, or two or three tones of colorings, with border to match. The same may be said of our assortment of *Willons*, for that matter.

Our line of these goods is unquestionably larger than that of any other Boston or New England dealer—very likely on a par with any house in New York, even.

We have for years made a specialty of *exclusive styles*, which are owned by us, and cannot be obtained elsewhere.

The present tariff (which only went into full effect Jan. 1) has combined with other causes to greatly lower the prices of all carpets, whether foreign or domestic.

EDITORIAL COMMENTS.

JUST now the water question seems to have overshadowed everything else, yet it should be promptly set aside that school accommodations may be provided, for there is no doubt but West Quincy and "The Rail" need them now. The order for two brick buildings asks for an appropriation of \$61,000, while if erected of wood the cost will be but \$45,000. With such a wide difference in the cost it will not be surprising if wood is adopted, but really it does seem as if the city should build of brick.

MANY CITIZENS have got the sewer act and the Metropolitan water bill mixed. It is the former upon which the special election will be held in Quincy on July 9. The city has already accepted one sewer act. If it accepts another it is hoped something will be done. Quincy must have a sewer.

THE NEWS that Asa P. Potter is a free man will be apt to cause indignation among those who desire that justice shall be done; that the rich shall be punished for their crimes as well as the poor. Why was secrecy maintained in the court's decision?

ALL PRETTY.

The Baby Show at Quincy Point—

Entertainment in Evening.

The annual baby show of the Washington Street Congregational church was held Wednesday afternoon and at that time many mothers were present with their darlings and it was a very creditable exhibition of youngsters.

Those having the affair in charge adopted a new rule this year, and that was not to award prizes for the prettiest baby, as dissatisfaction was bound to occur. They decided to call them all the prettiest and presented each with a souvenir of the occasion, which was a much better plan.

In the evening after the babies had been snugly put away in their little beds, the people gathered again at the church when a pleasing entertainment was given, consisting of readings, duets, charades, etc.

I. O. G. T. Notes.

Merry Mount lodge, No. 55, I. O. G. T., at its meeting this evening will be visited by the members of Kalippan lodge of this city. Notifications have been sent to all of the members, consequently a large attendance is expected. As the social committee are especially interested in the entertainment a profitable and enjoyable evening is assured.

The members of Merry Mount lodge, No. 55, I. O. G. T., are making active preparations for their second annual picnic which promises to be on a grand scale. All lodges in the state being invited to participate. It will be held at Downer Landing towards the end of this month.

Anglican Church Choirs.

The guild of church choirs of Massachusetts includes upwards of one thousand members, under the direction of Messrs. Whitney, Locke and Osgood. No church being large enough and leave room for an audience, they have been divided. The second section, composed of about three hundred, sang before a great congregation at St. Paul's, Boston, Wednesday evening.

The thirty men and boys from this city looked full of the spirit of the occasion and showed the careful training of organist Wrigley. The solo by Mr. Hersey was particularly well rendered. We think this festival music should be heard here as the demand for tickets far exceeded the supply.

Bicycles for Ladies.

A False Friend.

The Boston Advertiser reports that William Webb, of Quincy, one of Jordan, Marsh & Co.'s silk buyers laments his intimacy with J. S. Powers, formerly a florist. On Webb's introduction, Powers got a check cashed for \$50, which check, it is alleged is a forgery. Powers was arraigned in the municipal court, Wednesday, plead not guilty and his case was continued.

It is the labor saving machinery of today that tells of Yankee wit and wisdom. Even in ice cream freezers the genius plays its part. The new White Mountain leads the procession. It makes ice cream in a jiffy, prices \$1.74 up. Henry L. Kincaide & Co.

STRAYED TO BOSTON.

The Lost Child Has Been Found by Police.

ABSENT FROM HOME TWO DAYS.

Unable to Tell How She Reached the Hub.

Word was received this morning from police headquarters, Boston, that a girl giving her name as Margaret Fitz, had been found in Boston and was at headquarters. Immediately upon receiving word, the girl's parents were notified and Officer Hanson started for Boston to bring her home.

All day Wednesday search was kept up in the hopes of finding the missing girl. All of the neighboring towns were visited and the police of Boston and other cities were notified and given a description of the girl.

Although diligent search was made the only thing found was a fresh footprint in the soft earth near the pumping station, and as the print was a small one it was thought it might possibly be that of the missing girl.

Nothing else was found and at night fall the search was abandoned until this morning.

The call on the fire alarm Wednesday afternoon was a puzzler, as but few knew anything about the new signal and as a result there were many opinions as to what box had been pulled.

The call members of the fire department were also puzzled and many of them could be seen standing on the streets not knowing which way to turn.

As four blows three times is the militia call, some of the members of Co. K started for their uniforms. The similarity of the signals is another argument for a different lost child signal, and the suggestion of the LEDGER Wednesday meets with favor.

Officer Hanson arrived in Quincy at 10:30 this morning having the missing child in charge. It seems that she was found by officers connected with Station 4 wandering about the streets Tuesday night about 11:30, and she was taken to the Chardon Street Home, where she has been ever since.

When asked how she got in Boston she did not know. She said that she started for home after seeing the procession but did not know the way, and it is presumed that she got lost and kept on walking until found.

It is not surprising that the child was lost as her parents say that she had never been west of the Codding school, and the supposition is that she was too frightened to tell where she belonged. The name she gave the authorities in Boston was Margaret Fitz.

Her father met her at the depot on the arrival of the train and was overjoyed at finding her safe and sound, and immediately took her home.

Walter Berin, aged about 8 years, who is better known about town as "Ikey Pikey," was also reported Wednesday to have gone off with the circus, but he turned up safe and sound that afternoon about 5 o'clock, but would not tell where he had been, although he said he had not been with the circus. This story is, however, discredited as he is reported to have been seen at the Union station in Boston early Wednesday morning.

Social Gathering.

The strawberry festival at the Universalist vestry last evening was quite largely attended and much enjoyed. It proved to be a family affair, where the members of the society and a few invited guests met for a social time. After a bountiful supper, Rev. A. E. White, opened the exercises by a welcome speech; then he called on members and others for short addresses, songs, etc.

The first one asked was Mr. Joseph G. Brackett, the veteran of the society, who became a member when the church was built in 1832; and has been a constant attendant ever since, except a few years when he was in California.

Other gentlemen and ladies spoke of things pertaining to the welfare of the society. It seems by what was said the church has been somewhat in debt for some years, and the members got very much discouraged after Rev. Mr. Philbrook left, and some were in favor of closing the house. But the new pastor has put new life into this old society and great changes are taking place each month.

The floating debt of some six hundred dollars or more, which the society had when Mr. Philbrook left will probably be paid this month by contributions. Last month over one hundred dollars were raised by the ladies towards painting the church; and the month previous, a contribution of \$130 was given the pastor.

If the good work goes on this society will be one of the most flourishing in this city in a few years.

A Plum for Judge Flint.

Representative J. H. Flint of the Quincy-Weymouth district has resigned, and the House on Wednesday accepted the resignation. The action is taken that he may be eligible to an appointment.

WOLLASTON RECEPTION.

To Rev. Blanche Pentecost Bagley on Her Return From Abroad.

The ladies connected with the Wollaston Unitarian society tendered a reception on Wednesday afternoon to the Rev. Blanche Pentecost Bagley, wife of the Rev. James E. Bagley, who returned last Sunday from a visit to her home in England. The affair was largely attended and delightfully successful.

The church vestry presented an exceedingly attractive appearance with a profuse display of flowers. Rugs were strewn about the floor.

The reception was to have been from three to five o'clock, but such a large number attended the time was prolonged.

The coffee was poured by Mrs. Edmund F. Taylor, and the cocoa by Miss Taylor, Miss Marion Sherman, Miss Simmons and Mrs. George K. Thompson.

The committee of arrangements consisted of Mrs. Chandler W. Smith, Mrs. Edmund F. Taylor, Mrs. H. W. Lull, Mrs. F. A. Page, Mrs. George W. Bennett, Mrs. Charles T. Baker, and Mrs. Frederick H. Bishop.

Just in Time.

One of the census enumerators tells the following good story of one experience he had while engaged in his duties. He was taking the census of a West Quincy family and the father and children were gathered around him giving the answers to the questions he propounded. While thus engaged the father suddenly excused himself, saying that the children would give him the balance of the information desired. Our enumerator soon completed his work as far as this family was concerned and was taking his departure when the father rushed in and shouted, "Hold on a minute, sir, you can add another one."

I have two little grand children who are teething this hot summer weather and are troubled with bowel complaint. I gave them Chamberlain's Colic, Cholera and Diarrhoea Remedy and it acts like a charm. I earnestly recommend it for children with bowel trouble. I was myself taken with a severe attack of bloody flux, with cramps and pains in my stomach; one third of a bottle of this remedy cured me. Within twenty-four hours I was out of bed and doing my housework. Mrs. W. L. DUNAGAN, Boston, Hickman Co., Tenn.

A GOLD STANDARD

Endorsed by Kentucky Republicans as the Only Safe Currency.

LOUISVILLE, June 6.—The Republican state convention convened yesterday afternoon at the Auditorium, seating 5000 people, and filling the place to its capacity. J. W. Yeakes made a speech on the existing conditions in Kentucky, and introduced as temporary chairman Judge Denny. After Judge Denny's speech, the usual committees were appointed.

Congressman Walter Evans offered a strong resolution for a gold standard. It was referred to the committee on resolutions. An invitation to appoint delegates to the free coinage convention at Memphis was tabled.

Congressman Evans was made permanent chairman and Samuel J. Roberts secretary.

The platform, as adopted, was in substance as follows: We are opposed to the free and unlimited coinage of silver, believing that it would involve the country in financial ruin. We believe in a sound currency, and in the use of both gold and silver for coinage, provided always that a dollar in one is made principally as valuable as a dollar in the other. We favor a tariff so regulated as to protect the interests of all classes of our citizens upon articles that may be successfully manufactured or produced in this country, thus insuring good wages to the laborer and a home market to the producer, and in connection with this we favor the re-establishment of the doctrine of reciprocity.

We believe that such a system will defray every governmental expense, gradually liquidate all indebtedness, restore public confidence and relegate to the rear the undue excitement now prevailing concerning the currency. In view of the past financial history of the Democratic party, its devotion to the old state bank system, and its tendency, we affirm that the Republican party can be more safely trusted to regulate the financial system of the nation.

We favor an American policy which will protect Americans and American interests in any part of the world at all hazards, and will sympathize strongly with republican nations rather than ignorant monarchies.

Congregational Officers.

SARATOGA, June 6.—The business session of the Congregational Home Mission society was held yesterday afternoon. The reports of all the committees and treasurers were read and referred. Following were the officers elected: President, Oliver O. Howard, Burlington; vice presidents, J. R. Hawley, Hartford; Rev. J. K. McLean, Oakland; J. H. Merrill, Des Moines; Rev. F. B. Webb, Boston; W. H. Alexander, Omaha; Nelson Dingley, Jr., Portland; Rev. F. P. Goodwin, Chicago; Austin Abbott, New York; Rev. F. D. Eaton, Beloit, Wis.; H. Clark Ford, Cleveland; recording secretary, Rev. William M. Holman, Hartford; auditor, George S. Coe, New York; executive committee, class of 1895, George W. Hebard and William Ives Washburn, New York; Rev. Charles H. Richards, Philadelphia; Rev. J. D. Kingsbury, Bradford, Mass.; John H. Perry, Southport, Conn. The remainder of the afternoon was devoted to the co-operating societies.

Father-in-Law Says Corbett Is Crazy.

NEW YORK, June 6.—That Mrs. James J. Corbett will sue her husband for an absolute divorce seems to be assured beyond a doubt. Her father, Mr. Lake, said: "Jim is quite crazy. That is certain. He has not been himself at all for some months. The woman that will be named as the co-respondent in the action has got such a complete mastery over him that he does not know what he is doing. I don't know the woman's name, but my daughter has told me that she belongs to Chicago."

Concerning the Big Mill.

NEW YORK, June 6.—The proposed Corbett-Fitzsimmons mill still remains the topic of discussion among sporting men here. Manager Brady says that his man would be in the ring fit and ready on the date to be fixed by the Dallas people. Fitzsimmons says: "I feel perfectly satisfied that the contest will take place at Dallas. Give me a fair, trustworthy referee and I have no doubt that I shall prove myself the better man."

A New Move.

COLUMBIA, S. C., June 6.—Another interesting legal move was made yesterday in the matter of the dispensary law. State Commissioner Mixson and Liquor Constable Beach were arrested, charged with conspiracy to violate the interstate commerce act in selling some beer. A search warrant for the seizure of the confiscated beverages was issued.

The Colima Disaster.

SAN FRANCISCO, June 6.—The federal government is said to have decided to make a thorough investigation of the Colima disaster, which cost so many lives. It is not improbable that the state authorities may take a hand in the affair, and there is already talk of criminal proceedings. These, however, are not yet a certainty.

Dreary Work.

NEW YORK, June 6.—With the acceptance by both sides of the 12th juror yesterday, the trial of Police Inspector William M. McLaughlin for bribery and extortion was begun. The work of securing the second jury occupied 14 days. In the first trial 26 days were consumed before the last juror was sworn.

Wanted In Worcester.

NEW YORK, June 6.—Henry Schurman of Worcester had the distinction of being the first person to be arrested on board the St. Louis. Detectives made him a prisoner shortly before the St. Louis started on her maiden trip. He is charged with robbing Leonard Hicks, a horse dealer of Worcester, of \$75.

BOUGHS NECK.

It would be hard to find a more pleasant family resort on the coast of Massachusetts than Hough's Neck. Situated within a short distance from Quincy Center, is easy of access by carriage or by the cars of the Quincy and Boston street railway, which makes frequent trips. The ride is also a pretty one as the scenery is unsurpassed, and once there a pretty view is had of the bay. Besides its natural beauties there is another important fact, and that is that being part of Quincy no intoxicating liquor is sold, which gives it an additional attraction over many other summer resorts.

All of the new cottages are about completed and will soon be occupied.

C. T. Trask and family are at the Wood-blue cottage on Wintthrop avenue.

UPRISING OF BEDOUINS

Compelled Jeddah Christians to Flee From an Expected Massacre.

Turkey Is In a Dangerously Disturbed Condition.

Outrages by Her Subjects Are Causing Numerous European Protest.

CONSTANTINOPLE, June 6.—Affairs in regard to the Armenian situation as between the Porte and the powers are at a standstill, owing to the fact that the representatives of the powers' party to the proposed reorganization of the Armenian administration are awaiting instructions from their respective governments.

A panic prevails in Jeddah, and the Europeans there have taken refuge on board the foreign vessels in the harbor, fearing that they will be attacked by the Bedouins.

The chief causes of the aggressiveness of the Bedouins is their objection to the quarantine measures adopted against pilgrims to and from Mecca, especially the latter, and the erection of huts for the use of pilgrims outside the city of Jeddah. These measures are strenuously opposed by the fanatical Bedouins, who have no hesitancy in resorting to violence in demonstration of their opposition.

The Porte has become involved in an additional diplomatic complication, arising from the wounding of an officer of a French steamer by a Turkish soldier, and the subsequent arrest of the Turk.

The Turkish officer, who was traveling on the steamer from Trebizond to Constantinople, refused to pay the required sum for the transportation of his baggage.

In the course of the ensuing altercation, the Turkish officer wounded one of the ship's officers with his sword.

The Turkish officer was immediately put under arrest, and detained on board until the arrival of the steamer at Constantinople. The matter was reported to M. Cambon, the French ambassador, who has demanded satisfaction from the Porte for the wounding of a French citizen.

Many Scores to Settle.

A few days ago the delay of the Porte in answering the powers' proposals for reforms in Armenia was reported to have led to the resignation of the grand vizier.

Indeed, Turkey is soon likely to see its hands full in answering European protests against outrages by her subjects in various places.

Now there is the Jeddah complication resulting from the attack on the foreign consuls by fanatic Bedouins, and Admiral Kirkland only the other day was compelled to give the Turkish pasha at Beyroot a bad scare. Further reports from the districts of Sidon, Latakia, and Syria, have recently shown these portions of the sultan's empire to be in a dangerously disturbed state.

In one place the Metwails attacked the houses of a number of Christians with stones, and attempted to enter them, finally compelling the Christians to seek refuge in some of the Christian villages of the district. The house of a Greek Catholic priest was however forcibly entered by night. Subsequently, some 40 or 50 Metwail youths proceeded to the Christian quarter of the village, uttering threats that they would do the same for them as was done to the Armenians.

At Sahlin, in the district of Latakia, the Christians complained of the manner in which they were treated by the new chakmak (governor) of Sahlin, the officers of the Redifs (reserves), and by some of the government employees, and declared that they could not continue to live under such conditions, surrounded as they were by the Ansharites—supposed new converts to Islamism.

They mentioned the case to one of their women, who was forced to embrace Islam, in consequence of which a quarrel took place between the Christians and the Muslims, and fears were entertained of a continuation of the persecutions should the Muslims persist in their present attitude.

Another incident is reported from the Metwail village of Kef-Zibit, where four Bedouins appeared and exchanged shots with the inhabitants, killing one and wounding another. One Bedouin was subsequently arrested, and guaranteed to be released by the governor from the Metwails for good conduct in the future.

Continues to Climb Up.

WASHINGTON, June 6.—The gold in the treasury continued to climb up yesterday, without any help from the bond syndicate, and the reserve stood at \$99,478,983.

The gold in the treasury is \$83,960,884 and the gold coin is \$14,948,777, against which gold certificates are outstanding to the amount of \$15,522,979.

The general treasury balance is \$187,974,715, subject to the deduction of \$106,256 for bonds and interest paid.

His Reign Was Short.

HONG KONG, June 6.—The republic of Formosa has collapsed. Its president, Tang, has escaped from the island and the foreign residents there are in safety. The Chinese forces in the northern part of the island became disorganized at the approach of the Japanese troops and the president of the republic joined the men in rioting, looting and burning the government buildings at Taipei-Fue and Kobe.

Ithaca Men Reach England.

SOUTHAMPTON, June 6.—The steamship Paris, with the Cornell crew which are to row at the Henley regatta in the contest for the grand visitors' challenge cup, arrived here last evening. All the American oarsmen were in fine condition. They were warmly cheered as they left the ship and all of them spoke hopefully of their chances of winning the cup.

Giants May Meet.

PHILADELPHIA, June 6.—Arthur A. Zimmerman has issued a challenge to John S. Johnson to race for \$5000 a side, the distance to be from a quarter to a mile, at the track of the Philadelphia Jockey Club, on June 10. Johnson has given two weeks to answer the challenge. If accepted, the race will take place at Asbury Park.

The entertainment followed:

Essay, Miss McKay, '96. An interesting account of an excursion in the far West.

Recitation, "The Soldier's Song," Miss Briggs, '96. Given clearly and with excellent effect.

Recitation, "The Last Hymn," Miss Beckwith, '96. An exciting story of the perils of the deep, and how a hymn afforded comfort to the dying.

These officers were elected:

President, Mr. Marnock, '96.

Vice President, Miss Hay, '96.

Secretary, Miss Lowe.

Treasurer, Miss Cashman.

The debate was on this subject:

"Resolved, That successful self-made men are better educated than the average college graduate."

The speakers in the affirmative were: Miss Bates, Miss Bryan, Miss Bryant, Miss Cashman, Miss Coyle, Miss Dinnie.

The negative was taken by Miss Flood, Miss Haley, Miss Jones, Miss Leary, Miss Lowe, Miss McGovern, Miss Greaney.

The debate was well contested. When the debate was opened to the society, Miss Mary Pitts spoke.

The critic, Miss Cummings, then presented her report.

The board of decision decided in favor of the negative.

TODAY'S COURT.

John C. Moore was sent to the State Farm at Bridgewater for 6 months for being a tramp at Quincy.

Demand Increasing.

The Boston Globe of June 3 says: Four furnishes the universal food for the millions, and it is a dangerous state of things when competition tries to make cheapness control quality in the world's daily bread.

The flour war which was recently begun in Boston has thus been given an importance that has warranted a careful investigation of the question involved.

The basic fact is that Pillsbury's Best, which has been accepted as the standard flour for 25 years, costs the dealer more than any other. It has not been the aim of the manufacturers to make a good cheap flour, but to make the best possible flour, and to give a dollar's worth for a dollar. This is an old-fashioned business principle, but it is just as good today as it ever was, as is proved by the fact that the capacity of the Pillsbury mills at Minneapolis has increased to 6,500,000 barrels a year.

The attack on this flour appears to have been made by a few dealers, either to lower the price so as to reserve for themselves a larger profit, or to impair its reputation so that it could be replaced by cheaper flours on which they could make a larger percentage.

Pure Rich Blood is essential to good health, because the blood is the vital fluid which supplies all the organs with life. Hood's Sarsaparilla is the great blood purifier.

MUSIC OF THE WAR

Soul Stirring Songs That Inspired the Soldiers.

PRODUCT OF FERVID PATRIOTISM.

Sentimental, Humorous and Purely Patriotic—Authors of "The Battle Cry of Freedom," "The Battle Hymn of the Republic," "My Maryland" and "The Bonnie Blue Flag."

"MARCHING THROUGH GEORGIA."

Although written late in the war, probably no song commemorates the struggle so strongly as "Marching Through Georgia."

The very melody is an expression of enthusiasm that even after 30 years makes the song dear to the hearts of the old soldiers and sets their feet to keeping time with the music.

At the sentiment of the Grand Army of the Republic is in its favor was well illustrated by an old backwoodsman in an Ohio post. He was dressed, so the story goes, in a faded suit of homespun, and his shabby head was surmounted by a gray, broad brimmed hat. In his right hand he was carrying a small sized cord wood stick as a cane. But after he had traveled a couple of miles it was plain that the strain was beginning to tell on the old fellow.

He was traveling at a go-as-you-please rate, when his commander, anxious to make a good appearance with his post on dress parade, stopped up to him and said, "Say, Tom, keep step; you are throwing out the whole line."

"Cap, low kin a feller keep step to that music?" he replied, pointing to the band leading the line with one of the popular airs of the day. "Why don't they play some thing like this?"

And he hummed, in a voice husky and strong, and out of tune, a strain from "Marching Through Georgia."

The captain laughed and turned away, held a moment's conversation with the leader of the band, and the introductory notes of the next piece caused the old fellow to straighten up. His curled wand about like the baton of a drum major, and a little later a thousand feet were coming down as one, the fatigue of the march was forgotten, and a thousand voices were joined in the rousing chorus. The words of the famous song were written by Henry C. Work. He was born in Middletown, Conn., in 1832 and died in Hartford June 8, 1884.

Being the good old hymn, boys, We'll sing another song— Sing it with a spirit That will start the world along— Sing it as we used to sing it, Fifty thousand strong— While we're marching through Georgia.

CHORUS. Hurrah! Hurrah! We sing the jubilee! Hurrah! Hurrah! The flag that makes us free So we sang the chorus, from Atlanta to the sea While we were marching through Georgia.

How the darbies shouted When they heard the joyful sound! How the darbies shouted When they heard the joyful sound! Which our commissary found! How the sweet potatoes even started from the ground.

While we were marching through Georgia! "Sherman's dashing Yankee boys Will never reach the coast!" So the snaky rebels said, And 'twas a handsome boast, Had they not forgot, alas, To reckon with the host, While we were marching through Georgia.

So we made a thoroughfare For freedom and her train, Sixty miles in latitude, Three hundred to the main. Treason fled before us, For resistance was in vain. While we were marching through Georgia.

"WHEN JOHNNY COMES MARCHING HOME."

A favorite among the boys in the army as well as in the social circles at home is known for and popular by the above title. The song was written by the late Patrick Sarsfield Gilmore, famous as the leader of the band which bears his name. It has also been ascribed to Mr. Louis Lambert.

MILLS GAINING HELP.

Olneyville Strikers Are Accepting the
Terms of Employers.

Details of Police Preserving
the Peace.

One of the Strike Leaders Likely to Be In-
dicted for Conspiracy.

PROVIDENCE, June 7.—Things were more
than usually quiet at Olneyville yesterday,
and a detail of police surrounded the
Olneyville mills. The people have begun
to realize that the police will not let them
go within a block of the mills, so a few
gathered in private yards, from which
they were later driven, after the police had
consulted with the owners. Manufactur-
ers report steady gains in operatives re-
turning to work.

The manufacturers report steady gains
in the number of operatives returning to
work. At the Riverside mills 175 of the
230 looms are running, and during the day
30 operatives went in. The superintendent
said he understood the sewing girls would
be in Monday, and he will wait until that
time to see if they would return. If they
do not, the work will be sent to Blackstone,
where the company controls a big mill and
where help is plenty.

At the Weybosset mill the gain is 30,
making 220 operatives working. The
superintendent says that work is running
smoothly and would be satisfactory if the
loomfixer emergency was provided for. He
understands this will be straightened out
Monday.

It is stated that 700 are working at the
Saranac mills, but only 40 looms are run-
ning in the Fletcher combination. The
strikers claim that looms in the mills are
being run by help from other depart-
ments. The superintendent claims the
weavers have returned, and believes he
will be

Able to Keep the Mills Running.

Until yesterday not a loom has been in
operation at either the Providence, Na-
tional or Saranac mills.

It was stated at the office of the Saxon
mill that 38 looms were running, and that
it had been necessary to lay off a number
of employees until more weavers went to
work.

The Atlantic mill people claim that a
few more operatives went to work yester-
day, but the strikers emphatically deny
this. They say that while in jail here,
Mr. Fletcher's mills, no concern in Olney-
ville is as badly crippled as the Atlantic
mills. There is little change at the Man-
ton mills.

It is reported that William J. Welch,
one of the leaders in the Atlantic strike, is
under police surveillance, and that meas-
ures will be taken to indict him for con-
spiracy. John W. Thornton, another
strike leader, is under arrest on a charge
of libel in issuing non-union lists. Other
leaders are expecting arrest, and they are
wondering what the charges will be.

MAN LED ASTRAY.

Pair Who Elope From Philadelphia Under
Arrest at Providence.

PROVIDENCE, June 7.—Edward S. White,
a wealthy resident of Philadelphia, who
seven months ago suddenly disappeared,
leaving his wife and one child, taking
their other child with him, is in jail here,
having been arrested on a charge of
adultery preferred by Mrs. White. Miss
Mary S. Andrews, aged 30 years, an heiress
to a large property, also of Philadelphia,
with whom White has been living here, is
also in custody. White and Miss An-
drews had posed as husband and wife and
the child whom White took with him was
known as their little girl.

White declares that Miss Andrews is re-
sponsible for his leaving wife and home.
In view of this assertion, Mrs. White
states that she is unwilling to prosecute,
and when the case comes up for a hear-
ing Mrs. White may refuse to appear.
White will return to Philadelphia with
his wife and child.

Wealth Allied to Wealth.

LENOX, Mass., June 7.—Miss Florence
Adele Sloane became Mrs. James Aber-
crombie Burden, Jr., at high noon yester-
day. The bride is heir to the Vanderbilts,
and it seems superfluous to mention in any
cold figures what sum she has at her com-
mand, yet it has been estimated as being
somewhat over \$35,000,000. Mr. Burden
has by inheritance \$1,000,000, and is also
an active business man in the iron works
on the Hudson, that have made for his
family so many millions of dollars.

Guilty of Manslaughter.

SALEM, June 7.—The jury yesterday
afternoon brought in a verdict of guilty
against Annie M. Brewer, of Lynn, charged
with manslaughter in killing
Gideon W. Lattimer of Lynn. Her counsel
took exceptions, and will apply for a
new trial. Lattimer was engaged to Miss
Brewer, and on Dec. 30, 1894, called upon
her in order to break the engagement. A
quarrel ensued, and Miss Brewer followed
Lattimer to the door and shot him. Lat-
timer died a few days later.

Evening Star's Centennial.

LEE, Mass., June 7.—About 5000 visiting
Masons were present at the celebrations of
the 100th anniversary of Evening Star
Lodge of Masons. The lodges of nearly
every town in western Massachusetts sent
delegates. The address of welcome was
given by Wellington Smith of Lee, the re-
sponse by F. B. Holmes of Cambridge and
the historical address by Thomas Post of Lee.

Launch of the Vaquero.

BRISTOL, R. I., June 7.—The 2½-rater
Vaquero, owned by H. B. Duryea, was
launched at the Herreshoffs' yards yester-
day, and will be shipped to England,
where she will compete in races. The

Vaquero has a Robin bronze fin, to which
is bolted a lead bulb of several tons
weight. Her hull is of highly polished
mahogany.

Job For State Auditors.

HARTFORD, June 7.—The house of repre-
sentatives yesterday passed a resolution
calling upon the state auditors to make an
investigation of the accounts of the com-
ptroller's office during the last four years.
It is said that the orders for \$1000 and \$500
were drawn to a senator, who is an at-
torney, of which no voucher can be found.

Notable Railroad Suit Settled.

CONCORD, N. H., June 7.—The full bench
of the supreme court yesterday rendered a
verdict in the suit of the Manchester and
Lawrence railroad against the Concord
and Montreal railroad to recover the plain-
tiff's share of the profits while the two
roads were run in partnership. It was
held by the court that the North Wam
railroad, a line in dispute, was the prop-
erty of the Concord and Montreal, and
that the Manchester and Lawrence rail-
road is entitled to \$400,000 of which it
will receive \$400,000 cash and collateral ag-
gregating \$500,000 from the Concord and
Montreal.

African Methodist Conference.

BOSTON, June 7.—The 44th session of the
African Methodist churches of New Eng-
land opened yesterday, Bishop Tanner
presiding. The following officers were
chosen for the ensuing year: Secretary,
Rev. J. H. Morgan; recording secretaries,
Rev. W. H. Shields and Rev. W. H.
Jacobs. The conference will continue un-
til Monday next.

Gubernatorial Favors.

BOSTON, June 7.—The governor has ap-
pointed State Senator Harvey of the sec-
ond Worcester district, who resigned
Wednesday, a member of the state board
of registration in medicine. Sarah J.
Williams, of Monson, was appointed suc-
cessor to Dr. Potter as physician at the
woman's reformatory at Sherborn.

Alleged Theft of Jewelry.

BOSTON, June 7.—Alice Bennett, 22 years
old, colored, is under arrest on a charge of
obtaining diamonds and jewelry valued at
\$2500 under false pretenses. It is alleged
that while acting as agent for the Metro-
politan Manufacturing company she dis-
posed of the goods, giving bogus paper in
return as security.

Gardiner's Enterprise.

GARDINER, Me., June 7.—The Gardiner
board of trade have in hand the project of
the erection of a \$100,000 shoe factory.
Local capitalists have signified a willing-
ness to invest if the board can secure a
competent manager and not allow the
factory to go into the hands of some out-
side concern.

Creditors in the Lurch.

PORTLAND, June 7.—Oscar De Courcy
of Westbrook has disappeared, leaving be-
hind him a host of creditors. He has a
served a state's prison sentence for palming
himself off as an English lord and bor-
rowing money. He moved in good society
while in Westbrook.

Offer to Pay Mail.

BOSTON, June 7.—Creditors of the firm
of Humphrey & Dodge, hardware mer-
chants in Concord, N. H., met in this city
yesterday and a committee was appointed
to investigate and report. The firm has
offered 50 cents on the dollar in 90 days.

Two Cases Disposed Of.

ALFRED, Me., June 7.—In the supreme
judicial court yesterday Dr. W. G. Weber
of West Lebanon, charged with arson, was
found not guilty. George M. Boston of
Wells, for indecent assault, was sentenced
to state prison for three years.

Howland Is Champion.

NEW HAVEN, June 7.—John Howland
defeated Arthur Foote, the '94 champion,
at the New Haven lawn club courts in the
postponed match, thereby winning the
championship of New England for '95.

Wales Is Coming.

NEWPORT, June 7.—The announcement
that the Prince of Wales will visit New-
port the last of August is verified by the
report that the prince will come as the
guest of Mr. and Mrs. Ogden Goelet.

tance of 45 feet from a water tower, at
Burlington, and was instantly killed.

The Portsmouth city government has
granted the Portsmouth Street railroad
permission to substitute electricity for
horse power.

The 7-year-old child of Michael Done-
gan of New Haven died from a fracture
of the skull, received, it is alleged, at the
hands of a schoolmate.

The Fall River board of trade will call
a public meeting for the purpose of mak-
ing arrangements for the establishment of
a textile school, in accordance with the
law passed by the legislature.

PLAYED A GOOD GAME

But the Pirates Were Overcome by Boston at
the Fall End.

BOSTON, June 6.—The upward flight of
the Pirates, incidentally the winning
career of "Link" Hawley, was slightly in-
terrupted by the Bostonians. It was an ex-
citing game from the start to finish, and
with the score 5 to 4 in favor of the vi-
sitors, the home team pulled off the game
when defeat was staring them in the face
in the last of the eighth.

A Ship to Be Proud Of.

NEW YORK, June 7.—The American
four-masted, full-rigged, steel ship Kenil-
worth arrived from Hawaii yesterday.
She made the passage from Honolulu in
the extraordinary fast time of 90½ days.
She brings a cargo of sugar valued at
\$200,428. The Kenilworth was originally a
British vessel. She was burned some
time ago in the bay of San Francisco.
Subsequently she was bought by Arthur
Sewell of Belfast, and has since sailed under the American flag.

Brainard a Visitor.

WEST POINT, N. Y., June 7.—In the
military exercises here yesterday there was
a review of the battalion of cadets. After
the review a reception was given to the
secretary of war and Mrs. Lamont. Lieu-
tenant David L. Brainard, second cavalry,
Fort Wingate, New Mexico, registered at
headquarters yesterday. Lieutenant Brain-
ard was with the Greely Arctic expedition,
and is the only survivor of the party which
made that famous voyage.

"Keeping a Promise."

PHILADELPHIA, June 7.—Ex-President
Harrison is the guest of ex-Post-
master-General Wanamaker at the latter's
residence. When asked if his visit had
any political significance, the ex-president
said: "Not a particle. I had promised Mr.
Wanamaker to pay him a brief visit before
my departure for Indianapolis, and I am
simply keeping my promise."

Imprisoned, Then Released.

PARIS, June 7.—M. Hillaud, a com-
mercial traveler, who, in 1897, attempted
to assassinate Marshal Bazaine, at Madrid,
was in Perigueux during President
Faure's recent visit. He was imprisoned
because he threatened to fire on the pre-
sident for the purpose of drawing attention
to his grievances. Hillaud has since
been liberated.

But It Isn't Settled Yet.

LONDON, June 7.—The Chronicle says
that there could be no better news than
that a contest had been arranged between
Oxford and Cambridge on the one hand
and Harvard and Yale on the other. It
is needless to expatiate upon the admirable
effect of these intercollegiate meetings on
the relations between the two countries.

EDITORIAL COMMENTS.

THE FIGURES, a million gallons a day, were used by the water board at the City Council meeting Monday evening as the present consumption of water in the city. The report for 1894 shows the average to have been but 797,999 gallons, and the increase over the preceding year was but 68,569 gallons. It makes some difference whether it is 800,000 or 1,000,000 gallons a day; for if 800,000 will supply a population of 22,000 the additional reservoir which Engineer Tidd says will have a capacity of 320,000 gallons will be sufficient for nearly half as many again, or a population of over 30,000. As Quincy has not yet reached her limit, the two reservoirs would probably be ample for a population of 35,000 to 40,000, and the cost of the new reservoir Engineer Tidd estimates at but \$54,894.

When will Quincy have a population of 35,000 to 40,000? Not until 1905. In ten years the assessments to the Metropolitan system would cost \$250,000 or more. The payment of \$4,000 a year would give us the reservoir, a saving of \$21,000 a year or over \$1 per \$1000 on the tax rate.

WHY NOT have some sidewalks now in this city. Chapter 444 of the Acts of 1893, approved June 1, provides that our City Council "may grade and construct sidewalks and complete any partially constructed sidewalk in any street of such city as the public convenience may require, with or without easements, as said board shall deem expedient, and may cover the same with brick, flat stones, concrete, gravel or other appropriate material, and may assess upon the abutters on such sidewalks in just proportions, not exceeding one-half of the expense of the same; but all assessments so made shall constitute a lien upon the abutting land and be collected in the same manner as taxes on real estate." Chapter 444 should be accepted and a beginning made on Hancock street.

THE INJUSTICE of the libel law upon publishers has been righted by the Legislature of 1895, as the law now permits a retraction before the commencement of action.

THE NEW steamer, Myles Standish, "the queen of the bay," is manish, and consequently in style.

Strawberry Festival.

There was quite a large attendance Thursday evening at the strawberry festival and entertainment held at the West Quincy Methodist church. The entertainment which was very pleasing consisted of readings by Mr. C. F. Merriack and Miss Thayer, duet by Misses Grace and Bertie Turner, solo by Miss Grace Doble, and remarks by Rev. E. W. Virgin. The ice cream and strawberries found a ready sale among those present.

—H. H. Bryant of Somerville has been arrested on the charge of sending a slanderous and scurrilous postal card through the mails. It seems that this postal card denounced the Supreme Court judges for their income tax decision in somewhat reckless terms.

—An undertaker in Lawrenceburg, Ind., has been sued for providing a misfit coffin, it being alleged that the box was too small for the body placed within it. It was a very unusual case, and the judge decided in favor of the undertaker, apparently on general principles.

WOODWARD PLANS.

Proposals Asked for a \$20,000 Addition.

FINE GYMNASIUM INCLUDED.

Also a Large Study Hall, Laboratories and Other Rooms.

Plans have been made for an extensive addition to the Woodward Institute, and the Board of Managers have today advertised for proposals for building the same.

The new addition will be built on the southerly end of the building and will have a frontage of ninety-eight feet, and a width the same as the present building.

In the basement there will be located a gymnasium 40x60 feet, from which there will be lockers, shower bath, laboratory, cloak rooms, etc., and a janitor's room.

On the first floor there will be a large study hall 60x65 feet, with library on the southerly end 16x30 feet. On this same floor there will also be a manager's reception room 17x22 feet, a principal's room 11x18 feet, and a teachers' room 9x15 feet.

The study hall being much deeper than the other rooms gives opportunity for a balcony some six feet above the floor leading from the principal's room, so that she can easily overlook the hall.

On the second floor there will be a music room 16x30 feet, two class rooms 31x32 feet, a chemical laboratory 28x32 feet, a science room 31x32 feet, and a physical laboratory 21x32 feet. A large hall also extends through the centre.

In the attic there will be a laboratory and three unfinished rooms.

The new part will have three entrances on the Hancock street side.

When completed the building will make a very handsome and imposing structure, as the new addition will be in keeping with the present structure.

The Managers of the Woodward Fund estimate that the addition will cost in the vicinity of \$20,000.

ROSS-SMITH NUPTIALS.

Presbyterian Church Crowded with Friends of Happy Couple.

Seldom if ever has there been a prettier wedding than the one solemnized in the First Presbyterian church, Thursday evening, when Miss Isabelle A. Smith, second daughter of Mr. James Smith, was married to Mr. Norman E. Ross of this city. The church was crowded with the members and friends of both parties.

The strains of a wedding march, played by Miss Jennie Phillips, organist, announced the approach of the bridal party. The bride was an exceedingly pretty picture on the arm of her father, as she moved up the aisle in her white china silk cut en train, trimmed with white satin ribbon, embroidered net veil, caught up with white pinks, and carrying a showy bouquet of pinks and white roses. It was a graceful costume simply fashioned but most becoming to the sweet-faced girl.

Miss Katie Ross of Danvers, sister of the groom, as maid of honor, wore grey with green silk and lace trimming, and carried a bouquet of white pinks. They were met at the altar by the groom attended by his best man, Mr. James Smith. The bride was given away by her father. The Rev. Robert Westly Peach, pastor of the church, read the marriage ceremony and pronounced the happy couple man and wife.

After the ceremony the bridal party and immediate friends were taken to Mr. Smith's home, where a wedding supper and reception were held.

Among the congratulations and presents received by the couple may be mentioned a surmounted bronze clock, China vases, silver knife and spoon from her companions and shop girls, also an arm chair, parlor table, wedding cake very artistically and delicately executed by the employees and business associates of Mr. Ross.

Mr. and Mrs. Ross will be at home to their friends on Franklin street, after June 12.

Wollaston Union.

The first meeting of the Wollaston Young People's Union will be held in the Congregational church, Monday evening at 7:45 o'clock. An interesting programme has been prepared. There will be short addresses by the pastors of the Wollaston churches, also by Rev. Rufus B. Tobey of Berkley Temple, Boston, and the renowned temperance worker, Mr. John Anderson of Wollaston. Orchestral music during the evening. This union consists of the Young People's societies connected with the Methodist, Congregational and Baptist churches, formed for the purpose of bringing the young people into closer touch with each other along the lines of Christian and Evangelistic work. Everybody cordially invited to attend, and assist in making the initial meeting of this Union a complete success, also to enjoy what promises to be a very profitable service.

The only way to get rid of flies and mosquitoes is to keep them out of your house. This will do it, adjustable window screens 35 cents, screen doors \$1.00. Henry L. Kincaide & Co.

QUINCY BREVITIES.

Notes from Quincy Point, Wollaston, Atlantic, South and West Quincy.

An inside finish and moulding mill is being built near the Norfolk Downs depot. Some good bicycle races are promised at Lovell's grove on the opening day, June 15.

Peter Moran has been promoted to the position of police officer at the Quincy depot.

Prayer meeting of the Calvary Baptist church, Doble's hall, at 7:30 p. m. All are welcome.

Mr. Ralph J. Saxe of Wollaston returned today from an extended tour through the south-western states.

Mr. and Mrs. D. Vinton Pierce will spend the summer at Ossipee, N. H., where Mr. Pierce has recently purchased a farm.

All of the would-be police men with one exception who recently took the civil service examination received more than the required per cent.

Thomas Neil who claims Quincy as his residence was arrested in Brookline Thursday. Several breaks into stables and sheds are charged to him.

The steamer City of Quincy will take its first moonlight excursion tonight, making a trip to Minor's light and return. A large number have signified their intention to participate.

The Ladies' Aid Society connected with the Atlantic Methodist church held their last supper for the season at the church on Wednesday evening and a large sum was realized.

Joseph Bonner, A. L. Stephenson and James Dunn, Jr., have entered the bicycle races of the River View club at Milton on Saturday. All three will ride the Quincy wheel.

Mr. Joseph Lezotte of 16 Elm place recently launched his handsome new steam yacht, the "Alice." The boat is 194 feet long and is equipped with a fine boiler and 24 horse power engine.

Mrs. Bryant N. Adams has moved into the half of her double house formerly occupied by Mr. George G. Saville, and Mr. John Hall will soon occupy her late residence which he has purchased.

There will be music at Lovell's Grove Sunday afternoon and evening by the National band, and refreshments will be on sale. The formal opening of the grove is set down for next week Saturday.

The street railway benefit association now numbers 35 members. It pays its members \$5 per week when any of them are incapacitated from duty by sickness or accident, and also pays \$100 to the member's family at death.

At the regular meeting of Hodonasaene Tribe of Red Men, Wollaston, held on Thursday evening two pale faces were admitted and the hunter's degree was worked. On June 20 the tribe will visit Nahanton Tribe of Braintree to work the warrior's degree.

There is probably no better piece of street railway track in the country than that now being laid by the Quincy & Boston to Braintree. Ties are first put down and on these are laid stringers on which the rails are placed, and the rails themselves are very heavy and of the latest improved pattern.

Young Men's Christian Association.

Mr. T. L. Starrett, general secretary of the Malden association will address the men's meeting Sunday at 3:30. The Malden association with Mr. Starrett at its head leads all others in this section in its spiritual work. Every man who attends next Sunday will be well repaid.

Few receptions and entertainments have been given this year, but those given have all been first-class. The climax will be capped, however, Thursday evening, June 13, when the last reception of the season to members and friends will be given. No matter how warm may be the weather, all will want to hear the entertainment, for it will be short and novel, and best of all, the very thought of it will be cooling. Who ever heard of a sleigh ride in June in New England. The famous Wollaston (Kinder) Symphony of twenty-five pieces will render the "Eine Heutere Schiltenpartie."

The Women's Auxiliary will sell strawberries and ice cream in Dew Drop Inn. No charge will be made for the reception and entertainment. Among the other attractions of the evening will be an exhibit of the educational work shown at Springfield at the International Convention, with the award of merit received for the best work in North America, for the city with less than 25,000 population.

The U. S. fish commissioner of Woods Holl has boats in New Bedford harbor engaged in securing lobster eggs. These eggs are taken to the commission buildings at Woods Holl and hatched out. One lobster yielded 95,000 eggs. An ounce of spawn contains 6000.

Two thousand delegates are expected in Boston to attend the annual convention of the Young People's Christian Union of the Universalist churches in the United States and Canada. It will be open July 10 and will continue four days.

One more boy wanted to sell the Daily Ledger in City Square.

The new Myles Standish steamer for the Nantasket line was launched Thursday.

BRAINTREE.

Thayer Academy closes June 21st. Children's Sunday at our churches June 9th.

T. P. Harrison and James H. Bailey, Jr., have finished their school year at Boston University.

The Y. P. S. C. E. of the South Congregational church will hold a sociable in the chapel tomorrow evening.

The antiphonal service will be given in the First church next Sunday. Rehearsals have been held all the month.

Mr. Joshua Wilkins will not go to Kentucky as reported. He will spend the summer in Braintree and New Hampshire.

Founder's day will be celebrated at Thayer Academy tomorrow afternoon. The senior middleers receive friends at three.

Mr. C. G. Anderson was made happy on Tuesday by the advent of another granddaughter, born in West Quincy. Mr. Anderson's son Charles lives in West Quincy.

Mrs. James D. Holbrook died at the residence of her daughter on Central avenue Wednesday morning of old age. The funeral will be held this afternoon at two o'clock.

The Baptist Ladies' Aid gave a strawberry festival at the lower Town hall on Thursday evening. As usual it was another of their good times; enjoyed by all who were present.

The Braintree and Weymouth road is building a turnout on Adams street, near the corner of Commercial street. Work was commenced Wednesday morning. Possibly more cars may be run now.

The Baptist society held their monthly supper in the Lower Town hall last evening.

The Universalist society organized as a church at Pythian hall last Sunday afternoon.

Puritan Lodge, I. O. O. F., has accepted an invitation to participate in the Old Fellows celebration at Randolph, Saturday. Instructor Arnold will hold an informal out-door meet this afternoon to select next year's candidates for track and field events.

The firemen will meet at the South engine house Sunday, and led by the Batchelor Boy drum corps, march to the cemeteries and decorate the graves of the departed firemen.

MILTON.

Children's Sunday will be observed next Sunday at the Congregational church. Granite avenue after much trouble is being widened.

The alterations at the Hose house are about completed.

The special town meeting will probably not be called until the latter part of June. A paved gutter is being built across Church street.

Azra Lodge, D. of R., held a strawberry festival and entertainment Thursday evening.

Considerable enthusiasm was manifested at the last Episcopal church meeting and another meeting will probably be held June 25, when steps to form a permanent organization will be taken.

The East Milton branch of the Y. L. C. A. will hold a festival at the residence of Mrs. R. P. Smith June 14, in aid of the Free Home for Consumptives.

Mr. Tuell, principal of the High school, entertains all of the past graduates of the High school as well as the present members of the school at the Town Hall next Tuesday evening.

Robert Robinson and Frank Quimby have entered for the bicycle races of the River View Club Saturday afternoon.

TODAY'S COURT.

George A. Coleman of Randolph was arraigned for the larceny of a watch valued at \$25, from H. C. Sargent, and was held in \$500 until next Tuesday.

The continued case of Martin F. Smith of Randolph, for keeping a common nuisance, came up and was continued until next Tuesday for sentence.

The Legislature of 1895 passed a new law to regulate the observance of the Lord's day, which renders persons at a game, sport, play or public diversion except a concert of sacred music, or an entertainment given by a religious or charitable society the proceeds of which, if any, are to be devoted exclusively to a charitable or religious purpose, upon the Lord's day, liable to a fine not exceeding five dollars for each offence.

IN THE "DOUBLE O" FLEET.

The New Racer for the "Adams Boys' Named Rooster.

Rooster will be the name of the Adams' 20 foot racing cat. The Globe says, the combination of "seven letters and a double o" in the name of a boat has been too successful one with the "Adams boys" to be abandoned, so Rooster is chosen as a successor to and as fulfilling the same conditions as "Papo's", Baboon, Gossoon and Harpoon.

Whether or not it will bring the same luck as the other names remains to be seen; but the boat herself has many admirers, while many others remember that Charles Adams has made but few mistakes in his yachting career, and that he has great confidence in the latest of the "double-o" fleet.

The description of the boat in The Globe last Sunday attracted great attention, particularly in Quincy, the home of a majority of the yachtsmen who have built 18-footers this year, and many have been the comments on the type and its possibilities. Most yachtsmen concur in the opinion expressed that if she can carry her sail properly she will be hard to beat, especially down the wind.

As to carrying her sail, her owners say that 500 feet is not a large rig for a boat of her size, and that if she cannot be made to carry it by means of the heavy board and the limit of live ballast, it will be an easy matter to cut it down, as the hull can be driven with a much smaller sail plan than the one now provided.

They will enter the boat in the Quincy series for the class, and also in the races elsewhere.

The boat is now practically completed at Lawley's, and it only remains to put her overboard and rig her. This will probably be done Saturday morning, so that she may be tried in the afternoon.

Braintree Town Meeting.

A special town meeting was held in the Town house, Thursday night, on the petition of several voters as per warrant published in last week's OBSERVER.

John Kelley was chosen moderator and the meeting proceeded to take up article 2, when Mr. E. E. Abercrombie rose and moved that article 7 be taken up. It was accordingly done.

ART. 7. To see if the town will vote to reopen the Middle street school.

Under this article Mr. Abercrombie moved that the school committee be instructed to reopen the Middle street school for the autumn term.

After some little delay the question was voted on and passed as originally moved.

ART. 2. To see if the town will vote to appropriate the sum of fifty dollars for conveyance of West street district pupils in June, September and October, 1895.

Mr. Holart moved that the amount be appropriated and be taken from the school appropriations.

Mr. Ellis moved to amend the motion by striking out the last clause but it was lost. Mr. Holart's motion passed.

ART. 3. To see if the town will vote to appropriate the sum of forty dollars for conveyance of Pond street district pupils in June, September and October, 1895.

Mr. Holart moved that \$40 be appropriated from school appropriations and it was voted.

Colima's Survivors Reach Port.

SAN FRANCISCO, June 7.—Seventeen of the survivors of the wrecked steamer Colima arrived in port yesterday on the steamer Juan. The men were a sorry looking party when they arrived at the main dock here. Their stories all confirmed the telegraphic accounts of the disaster. They agree that the cause of the foundering was the top-heavy condition of the Colima, due to her bulky deckload. From the beginning of the voyage south they say the vessel acted badly and would not answer her helm. The passengers say there was no time to launch boats or put on the preservers when they realized the serious plight of the Colima, and, beside, the fury of the storm made it impossible to launch the boats successfully.

Listened to Many Addresses.

SARATOGA, June 7.—Yesterday's session of the Congregational Home Missionary society was devoted to hearing interesting talks of representatives from the field. Addresses were made by Revs. S. F. Gale of Florida, J. H. Morley of Minnesota, Dr. M. F. Evers of the German department, S. C. McDaniel of Georgia, C. F. Clapp of Oregon, W. S. Bell of Montana and H. C. Simmons of North Dakota. The closing session of the 6th anniversary was held last night and proved the most interesting of the series of meetings. Secretary Joseph B. Clark of New York read a paper on "The Money Problem."

Kentucky Republicans' Ticket.

LOUISVILLE, June 7.—The Republican convention of Kentucky closed this morning after close contests. The following is the ticket: Governor, W. O. Bradley; lieutenant governor, W. J. Worthington; auditor, S. H. Stone; secretary of state, Charles Finley; treasurer, George W. S. Taylor; superintendent of public institutions, W. J. Davidson; registrar of land office, Charles O. Reynolds; commissioner of agriculture, Lucas Moore.

A One-Sided Arrangement.

HONG KONG, June 7.—The financial terms of the Chinese loan give no immediate political advantage to Russia, but the impression is that the agreement involves China into granting some ocean port for the Siberian railway. As at present arranged, it will be a 4 per cent loan. The syndicate will obtain it at 46 and sell it at par, if possible. It is evident, however, that the entire transaction has in it more of the political than of the financial.

Alleged Immorality.

NEW YORK, June 7.—Dr. Tonner is under arrest, charged with exhibiting obscene pictures to a chance acquaintance in a public park on Sunday last, but it is said that another charge is to be made against him. This charge grows out of orgies that are alleged to have taken place in the doctor's home, which, it is said, is furnished in a most luxurious manner. Most of his visitors were said to be young men. Tonner is reported to have confessed.

The Coming Premier.

WASHINGTON, June 7.—President Cleveland sent for Attorney General Olney yesterday, and it is believed that the tender of the acceptance of the secretaryship of state were made at this interview, although neither will talk about it, and the formal announcement is deferred until the successor of Mr. Olney as attorney general is selected.

Not in English Style.

LONDON, June 7.—Sporting Life says that the shortness of the stroke of the Cornhill crew was the first thing that attracted the attention of the on-lookers when the Americans took their first spin over the course. The method of propulsion is entirely different from that usually adopted here. The shells are very pretty craft.

Porte Acted Promptly.

CONSTANTINOPLE, June 7.—The porte has settled the claim of the French ambassador growing out of the wounding of one of the officers of a French steamer by a Turkish officer, a passenger, by paying indemnity to the French officer and punishing his assailant.

To Give It Personal Attention.

WASHINGTON, June 7.—Chief Hazen of the secret service sails next Saturday for London, where he will appear as the representative of this government at the trial of Mendel Howard, arrested there for counterfeiting United States notes and postage stamps.

Opposed to Woman Suffrage.

ALBANY, June 7.—Bishop Doane of the Protestant Episcopal diocese of this city, in an address yesterday denounced the woman's suffrage movement, and expressed unqualified disapproval of the agitation for "woman's rights."

May Recover.

CHICAGO, June 7.—Robert Stuart, president of the American Exchange National bank, was thrown from his horse yesterday. Mr. Stuart's skull was fractured. Doctors are hopeful of his recovery.

Consul Lost Dead.

MANAGUA, June 7.—Hiram Lott, United States consul at this point, died yesterday afternoon. He had been suffering from an affliction of the stomach for five days only.

Gold From Colombia.

COLON, June 7.—The first shipment of gold from the Colombian mines since the revolution has just been made, \$1,500,000 now being on the way to Europe.

Left Formosa Behind.

NEWS IN A NUTSHELL.

The Russian town of Nevel was burned out. Ecuadorian rebels have set up a civil and military chief in Guayaquil. Three men were killed in a collision on the Reading road at Loudsdale, Pa. Scotch companies have made a three years' agreement with the Standard Oil company. The directors of the Chicago and North-western Railroad company declared a dividend of 1 1/2 per cent. Ex-Congressman Bryan's paper, the Omaha World-Herald, speaks editorially of Springfield, Ill., as the Sumter of silver.

This property contains about 17 1/2 acres of land and a large mansion, recently the residence of C. F. Adams, Esq., and is located upon President's Hill in this city, within two minutes' walk of Quincy station, N. Y. & H. R. R. By reason of its natural advantages and the liberal expenditure of its former owner, being well graded and interspersed with beautiful trees and shrubbery of many years' growth, make it one of the most desirable locations for a home of any of the many beautiful sections surrounding Boston. Wide avenues are now building—the property has been divided into lots of reasonable sizes for residential purposes, and are now for sale under proper restrictions. Buffalo Bill's Exhibition.

The crowning event in the amusement world this month will be the advent of Buffalo Bill's Wild West in Boston, for the next two weeks.

It has many times traversed the Atlantic; it was the crowning feature at the great Carnival in London in commemoration of the fiftieth year of the reign of Queen Victoria; it disputed with the Eiffel Tower the palm for interest and success at the World's Fair in Paris in 1889; it traversed Europe, crossed the Alps and the Pyrenees, and camped beneath the walls of the Alhambra and within the vast interior of the Colosseum at Rome.

It presents the greatest series of accurate pictures of frontier life ever conceived, and is veritably "history related by the men who made it." The many thrilling events which stir the blood in literature are reenacted by the participants. The Indian at home; his habits, customs and manners in peace and war; his amusements and his labors, are all depicted. The life of the scout, the emigrant, the pioneer, the cowpuncher, and the express rider, are all fully illustrated with fascinating verisimilitude.

"Many of the citizens of Rainville Indiana are never without a bottle of Chamberlain's Cough Remedy in the house," says Jacob Brown, the leading merchant of the place. This Remedy has proven of so much value for colds, croup and whooping cough in children that few mothers who know its worth are willing to be without it.

Sometime ago I was troubled with an attack of rheumatism. I used Chamberlain's Pain Balm and was completely cured. I have since advised many of my friends and customers to try the remedy and all speak highly of it. SIMON GOLDBAUM, San Luis Rey, Cal.

POINTS FOR VETERANS

War of the Rebellion Was Terminated
on April 13, 1865.

Marks the Turning Point on
the Pension Question.

Soldiers Who Enlisted After That Date Not
Entitled to Pensions.

WASHINGTON, June 7.—The pension
bureau rendered a decision yesterday
on the question of the date of the
termination of the civil war and the
pension rights of soldiers enlisting in '65-'66.
The conclusion reached by the bureau
is that in all these cases the question to
be ascertained is whether the enlistment
of the soldier was for service in the war of
the rebellion or for the regular army. If
the former, he is pensionable, and if the
latter, he is not.

Mr. Reynolds cites the various orders
suspending enlistments for the war, and
these orders the commencement of enlist-
ments for the war, and those ordered the
commencement of enlistments for the
regular army.

He says as to those volunteer enlist-
ments in the regular army after the cessa-
tion of armed hostilities: "It cannot be
truthfully said that their enlistment was
for the War of the Rebellion, nor should
their service be deemed service during the
War of the Rebellion within the mean-
ing of the term in the act of June 27, 1890,
unless it is made to appear that their
service was for the suppression of the re-
bellion, or rendered in the theater of war,
and having immediate connection with
the belligerent operations of said war.
This service must be shown to be a war
service. Many soldiers desired to continue
in the military service instead of being
mustered out of the service with their or-
ganizations, and re-enlisted in the regular
army."

An Explanation.

In reference to the decision of the su-
preme court, assigning Aug. 30, 1890, as
the end of the war, he says: "The reasons,
however, which would admit of this hold-
ing, where the rights of parties in the case
involved might be affected by the running
of a statute of limitations, cannot be ac-
cepted to establish the date of termination
of the War of the Rebellion where the
questions involved are whether an enlist-
ment was, in fact, for the War of the Re-
bellion and the service performed there-
under, in furtherance of its suppression."
The secretary therefore holds that enlist-
ments in the loyal states after April 13,
1865, when recruiting in them ceased, will
not be deemed enlistments in or for the
War of the Rebellion, and any service
rendered under such enlistments will be
presumed not to have been rendered in the
War of the Rebellion, and to establish the
contrary, the claimant will be required to
show affirmatively that his said subse-
quent service was rendered in direct con-
nection with active military duty in aid of
suppressing the rebellion.

In other states, the secretary states,
and the District of Columbia, June 1, 1865, will
be taken as the final date, as enlistments
then ceased in those parts of the country,
and July 1, 1865, when the blockade of the
southern ports was raised, will be taken
as the final date of war enlistments for the
navy.

Sultan's Vague Declaration.

CONSTANTINOPLE, June 7.—The sultan
declares that no Armenian changes are
necessary except such as modify existing
laws, and as these alterations would be
applicable to the whole population, he
denies the right of the powers to interfere
in the internal administration of the af-
fairs of the empire, while no indication has
been given which appears to show that
the condition of Armenia is to be regarded
in any way as inexplicable.

Revered by Canadians.

MONTREAL, June 7.—A great popular
demonstration took place yesterday at
the unveiling of the Sir John Macdonald
statue. Liberals and Conservatives, irre-
spective of creed or nationality, came to
Montreal from every part of the Dominion
to honor the memory of the great old
chief. Sir Donald A. Smith made the
opening address, which was responded to
by Lord Aberdeen, who unveiled the monument.

Something Behind It.

ATHENS, June 7.—The new commercial
treaty between Greece and Russia has just
been signed by the Russian government.
According to the terms of the treaty, cur-
rents from Zante and other parts of Greece
will be admitted to Russia free of duty.
Greece agrees to use only Russian petro-
leum at the Russian prices paid for Ameri-
can petroleum.

In Interests of Science.

CHICAGO, June 7.—When the Peary re-
lief expedition leaves St. John's, N. F., for
the Arctic circle, it will be accompanied
by Professor Salisbury of the Chicago
university. A number of scientists will
make the trip to study the glaciers and
geological conditions of the country.

Government Was Slow.

KINGSTON, Jan. 7.—The authori-
ties are greatly annoyed over the wide
circulation of inflammatory documents
published here recently. The incendiary
literature was discovered too late for
seizure.

For a Finish Fight.

SYRACUSE, June 7.—Tommy Ryan has
received a dispatch from Billy Smith
agreeing to fight to a finish, the winner to
take all the purse. The two men will
meet within a few days to close the ne-
gotiations.

American Citizenship.

TRENTON, June 7.—The supreme court
yesterday reversed a county court decision
and decided that a man, if born in the
United States, may be an American citi-
zen whether his parents are naturalized or
not.

Miss Philbrook Wins.

TRENTON, June 7.—The fight of Miss
Mary Philbrook of Jersey City to be ad-
mitted to the bar of the state has been de-
cided in her favor. She is the first woman
lawyer in the state.

Victim of Masked Thieves.

FAIRBURY, Neb., June 7.—Two masked
men entered the store of R. S. Graham, at
Bowen. Graham resisted the burglars,
and was shot twice. He will die. The
burglars escaped.

Caused by Rock Settling.

FLORENCE, June 7.—Expert geologists
believe that the present earthquakes have
been caused by the settling down of the
strata of rock disturbed by previous shocks.

BEAUTY IS POWER.
Perfection of Form, Feature, and Mind
Render Women All-powerful

[SPECIAL TO OUR LADY READERS.]

Yet blended with those perfections
must be perfect health. Women are to-
day stronger in their
character, better in
their nature, truer in
their love, warmer in
their affections, than
they ever were.

But most women do
not know themselves;
and often when their
influence is doing the
most good, break
down. They drift gradu-
ally and uncon-
sciously into a
state of nervous dis-
ease.

They should remem-
ber that Lydia E. Pinkham's
Vegetable Compound restores
natural cheerfulness, de-
stroys despondency,
cures leucorrhoea, — the great forerun-
ner of serious woman trouble. —
Lies backache, strengthens the muscles
of the womb, and restores it to its nor-
mal condition, regulates menstruation,
removes inflammation, ulceration, and
tumors of the womb, etc.

It is a remedy of a woman for women.
Millions of women owe the health they
enjoy, and the influence they exert, to
Mrs. Pinkham; and the success of her
Vegetable Compound has never been
equalled in the field of medicine for the
relief and cure of all kinds of female
complaints. So say the druggists.

Here is another one of the thousands who
speak of others who may know the truth:—
"For five years I suffered with falling
of the womb, and all the dreadful aches
and pains that accompany the disease.
I tried several doctors and different medi-
cines, until I lost all faith in everything.
I had not tried your Compound. I
watched your advertisements from day
to day, and each day became more
hopeful.

At last I resolved to try it. Your Compound
I have taken seven bottles, and have gained
forty pounds. My health is restored, and
I am a well woman. I do all my own
work, and can walk two miles without
feeling tired. Your Compound has been
worth its weight in gold to me. I cannot
praise it enough." MATILDA
EHYAM, Columbia, Lancaster Co., Pa.

African Missions.

The area of west Africa lying within
the tropics covers about 1,500,000 square
miles, and the population is estimated at
37,000,000. Brightful degradation is
wrought by strong drink. It is said that
rum is being taken into the country at
the rate of 70,000 gallons for every mis-
sionary. Yet the result of Christian mis-
sions is cheering. The Scriptures have
been translated into 35 dialects, and
some knowledge of the gospel has reach-
ed about 8,000,000 people.

The Common End.

Some walk on the golden sands, others
in the mire, but the same uncontrol-
lable necessity of dying involves all.
And whatever the way be, whether pleas-
ant or doleful, yet every one passes with
equal steps, measured by the same in-
variable spaces of hours and days, and
arrives at the same common end of life.—
Episcopal Recorder.

Christian Endeavor Gossip.

The Christian Endeavor society of
Katsbaun, N. Y., gives \$160 a year to
foreign missions.

During the past year the societies of
the Elgin district, Illinois, have con-
tributed an aggregate of \$1,008.99 to
missions.

Although the society at Santee Ag-
ency, Neb., is composed entirely of the
Indian pupils of the missionary school, it
nevertheless collected \$27 as its mission-
ary offering on Christian Endeavor day.

The local union of Lansing expects to
shortly organize societies in the Boys'
reformatory, containing 555 boys, and in
the School for the Blind.

There are now in Great Britain 2,363
Young People's societies of Christian
Endeavor.

The Christian Endeavorers of the Re-
formed church in the United States, un-
der the direction of their denominational
board of missions, are building Christian

I have two little grand children who are suffering this hot summer weather and are troubled with bowels complaint. I gave them Chamberlain's Colic, Cholera and Diarrhoea Remedy and it acts like a charm. I earnestly recommend it for children with all the troubles. I was myself taken with a severe attack of bloody flux, with cramps and pains in my stomach; one third of a bottle of this remedy cured me. Within twenty-four hours I was out of bed and doing my housework. Mrs. W. L. DUNAGAN, Chicago, Hickman Co., Tenn.

Ice Industry Going Into the Hands of a Big Syndicate.

Capital Stock Will Amount to \$10,000,000.

Operator: Morse Said to Be at the Head of the Combination

AUGUSTA, June 8.—The Consolidated Ice company has been incorporated at the secretary of state's office, with a capital stock of \$10,000,000, with \$1000 paid in. The officers are: William T. Beaver, president; Nehemiah H. Campbell, treasurer. Both are well known in Brooklyn.

The purposes of the company are the manufacture and sale of ice, carrying of passengers and freight, and to do a general manufacturing of one kind or another. The formation of this company is said to be a scheme to control the ice industry of the Kennebec river, and it is reported that Charles W. Morse of Brooklyn, formerly of Bath, is the leading spirit in the deal.

Mr. Morse has made heaps of money in the ice business on the Kennebec, and is probably the biggest operator on the river.

Other large concerns on the river know nothing of the formation of such a trust, and some of their representatives who have been seen about it do not believe that such a scheme is contemplated by the company that has secured articles of incorporation. One big operator pronounces it both.

For several years parties have attempted to form an ice trust and one year they succeeded, but it proved to be a failure and so much money was lost that the big concerns have ever since refused to enter into a combination to control the market.

Whether the alleged scheme will materialize remains to be seen. Mr. Morse may have bigger things to view than he sees fit to make public at the present time.

All Want Pay Raised.

NORTH BILLERICA, Mass., June 8.—A strike occurred in the Talbot mills here yesterday, the first in the history of the mills. Thursday a schedule was posted announcing increases for those of 1894 in certain departments, but not for others. The operatives sent a committee to Treasurer Clark, and set forth that all the operatives should be treated alike. Mr. Clark informed them that the arrangement was the best the company could make, and the operatives, although unorganized, decided to strike. The Talbot mills manufacture woollens and run through the full period, excepting at shut-taking periods, idleness was unknown there.

A Queer Swindle.

FRANKLIN, Mass., June 8.—Mrs. Lyden, a widow, of Norwood, claims that men purporting to be officers searched her house for liquors, and, on finding some, ordered her to appear at Dedham for trial. The next day she was conducted before a bogus court, arraigned for illegally keeping liquors, pleaded guilty, fined \$5, which she paid, and was discharged. A few days later she discovered that she had been duped.

Manufacturers Claim Gains.

PROVIDENCE, June 8.—While the manufacturers claim the backbone of the strike is broken, the strikers deny it, and charge them with circulating false reports. The manufacturers report gains in most of the mills. John W. Thorntown, who was arrested on a charge of libeling non-union employees, was released on bail last night. Everything is quiet in Olneyville.

Decision Reserved.

PORTLAND, June 8.—The Maine railroad commissioners held a hearing here yesterday on the petition of the Portland and Cape Elizabeth railroad for permission to build an electric road on Cape Elizabeth, which will cross the Boston and Maine railroad tracks at Cape Elizabeth depot. The commissioners reserved their decision on the matter.

Scared the Passengers.

BRIDGEPORT, June 8.—Steamer Non-wanting, with 100 excursionists, broke her shaft while in Long Island sound, when several miles from shore. There was considerable excitement among the excursionists, but no one was injured. The steamer was brought to Bridgeport by an oyster steamer.

OLNEY IS PROMOTED.

Tendered the Position Made Vacant by Secretary Gresham's Death.

Judson Harmon of Ohio For Attorney-General.

Olney's Appointment Was Expected, but Harmon's Was a Surprise.

WASHINGTON, June 8.—The president late yesterday afternoon announced the following cabinet appointments: For secretary of state, Richard J. Olney of Massachusetts; for attorney general, Judson Harmon of Cincinnati.

The president at one time contemplated other changes in his cabinet and a rearrangement of several of the portfolios, and in this connection consideration was given to the transfer of Secretary Smith to the department of justice, but this and other transfers were finally abandoned and the president concluded that the simplest plan would be merely to fill the vacancy caused by Mr. Olney's promotion.

Mr. Olney comes from one of the oldest New England families. The first of the family to come from England was Thomas Olney, who settled in Massachusetts in 1635. He was a friend of Roger Williams, and with Williams was one of the founders of "Providence plantations."

Mr. Olney was born in 1835 in Oxford, Mass., and graduated from Brown university in 1856, and from the Harvard law school two years later. He began the practice of his profession with Judge B. F. Thomas, a descendant of Isalah Thomas, the publisher of the "Old Thomas Almanac," and founder of the Worcester Spy. In 1865 Mr. Olney married Judge Thomas' daughter, thus uniting two of the oldest families of New England.

For years Mr. Olney has been regarded as one of the ablest and most learned lawyers in his state. Twice he has been offered a place on the supreme bench of Massachusetts and declined.

Politically Mr. Olney has always been a Democrat. In late years his judgment has been sought after in matters of public and party policy by the young men who have become prominent in the Democratic party of Massachusetts.

In 1874 he was elected a representative in the legislature from Roxbury. In 1876, when the Democratic party was so anxious to nominate a strong ticket to add to the strength of Tilden, Mr. Olney was its candidate for attorney general. When President Cleveland made up his cabinet in 1892 he selected Mr. Olney for the head of the judiciary department.

A Surprise.

The appointment of Judge Judson Harmon of Cincinnati as attorney general came in the nature of a surprise. His name had not even been canvassed as among the probabilities. There is the best authority for the statement that the president had several men under consideration, and the portfolio of justice might have been had by James C. Carter of New York, who was counsel for the government in the Behring sea arbitration and the income tax cases, and by Frederic R. Condit of New York, had they been disposed to accept it.

Judge Harmon is not only recognized as one of the foremost lawyers and justices of Ohio, but as one of the most popular citizens. He was born near Cincinnati 46 years ago, and has always lived in Cincinnati. His father, Rev. B. F. Harmon, was a Baptist minister, well known throughout the Ohio valley.

Judge Harmon graduated at Denison university, a Baptist institute, at Granville, O., in 1859, and began the practice of law in Cincinnati in 1859. He was a Republican till 1872, when he became a Greenbacker. He was elected superior judge in 1878, re-elected in 1881, and when ex-governor George Hoadley went to New York in 1887, Judge Harmon resigned from the bench to become the head of the firm of Harmon, Colston, Goldsmith & Hoadley.

Didn't Expect It.

COLUMBUS, O., June 8.—Judge Harmon arrived in this city last night with ex-governor Foraker and Judge Warrington of Cincinnati for the purpose of securing, if possible, from the auditor of state, a modification of the Rawlings law taxing beer \$3.50 a barrel in order to oblige breweries to compete outside the state.

Judge Harmon said the first intimation of his appointment was received from the newspapers. "If any one had told me yesterday," he said, "that I was to be appointed to a cabinet position, I would have thought he was talking through his hat." The last time I saw President Cleveland was in Columbus at the time of the Thurman banquet, six years ago.

This morning I received a letter from Mr. Cleveland asking me if I would accept the position of attorney general. As I did not want to reply without consulting my law partner, Judge Colston, who is in New York, I immediately telegraphed him, and securing his consent, at two o'clock telegraphed President Cleveland that I would accept. I have not received any official notification of my appointment.

When Judge Warrington, who was present when a reporter called on Judge Harmon at the Hotel Clittenden, remarked that Judge Harmon would leave one of the most lucrative law practices in the state, the latter remarked that the position of attorney general was one that would tempt any one who loved his practice. Judge Harmon will probably leave for Washington next Monday.

By Way of Madrid.

EDITORIAL COMMENTS.

It seems almost phenomenal, but it is probably a fact that Quincy has increased in population twenty-five per cent. in the last five years—Advertiser.

Now, really! But the increase from 1885 to 1890 was over 38 per cent., and from 1880 to 1890 it was over 58 per cent. Twenty-five per cent. would make our population this year but 20,908. There is no doubt but this is a low figure. If the increase is but 25 per cent. it will fall far below the estimate of the State Board of Health having in charge the Metropolitan water bill.

THE FLAG should be displayed in Quincy next Friday, the anniversary of the adoption of the present stars and stripes. It will be displayed in Boston and the day observed in the schools.

SUPERINTENDENT EMBERTON of the Woburn schools says pupils suffer when they number over 40 in a room, and that over 50 is a crime. Many cities must then be guilty.

Blue Hill Predictions.

The coming week will probably average cool. The warmest days promise to be the 8th to 9th and 14th, and the coolest from the 10th to 12th. The greatest probability of rain is on the 9th to 10th, and night of the 12th or morning of the 13th. The remainder of the week will probably be fair with the greatest probability of clear weather on the 11th to 12th and 14th.—Norfolk County Gazette.

Washingtons Win.

A match game of base ball was played on Kemp's field, Brackett street, Friday afternoon, between the Washington school and Coddington nines. The score was high and at the close stood 28 to 24 in favor of the Washingtons. Messrs. Herbert M. Caldwell and Ricker umpired on this occasion. The features of the game were, a two bagger, knocked by Charles Somers; a home run by William Pitts, and a one-hand catch by Ernest Dunn.

Good Health

And a good appetite go hand in hand. With the loss of appetite, the system cannot long sustain itself. Thus the fortifications of good health are broken down and the system is liable to attacks of disease. It is in such cases that the medicinal powers of Hood's Sarsaparilla are clearly shown. Thousands who have taken Hood's Sarsaparilla testify to its great merits as a purifier of the blood, its power to restore and sharpen the appetite and promote a healthy action of the digestive organs. Thus it is, not what we say but what Hood's Sarsaparilla does that tells the story and constitutes the strongest recommendation that can be urged for any medicine. Why not take Hood's Sarsaparilla now.

Cards are out for the wedding of Miss Alice E. Oliver and Mr. Harry Winfield Mead on June 20th at the home of the bride on Jackson street, Canton Junction.

Mrs. Samuel F. Howard of Wollaston is at Hanson for a few days.

Mr. and Mrs. John Reynolds on the occasion of their wedding were the recipients of many valuable presents, among them being one from his employers and the employees of the Gloucester Granite Co., of an easy chair and two jardiniere.

Mr. and Mrs. George W. Taylor drove to Randolph Memorial day, and enjoyed the day visiting places of interest.

The prizes at the debate of the South Weymouth High school Tuesday evening were won by Miss Catherine Roach and Miss Clara Willis. Rev. A. A. Berle of Brighton gave an address on "The Advantage of a College and University Education."

Mr. John Whitcher has sent out invitations to a spread at his rooms at Harvard for Class Day.

The Quincy Yacht club's first hop will be held on Wednesday evening June 19, instead of on Friday evening, June 21.

Mr. and Mrs. Nathan W. Morton of Stoughton celebrated their golden wedding last Saturday. The reception was under the auspices of the M. E. church and the aged couple were in good spirits during the whole day.

Miss Cassie Thayer returns home today from Burlington Mass., where she has been teaching school.

Today is a good day to dance and most of our young people attend the reception and dance given this afternoon by the senior middle class at Thayer academy.

The engagement is announced of Miss Elizabeth Gray Lyman of Belfast, L. I., to Mr. Albert A. H. Meredith of Milton.

Mr. Fred Belcher of Wollaston has been visiting relatives in Easton.

Mr. A. W. Hart of Dedham and Miss Augusta Gore Batchelder of Jamaica Plain were married Wednesday beneath a bower of carnations and roses and an arbor of asparagus fern and palms. The other house decorations were grand, and the bride was beautiful in white satin trimmed with duchesse lace.

Mr. Howard D. Spear of this city was one of the ushers at the Hunt-Whittle wedding at Weymouth Wednesday evening.

Mr. Samuel J. Watson of Dedham and Miss Nellie G. Hamilton of Readville were married this week. The bride has been organist at the Blue Hill chapel several years.

Mr. and Mrs. W. W. Raymond of Weymouth have gone to Cottage City for the summer.

Mr. John Hermann Loud of Weymouth who has been studying abroad has received honors at an English institution, passing successfully examinations under Dr. Bridge, Dr. Villiers Stanhope and other musicians and was elected an associate of the college with the right to put A. R. C. M. after his name. This document will be signed by the Prince of Wales and Sir George Grove.

Hon. J. F. Cronan, Mrs. Cronan and Miss Cronan of Sharon sail for France the 15th to spend the summer months.

Mr. and Mrs. S. A. Miller and son have been guests of Hon. J. W. Pratt of Randolph this week.

Rev. Samuel G. Babcock and wife of Hyde Park sailed on the Gallia from Boston today for Europe.

Next Friday evening the Columbian club of Weymouth will hold its last meeting of the season, which is also to be ladies' night.

The wedding of Mr. George C. Thayer and Miss Jennie W. Paine at Holbrook Friday evening was a very pretty one. Miss Mabel Thayer and Miss Helen Thayer, sisters of the groom, were maids of honor, and wore white silk. The bride was attired in apricot, brocaded silk with white lace trimmings.

The engagement is announced of Miss Amy Louise Thomas of Weymouth and Mr. William J. Burgess of Duxbury.

Mr. John Reynolds and Miss Jane Cameron were united in marriage on Wednesday evening by the Rev. Robert Westly Peach.

Mr. and Mrs. Walter Pratt of North Weymouth are receiving congratulation on the birth of a little girl on Sunday last.

Mr. and Mrs. C. F. Wilde and daughter of Wollaston spent Memorial day with Mr. and Mrs. Charles H. Belcher of Randolph.

Monday is Founder's day at Thayer academy and in consequence the students have a holiday.

Mrs. H. J. J. Billings is the delegate of the Hyde Park Women's Christian Union, and sailed Wednesday to attend the convention in England.

Miss Margie White of Braintree will leave for Europe with the Misses Shaw June 20.

Past Grands Goodridge, Folsom, Stetson and Cobb, and other members of Mt. Wollaston lodge, are at the Odd Fellows' celebration in Randolph today.

Rev. Oliver Huckell and Mr. John Herman Loud of Weymouth return home from Europe the first of July.

Among the June weddings is that of Miss Abbie Trash of Weymouth and Mr. Daniel Sullivan of West Quincy.

Piano Recital.

The pupils of Mrs. E. S. Bennett gave a pleasing piano recital, assisted by Mr. W. Archibald Willis, basso, of Waltham, and Master Harold Baker, violinist, at the residence of Mr. Chas. T. Baker, on Safford street, Friday evening. The programme consisted of piano duet with violin obligato by Roy Baker, Wallace Bennett and Harold Baker; piano solos by Masters Ernest Arnold, Roy Baker, Wallace Bennett, Freddie Mitchell, Eddie Mitchell, and Misses Nettie Gram, Florence E. Cummings, E. Gertrude Hutchinson, Addie M. Johnson. The Armorer's Song from Robin Hood, serenaded by Raff, and the Mountebank, were given by Mr. Willis. The selections were all well rendered, and Mr. Willis' songs were especially enjoyed by those present.

"Many of the citizens of Rainsville Indiana are never without a bottle of Chamberlain's Cough Remedy in the house," says Jacob Brown, the leading merchant of the place. This Remedy has proven of so much value for colds, croup and whooping cough in children that few mothers who know its worth are willing to be without it. ADAMS ST. BREAK.

House of Mrs. Chamberlain Ransacked Last Night.

BOSTON PROMPTLY NOTIFIED.

And Three Rough Characters are Arrested With Property.

The residence of Mrs. Ellen P. Chamberlain on Adams street was entered some time during Friday night and silver, jewelry and clothing to the value of \$125 was taken.

Entrance was gained by cutting a hole in one of the window panes, when the catch was turned. Once inside the party ransacked the lower part of the house and took everything of value that they could lay their hands on and then made their exit. In the house at the time were Mrs. Chamberlain, her daughter, and Mr. and Mrs. Charles West, neither of whom heard any noise.

Word was received by Chief of Police Hayden, shortly before noon, that three men had been arrested in Boston on suspicion of having been the parties who committed the break, and Officer McKay went in.

Investigation proves the suspicion to have been correct as some of the stolen property was found in their possession. They are hard character and two other officers have gone in to escort them to Quincy. It is a creditable job for the police and promptly nips the first break which might have led to others.

Children's Sunday.

Children's Sunday will be observed at the Congregational church Sunday morning at 10.30, taking the place of the regular morning service. The exercises will consist of responsive readings, a scripture exercises and singing, and the services will as far as possible be by the younger children. There will also be an address by Rev. Mr. Hardy the pastor-elect.

Children's Sunday will be observed also at the Atlantic Methodist church and the children will have the right of way at the morning and evening services. Among the special features will be the christening of the children by the pastor, with the water he brought from the river Jordan. A children's choir will conduct the singing. In the evening a concert will be given by the children, who will march into the church at seven o'clock bearing their elegant new banner.

Children's Sunday will be observed tomorrow at the Wollaston Congregational church. The Sunday school will occupy seats in the body of the house in the morning and listen to a brief address by Addison I. Foster, D. D., secretary of the American Sunday School union. The primary department will render two selections. Mrs. Ralph F. Alvord of Newton will sing the soprano solo by O. B. Brown, "What are These?" The anthem by the quartette will be Marston's "Like as a Father Pitieth his Children." The response will be "Nearer my God to Thee" by Lynes.

In the evening the regular double quartette of the church will bring their season's work to a close, when the eventide service will be used entitled, "The Days of Thy Youth." The special selections will be:

Antiem—"Remember now thy Creator." Double Quartette
Duet, contralto and bass—"The earth is the Lord's." Marsh
Miss Stella M. Haynes and Mr. Charles F. Wilde
Soprano Solo—"He will forgive." Moir
Miss Mary Virginia Hastings.
Chant—"Holy is Thy name." Goss
Double Quartette.
Response—"I will arise and go to my Father." Quartette—Misses Hastings and Haynes, Messrs. Wilde and Dickey.
Antiem—"Love not the World." Sullivan.
Double Quartette.
Duet, soprano and tenor—"Love Divine." Stainer.
Miss Hastings and Mr. Dickey.

Makes the Blood Pure

This is the secret of the cures by Hood's Sarsaparilla. Read this: "I am so glad to write that I am now in perfect health and it is all because Hood's Sarsaparilla made my blood pure. My health broke down with troubles peculiar to women, my nervous system was shattered and I had to take my bed. The physician said there was little hope for me. A neighbor told of wonderful cures by Hood's Sarsaparilla and I decided to try it. When I had taken 3 bottles, I could sit up and now I am perfectly well and strong."

Hood's Sarsaparilla has done all this for me." Mrs. C. F. FADEER, La Platte City, Colorado.

Hood's Pills cure habitual constipation. Price 25c. per box.

QUINCY BREVITIES.

Notes from Quincy Point, Wollaston,
Atlantic, South and West Quincy.

Probate court in this city next Wednes-
day morning.

The Quincy base ball club play at Nor-
wood this afternoon.

One more boy wanted to sell the Daily
Ledger in City Square.

Gordon's five cent store offers reductions
in tin ware for thirty days.

The lawn, trees, and grounds at the
public library are very nicely kept.

The large and beautiful tulip tree at the
Thomas Crane Public Library is in full
blossom.

Mr. Sidney A. Brown is moving into
one of the houses of the Atlantic Land
Company.

The depot yard looks like a hay field
this morning although the smell is some-
what different.

The West Quincys and South Quincys
are playing this afternoon on the Water
street grounds.

The estate of Mrs. Gibson at 17 Rodman
street will be sold by Auctioneer Kincaide
next Thursday.

Mr. George W. Morton has some hand-
some red cherries on a tree near his resi-
dence. Very early.

Another meeting of the City Council
next Monday evening. Will the order for
schoolhouses pass?

Does any Quincy man want to be Metro-
politan Water Commissioner? Three are
soon to be appointed.

It was a busy day this morning in court
and it will be late this afternoon before all
of the cases are heard.

There are over one hundred entries for
the bicycle races at Milton this afternoon,
yet Quincy may capture some of the prizes.

The president of the Fragment Society
calls a special meeting in the Unitarian
chapel, Wednesday afternoon, June 12, at
three o'clock.

It was rather cool Friday night for the
first moonlight excursion of the steamer
City of Quincy, yet those who did partici-
pate enjoyed the sail.

In the sermon Sunday evening at the
First Presbyterian church, the pastor pur-
poses referring somewhat at length to the
new Boston Daily Standard.

Friend Rogers has got the bicycle fever,
although he has not ventured on the streets
as yet. When he has learned, how would it
do to have a fat man's bicycle race.

The Quincy Cooperative bank is to re-
ceive fifty shares in the first series at its
monthly meeting in July. This is an ex-
cellent opportunity for those in need of
their money to withdraw, getting the
money put in and interest.

As illustrative of the practical value of
sewing in the public schools, it is interest-
ing to know that some of the skirts to be
worn by graduates of one of the grammar
schools on June 27 were cut and made in
the regular sewing periods during the
present term.

It would seem as though the city should
set a good example and keep the grounds
about the City Hall in a neat condition.
The grass on the north side is tall and un-
sightly. A summer or two ago the grass
was kept short and there was a bed of
colours. Why not now?

The services of Dr. J. M. Cutting, the
veterinary, are in demand throughout
southeastern Massachusetts. He has re-
cently operated on horses in Duxbury,
Plymouth, Wareham and South Yarmouth.
Mr. Wilkins of Braintree has employed
him for over twenty-five years, and en-
dorses him highly.

The Quincy Yacht Club is to put a
megaphone into the club house. Mr.
John L. Amory, the secretary of the
club, committee of the Hull Yacht Club
hearing of it writes to the club, "If your
club purchases one we should like to try to
talk from one club house to the other on
some day when the weather conditions are
favorable."

That part of South Quincy near the
Lincoln school continues to build up quite
fast and several new houses are in process
of erection, among which are a house with
store on the lower floor for Mrs. Bonner on
Liberty street, a large double house for
Charles McKenzie on Intervale street, a
house for Joseph Trepian on Nightingale
avenue, and a house for Mr. Hadden on
the corner of Intervale and Centre streets.

I have two little grand children who are
teething this hot summer weather and are
troubled with bowel complaint. I gave them
Chamberlain's Colic, Cholera and Di-
arrhoea Remedy and it acts like a charm. I
earnestly recommend it for children with
bowel trouble. I was myself taken with a
severe attack of bloody flux, with cramps
and pain in my stomach; one third of a
bottle of this remedy cured me. Within
twenty-four hours I was out of bed and doing
my household work. Mrs. W. L. DUNAGAN,

SHED AND QUARRY.

Newsy Items Among the Quincy
Granite Manufacturers.

An odd yet handsome monument has
just been completed and set up in the
yards of Milne & Chalmers. The monu-
ment is in the form of a cross 11 feet high
resting on a rustic base 5 feet high. On
the front of the base entwined with ivy
leaves is the name "O Hare." The cross
is polished front and back with rustic
sides. At the centre of the arm of the
cross are the polished letters I. H. S.

Henry W. Adrian, successor to R. E.
Turner, is getting out some fine work at
his shed, and promises to take front rank
among the Quincy manufacturers.

The Granite Railway Co. has secured
the contract for the pedestal of an equestrian
statue to be erected in New York to the
memory of Gen. U. S. Grant, William O.
Partridge of Milton is the designer.

An unique monument is to be erected
in Woburn by the Rumford Historical as-
sociation to mark the location of the dis-
covery of the Baldwin apple.

Swingle & Falconer have their large
polishing mills in full operation and are
turning out some fine work.

Long & Saunders and Thomas & Miller
seem to have plenty of work and have
some handsome designs on hand.

McGrath Bros. also have set up in their
yards some tasty monuments.

Eck & Sons have recently put in a
new boiler at their works.

Mr. John E. Johnson, who has been
superintendent of E. C. Willison's sheds in
Quincy, has been admitted to the firm,
which is now styled E. C. Willison & Co.
Birnie & Dack have put up a new de-
rivative to replace the one recently destroyed.
A fund of \$2,000 is being raised to erect
a monument to the memory of Harry
McGlenn. It should be of Quincy granite.

Fred Barnicot never had so many orders
for granite figures as now.

Badger Bros. are always busy, which
shows that the quality of their work is
of the best; also that advertising pays.

Among the new local granite corpora-
tions are Blue Hill Granite Co., capital
stock, \$20,000. Directors, T. H. McDon-
nell, H. E. Spear, J. F. Desmond. Also
Joss Brothers, with capital stock \$6,500.
Directors, John Joss, James Joss, Jona-
than Dinnie.

McDonnell & Sons are cutting a dupli-
cate of the "Pomeroi" j.b. They are also
cutting a polished round column monu-
ment.

The Lyons Granite Co. have recently
uncovered a granite surface 150x100 feet
on the north side of their quarry. They
are also building a new blastsmith shop
which will be provided with three forges.

TODAY'S COURT.

William Rogers was sent to Dedham for
three months for drunkenness.

John Walsh of Quincy was fined \$3 for
disturbing the peace.

Frederick P. Craigie was arraigned for
breaking and entering the Weymouth
depot of the N. Y., N. H. and H. R. R.,
and the delivery of railroad tickets to the
value of \$50. He was held in \$500 for the
grand jury.

Last April Cassimiro Ciardi entered the
yard of Natali Fassati armed with a re-
volver and aiming it at him made an at-
tempt on his life. Ciardi has also threatened
to do Fassati bodily harm and the latter is
very much alarmed. The case has been in
court ever since, having been continued
from time to time in order to give Ciardi
an opportunity to leave the State which he
has promised to do, but he has not done it
and as a last resort he was brought into
court this morning. At the affair in April
Ciardi was sent to Dedham and this case
was brought by Fassati that he might be
protected. The court ordered him to give
bonds in the sum of \$400 to keep the peace
for 6 months.

William Savage was fined \$10 for cruelty
to a horse at Quincy.

Tremont Theatre.

On Monday will begin the third week of
what has proved the most successful comic
opera produced in Boston for a good many
years. "The Sphinx," which is packing
the commodious Tremont Theatre to the
doors. The coolness of the Tremont is
something unprecedented, the decorations
unequaled, and the special features with
which the management regales its patrons
have all proved very successful. In the
lobbies, between the acts, a beautiful
Egyptian girl, Frommia, clad in the richest
raiment of the East, dispenses from an
Oriental booth Egyptian cigarettes to the
gentlemen; and in another part of the
foyer, piano and vocal concerts are given
at each intermission, making the broad
halls a charming promenade. Of the pro-
duction and the company nothing can be
said but in praise. Never before has such
a presentation been seen in Boston, the
scenery and costumes being something go-
goons, and the effect of every detail being
wonderfully beautiful. Mr. Askin has
certainly every reason to expect and
demand the attention of the public in this
respect.

BUSINESS IS QUIETER

But There is General Confidence in a
Good Fall Demand.

Continued Advance in Prices
the Feature.

Demand for Consumption Keeping Pace With
Increased Wages.

NEW YORK, June 8.—Bradstreet's today
says: The speculative spirit which seemed
to dominate both commercial and finan-
cial circles until within a week or 10 days
past is still less conspicuous in all lines.

Demand for staple goods in a number of
lines is stronger, notably at Boston,
Pittsburg, Chicago and Kansas City, par-
ticularly in dry goods, demand for which
at first and second hands has declined, as
is customary at this period.

While business throughout the country
may, therefore, be characterized as quieter,
the tone of staple markets continues
strong, and confidence in a good demand
when the fall season opens next month
remains unshaken.

The feature of the week, as heretofore,
is the continued long list of advances in
prices, notably those for iron and steel
and the upward movement of bank clear-
ings. Higher prices are recorded for some
cotton goods, shoes, hides, leather, paper,
pig iron, steel, galvanized iron, block
sheets, canned goods, hogs, wheat, corn
and some grades of wheat flour.

Prices for live cattle, wool, coal and
lumber are reported unchanged and firm,
while silver, cotton, petroleum and lead
alone are noteworthy as showing lower
prices than last week.

Dun's Review.

R. G. Dun & Co.'s weekly review of
trade says:

The tide of business is rising even as it
was falling just two years ago, with sur-
prising rapidity. The gain has gone so
far and so fast in some branches that the
more conservative four that have been
maintained. But the period of dullness
which comes in each market after an un-
usual rise brings as yet nothing like a
corresponding decline. Industries gain
much, but on the whole, a little, and then
gain once more.

The demand for consumption steadily
increases as the employment and wages of
the people increase. Demand for money
increases, but not so fast as the demand
for goods. The country, and an-
other 23 per cent more commercial loans
than a year ago, and all but two report
some gain. One serious question remains,
whether the crops will be full enough to
sustain a large business. But the worst
reports are better by far than the esti-
mates recently current.

Wheat rose 2 cents, fell back 2 with
realizing, and has again risen 3, with a
western estimate of a crop 80,000,000
bushels smaller than last year. It is
pertinent to remember that official and
most unofficial reports, down to a late
period, have been cut in some kinds of
wheat, but the yield about 80,000,000
bushels lower than last year, and for five
weeks have been 7,671,000 bushels against
6,941,500 last year, while Atlantic exports
included, were 670,000 bushels smaller
for the week, and have been in five
weeks 7,735,728 bushels against 11,945,478
last year. There is neither looking back
for farmers nor anxious haste in purchas-
ing by foreigners, to support belief in
scarcity.

Cotton Mills Doing Well.

Cotton spinning is doing better
weather at the south, but excitement and
prices rose again with the report of only
11.6 per cent decrease in acreage. Cotton
mills are doing well, with very satis-
fying orders for production lines, and
the market is strong with occasional
further advances.

In knit goods there is also some im-
provement and higher prices for yarn,
though prices have been cut in some kinds
of hosiery. The demand for goods looks
better and a fair start has been made in
orders for full goods.

Business in blankets is the largest since
1881 and the outlook in the line of
worsted and in cassimeres is thought
favorable.

Sales of wool continue larger than in
any previous year, and for the five weeks
have been 27,715,000 pounds against 26,300,000
in 1892, but demands of western
holders are causing much larger pur-
chases of foreign wool.

Iron pushes upward, and the advance in
finished products has become general.
Shipments of boots and shoes are still
larger than in any previous year, and in
most grades recent advances are paid in
large orders, but there is some slackening
in boots and women's grain, and but
shoes. Hides are higher at 84c. quoted for
western, and tanners hesitate, but leather
is stiff.

Failures for the week have been 195 in
the United States, against 216 last year.

Over the Border.

Bradstreet's says: There is no change in
trade conditions at Montreal, where crop
prospects are favorable. Trade has been
fair at Toronto, with better collections
and a favorable outlook. Nova Scotia
crop prospects are excellent, which is also
true of New Brunswick.

There were 87 business failures reported
from the Dominion of Canada this week,
against 27 last week.

Bank clearings at Winnipeg, Hamilton,
Toronto, Montreal and Halifax aggregated
\$2,644,000 this week.

Healy's Fair Offer.

LONDON, June 8.—William O'Brien, M.
P., in a recent speech at Cork, insinuated
that Tim Healy had conspired with ex-
Commons Patrick Chenevix to bring about
a bankrupt action in order to drive
O'Brien from parliament. Healy has
now challenged O'Brien to submit proofs
of the assertions and agreeing to pay
£250 if the charges can be proved, O'Brien

PITTSBURG BECAME RATTLED

And Consequently the Boston Team Won by a Narrow Margin.

BOSTON, June 7.—Tommy McCarthy's cleverness and schemes so completely rattled the visitors in the fifth inning that Boston scored two runs, which were enough to win the game.

Swept by Floods.
VIENNA, June 8.—Reports received here are to the effect that Kobersdorf, a Hungarian watering place, has been submerged by the sudden freshets of the swollen mountain streams. A hundred persons are missing. The torrents swept to the country adjoining, carrying away many of the massive bridges, and the peasants fled to the hills for refuge. Many families are reported homeless.

Hazards Expelled.
HOBOKEN, N. J., June 8.—There was a hazing row at Stevens institute yesterday when the incoming freshman class appeared for examination. Just as the fight was at an interesting point, Professor Bristol appeared on the scene. R. S. Post, P. B. Smith and William B. Rittenhouse were taken before President Morton and expelled. The students have asked President Morton to rescind his action.

Fighting in the Cameroons.
BERLIN, June 8.—The governor of the Cameroons telegraphs that the Germans have stormed four forts belonging to the rebellious Bakoko tribes on the lower Niger river. Two hundred natives were killed, many wounded and a large number taken prisoners. The German loss was 12 killed and 47 wounded. As a result of the battle, trading in that region has been resumed.

A Double Killing.
RALEIGH, June 8.—Ben Boyes and William Kimball, both negroes, who were employed on the same farm in Mecklenburg county, quarreled. Kimball began shooting with a pistol and Boyes fell at the second shot, but when dying drew a pistol and shot and killed Kimball.

Heavy Failure of Importers.
NEW YORK, June 8.—C. L. Woodbridge & Co., importers of dress trimmings, buttons, etc., made an assignment yesterday, with liabilities of \$300,000 to \$500,000. The assignment caused considerable surprise to the trade. The failure is largely due to carrying too large a stock.

Flogging On a Warship.
HALIFAX, June 8.—Flogging has been by no means abolished in the English navy, as two seamen of the flagship Crescent, now at this port, can testify. Yesterday each of them received 15 lashes on the bare back for attempting desertion.

Perished in Freight Wreck.
LITTLE ROCK, June 8.—The charred remains of three persons were found in the engines of 14 freight cars wrecked on the Iron Mountain, near Benton. The three victims are supposed to have been shut up in a freight car.

Cassett Arraigned.
DES MOINES, June 8.—President E. R. Cassett of the First National bank of Pella was arraigned here on the charge of bank wrecking and embezzling \$60,000. He was unable to give \$10,000 bail.

Dr. Wallace Dead.
NEW YORK, June 8.—Dr. William B. Wallace, who was vice president of the Irish National Federation of America, died yesterday at his home in this city.

Signs of Illness

Most all human ills send out signals to tell of their approach—little aches and pains that are not serious in themselves, but are forerunners of disease to come. Backache is a symptom of coming kidney trouble—don't neglect it because "it doesn't pain very hard."

Baker's Kidney Pills will cure the Backache and prevent disease from attacking the kidneys. These pills are safe to take—they contain no narcotics, mercury or injurious drugs—they are a vegetable preparation. They remove inflammation and act as a tonic. They cost 50 cents at the druggists. Book about Backache and Kidney trouble, free.

RELAY RECORDS BROKEN

In the Race Between the "Postal" and "Military" Bicyclers.

NEW YORK, June 8.—The Chicago-New York relay race ended at Sixtieth street and Boulevard this morning at 1:37. At 2 o'clock L. D. Munger rode into the bicycle academy on the corner with the red package addressed to General Miles. General Miles greeted Munger warmly.

The last relay should have reached the finishing point at 8 o'clock this morning. Arriving when they did they broke all American records for a relay race.

The great race, which had its start at Chicago at 9:30 o'clock last Wednesday morning, was begun after months of the most careful preparation. Two years ago, just after the first relay race between Chicago and this city, General Miles, then in Chicago, expressed himself as being strongly in favor of the bicycle in military life and urged that relay races be more freely indulged in. Believing that the wheel would in future play an important part in military circles, he himself became a rider and has had a great deal to say of the present race, which was organized almost on the strength of his words of encouragement.

The "blue" riders represented the military, the "red" the postal service. From almost the first day of the race the riders were ahead of the scheduled time, and there was a strong rivalry and a riding between the different colors to distance one another.

Yesterday morning there was not a bicycle rider in town who did not know that the relay riders were far ahead of the time and that they would arrive not long after midnight. At midnight there was a great throng at the junction of Sixtieth street and the Boulevard, the finishing spot of the race.

On the wall of a building close at hand, there had been posted an immense chart, showing the route from Chicago through Indiana, Ohio, Pennsylvania and New York, marked with figures that illustrated the progress of the riders.

It was 1:50 o'clock this morning when the red message was delivered to General Miles. The message said: "This message leaves Chicago, June 5, in front of my quarters, at 9 a. m. (Signed Wesley Merritt, U. S. A., commanding the department of Missouri.)"

The blue rider in the bicycle race arrived at the finishing point in this city at 2:33 a. m., 43 minutes behind the red.

HAS SIMPLY RUN AWAY

Farmer Gerrish's Opinion Concerning Benjamin Koffman.

The Lad Has Been Missing Since May 20.

Employer Admits Having Horsewhipped Him Upon One Occasion.

LEBANON, Me., June 10.—The people of Lebanon have another mystery to solve in the disappearance, just four weeks ago last night, of Benjamin Koffman, a 14-year-old boy, from the home of a farmer named James Gerrish. Friday and Saturday rumors were afloat to the effect that the boy's body had been found in the woods in the rear of the Gerrish farm buildings, but this proved to be false on investigation by a reporter.

Yesterday a reporter called at the home of Farmer Gerrish, but found that he was absent. Mrs. Gerrish showed a letter from the boy's guardian, Frank Schirmer, of Boston, to Mr. Gerrish, in which he stated that he had seen nothing of the missing lad, and advised that the town authorities be notified.

Mrs. Gerrish said that she thought the boy had simply run away. They had written to his relatives and to his guardian, but none of them had seen or heard of him. The fact that the boy had disappeared, Mrs. Gerrish said, was discovered by Mr. Gerrish on the morning of May 20. Mrs. Gerrish stated that Mr. Gerrish had deposited a sum of money in the Somersworth bank for the boy, and that the boy had

Taken With Him This Bankbook. The reporter asked if the bank had been communicated with, to which she replied that it had not. She said that they had written to the boy's aunt, Mrs. Frank Place of North Berwick, but found that he had not been there.

Mr. Gerrish drove into the yard, and was questioned by the reporter. On being told of the rumors to the effect that he had ill-treated the boy, he said that once, and only once (last fall, in haying time), he had horsewhipped the boy for disobedience. He said that the boy had simply run away, that he had twice run away from the home for Little Wanderers in Boston, and the second time he was sent to him by Mr. Schirmer.

The reporter saw Mrs. Place of North Berwick. She says the boy complained to her of ill-treatment by Gerrish, and she told him to come to her home, but she had not seen him. This was a short time before the boy ran away. The reporter called on the cashiers of all three banks in Somersworth; none of them remembered Gerrish ever depositing money for the Koffman boy. The boy had not been near any of the banks. If any deposit was made it was at the Somersworth Savings bank, and there the time lock was on.

Struck by a Bottle. LYNN, June 10.—The fatal assault case which occurred here Saturday, in which John H. Hennessey was killed by a bottle in the hands of Edward H. Belcher, has caused no end of comment, and the sad affair is the talk of the city. Both were members of Saugus lodge, Knights of Pythias, and Belcher was prominently identified with many other fraternal organizations. Hennessey was a Catholic, and took exception to a statement made by Belcher, who is a non-Catholic, about his religious belief. As the discussion was continued, personalities began to dominate, and in the heat of the dispute Belcher dealt his victim a blow that caused his death. Belcher's bond has been placed at \$10,000, and he will be arraigned tomorrow on the charge of manslaughter.

No Compromise. PROVIDENCE, June 10.—A large delegation of prominent labor men here went to Olinville yesterday and endeavored to persuade the members of the district council to call off the strike in all mills except the National, Geneva and Atlantic. They claimed that the strikers had no grievance at present against any mill owner except Mr. Fletcher and the proprietor of the Atlantic and Geneva mills. Therefore, they thought the employees of the other mills should be allowed to work. Nearly 10,000 persons attended an open air meeting at Meriden flats yesterday afternoon. All speakers were loudly cheered. When the chairman asked all persons present who wished to return before an increase of wages was granted, not a single hand was lifted.

Dead Comrades' Memories Honored. BOSTON, June 10.—The second Sunday in June is the day set apart by the veteran firemen in many cities in this state for the observance of Firemen's Memorial day. The several organizations held appropriate services, and the graves of their deceased comrades were strewn with flowers. Beautiful weather greeted the veterans, and their number were augmented by several hundred friends of the parading companies and the friends and relatives of the deceased firemen, who were interested spectators of the exercises in the ceremonies.

Yankee Dan's Hopes. PROVIDENCE, June 10.—"Yankee Dan" Sullivan, who is serving a life sentence in the state prison for the murder of Haswell, was informed yesterday of the arrest of Dalton at Atlanta, who is charged with being an accomplice of Sullivan's in the murder. Sullivan said that if Dalton told the truth when he arrived here (Sullivan) would be proven innocent. Sullivan still maintains that when he pawned Haswell's watch for Dalton he did not know it was stolen.

Calvin Everson, 75 years of age, at Pembroke, still makes pegged slippers in his little shoe shop. These goods are put out in the old way by a Weymouth manufacturer.

Learned Mills Burned.
NORTHAMPTON, June 10.—The John M. Learned Silk mills were totally destroyed by fire last evening. The only building saved was the brick one, in which was the company's safe. The origin of the fire is not known, but the flames were first seen in the vicinity of the boiler house by the night watchman. The buildings being wooden, the structures burned like tinder.

Strikers Shut Out.
NORTH BILLERICA, Mass., June 10.—A notice has been posted at the Talbot mills here stating that the works will be closed until further notice. It also announces the discharge of all employees who joined in the strike, stating that only individuals would be considered in the efforts of the company to secure a new working force for the mills.

EDITORIAL COMMENTS.

HERE is another argument for the Metropolitan water which will not hold water. The Advertiser says in its advocacy of the scheme:

"There are two things most gratifying to know in connection with the question. The city will not be directly taxed, as the income from the water department should be sufficient to pay Quincy's assessments. There are no politics in the matter."

What does the last annual city report say as to the water balance? Here are the figures, the receipts being only two-thirds of the cost:

EXPENDITURES, 1894.	
Maintenance,	\$13,425
Interest,	27,275
Maturing debt,	25,000
Total expense,	\$65,690
RECEIPTS, 1894.	
Services, 1894,	\$40,943.05
Services, 1893-4,	3,579.74
Total income,	\$44,522.79

A direct tax of \$25,000 was levied to pay maturing water debt, and it will be some years before the income will provide for this, to say nothing of the added \$25,000 which the Metropolitan assessment would add. The expenses seem to be increasing nearly as rapidly as the income. The maturing debt increases each year, and also the interest, and the appropriation for maintenance this year is \$14,500.

THE BURGLARS.

How Their Arrests Were Secured—Other Property Recovered.

Chief of Police Hayden and his officers did a good piece of work Saturday, and as a result three burglars spent Sunday behind the doors of the police station.

Early Saturday morning the chief was informed that the residence of Mrs. Ellen P. Chamberlain on Adams street had been entered and articles to the value of \$125 taken. He immediately visited the premises and got a list and description of the articles and promptly notified the Boston police.

At 10 o'clock he received word that Boston officers had arrested three men pawning articles on Pleasant street and Officer McKay was sent in to identify the articles, which proved to be some of those taken from the residence of Mrs. Chamberlain.

Later the men were brought to Quincy and locked up. They gave their names as Bernard A. Davis, Timothy J. Hayes and Michael Gibbons. Gibbons claims his home in Brockton, Davis at 43 West 2d street and Hayes as 10 Mathews street, Boston.

Gibbons has served time in the State prison at Charlestown, and Davis's photograph adorns the rogue's gallery, having been arrested in 1892 for express thieving. The parties had part of the property with them when arrested, and the balance was found later in the day in pawn shops.

Besides this Chief Hayden has secured the coats, clock, robes, etc., stolen at various times from the residence of Hon. William B. Rice, John C. Randall and John E. Drake. The party who did this work, it is alleged, being Thomas Neil, who is now in Dedham waiting trial for a similar offence in Brookline.

Neil formerly worked in Quincy for Mr. Drake and after leaving him it is alleged he committed the thefts. He will be brought to Quincy on a habeas. It is also said he is wanted by Milton officers for a like offence.

Davis, Hayes and Gibbons were arraigned in the Quincy court this morning.

CHILDREN'S SUNDAY.

The Day Observed by Many of the Quincy Churches.

SOME PLEASING PROGRAMMES.

Notes from Other Services in All Parts of the City.

Children's Sunday was observed at the Centre Congregational church. The morning service was in charge of Supt. Branch and the greater part of the programme was by the primary department. The edifice was crowded, although raised seats on the platform were occupied by the children. There were pretty floral decorations.

The programme was as follows:
Processional, "God is Love" Primary dept.
Singing, "God is Love" School
Responsive reading, 100th Psalm
Singing, "Look out for the signal" Boys' Chorus
Responsive reading, 23d Psalm, Primary

Prayer, Rev. Albert Bryant
Song, "Jesus loves little children" Primary
Recitation, Ernest Munroe
Scripture exercises, boys and girls
Singing, "Our homeward march" Girls' chorus
Recitation, Grace Skinner
Recitation, Mildred Gill
Singing, "Italian hymn" Congregation
Exercise, 13 boys and girls, Primary dept.
Singing, "Surely God doth know it" Girls' chorus

Offering, Everett Hayden
Recitation, Fred Jones
Recitation, "Lead me every day" Primary
Address, Rev. Albert Bryant
Singing, "Wake the cheerful song" double quartette
Recitation, Walter Beven
Recitation, Jesse Gould
Singing, "Every day will I bless Thee" School

Benediction.
There was a large attendance at the Children's Sunday service at the Wollaston Congregational church, both morning and evening. The service was conducted by the Rev. Addison L. Foster, D. D., secretary of the American Sunday School Union. The musical programme under Mr. Charles B. Dickey's direction was unusually good.

"Why I was baptized" was the subject of the Christadelphian lecture Sunday evening.

Rev. C. W. Wilder preached a sermon in the morning to boys and girls. He took as his text, "And the streets of the city shall be full of boys and girls playing in the streets thereof." He said he would not tell them where it could be found, but it is the only verse in the Bible in which boys and girls are spoken of. He wished them to see if they could find it, and tell him next Sunday where it may be found.

There have been two periods in the history of the world when there were no boys and girls, the first before the birth of Cain and Abel, the second when Noah and his family came out of the ark.
All men and women have been boys and girls, and what boys and girls are good for is to make men and women.
All desire to be good when they grow up, it is important then to be good boys and girls now, for people grow up to be, in character, just about what they are in childhood and youth.
Work and play both needful to develop boys and girls properly. But goodness, which goes to make true greatness can be gained only by sincere and earnest effort.
In the evening the annual Children's day concert was given by the Sunday School. The programme was as follows:
Voluntary (by Orchestra of 8 pieces.)
Singing by Congregation.
Responsive Reading.
Prayer.
Solo, Mr. Bullock.
Address, Harvey Coates.
Singing by School.
Exercise by five girls.
Recitation, Frances Shanks.
Recitation, Mildred Colgan.
Singing.
Recitation, Blanche Morrison.
Recitation, Erma Douglas.
Sunshine Exercise, Ray Moore and eight boys.

Recitation, Roscoe Sanders.
Recitation, Helen Campbell.
Exercise by ten children who graduated from the Primary to the Intermediate department of the School.
Remarks were made by W. C. Sanders, Superintendent of the School; Miss Rena M. Chamberlain, Superintendent of the Primary Department, and by Rev. C. W. Wilder.

Recitation, Lola West.
Memorial Exercise by Miss E. H. Wilder's Class in honor of Miss Jennie McKeen, lately deceased.
Reading, Miss Bertha Nichols.
Singing.
Exercise, (The Golden Gate), by seven young ladies.
Singing by Congregation.
Benediction.

Large congregations were present at both services. In the evening it was necessary to open the vestry and bring in a large number of extra seats.

At the Calvary Baptist church, Rev. C. A. Parker preached from Job 9, 32:33. He is not a man as I am that I should answer him, and we should come together in judgment, neither is there any days man betwixt us that might lay his hand upon us both.

"A gospel of gentleness or how human greatness arises from it," was the subject of Rev. Preston Gurney's discourse on Sunday morning at the Wollaston Baptist church. Mr. Gurney said that gentleness was one of the most potent factors in this world. His text was found in 2d Sam. 22:36.

Many of the Wollaston Baptist young people have joined the big Endeavor chorus and have been rehearsing for the July convention with Section 2.

Seldom have the attendants of the First church listened to a better sermon than that preached Sunday morning by Rev. Elery C. Butler who took for his text these words from Ecclesiastes 12:8; "Vanity of Vanities."

The children's day services at the Washington Street church yesterday, were well attended. The sermon in the morning was especially for the children, and the pastor chose as his text, "Remember now thy Creator in the days of thy youth."

The decoration committee outdid themselves in supplying and arranging flowers for the day. The tastefulness of the display was remarked by all.

The children's day concert in the evening, given by the children was enjoyable though marred by the forgetfulness of several of the participants. The impression made was that very little time had been given to rehearsing. The Superintendent, Mr. Sherburne, deserves much credit for his tireless efforts to build up the school.

The really good singing ability of our congregation is not as fully represented in the choir as it might be. We believe that if more of the capable ones of the church and congregation would rally to the support of Mr. Sherburne in behalf of the Sunday school, and to Mr. Pollard in the volunteer choir, the present efficiency of these departments might be doubled.

It was announced during the day that a Junior Christian Endeavor would be formed on next Sunday. The prospects are for a large and active membership.

The Christian Endeavor society had a successful meeting under the leadership of Edward Damon. The chief lack of the organization is of more to do independent work, and less "expecting" of others. The society recently turned over \$25 of their funds to the treasury of the church.

"Athens, Rome, Jerusalem," formed the subject of the discourse in the West Quincy Methodist church, Sunday morning. The first representing culture, the second power, the third religion. Three cities that centre attention in studying ancient history, and still are associated with our best feelings and best interests. We owe much to each of them, but no one alone was equal to the problem of man. Together they contributed to that expansion of mind which the scriptures call the fulness of time when Christ came. Athens however much she may have educated men to clear thought and to a delicate sense of beauty, has not awakened and satisfied the religious longings of humanity. Rome has left its mark of dominion power and conquest all over Europe, go where you will you may find patches of Roman roads, signs of Caesar's stables. But Greek or Roman could not do for man, what Paul's religion would do. Jupiter or Zeus, Venus or Aphrodite, represented never anything that appealed to man beyond the pleasant and the sensual. Pantheon and Parthenon were crowded with duties, but none would compare with the unknown God of the Hebrew. Jerusalem is Jerusalem the golden, and means for us the Christian religion, whose one single point is love. It is love which is the fulfilling of the law and end of the commandment. This can save and alone can save our great modern cities and our great and noble republic. In the evening a praise service was held, the singing was led by Mr. Charles Goucher. It is expected that Children's day will be observed next Sunday at the M. E. church, West Quincy, and the exercise entitled, "The Golden Gate," will be used. Rehearsals were appointed for the week and a committee on decorations for the audience room of the church was chosen by the Sunday school.

School Attendance.
The average daily attendance at the Quincy public schools for the four weeks ending May 31 was 3523, less than in April because of the prevalence of measles at Quincy Point. The Willard and Coddington lead in per cent:

Berthman-Fortin.

Mr. N. F. Berthman, one of the excellent composers in the DAILY LEDGER office, left his case quietly on Saturday afternoon, little earlier than usual, to go home, as his companions in the office thought, to spend Sunday; as has often been his custom during the spring months. Our readers can judge of the astonishment this morning, when news came that their brother composer had been captured by a sweet miss of Spencer, and had had the silken cord tied by Rev. Mr. Genet. As the typos did not know that he had a sweetheart it certainly was a great surprise.

Fiery Lakes of Blood Red Lava.

The Hawaiian Exhibition of the Burning Volcano of Kilanea in the old Gettysburg Building entered upon its seventh week Monday, contrary to there being any signs of a diminution of interest, the attendance was greater than ever, strongly indicating the popular hold upon the amusement-seekers of Boston and all New England that this attraction has. A book of valuable information on Hawaii itself, and upon the Volcano of Kilanea as it exists in that country, and at 541 Tremont street, has just been published by Manager Sesser for free distribution to any who may apply for them.

QUINCY BREVITIES.

Notes from Quincy Point, Wollaston, Atlantic, South and West Quincy.

Another beautiful Sunday.

Another busy day at the district court.

One more boy wanted to sell the Daily Ledger in City Square.

What delightful weather we are having. Cool east breeze for the last six days.

Judge Pratt and his wife have gone to New Hampshire to attend the funeral of his nephew.

Quincy people will compete for the prizes offered at the opening of Lovell's grove next Saturday.

The main entrance to Merry Mount park should be improved and a good roadway built in installments.

The National Guard band of Boston gave a concert at Lovell's grove, Sunday afternoon and evening.

One of those enjoyable clambakes of the Wollaston people took place Saturday afternoon at Wollaston beach.

Mr. and Mrs. Melcher of Bigelow street entertained several out of town friends at a lawn party Saturday afternoon at their residence.

The Tigers of South Quincy defeated the Dublin Stars on Saturday last by a score of 13 to 11. Considering everything it was a close game.

Winfield S. Knowles and family of Ashmont spent Sunday in Atlantic. They were warmly welcomed by former neighbors and friends.

Children's day will be observed in the Universalist church next Sunday. At 11:30 children will be baptised by the pastor, Rev. A. E. White.

The Burkhardt brothers entertained their employees and their families at Squantum, Sunday. A clam bake was served and a pleasant day enjoyed.

The sale of the house of Warren S. Parker, occupied by William Edwards, is reported by George H. Brown & Co. William Harkins was the purchaser.

Mr. Charles B. Dickey of Wollaston leaves on June 29 for Portland, Me., where he becomes the manager of the eastern department of E. Russell & Co.'s mercantile agency.

Mr. Walter Wellington is visiting his parents, Mr. and Mrs. W. J. Wellington of Belmont street, Wollaston, after an absence of seven years in the West. Mr. Wellington is a resident of Kansas City, Mo.

Among those who leave on the excursion of the Massachusetts and Suburban Press Associations for Nova Scotia, today are Mr. and Mrs. C. C. Hearn, Dr. H. C. Halliwell, and Frank F. Prescott of the DAILY LEDGER.

Three Quincy men were among the 120 to start in the 10 mile road race of the Riverview bicycle club at Dorchester Lower Mills Saturday afternoon but only one of the three, Bonner, finished he being number 18 in the line.

Among those awarded prizes for the solution of the prize story of the Boston Post were Annie M. Guen of 114 Washington street, and Mrs. Inez J. Green, each of whom were awarded a second prize of \$10 each. Several other Quincy ladies sent solutions.

The Rooters club of Providence, R. I., made an excursion to Lovell's Grove, Sunday, coming in the steamer Surf City. The party landed on the Quincy Point side and marched to the grove where they remained about an hour, and then took their departure.

The Quincy Musical society is announcing a system of subscription for concerts next season, which is not unlike the scheme used by the Apollo and Cecilia clubs. A blank form is to be filled by each subscriber, and sent to the treasurer, the payment to be made at the time of the first concert.

The fire department was called out Sunday afternoon at 3:50 by an alarm from Box 62 for a fire on Neponset bridge caused by some one throwing a lighted match or a cigar on the dry chips. The loss will not amount to anything and what little fire there was could easily be extinguished without calling out the department.

Children's Sunday was observed at Memorial church. At the morning service the pastor preached on "Children the Messengers of God." Two children sons of Charles R. Safford and Charles F. Merrick were baptized. Bibles, ten in number, were presented to the children baptized last year. The evening was devoted to "The Life of Christ," illustrated.

"Many of the citizens of Rainsville Indiana are never without a bottle of Chamberlain's Cough Remedy in the house," says Jacob Brown, the leading merchant of the place. This Remedy has proven of so much value for colds, croup and whooping cough in children that few mothers who know its worth are willing to be without it.

CRAZED BY DRINK.

Actor Emmett Tried to Kill His Wife on a San Francisco Street.

SAN FRANCISCO, June 10.—J. K. Emmett, Jr., attempted to murder his wife Saturday night, and was only prevented from executing his design by the forcible interference of neighbors. Emmett had been out town all day, and in the evening returned home in a drunken condition.

He and his wife had an altercation and she fled from the house. Emmett pursued her into the street and fired a pistol at her at close range. Then he caught the unfortunate woman and beat her about the face with the butt end of the weapon. Two young men pulled the maddened actor from his victim and turned him over to the police.

Mrs. Emmett was taken to the receiving hospital, where she refused to allow her wounds to be examined. She had a violent attack of hysteria, and the surgeons could do nothing with her. She insisted she had not been shot, and said her husband was too big a coward to shoot at her. There was a slight wound on her temple, and the police surgeons said the bullet glanced from the bone and lodged under the scalp.

Baby Sinnott, an 8-year-old child, who plays with the Emmetts, made an heroic attempt to save Mrs. Emmett from her husband's wrath, but was thrown aside by the drink-crazed man.

Mrs. Emmett had recovered her self-possession yesterday and refused to discuss the trouble with her husband. Emmett himself said he had no cause for shooting his wife, and attributed his deadly assault to a premonition of much drink. Mrs. Emmett will probably not prosecute her husband, and the matter will be dropped.

Mrs. Emmett is now entirely out of danger. Emmett claims that the entire affair is a blank to him. He was released on bail. He immediately took the pledge and says he will never drink another drop. There was an affectionate scene between Emmett and his wife after his release.

MASSACRE AT CHENG TU.

Those Connected With American, French and English Missions Slaughtered.

SHANGHAI, June 10.—It is almost certain that a massacre of all the persons connected with the English, French and American missions at Chengtu has occurred. Neither men, women nor children have been spared, according to the report. It is admitted that telegrams have been intercepted by the government, the object being to conceal the news of the massacre. A French gunboat is en route to Wuchang to investigate the report.

Street Conflicts in Vienna.

VIENNA, June 10.—Ten thousand laborers gathered on the streets of the city yesterday, according to a provocative arrangement. Socialist leaders made speeches to the crowd. Upon the arrival of the police they declared the meeting illegal, and requested the audience to disperse. The crowd noisily separated, but the arrest of a man named Pelgi caused a collision between the police and the Socialists. The police were stoned, and many small fights occurred in various portions of the city.

Fires Take a Fresh Start.

BRADFORD, Pa., June 10.—The forest fires were renewed fiercely Saturday and are still burning. Fires are reported in the vicinity of the Kane oil fields. Ormsby is again the scene of destructive fires, and a large amount of valuable timber has been destroyed. Fires are reported in the vicinity of Mount Alto and Mount Jewett. A destructive fire is burning at Sugar Run, and destroyed a trestle on the Allegheny and Kinzua railroad and a large amount of timber.

Four Girls Drowned.

DUBOIS, Pa., June 10.—A party of seven girls, whose ages ranged from 12 to 16, were bathing in Methoning creek at Big Run. But one of the party could swim, and when Maggie Anthony suddenly sank in a hole of deep water a panic ensued, and all were so bewildered by the crying child that they could not rescue her. The girl who could swim managed to rescue two of her companions, but could do no more, and the other four were drowned.

Threatened With Starvation.

WICHITA, Kan., June 10.—The following appeal has been from the hunger-stricken people: "In the name of suffering humanity, we appeal to you for such food and other things as you can spare to help the destitute, and that as soon as you possibly can, to suppress the hunger of crying children. Ship to the Lamont Township Aid association. The Rock Island carries supplies free of cost."

After Thirteen Years.

LOWEVILLE, N. Y., June 10.—Albany Radley, 60 years of age, of Watson, the wife of Philo Radley, is in jail, charged with the murder of a 6-day-old infant, born to her unmarried daughter 13 years ago. The deposition was made by her daughter-in-law, now Mrs. Henry Wright.

Not Stopping at Expense.

MADRID, June 10.—The commander of the naval forces at Havana has been authorized to purchase merchant vessels and utilize them as cruisers for the purpose of preventing filibusters and all parties of the insurgents from landing on the shores of Cuba.

Killed on an Electric.

STREATOR, Ill., June 10.—A Chicago and Alton freight train was backed into a trolley car on the street railway here and killed two passengers. The motor man was knocked off the car, but was not seriously injured. There were no others on the car.

Strangled by Smoke.

PITKIN, Colo., June 10.—An engine ran into Alpine tunnel with a crew of men on it. The ventilation of the tunnel is poor, and the engine made the men choke with air so stifling that the men were quickly overcome by suffocation, and four soon died.

Prosperous but Despondent.

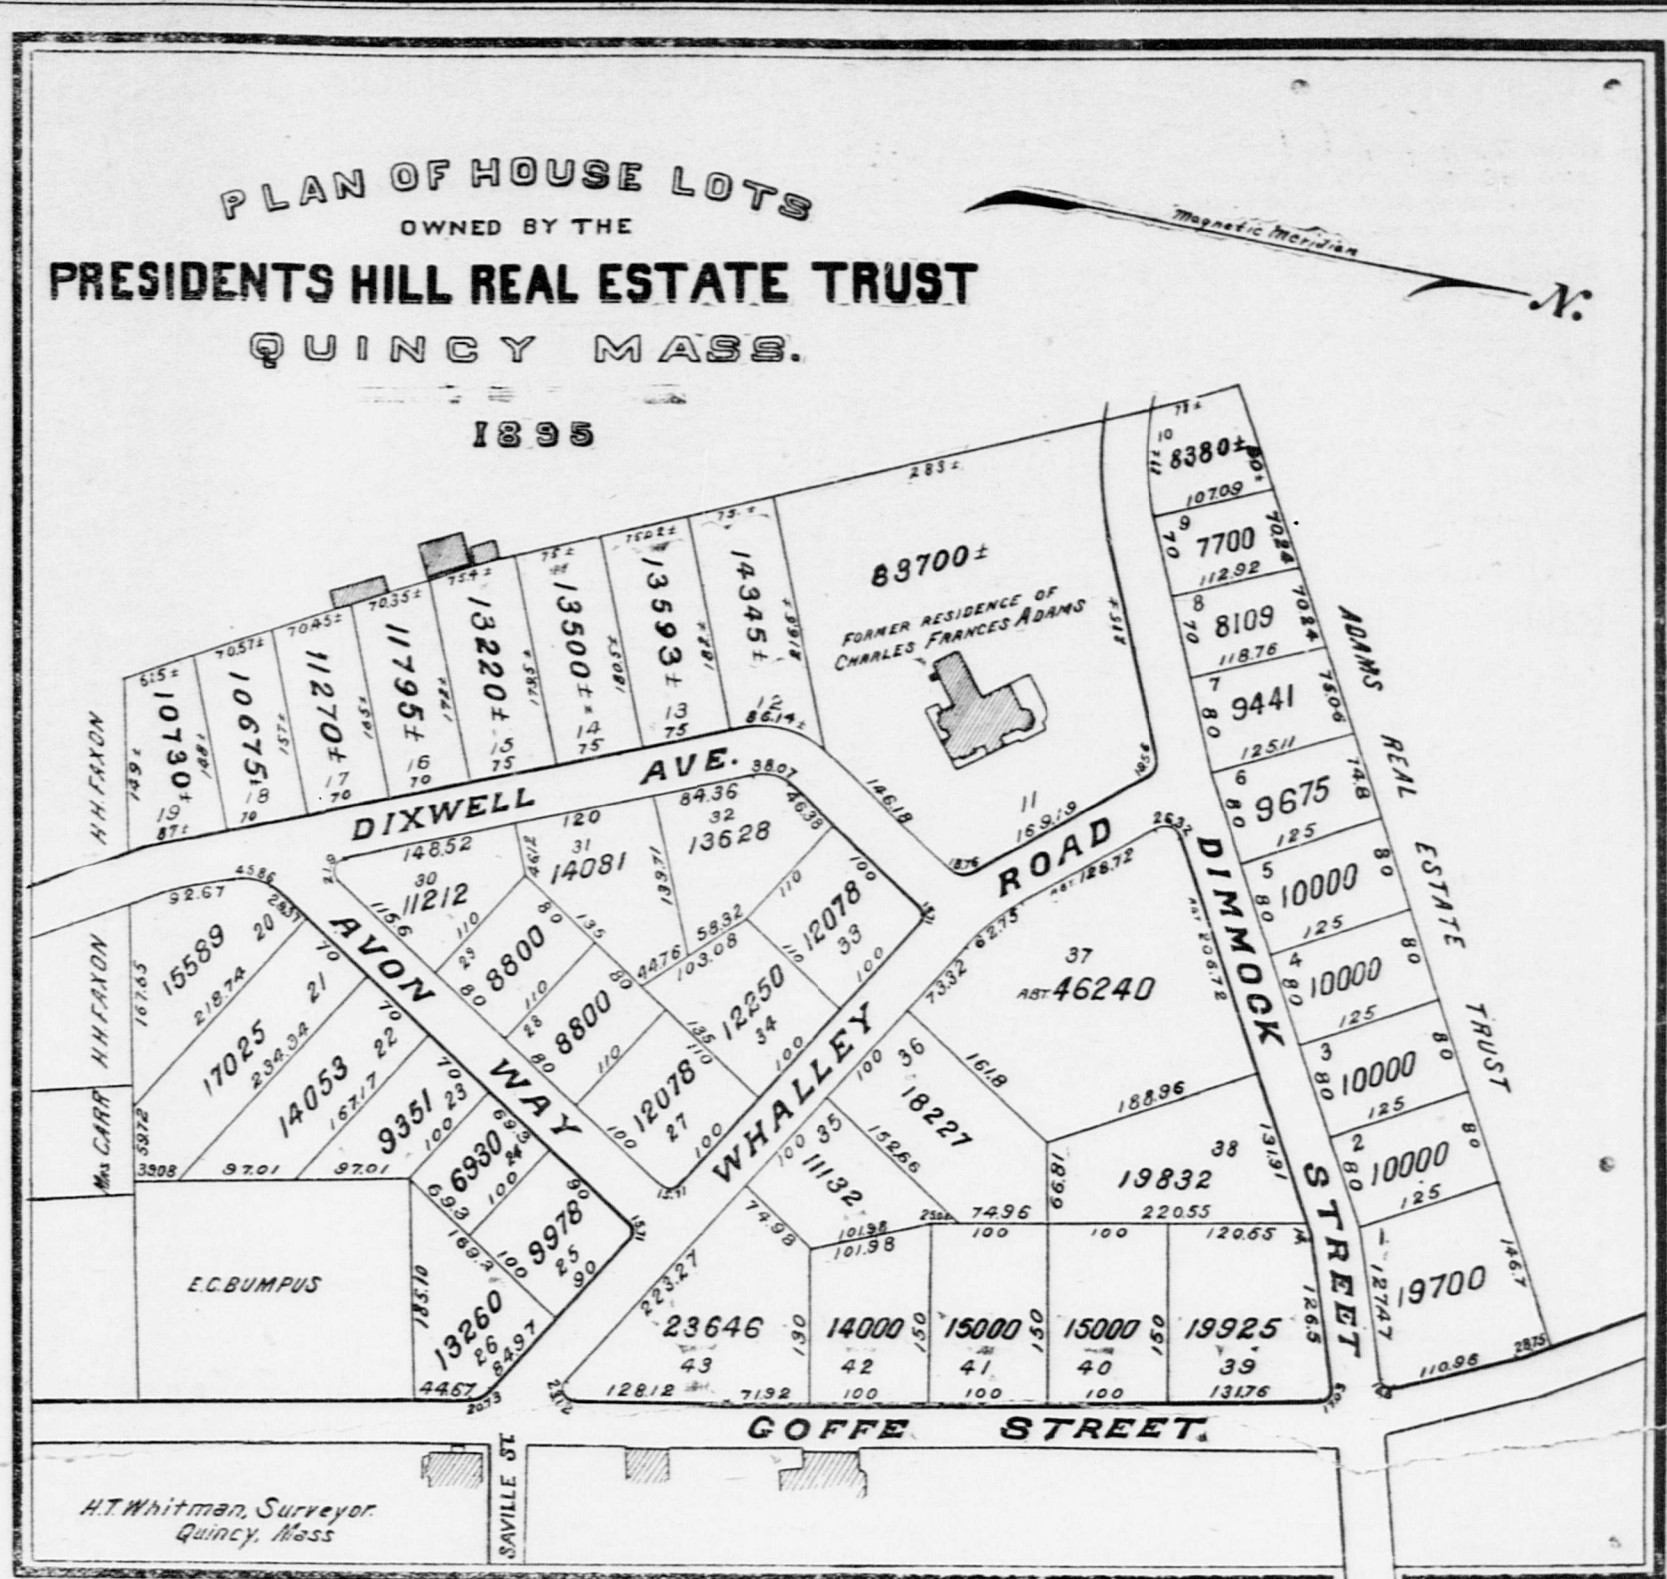

NEW YORK, June 10.—Franklin Bonker, a contractor, committed suicide by shooting last evening at his residence in Jersey City. Bonker was in good circumstances, but was despondent because of certain business disappointments.

Gales in Gulf Stream.

HALIFAX, June 10.—Steamer Alpha, from Jamaica and Bermuda, experienced heavy gales in the Gulf stream, which resulted in her being several days overdue.

Famous Bird Burned.

RALPH, June 10.—Renfro Inn, at Mount Airy, has been burned. There were many guests, but all escaped, though nearly every one lost his baggage. The hotel cost \$42,000.

This property contains about 17 1/2 acres of land and a large mansion, recently the residence of C. F. Adams, Esq., and is located upon President's Hill in this city, within two minutes' walk of Quincy station, N. Y. & H. R. R. By reason of its natural advantages and the liberal expenditure of its former owner, being well graded and interspersed with beautiful trees and shrubbery of many years' growth, make it one of the most desirable locations for a home of any of the many beautiful sections surrounding Boston. Wide avenues are now building—the property has been divided into lots of reasonable sizes for residential purposes, and are now for sale under proper restrictions. TODAY'S COURT.

Michael Callahan was fined \$5 for drunkenness at Quincy.

Michael Chucuru was fined \$5 for disturbing the peace at Weymouth.

Maurice Griffin was arraigned for drunkenness at Quincy. Case continued one week.

James Tyler was fined \$5 for drunkenness at Quincy.

James Barry of Randolph was arraigned for being a vagabond. Case continued until Saturday.

William O. Holbrook was arraigned for non support of his wife Abbie H. Holbrook.

John Shatzel was fined \$15 for assault on Michael Shatzel at Quincy.

James C. Hoy of Boston was fined \$5 for riding a bicycle on the sidewalk at Randolph.

Timothy J. Hayes Michael Gibbons and Bernard A. Davis, the three men arrested in Boston Saturday while pawing stolen goods on Pleasant street, were arraigned in the District Court at Quincy this morning for breaking and entering the residence of Mrs. Helen P. Chamberlain on Adams street, Friday night, and the larceny therefrom of goods valued at \$125 the property of Mrs. Chamberlain and the other occupants of the house.

All three pleaded not guilty, Hayes only being represented by counsel and at his request was tried separately.

The court found probable cause to believe Davis and Gibbons guilty and held them in \$1,000 each for the grand jury.

Hayes contested his case, but the evidence was sufficient in the mind of the court, and he was held in \$1,000 for the grand jury.

BRAINTREE.

Memorial Sunday was observed yesterday by the members of the regular fire department and the Veteran Fireman's Association. The firemen met at the engine house on Franklin street and marched to the South cemetery, where prayer was offered by Rev. A. H. Ross of the Congregational church, and an appropriate musical selection was rendered by the quartette choir of the Baptist church, and then floral emblems were placed upon the graves of the firemen.

The column next proceeded to the Lakeside cemetery, where a similar service was performed, Rev. S. E. Ellis officiating.

From here the procession marched to the North cemetery, where, after prayer by Rev. L. O. Williams of the Universalist church and a selection by the quartette, the graves of former comrades were decorated.

Details visited the Plain street and Blue Hill cemetery, the Catholic cemetery at West Quincy and two cemeteries in Weymouth, and performed decoration services.

Scores at the Traps.

Over a thousand shells were fired at Saturday's shoot of the Wollaston Trap Club, which goes to show that the club is getting up more than a local reputation. There were four shooters present from Hingham.

Out of a possible 50 Allison of Hingham was high man with 42. Federhen was a good second with 41.

The score out of a possible 50 was as follows:
D. B. Lincoln 33; C. W. Tucker 27; H. T. Whitman 27; C. V. Starrett 25; H. M. Federhen, Jr., 41; C. L. Prescott 30; J. C. Morse 20; Geo. Elcock 16 out of 25; N. N. Atwood 7 out 25; Allison, 42; Howe 25; Breen 33; and Pauline 19.

In the contest for the three prizes of loaded shells given by H. M. Federhen, Jr., D. B. Lincoln won the first prize of 75 shells, score 39 including the handicap of 6; C. V. Starrett, second prize 50 shells, score 38 including handicap of 13; C. W. Tucker, third prize 25 shells, score 37 including handicap of 10.

There will be no shoot Saturday afternoon as there is to be one on the morning of the 17th at 9 o'clock.

FORKS.

The lines of the "Spalding" front fork will commend it at once. It is light and airy in appearance, yet stability has not been sacrificed to attain this end. Constructed entirely of tubing, there is no possibility of flaw in the fork crown, a weakness so much to be feared at this point in a machine, and which is inseparable from the old forged fork crown. Screwed to the bottom of the steering tube, and resting upon the top of the fork sides, will be noticed a pair of coasters—a pair of coasters in one piece that will not rattle, slip down or get lost.

MURDER AND SUICIDE.

German Aged Forty was Jealous of a Thirteen-Year-Old Girl.

Displeased by Attention of Boy Schoolmates.

Lizzie Coleman Killed by Henry Ledtke, Who Then Commits Suicide.

OSTERVILLE, Mass., June 11.—Lizzie, the 13-year-old daughter of William Coleman, a bright schoolgirl of this place, was shot and instantly killed yesterday by Henry Ledtke, a German laborer. Her brother, aged 14 years, who attempted to protect the girl, was fired at twice by the murderer, but both bullets went wide. Ledtke then placed the revolver which he had used against his own temple and fired, killing himself instantly. Jealousy on the part of the man, who was about 40 years old, toward the girl for associating with lads of her own age is thought to have prompted the act.

Ledtke has been employed in this vicinity for about three years, and has always been on friendly terms with Mr. Coleman, a farmer. The German had shown a great liking for Lizzie, but recently her mother had noted signs of displeasure at some slight attentions shown the girl by her boy schoolmates. This became especially marked when, not long ago, Ledtke threatened to shoot a 13-year-old lad living near the Colemans because he had walked home from school with Lizzie. At this not only Mrs. Coleman, but her husband and the girl herself became alarmed, and it was decided that Charlie Coleman, her brother, should accompany her to and from school.

Murderer was Desperate. In pursuance of this plan, brother and sister were together yesterday morning. They had reached a point about 500 yards from the house, when Ledtke suddenly appeared before them and came threateningly toward Lizzie, and pointing a revolver directly at her, fired. The girl had tried to shield her face by holding both hands before it. The bullet passed through both hands and inflicted a flesh wound in the face.

Charlie bravely stepped between his sister and Ledtke, which so enraged the latter that he fired twice, almost point blank, at the boy, but neither shot was effective, and the lad and his sister started to run toward home together. Ledtke sprang forward, and rushing up behind the girl, he sent a bullet into the back of her head, killing her instantly. He then placed the smoking muzzle to his own head and discharged the remaining bullet into his brain, falling dead in his tracks. The frantic parents and neighbors, attracted by the sound of shots, rushed to the scene, but they were too late.

The community is stricken with grief at the occurrence, the like of which has never come near this vicinity before.

CHARGED WITH MURDER.

Boston Woman Suspected of Having Caused the Death of a Peddler.

BOSTON, June 11.—Mrs. Mary A. Kerrigan of 1182 Tremont street was arrested last evening on a charge of murder. It is alleged that she caused the death of Francis J. Sullivan last Saturday night by pushing him against a stair railing, which gave way, causing Sullivan to fall a distance of 25 feet. The fall broke his neck, killing him instantly. At the time of Sullivan's death, the police were called to the scene, and he was found lying on an elevator well, by mistake, and met an accidental death. It was found that Sullivan, who was a provision peddler, and lived on the floor below Mrs. Kerrigan, had sold her a quantity of greens. A dispute occurred over the price, and a wordy war resulted. It is alleged that in the heat of the discussion Mrs. Kerrigan pushed Sullivan. The latter fell against the dimly railing, and, losing his balance, fell to the bottom of the building.

He Threw Vitriol.

DOVER, June 11.—Albert P. Johnson of North Berwick, Me., was arrested in this city on a charge of throwing vitriol upon Miss Annie H. Wadleigh of Wells, Me., destroying her clothing. The act was committed at the depot in this city. The young lady alleges that Johnson is a discarded lover, and that he committed the act because she was keeping company with another young man. Johnson gave bonds for his appearance before the police court.

Hurtful to Newspapers.

NEW HAVEN, June 11.—The New York, New Haven and Hartford Railroad company issued general orders today forbidding the carrying of news letters, outside of mails, by their trainmen. The company is obliged to do this under threat of prosecution by the government as the practice so long in vogue is a violation of the United States postal laws. The new rule will affect every newspaper of importance in New England.

Denies Guilt.

PROVIDENCE, June 11.—Detective Parker arrived here last night with Martin Dalton, who was arrested in Atlanta, on a charge of murdering Anthony J. Haskell on July 18, 1892. Dalton says he can prove his innocence before "12 honest men." He denies the statements of Sullivan, who is now serving a life sentence as an accessory, and said Sullivan told false stories to shield himself.

Argued With Razors.

BOSTON, June 11.—Two cutting affairs among colored people occurred in this city yesterday afternoon. Charles Howard cut Abraham Hanton with a razor during a dispute on Anderson street. Hanton was taken to the hospital in a critical condition. Benjamin Green was cut with a razor by John Monne on Middlesex street. Green was taken to the hospital and Monne was arrested.

Prices Away Down.

AUGUSTA, June 11.—Returns from Aroostook county potato dealers to the state board of agriculture show an aggregate loss from the recent slump in prices of \$875,000 in that county. People who held their potatoes for \$2 a barrel are selling them to the starch factories for 30 cents a barrel. The new potato crop, if it matures all right, will reach about 10,000,000 bushels.

Threatened by a Striker.

LEWISTON, June 11.—Joseph Bainville, a striking weaver of the Androssoggin mills, was in court yesterday on a warrant sworn out by Margaret D. Hoxie, who testified that Bainville said to her, as she was going to work: "I will fix you tonight so that you won't work tomorrow." Bainville furnished sureties to the amount of \$50 to keep the peace for three months.

Fog Cut it Short.

NEW LONDON, June 11.—The torpedo boat Ericsson was given a trial trip out in the Sound yesterday. It was the first trip since her speed tests were interrupted by accidents to her machinery last fall. She remained out but a short time on account of the fog. She is estimated to have reached a speed of 24 knots during one-half hour of the time she was out.

Have Gained in Deposits.

AUGUSTA, June 11.—The state tax assessed against the Maine savings banks for the past six months amounts to \$197,471, a slight reduction from the previous six months. But, while there is a falling off in taxes, there is an increase in deposits, which aggregate \$58,063,786, a gain of \$640,000.

Lived and Died Alone.

BETHEL, Me., June 11.—The badly decomposed body of Winthrop Jordan, aged 75, was found beside a brook near East Bethel. Mr. Jordan lived alone, and probably had wandered away from home during a period of abstraction and laid down to die.

EDITORIAL COMMENTS.

"IN most of the suburbs," says the Boston Globe, "new railroad stations have been erected during the past ten years, and the work is going steadily on. A railroad station formerly was about the dingiest and most ungainly piece of architecture that could be devised. But these new stations are models of architectural beauty, and add much to the appearance of the localities where they are situated." What can be said about the Quincy station, where more passengers take the trains daily, than at any other depot along the Old Colony Division. When was the old station built? And time asks, when shall we have a new one?

QUINCY BREVITIES.

Notes from Quincy Point, Wollaston, Atlantic, South and West Quincy.

Mrs. Osborne Rogers leaves today for a two weeks' visit to Hartford, Conn.

The Atlantic Land Company is putting up a number of pretty houses at Atlantic.

S. A. Brown of Amesbury has taken one of the Atlantic Land Company's houses.

There is a fine exhibition of sewing done in the Quincy schools at the School Committee rooms.

The Boston society of Civil Engineers will make the trip over the Quarry railroad, Wednesday, leaving Boston at 1:05.

Owing to the cool evening Monday, there was not a very large number to participate in the moonlight excursion of the steamer City of Quincy, although those who did go had a pleasant trip.

Mrs. M. A. Mitten of Quincy and Mrs. J. Rowley of Fitchburg, sisters, left last Saturday on the Cunard Steamer Gallia for Europe, where they will spend a couple of months visiting relatives and friends, whom they haven't seen for upward of thirty years.

The pastor of the West Quincy Methodist church stopped in the middle of his sermon last Sunday morning to baptize a child that was brought to the church by the parents for that purpose; and he said he would at any time stop all other exercises to accommodate for that purpose, a child or adult.

All Ready to Meet You.

The Swithin Bros. of Granite street have increased their business, according to their advertisement in the DAILY LEDGER today, in the line of real estate agents. They have some very desirable lots to sell. You will find them every afternoon, between 2 and 4 o'clock at the fine estate on Presidents' Hill ready and willing to talk business with you. Also, they have an estate at West Quincy to dispose of. This estate is near electric and steam cars; and the schools are handy. Land at Cranich hill generally known as Adams' field. This land is just what a man of moderate means wants to buy, as the terms are reasonable, and prices to suit you.

They also advertise land at Hillside Terrace and Wollaston. This land speaks for itself as you will see when you inspect it. It will pay you to visit them at their room No. 12 Durgin & Merrill's block. Why? Because you will get more than your money's worth. Try them.

WATER DISCUSSION.

The City Council Finally Votes to Enter Into

THE METROPOLITAN SYSTEM.

Brick Schoolhouse Order Killed, But a New Order is Offered.

The City Council held another important meeting Monday evening and while its session was not as long as one, as the two previous, considerable important business was transacted, inasmuch as the brick schoolhouse order was killed and the council voted to enter the Metropolitan Water system.

Every member was present.

Communication.
A communication was received from Mayor Hodges, appointing the following election officers for Ward Three:

PRECINCT ONE. Warden, Dennis J. Ford; deputy, Angus McNeil; clerk, James Copland; deputy, John N. Kelley; inspectors, James H. Sullivan, George D. Cahill, William Dickie, Eben F. Mitchell; deputies, Andrew Costa, William A. Kelley, Abel Nutting, Price Morris.

PRECINCT TWO. Warden, Peter W. Dakers; deputy, Adolph F. Gustafson; clerk, Edward J. Lennon; deputy, Daniel F. Driscoll; inspectors, Thomas F. Higgins, Francis Morrison, Julius Johnson, John Kelman; deputies, Joseph L. Heany, Alexander Souther, George A. Cameron, Frank L. Carleton.

A communication was received from the Quincy Historical society relative to the publication of a memorial on the celebration of the 100th anniversary of the incorporation of the town of Quincy asking if the Council would leave the completion of the volume to the society and appropriate \$1,000 for the same. To Committee on Finance.

Numerous applications for minor licenses were received and referred.

A communication was received from James Dunn asking the council to look into the matter as to whether the City Solicitor was working for the interest of the city or for the N. Y., N. H. & H. R. R., in relations to carriage licenses.

Petition.

Councilman Spear presented a petition to extend Whitwell street to Granite street. To Committee on Streets.

Councilman Spear presented a petition of the Electric Light & Power Co. to erect three poles on Whitwell street.

Reports of Committee.

The Committee on Fire Department reported an order locating two fire alarm boxes in the vicinity of Beach street and Rawson road.

The Committee on Fire Department and Police reported inexpedient to legislate on order instructing the Commissioner of Public Works to procure estimate for the altering of the old Central Fire station into a Police station.

The Committee on Finance reported an order transferring \$5.20 from unexpended balances of 1894, to pay off city officers.

The Committee on Finance reported ought to pass an order for building a wall in rear of Wollaston school. To Committee on Ordinances.

The same committee reported an order appropriating \$25 for payment of bill of Story & Thorndike. Ordered to second reading.

The same committee reported a slight amendment to order extending Walker street, which was adopted and the order passed to be ordained under suspension of the rules.

The same committees reported ought to pass an order appropriating \$4000 for the rebuilding of Adams street between Whitwell street and Furnace brook.

Councilman Bigelow opposed as he did not see why that amount of money should be expended there, when other streets needed repairs more.

Councilman Bryant favored the order. Adams street was one of the main thoroughfares. It had all been repaired with the exception of one piece in the center.

Councilman Rice had rather see the order killed than the amendment adopted as that would only repair the street temporarily.

The amendment was then put and voted down.

An effort was then made to suspend the rules to pass the order to be ordained but it was defeated; 14 voting in favor of suspension and 8 against. The order was then referred to Committee on Ordinances. The Committee on Licenses reported favorable on a number of applications received at the last meeting which was adopted.

The Schoolhouses.

The Committee on Finance reported ought not to pass on order appropriating \$61,000 for two brick schoolhouses.

The question then was on passing the order to a second reading.

Councilman Adams said the committee did not feel like recommending such a large sum of money.

Councilman Shackley hoped the order would not be killed and he would move to amend by changing the amount to \$18,000 and substituting wood for brick. He had received assurance from a reliable builder that he would build the building for that amount, and this was the only plan the school committee had accepted without conditions.

Councilman Sprague rehearsed the

history of the school house order. People do not figure on plans without some specifications. He believed the cost of heating and ventilating in the Randlett & Howe plans would be much cheaper than in the others. If he could not have them of brick he would like them of wood.

Councilman Nickerson favored brick. The School Committee have voted in favor of brick. He had estimates from reliable parties who would give bonds to build them for a certain amount.

Chairman Crane of the school board said the board had not had any plans for heating and ventilating submitted to them.

Councilman Adams said a question had arisen in the Finance committee as to the absolute necessity of the two new buildings.

Chairman Crane then told of the crowded condition of the several school buildings.

Councilman Bigelow asked if it was not possible to use the old high school.

Chairman Crane replied yes, but he did not see how it would help the Willard or Adams school and then it would have to be heated and ventilated.

Not a Lawyer.

In reply to a question by Councilman Adams as to whether there was any legal requirements as to wood or brick, Chairman Crane said: "He was not a lawyer, but simply chairman of the school board."

Councilman Sprague did not see why we should come here and vote against something decent for the children to go to school in. It was about time Quincy commenced to do something. We have got to look ahead.

Chairman Crane said we must have these new buildings or run some of the schools on half time.

Councilman Shackley said the Quincy schools had a good reputation before we had brick schoolhouses. He did not see why the children could not get as good an education in a wooden building as in brick.

Councilman Rice was in favor of wood but did not like to vote for \$48,000 if it was not enough.

Councilman Shackley was of the opinion that \$48,000 would build two good buildings including heating and ventilating.

Councilman Grindell inquired why the School Committee wanted brick instead of wood?

Chairman Crane replied that it seemed to be the custom in Quincy and adjoining cities and towns to build of brick and they were cheaper in the long run.

Councilman Sprague said Randlett & Howe would give a bond that two buildings could be built of brick all complete for \$30,000 each and there was but \$4,700 difference in wood on the two buildings.

Councilman Barker was of the opinion that the floor space of the "Diamond E" plan was ample.

Councilman Russell believed Quincy should have at least one building of stone to represent its chief industry.

Chairman Crane said the school committee approved of all plans with conditions. He wanted a building where the sun's rays entered every room some time during the day.

Councilman Shackley said there was a difference of 2972 feet in floor space between the "Diamond E" plan and Randlett & Howe plans.

Councilman Sprague said he did not see the need of an assembly hall which cost money.

Councilman Nickerson said the difference between hall and no hall was only about \$500.

The amendments offered by Councilman Shackley were voted down.

The Council also refused to pass the original order to a second reading.

Councilman Spear moved to refer back to petitions.

Councilman Sprague wanted to doubt the vote in the ordering to a second reading the schoolhouse order; in order to get a yes and nay vote, but the chair ruled that it was then too late.

Councilman Bigelow offered an order that the Commissioner of Public Works be requested to raise the flag on City Hall, on Friday next, in honor of the adoption of the flag by the Continental Congress and that the school committee be requested to have the flags raised on all school buildings. Adopted.

Chairman Crane of the school board remarked if any patriotic citizen would look he could see that the flags were on the school buildings every day.

New Schoolhouse Orders.

Councilman Nickerson offered two orders, appropriating \$28,000 on each, for the erection of brick and stone buildings at Norfolk Downs and West Quincy according to plans marked "Diamond E."

Upon suggestion of Councilman Adams these orders were referred to a joint committee of Public Buildings and Finance.

Public Hearing.

Councilman Rice offered an order for a public hearing on the sewerage question at the next meeting of the City Council which was adopted.

It was then voted that when Council adjourn it be until Tuesday evening, June 18.

Metropolitan Water.

Councilman Adams offered a resolution instructing the Mayor to appear before the Metropolitan Water Commissioners and request that Quincy be included in the list of cities to be supplied by that system.

Councilman Bigelow raised a point of order that the Council had already acted in this matter and that it was now too late to reconsider.

The chair ruled that the resolution was in order.

Councilman Bigelow appealed from the chair.

Councilman Adams said this was a different matter. We asked our representative to place Quincy in a position where she could better decide the question.

Yachting.

FANNIE M. SHEPARD.
The days again have circled round,
And bring the time for yachting,
And many a lively boat is found,
The water's surface dotting.

With pleasure freighted on they glide,
O'er wavelet's gaily dancing,
And many a heart, elate with pride,
Feels boating joys entrancing.

To guide the helm, or trim the sail,
With skill, the boatman doats on,
And marks the efforts that avail,
To cleave the wave he floats on.

Slight Accident.

Two young daughters of Mr. John C. Randall were upset in front of the Granite Clothing Company's store yesterday afternoon. They had stopped in front of Mr. Durgin's store in an open carriage belonging to their father, and were about to start again when the wheels locked with another team standing there which caused their carriage to overturn which threw them to the ground, but fortunately they escaped with a few slight bruises. The horse fell but did not break the shafts, or do little damage.

Is Your Blood Pure

If it is, you will be strong, vigorous, full of life and ambition; you will have a good appetite and good digestion; strong nerves, sweet sleep.

But how few can say that their blood is pure! How many people are suffering daily from the consequences of impure blood, scrofula, salt rheum, rheumatism, catarrh, nervousness, sleeplessness, and

SWITHIN BROS., Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 80 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 70 lots.

Also a few lots off Bates avenue.

WATER DISCUSSION.

[Continued from second page.]

We are not to come before the Legislature now, but before the Commissioners.

Councilman Bryant thought the question practically the same.

Councilman Rice did not see why an appeal should be taken unless they were afraid to state their position.

Councilman Johnson said that was sheer nonsense. The question is whether the rules shall be sustained.

Councilman Adams did not mean to imply that any gentleman here was afraid to place themselves on record. If we had considered that an absolute vote we might have voted different.

Councilman Phillips thought there seemed to be a determined effort to force Quincy into this scheme. It should be submitted to the voters.

Councilman Sprague said Quincy did not seem to be able to get around this large question. Quincy has got to have water and this seems the best way.

The decision of the chair was sustained by a vote of 13 to 9.

Councilman Rice said Mr. Blake's plans had been frequently quoted. He had written Mr. Blake to see if he was still of the same opinion as he was a few years ago.

Councilman Rice then read Mr. Blake's reply which was a lengthy one. When he made his investigation the feasibility of the Metropolitan supply had not been discussed and his investigation was for a plant independent of the Quincy Water Co. He would not advise it now except to get supply to last until the Metropolitan supply was in working order and believed it folly for Quincy to go ahead with a new supply.

Under the provision of the bill Quincy could not take a new source of supply without permission of the Legislature except in case of necessity.

Councilman Bryant said we have got to have more water some time and there was no doubt in his mind but what Quincy could buy water without going into it now. He did not believe we had got to buy water this year. According to the Water Commissioners we have got to build that dam anyway. It will be a number of years before we get the Metropolitan supply and we have got to expend \$74,000 anyway. In 1905 Quincy may be a part of Boston. It was a bad plan to buy a pig in the bag. He did not believe the Commissioner would charge an exorbitant price. He would like to ask the chairman of the Water board how long Quincy had to come into the Metropolitan system.

Chairman Patee in reply said he could not tell how long. He also said he had been misquoted in regard to Quincy's supply. What he said was "If this proves to be a dry year our reservoir will be brought to so low a point that the water will not be fit for domestic use and water would have to be purchased."

Councilman Bigelow said: Mr. Tidd said a reservoir can be built near the present one for \$50,000 or \$60,000. They say as much water runs out of the dam six months out of the twelve as is used. He would guarantee to get a contractor to build a reservoir for \$100,000 at Blue Hill river.

Councilman Adams said by section 23 of the bill Quincy can not take the Blue Hill supply. He would assume that we could go into the Metropolitan system as cheap in ten years as now. Experts tell us we cannot draw out water much lower than last year without danger to health. We have got to assume if we have a dry season we must have more water and we must place ourselves in a position to get it. Blue Hill would add 33 per cent. to our present supply, which could not last more than five years. Statistics show that the population doubles in twenty years. Last year without any increase of population we have increased the supply of water used and their are many places where pipes should be laid. Add the fact of the increase of population and we must have 25 per cent. more water and with the advent of the sewer it is evident that it will not last over five years. How can we get the water for five years the cheapest?

It would cost \$100,000 to get water from Blue Hill and we could not use it for a

year and a half. Can we not get water cheaper from the Metropolitan system? It will cost us in 5 years \$3,000. In the mean time we can purchase water cheaper than we can increase our present system. We are here to consider the best plan.

If we go into that system today it would be built by the Metropolitan system and we would pay our part which would be comparatively small. If we go in later they would make us pay just the same. He could not see how our tax rate would be higher. In fact it would not appear there at all.

Councilman Phillips asked if he had any objection of submitting the question to the voters.

Councilman Adams replied, only that the work would have gone so far that it would cost us \$50,000. A great objection is that the citizens can not intelligently act without the information we have had.

Chairman Patee said it was important to decide the question, as the board had got to make some definite plans.

Councilmen Rice, Pinkham and Geary also favored the resolution.

The resolution was then adopted but being doubted a roll call was taken which resulted in the resolution being adopted by a vote of 12 to 10.

The personal of the vote was as follows:

Yes—Adams, Dixon, Geary, Nickerson, O'Brien, Parker, Pinkham, Rice, Russell, Shackley, Spear, Sprague, 12.

No—Barker, Bigelow, Bryant, Grindell, Hayden, Johnson, Lamb, Phillips, Rinn, Sidelinger, 10.

Adjourned at 10:40.

Frightened the Burglar.
The early arrival home of a servant employed by Henry A. Richards, at Weymouth, prevented a bad robbery Monday night. The family were away spending the evening and the servant had also gone out, but returned about 9 o'clock to find a man in the house, who however made a hasty retreat.

Upon investigation, it was found that he had gathered together goods to the value of \$800, which were tied all ready to take away.

The arrival of the servant, however, frightened him so that he did not take the goods and even left his revolver behind.

Communes Wrecked.
VIENNA, June 11.—The recent cloud-burst washed away a number of houses, bridges and whole streets in the communes of Scharenbach, Schlatten and Hochwaldersdorf. Twelve persons were drowned at Scharenbach alone, and the damage cannot be repaired for years.

The Sealing Question.
LONDON, June 11.—In the house of commons yesterday Sir Edward Grey introduced a bill to regulate the catching of seals in the Behring sea. The bill is designed to replace the act passed in 1886 to carry out the agreement with Russia. The bill passed its first reading.

THREE PISTOL SHOTS

Instantly Ended the Career of Daniel J. Sullivan of Boston.

Quarreled With Salvatori Albani in a Stable Yard.

Afterward Chased Into a Blacksmith's Shop Where Murder Resulted.

Boston, June 12.—The third murder in this city within a period of 12 days occurred late yesterday afternoon in a stable yard at the corner of Shawmut avenue and Castle street, where Daniel J. Sullivan, a provision vender, was shot and killed by Salvatore Albani, an Italian grocer.

The stables where the murder took place are owned and occupied by a score of more hucksters. At 3:30 o'clock Daniel J. Sullivan drove into the yard and proceeded to back his wagon into one of the stables, but, in the attempt, he accidentally backed into a wagon driven by Albani, who was also putting up his team.

When Albani's rear wheel was struck, after a few pointed remarks he drew a six-shooter and fired at Sullivan, who by this time had jumped from his wagon to the ground. The shot missed him, and he started on a run for a small blacksmith shop in one corner of the yard, owned by Daniel Murphy, and just as Sullivan reached the door of the shop he turned to the ground, shot in the region of the heart.

Policemen Brown and Driscoll heard the shooting and ran down into the yard from Shawmut avenue, but before they reached the shop door Sullivan was dead. Sullivan was a man of about 35 years of age, and was a native of Italy. He had been in this city for several years, and was well known to the police.

The dead man was 30 years old and married. Albani is a middle-aged man, and had a wife and family at 6 Onida street, where he also conducts a grocery business. He has always borne a good reputation. He came from Italy three years ago.

A Most Touching Incident

was the appearance of the murdered man's wife on the scene. She approached the officer who was detailed to look after the remains and asked permission to see the body, as she had been informed that it was her husband. She was shown the way to the blacksmith's shop across the yard. The door was opened, but the officer was not called upon to expose the features, as she identified him by his clothes. She broke down completely.

Sullivan was born in Wales and came to this country several years ago, first locating in Lowell. He has been married six years, but there are no children. Medical Examiner Draper viewed the remains in the blacksmith shop an hour after the affair took place, and ordered them taken to the morgue, where he made an examination later.

The police are now anxious to learn who the party was with Sullivan when the assault took place.

Lawyer Wolfson is counsel for Albani, and he will try and prove at the trial that the shooting was done in self-defense.

Skipped Out of the Way.

LYNN, June 12.—Francis P. Greene, who was arrested at the request of the American Surety company of Philadelphia, and released on bail, failed to appear in court yesterday when the case was called, and his whereabouts are unknown. Officers were present with the necessary papers to secure Greene's extradition. Greene was formerly a collector for the Prudential Insurance company of Philadelphia, and being short in his accounts, the amount was made good by the American Surety company, who are now prosecuting the case.

An Unhappy Honeymoon.

CONCORD, N. H., June 12.—Ernest M. Gerry on Monday instituted proceedings against his mother-in-law for the alienation of his wife's affections. Darius Philbrick, a bondsman of the defendant, was securing Gerry's release, and her mother to a train yesterday afternoon when Gerry assaulted Philbrick. The latter was seriously injured, and may not recover. Gerry has only been married since May 31.

Indicted For Murder.

BROCKTON, June 12.—Arthur A. Albee of this city was yesterday indicted by the grand jury on four counts for the murder of Collins A. Leaman on April 29, 1892. The police have suspected Albee for several months, and at last have secured evidence which they consider sufficient to hold him for trial. Albee has served time for several assaults, and is now in jail for threatening to knife an officer.

Charged With Killing John Hennessey.

LYNN, June 12.—Edward H. Belger charged with having killed John Hennessey on June 5 by striking him upon the head with a bottle, was arraigned yesterday on a charge of manslaughter. He pleaded not guilty, and waived examination. Judge Berry ordered Belger to recognize in the sum of \$7000 for his appearance at the October term of the Essex superior court.

Must Wait Awhile.

PORTLAND, June 12.—Regarding the rumor that the Bangor and Aroostook railroad had or contemplated consolidating with the Maine Central, a prominent railroad official spoke of the matter of consolidation as something which might occur in the future, but said that at the present neither the Maine Central nor the Bangor and Aroostook were in a condition to consolidate.

Too Progressive For Some.

LOWELL, June 12.—A special meeting of the First Congregational church was held last night to consider the advisability of calling a council to consider the relations

between the pastor, Rev. G. F. Kennigott, and the people. The parish vote upon the question of confidence in the pastor. The friction in church affairs is said to have arisen on account of the progressive views of the pastor.

Relatives Get the Sulk.

STAMFORD, Conn., June 12.—The will of the late William Hubbard was admitted to probate yesterday. The estate is valued at \$300,000. All is left to relatives except 100 shares of the Pennsylvania Coal company, valued at \$81,000, which is left to the Stamford Universalist church.

Dalton Pleads Not Guilty.

PROVIDENCE, June 12.—Martin Dalton, who is charged with the murder of Anthony S. Haswell in 1892, was arraigned yesterday, and pleaded "not guilty." He was at the same time arraigned on another indictment for a felonious assault on Thomas Astin, with intent to rob, on June 13, 1895. He was taken to jail to await trial.

At Buzzard's Bay.

BUZZARD'S BAY, June 12.—Mrs. Henry L. Thurber and children reached Marion last night. Mr. Thurber will probably accompany President Cleveland, who is expected to arrive here in a day or two. Three officers from the secret service bureau will do police duty about the president's grounds, the same as during last summer.

Struck a Nest of Silver.

PROVIDENCE, June 12.—While excavating for a sewer across Roger Williams park, a laborer unearthed 28 tablespoons, 13 ladies and a variety of other articles of silverware, all marked "Griswell House, Vaeckie and Effie." The find is of considerable value, and was probably buried by burglars.

Schooner Knocked Out.

Boston, June 12.—The ferryboat Ben Franklin was in collision with the schooner Florence, of Boston, yesterday. The schooner was badly damaged, while the ferryboat received a hole in her side and a damaged paddle-wheel. The captain disavows in their stories of the collision.

Refuses to Budge.

Boston, June 12.—The sloop yacht Jubilee, which stuck on the ways while an attempt was made to launch her at the Atlantic works, is still in the same position. All attempts to get her into the water have as yet proved unsuccessful.

To Cost Two Millions.

NEW HAVEN, June 12.—The New York, New Haven and Hartford Railway company yesterday awarded the contracts for the Jamaica Plains (Mass.) improvement and the bridge at Norwalk. The work will cost \$2,000,000.

Not Carried Out.

NEW BEDFORD, June 12.—At a meeting of the Weavers' union of this city last night a motion was made calling for the withdrawal of the New Bedford body from the National union. The matter was tabled.

Bound to Die.

ANSONIA, Conn., June 12.—Louis Gaudle, a German barber, attempted to cut his throat with a razor yesterday. His wife prevented him. Later he took pains green, and the doctors say he cannot recover.

Captured in Mexico.

Boston, June 12.—Word has been received at police headquarters of the arrest in Monterey, Mex., of Albert J. Hosler, wanted in this city for embezzlement from the law firm of Hyde, Howe & Dickinson.

Wanted in Boston.

Boston, June 12.—Alfred S. Baur was arrested in New York city yesterday for forgery, and is awaiting extradition papers to be brought to this city. Baur is alleged to have passed forged checks.

Bather Drowned.

WEBSTER, Mass., June 12.—Henry Belleville, aged 10 years, was drowned in the French river yesterday afternoon. He was dressing after a swim and lost his balance, falling into the stream.

Robbed Three Houses.

GREENWICH, Conn., June 12.—Burglars broke into three houses on Millbank street, the fashionable portion of the city, and secured valuable booty. The burglars were evidently professionals.

On Their Dignity.

NORTH BILLERICA, Mass., June 12.—The Talbot mill strikers yesterday voted to stay out indefinitely, and that the first advances to be considered should come through Treasury Clerk.

Mrs. Kerrigan Pleads Not Guilty.

BOSTON, June 12.—Mrs. Mary A. Kerrigan charged with the murder of Francis J. Sullivan, was arraigned yesterday. She entered a plea of not guilty, and her case was continued to June 13.

Serious Carriage Accident.

LYNN, June 12.—Andrew G. Hilton, a prominent citizen of this city, was probably fatally injured by being thrown from his buggy while driving. Mr. Hilton struck on his head.

A Postponement.

STAMFORD, Conn., June 12.—The case of Henry J. Buckham, accused of manslaughter in selling infected milk, was continued to next Tuesday at the request of counsel.

Crushed by a Train.

LOWELL, June 12.—James Wheeler of Tyngsboro was struck by a train while track walking last night. The car wheels passed over both legs. Wheeler died at midnight.

Sought Death.

NEW LONDON, June 12.—James A. Costello, 36 years old, a telegraph operator, committed suicide by shooting himself through the heart.

VETERANS WROUGHT UP

Over Abuses Alleged to Have Been Practiced Upon Comrades.

Investigation of Tugus Home Affairs Advocated.

John Batchelder Makes Some Further Comments on the Subject.

AUGUSTA, June 12.—Grand Army circles are in a high state of excitement over the stories given such wide circulation regarding the alleged ill-treatment of veterans at the Tugus home.

Grand Army men are beginning to think that something should be done, but will not talk for publication. There seems to be a sentiment in favor of an investigation of the affairs at the home by a special commission of disinterested parties appointed by President Cleveland, for it is common knowledge that complaints have been made time and again to the present board of managers, but nothing has ever come out of it, and as the chairman of the board, General Franklin, is a brother-in-law to General Stephenson, it would be only fair that the case be treated by a special commission.

Mr. Batchelder was seen by a reporter yesterday and he said that he was never discharged dishonorably from the home by General Stephenson, as previously stated. He says he has among his effects an honorable discharge. He denies ever giving the management any trouble, but says he did leave the home in a hurry after he had made a complaint to the board of managers, because he felt that his presence would not be pleasant to the management.

More Tales.

Batchelder also told the reporter a story alleging that a man named Henry Comeau was kept in an insane ward because he did not return from Gardiner at the time specified in his pass on account of a heavy thunderstorm. He further alleges that a man named Durham was confined in the guard house for 99 days for some offense of which none of the inmates ever heard, and was occasionally paraded in front about the grounds.

Ex-City Marshal Henry T. Morse said last night in reply to questions: "I have known of veterans coming to the city walking to the home, five miles, and returning the same evening, to be lodged in the police station because they were not entitled to admittance to the home. These men told me that the general would not allow them to have supper. I have helped these men to get to their homes again. However, I will say that I have gone out to Manchester Junction and got some of the feeble minded that had wandered away from the home, returned them to General Stephenson, and he has always paid the expenses."

"Was not this expense taken out of the pensions of the men?"

"That I do not know."

An attempt will be made by the local Grand Army post to cause an investigation of the charges made.

Flurry in Turkish Finances.

CONSTANTINOPLE, June 12.—The bourse has been depressed almost a panic would oppose the demands of the powers for Armenian reforms. Diplomatic circles, on the contrary, believe that he will overcome the opposition of the fanatical party to Armenian reforms.

Street Tragedy at Baltimore.

BALTIMORE, June 12.—F. T. Bowers met William Green on the street yesterday and charged him with the betrayal of his (Bowers') daughter. Hot words passed between the men, ending with the demand that Green marry the girl. Upon his refusal, Bowers pulled a revolver and shot Green dead.

Fifty Miners Rescued.

BERLIN, June 12.—The fire in the mining pit near Antonienhutte, Prussian Silesia, is still raging. Fifty of the entombed miners were taken out unconscious, but all of them were resuscitated. Twenty-six dead bodies were also taken out, and 15 other miners are missing.

Stocks at a Discount.

WASHINGTON, June 12.—At the Howgate trial yesterday, David Bates testified that it was understood that the \$4000 check in the case was given for \$10,000 worth of stock of the American Telegraph company for Howgate and General Meyer, then chief signal officer.

Worcester Man to Be a Bishop.

GREEN BAY, Wis., June 12.—Archbishop Villatto of the American Catholic church leaves this week for Worcester to consecrate Dr. Edward R. Knowles of that city as bishop of the American Catholic church.

SWITHIN BROS.,

Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 80 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 70 lots.

Also a few lots off Bates avenue.

WOLLASTON.

A few desirable lots in Wollaston on Hancock street, opposite entrance to Merry Mount Park.

Will be on hand at Presidents' Hill every afternoon from 2 to 4. Parties desiring lots or any information on the above properties, please call at Room 12, Durgin & Merrill's Block, Quincy, June 11.

Another Advance in Steerage Rates

Is likely to occur at any time, and intending passengers are advised to secure their tickets at once.

EDITORIAL COMMENTS.

THE WAY in which some of our Councilmen use the adverb *only* is a startling commentary upon our city government and accounts in a general way for the yearly increase of the tax levy. In speaking of the difference in cost of brick and wood schoolhouses and other expenditures they refer to the question as being a difference or effecting a saving of only \$15,000 or only \$8,000, or only \$5,000, etc. At the end of the year these *only* make a startling total. How many of them in managing their private affairs juggle with large sums of money in such a reckless manner?

A Noted Inventor.

Silas S. Putnam died at his residence on Neponset avenue, Dorchester, on Monday evening.

He was born at Hartford, N. Y., in 1822, and was a direct descendant of Israel Putnam. His father, Dr. Israel Putnam, was a surgeon in the war of 1812.

He removed to Syracuse when a young man, and later to Boston, and has lived in Dorchester for 35 years. He married Ann M. Whitmarsh in 1841. About 1852 he invented the first spring curtain fixture, and was engaged in their manufacture for many years.

He also invented a machine for the manufacture of horse shoe nails, which has been successfully used. The nail was adopted by the United States Government during the Civil War for the cavalry horses.

New Era Coffee, a preparation for invalids, was also an idea of Mr. Putnam's. The concealed reflector used by locomotives in connection with the headlight was another discovery of his.

He constructed a bicycle, as long ago as 1880, which is very similar to the safety in use at the present time, but never had it patented.

I have two little grand children who are teething this hot summer weather and are troubled with bowel complaint. I gave them Chamberlain's Colic, Cholera and Diarrhoea Remedy and it acts like a charm. I earnestly recommend it for children with bowel trouble. I was myself taken with a severe attack of bloody flux, with cramps and pains in my stomach; one third of a bottle of this remedy cured me. Within twenty-four hours I was out of bed and doing my housework. Mrs. W. L. DUNAGAN, Bon-aqua, Hickman Co., Tenn.

First Presbyterian Church.

Children's day was observed last Sunday in the First Presbyterian church, Water street, at 10:30 A. M. Exercises by the Sabbath School consisting of singing, responsive reading and speaking. There were two by the infant department. First—"Feed my Lambs" by eleven little ones; second—"The Starry Flag," by thirteen little ones, who marched in by two heads by their leader; all carrying the stars and stripes. They sang "My Country 'tis of Thee." Had an exercise on the different states of the union followed by "Tis the Star Spangled Banner." Then a young boy carried a banner, "Christ, our King." After which they sang "Stand up for Jesus." Dr. Warden's Greeting was read by the Superintendent.

The pastor then spoke on the great work done by the money collected on children's day in starting Sunday Schools in the far West and South; and of the wonderful growth of those schools during the last nine years. How many thousands had been taught of Jesus through the efforts of children's day.

Closing hymn by the school, "Who is on the Lord's side." All the parts were fully appreciated by a full house, especially the little ones' exercise. The church was tastefully decorated with flowers; wreaths made of wild flowers and potted plants.

In the evening the pastor spoke to a crowded house on the religious press and the secular press, telling of the great good being done throughout the world by the circulation of the bible and religious literature, being the means of publishing the Word of God and reaching thousands, yea, millions of souls.

He also spoke of the religious element in some of the dailies although some were lacking, he spoke of the Boston Standard and hoped it might be a clean sheet fit to enter the homes of all pure minded people and that it might give due prominence to religious matter. He highly spoke of the Quincy daily and weeklies not given to sensationalism, and that they gave a large prominence to church news and Christian Endeavor news.

Braintree Shoplifters.

The good citizens of Braintree were no doubt surprised Tuesday to know that they had among their residents two women who had gained quite a reputation as shoplifters.

The two were arrested Saturday by Inspectors Knox and Leggett while shopping in the large dry goods stores of Boston.

They gave their names as Jane Hunt aged 50 years and Hattie Hunt aged 30 years.

They were arraigned in the Municipal court Monday and fined \$15 each it being supposed that it was their first offence but subsequent events have proved that they were old offenders.

After paying their fine they skipped out neglecting to pay their lawyer. They were however followed by the two inspectors who soon caught them helping themselves to more goods at Jordan, Marsh & Co.

They were escorted to Police headquarters where upon being searched about \$300 was found and \$5 worth of goods. Besides this the officers found papers which showed their names to be Sarah and Nellie Sprague and that their residence was Braintree.

A visit was made to Braintree and with the assistance of Officer Galvin the house was searched and goods to the value of \$300 was found, consisting of silks, laces, boots and shoes, neckties, dress goods etc.

There were also several large trunks which the officers did not open.

Tuesday they were arraigned in court again and held for the grand jury.

It seems the two women came to Braintree a short time ago from Abington where Mrs. Sprague's husband carried on an apothecary store but it is alleged she conducted herself in such a manner that he secured a divorce from her, although he had died since that time and it is said his divorced wife was trying to break the will.

—Arthur F. Thompson, of the Metropolitan Bowling alleys, and A. Eugene Allen of the Iola lunch room have taken the old Casino at Houghs Neck for the season. They will handle ice cream, soda and other refreshments, and will run dances every evening. They will make special provision for the care of bicycles of those who ride to that resort. They are both popular young men and ought to make a success of it.—Brocton Enterprise.

QUINCY BREVITIES.
Notes from Quincy Point, Wollaston, Atlantic, South and West Quincy.
Reception of the Y. M. C. A. Thursday evening.
It is said that Min's circus is soon to visit Quincy.
The watering carts are kept busy these hot days keeping the dust laid.
Rev. Edward A. Robinson of Wollaston is at Willoughby lake, Vermont.
A large advertising sign board has been erected near the Quincy Point bridge.
Remember, you can get tin ware at reduced prices at Gordon's 5-cent store.
The public hearing on the sewerage question is advertised in today's LEDGER.
There is some talk among the lady bicycle riders at West Quincy of forming a club.
Many of Quincy's bicycle riders are in training for the races on the new track at Lovell's grove.
There is a very fine exhibition at the Willard school this week of the work done by the pupils of the school.
A special meeting of the Fragment society will be held at the Probate court room this afternoon at 3 o'clock.
The tax collector would like to have a new carpet on his room at the City Hall as he thinks it would smell a little sweeter then.
A Bluthner grand piano is being placed in the Y. M. C. A. rooms today, to be used in the sleigh ride symphony tomorrow evening.
It will doubtless be news to many that a branch of the Salvation Army has again been located in Quincy, and that they hold forth in the old Hook and Ladder house hall on Canal street.
The Braintree extension of the Quincy & Boston street railway is being rushed rapidly along, the track now being laid from the Braintree line to the junction of Franklin and Pearl streets.
Henry L. Kincaide will sell at auction tomorrow afternoon, at 3 o'clock, the estate of Elmira Gibson, at 17 Rodman street, South Quincy. This is a good house and 6,000 feet of land.
The Woman's Christian Temperance Union will meet Friday at 3 p. m. in the Methodist church, Wollaston. This is the last meeting before vacation. An interesting programme is expected.
Sometime during Monday night burglars entered one of the new houses on the Atlantic Land Company's property and took \$8 worth of lead pipe from G. B. Bates' Heating and Plumbing Company.
Mr. Oscar G. Berry, manager of Lovell's Grove has issued invitations to the press representatives in this vicinity to partake of his hospitality Saturday on the occasion of the grand opening of the grove.
Excursions over the Quarry railroad are becoming quite popular and hardly a week passes that does not see some party making the trip and indeed the scenery along the line of the railroad is very beautiful.
West Quincy business men are very much opposed to the changing the location of the street railway tracks between Brewer's corner and Crescent street from the side to the centre of the street. Their objection is that Copeland street between these two points is much too narrow and if changed it would be dangerous to people in carriages, especially if ladies were driving.
Woodbine Lodge.
At the regular meeting of Woodbine lodge, No. 277, K. & L. of H., at Wollaston, on Tuesday evening, the following officers were elected for the ensuing term: President, George W. Bennett. Vice President, Mrs. Helen Record. Secretary, W. P. Chase, Jr. Financial Secretary, W. J. Battison. Treasurer, Parker Gould. Chaplain, Mrs. John Neill. Guide, Miss F. I. Lord. Guardian, J. F. Neill. Sentinel, James C. Bates.
HOOD'S PILLS cure Liver Dis, Biliousness, Indigestion, Headache. A pleasant laxative. All Druggists.
—Judge Harmon, the new Attorney General of the United States, assumed the duties of his office yesterday and it is thought will prove a most valuable accession to President Cleveland's official advisers.
—A single page in an issue of the Century, taken for advertising purposes, costs \$500; in Harper's, \$400 down to \$100. A yearly advertisement in one column of the New York Herald costs \$30,300 for the lowest and \$130,000 for the highest priced column. These figures will doubtless be of interest to men who invest \$2 or \$3 per month and flatter themselves with the idea that they are extensive and liberal advertisers.—Progressive Publisher.
—Upholstery work in all its branches, satisfaction guaranteed or money refunded. Henry L. Kincaide & Co.
—Japanese matings, cool and refreshing, 9 cents to 50 cents. Henry L. Kincaide & Co.

MARRIED.
PARSONS—BRACKETT—In Milton, June 9, by Rev. Henry C. Vrooman, Mr. William D. Parsons of Quincy to Miss Vina Brackett of Milton.

THE SULTAN'S ADVISERS.
Appointment of New Grand Vizier a Triumph For Foreign Diplomacy.
CONSTANTINOPLE, June 11.—Turkhan Pasha, president of the commission recently inquiring into the condition of the provinces, who has been appointed minister of foreign affairs, viz. Kiamil Pasha, who, upon the resignation of the ministry of Djavad Pasha, was made grand vizier, and Kiamil Pasha were installed in their new offices with all the customary ceremony. The cabinet is now constituted as follows, there being only two changes in it: Grand vizier, Kiamil Pasha; sheik-ul-Islam, Djemaladdin Effendi; minister of the interior, Rifaat Pasha; minister of war, General Riza Pasha; foreign minister, Turkhan Pasha.
The resignation of the Djavad ministry and the appointment of Kiamil Pasha to the grand vizierate signifies that the unspeakable Turk has once more succumbed to foreign influences, and that a promise at least will be made of according to the demands of the powers for reforms in Armenia.
Djavad Pasha, the retiring grand vizier, is a school teacher, and therefore, it is probable possible in the way of the powers in connection with the Armenian atrocities. Kiamil Pasha, the new grand vizier, has always been a friend of England, and his resignation is a distinct victory for English diplomacy.
Kiamil Pasha is a native of Cyprus, and in his youth acquired a perfect knowledge of the English language.
Labor Riot at Chicago.
CHICAGO, June 11.—A fight occurred yesterday at the \$1,000,000 residence now being erected by P. D. Armour, Jr. Herger Bros. have a contract to do the painting on the building, and insisted that a number of their men be allowed to work, who were not endorsed by the local building trades council. The union men objected to this and attacked the non-unionists. A terrible war was waged for a few minutes, in which hammers and other sorts of tools were used. Foreman Jallies finally signed the agreement presented by the trades council, and discharged the objectionable men, 10 in number, and the battle ceased.

Big Bills to Settle.
SALT LAKE CITY, June 11.—Judge Merritt yesterday appointed J. M. Egan and A. M. Bancroft as receivers of the Oregon Short Line and Utah Northern railroad. The decision of the court is open to appeal, but it is incumbent upon the American Loan and Trust company to pay \$734,000 interest due on the mortgages July 1, and to pay all interest falling due thereafter before the court's decision is rendered. The default should be made on the interest, the road is to be surrendered to the present receivers.

Who Killed Chapel?
OMAHA, June 11.—The husband of Mrs. James Ish, a young and wealthy married woman who was reported to have shot Robert Chapel, instantly killed him, in her bedroom, under arrest. Mrs. Ish's story that Chapel called to repair her sewing machine and insulted her so flagrantly that she shot him with her husband's revolver in defense of her own honor is no longer believed. It is now thought the husband did the shooting.
Heathens' Awful Work.
SHANGHAI, June 11.—The report of the total destruction of the missions at Chengtu, Kiating and Yochou has been confirmed. The local officials refused protection to the missionaries until the mob had completed all the work of demolishing the buildings. The mission stations at other places have been threatened. About 20 adults, besides a number of children, have taken refuge at Chengtu and Yamen. Viceroys Li is blamed for the affair.
Small Cause For Shooting.
HALIFAX, June 11.—Clarence Fleming and Thomas Smith were drinking in a dive in the district known as the "upper streets" last night. Smith wanted Fleming to get trusted for drinks and the latter refused. Smith put a revolver to Fleming's breast and fired. The ball struck the breastbone and glanced off. The wounded man may recover. Smith escaped.
Cowboys Took a Hand.
VIENNA, June 11.—During the troubles between the police and the Socialists last Sunday, "Texas Jack" happened to be near the scene of the riot with his North American Indians. A local magistrate ordered the cowboys and Indians to catch the Socialists with their lassos. Six of the workmen were thus thrown down and placed under arrest.

A Day's Vacation.
LEESBURG, Va., June 11.—President Cleveland had good sport at trout fishing yesterday in the preserve owned by Henry Harrison. He was accompanied by Secretary Morton and Commissioner Miller. They returned to Washington this morning.
What Zimmerman Says.
ILION, N. Y., June 11.—Arthur A. Zimmerman, in an interview here, said: "I do not expect to race any this year. I shall probably go to Australia next year and will race there. I do not expect to get on a race with Johnson this time."

Olney Sworn In.
WASHINGTON, June 11.—Richard Olney was yesterday sworn in as secretary of state. Chief Justice Fuller administered the oath of office. The ceremony took place in the diplomatic room of the state department.
Umpire Betts Resigns.
WASHINGTON, June 11.—William G. Betts of the National League staff of umpires has sent his resignation to President Young, and it has been accepted. The reasons for the resignation are not made public.

What the Cordage Trust May Borrow.
NEW YORK, June 11.—The receivers of the United States Cordage company have been authorized by Judge Ingraham to borrow not more than \$200,000 for the purpose of carrying on the business.
Worth Considering.
TORONTO, June 11.—The Toronto Ferry Bicycle Race association offers \$5000 for the first three races between Johnson and Zimmerman, to take place in Toronto. The offer is open for 10 days.
Argentine Province in a Turmoil.
BUENOS AIRES, June 11.—An uprising in the province of Corrientes is reported. The trouble is believed to be purely local and without special significance.
German Mine Disaster.
BRESLAU, June 11.—The fire in the Seingoltes mine has been extinguished. The bodies of 10 miners have been recovered.

A New Hampshire Tragedy.

CANAAN, N. H., June 12.—Issac Leary, 50 years of age, to shoot his wife, Jennie, aged 45, Monday night. Leary was placed under arrest by Sheriff Murray, who allowed him to remain alone in his house during the night, while he and his deputies kept watch on the outside. Early in the morning the sheriff saw lights in Leary's room, and soon he was startled by the sharp report of a revolver and the sound of a falling body. He made no investigation of the affair. Leary had shot himself, and is now at the point of death.

Ordination Refused.

HAMPDEN, Mass., June 12.—The council called by the Hampden Congregational church for the ordination of G. W. Solley as a pastor in the Congregational ministry refused to ordain him, on the ground that he had not the preparation requisite nor had he a definite pastorate in view. Mr. Solley graduated from the school for Christian workers, and, after teaching a time, came here to preach.

To Protect Investors' Interests.

BOSTON, June 12.—Prominent banking officials of Boston have formed a bondholders' protection committee, which will oppose the proposition to reorganize the National Cordage company. The committee will make a full investigation of the company's business since its organization, and will recommend the best course to pursue to protect the interests of investors.

Smuggled Goods Confiscated.

BOSTON, June 12.—The appraiser's department of the Boston custom house discovered a large lot of jewelry yesterday in an importation of Turkish okra from Constantinople. These goods were consigned to Agop Destorlian of Worcester, and the invoice value of the bundle was placed at \$15, while in reality it was worth some hundreds. The goods were confiscated.

Revolvers Freely Used.

HARTFORD, June 12.—Two of the most desperate burglars that the police have had to deal with for some time were captured at the points of revolvers yesterday. One of them tried to fire twice at a woman he robbed, but the revolver failed to go off. He was chased by a crowd and fired several shots at his pursuers. The men are Daniel Murphy and Malachi Lally.

A TARDY GROOM-ELECT

Disappointed Guests Gathered to Witness a Somerville Wedding.

His Whereabouts Now a Matter of Speculation.

House Prepared to Shelter Newly Married Couple Remains Closed.

SOMERVILLE, June 12.—At the residence of Miss Eva P. Robinson's parents, 97 Washington street, a clergyman and a large number of guests waited in vain last night for the performance of a marriage ceremony to which they had been bidden. Oscar Fernald, who was to have been married to Miss Robinson, did not appear at the appointed hour of 5 o'clock. The guests remained until midnight, but still the groom had not appeared and the wedding was postponed. Nothing has been heard from Fernald.

An hour went by and the anxiety of the interested persons began to manifest itself. Messengers were dispatched hither and thither looking for the tardy groom-elect.

His parents were present, and at first attempted to explain his absence with the many excuses that naturally would present themselves on such an occasion. But after another hour even they could.

No Longer Conceal Their Anxiety, and they confessed themselves as much at a loss to account for his whereabouts as was anybody else.

Despite the late hour, the assemblage was not inclined to relinquish all expectation of seeing the marriage ceremony performed. They accounted for his delay in various ways. An accident might have befallen him, or a thousand and one things might have occurred to prevent his appearance. He would appear 10 person or send word to them in another hour.

But the hour came and went, and at 12 o'clock it was announced that

The Wedding Was Off

for the present at least, and the guests departed.

Mrs. Robinson and her daughter then appealed to the police of Somerville and Boston, as well as to the hospitals, but no record of an accident occurring to Oscar Fernald could be found.

Oscar Fernald is a paper hanger, and inquiries were made at his place of business as well as at his home. They were unavailing, as nowhere had he left any sign of his movements.

On Essex street, Winter Hill, there is a little house finished and furnished according to the latest ideas and methods, but it is not today the home of a newly wedded pair.

To Promote Agriculture.

BOSTON, June 12.—At the annual meeting of the Massachusetts Society for the Promotion of Agriculture, the following officers were chosen: President, Charles E. Sargent; vice presidents, Henry S. Russell and John Lowell; corresponding secretary and librarian, F. H. Appleton; treasurer, Jacob C. Rogers.

Connecticut Pool Law Killed.

HARTFORD, June 12.—The house yesterday rejected the amendment to the anti-pool law, which provides that pools may be sold on race tracks for 12 days in each year, between May 1 and Nov. 1. The senate passed the amendments two weeks ago, but the action of the house probably kills the measure.

Brockton Gets It.

BROCKTON, June 12.—The American national 100 yards sweepstakes foot race will be held here in August. The fastest sprinters in America and four from Australia have entered. A gold medal, set with diamonds, is offered for the championship, in addition to \$2310 in prizes.

'Twas "Circus Day."

FALL RIVER, June 12.—The main belt in the Pocasset Manufacturing company's plant was cut by some one at noon yesterday, thereby carrying out the intent to have the mill shut down in order that the help might attend a circus showing here. The mill shut down.

British Steamer Grounded.

NEW LONDON, June 12.—The British steamer Olinda is ashore at the Watch hill side of Fisher's island. She is loaded with barrels and pork, and has a number of emigrants aboard. She is not considered to be in immediate danger unless a storm should set in.

Reunion and Election of Officers.

AUGUSTA, June 12.—Seventy-five members of the Fourth Maine Battery association attended the annual reunion in this city. E. Jones was elected president, C. H. Dearborn vice president, J. A. Jones secretary and Charles Crybble treasurer.

Unworthy Parents.

MANCHESTER, N. H., June 12.—Patrick and Margaret Kane have abandoned their two children, Johnny and Willie, aged 4 and 6 years, respectively, and the little ones have been turned over to the county commissioners and taken to Wiltton.

Lee Lad Burned to Death.

LEE, Mass., June 12.—The son of Samuel Griffin was burned to death yesterday. In the excitement incident to the burning of his father's barn, the lad ran into the basement of the burning structure, and there was burned to a crisp.

Seventy Men Out.

BROCKTON, June 12.—About 70 men at A. M. Herrod's shop struck yesterday. Mr. Herrod demanded more work from the operators of the Puritan stitching machine. The demand was refused by the men and they quit.

Warning to Mariners.

BOSTON, June 12.—Captain Calvert of the Peruvian reports passing a vessel's mast, apparently attached to a sunken wreck, in the track of steamers from this port to Halifax. The wreck is a menace to navigation.

FOR THE GOOD OF ALL.

Highest Motives Aimed at by United Society of Christian Endeavor.

Membership Embraces People of All Nations.

Fellowship Increased in All Denominations Except Methodist Episcopal.

BOSTON, June 12.—The United Society of Christian Endeavor, which is the general body that has directed the growth of Christian Endeavor in all the world, held its annual meeting yesterday at the offices in this city. The old officers were elected as follows: President, Rev. Francis E. Clark, D.D.; treasurer and clerk, William Shaw; auditor, Frank H. Kidder.

Dr. Clark's report was as follows: In submitting my report for the society year just closed I have only good news to report and the abundant blessing of God to rejoice in. Our fellowship has increased all the world around as never before in all the 14 years of our history. In almost every land and in every clime the societies have increased "by leaps and bounds."

The junior societies have fully shared in the general blessing, and have made an even more marvelous advance than the Young People's societies. The floating societies and other special developments of the kind have taken a strong hold of the affections and the interest of the Endeavor public. The state conventions have been, as a rule, far larger and more productive of spiritual results than ever before, and the local unions have

Shared in the General Prosperity.

In many new countries, notably in Germany, Switzerland, Norway, Sweden and Holland, the work has been started. The constitution has been translated into a number of additional languages in many lands.

The interests of the great cause of Christian citizenship and of missions have been advanced everywhere, and these efforts constitute some of the most cheering and important forward steps of the year.

While the Christian Endeavor society never has, and never will, believe, ally itself with any political party, yet in the triumph of righteousness at the polls, in the aid given toward the overthrow of corruption and moral evil in some of our towns and cities, in the clearing of the civil atmosphere, in the volunteering of hundreds of young men and women for the foreign mission fields, in the contributing by Endeavorers of hundreds of thousands of dollars to the denominational boards, is the practical outcome of these great movements seen.

Our British and Australian brethren have shared with us in this general prosperity, and conventions of great power have been held not only from England, Scotland and Wales, but from Japan and China, while France, Jamaica, South Africa and other countries have shared in similar convention blessings. In every denomination in the world, with the single exception of the Methodist Episcopal denomination in the United States (north and south), has

Our Fellowship Increased

and the attitude of the denominations was never so favorable to the movement as today.

More fully than ever, I believe, are the real foundations of the united society and of the state unions understood and observed. They can, especially through their yearly conventions, suggest, stimulate, inspire, but it is for the local societies and the local unions, as being in close connection with the local churches, to carry out these plans as best they may—not at the dictation of any united society or state union, but as their divinely-guided wisdom and local circumstances may demand.

It has become increasingly clear that state and national unions are simply bureaus of information and channels of information, whose chief duties are to circulate the literature of the movement, to multiply societies wherever they properly can, and to hold annual mass meetings for the spiritual stimulus of Endeavorers and Endeavor societies.

To carry out these ideas, and these ideas only in the united society of which you have chosen me the president, shall be my constant aim and purpose, and to this end I pledge myself to strive to secure an unselfish, economical, efficient administration of the affairs of the united society wherein the cause we love shall be the sole consideration.

As Germans See It.

BERLIN, June 12.—It is believed here that the Russian government only desires by the new Chinese loan to recover the advance made to China during the war. The Post says that the £16,000,000 loan is so small that greater operations are inevitable, wherein the German market will prove indispensable. The proceedings justify German abstention from the loan, which is to the advantage of Russia.

Against Bimetallism.

Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 80 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 70 lots.

Also a few lots off Bates avenue.

WOLLASTON.

A few desirable lots in Wollaston on Hancock street, opposite entrance to Merry Mount Park.

Will be on land at Presidents' Hill every afternoon from 2 to 4. Parties desiring lots or any information on the above properties, please call

Young People's Union.

On Monday evening, June 10th, the first
meeting of Wollaston Young People's
Union was held in Congregational church.
Mr. A. E. Brownville presided. Mr. Levi
Nichols, of the Congregational Y. P. S. C. E.,
was elected president, Mr. Grant,
vice president, and Miss Emery, secretary
and treasurer.

This was one of the most interesting
meetings held in Wollaston for some time.
The speakers were Rev. C. W. Wilder and
Rev. Preston Gurney of Wollaston, and
Messrs. Anderson and Tobey, connected
with Berkley Temple, treated the subjects,
Good Citizenship, Christian Work, Ties
that Bind, and Temperance, in a very able
manner.

We are glad to welcome Mr. Anderson as
a citizen of Wollaston. May all have an
interest, and lend their aid in making the
union a success.

Change of Time.

The summer schedules on the New York,
New Haven and Hartford railroad, Old
Colony system, will take effect com-
mencing Sunday next.

Some of the important changes from
Boston are as follows: Fall River line
double daily service. Steamboat trains
will leave Boston from Park Square station
at 6 and 7 P. M. Steamers in commission,
Priscilla, Puritan, Plymouth and Pilgrim.
The "afternoon express," via the Shore
line, heretofore due in New York at 7:30
P. M., will leave as formerly at 1 P. M. and
be due to arrive at 7 P. M. A new train to
be known as the "seashore express" will
leave Boston at 1:03 P. M. and be due at
7:30.

Among the most important changes in
trains leaving Boston from Kneeland
Street station, Plymouth division, are the
following: Trains connecting at Woods
Holl for Cottage City leave at 5:45 and 9
A. M., 1 and 3:50 P. M. on week days, and
at 8:15 A. M. on Sundays.
For Nantasket at 5:45 A. M. and 1 P. M.
on week days and 8:15 A. M. on Sundays.

Davis-Morrison.

A very quiet but pretty home wedding
was solemnized at the residence of Mrs.
R. M. Johnson, Spear street, on Wednes-
day evening. The contracting parties
were Mr. Wallace Thaxter Davis, son of
the late Mr. Horace W. Davis, of Woburn
and Mrs. A. Isabelle Morrison of Brain-
tree, youngest daughter of Mrs. R. M.
Johnson of Quincy.

The ceremony was performed by Rev.
Edward Norton at eight o'clock in the
presence of only the immediate family.

Mr. and Mrs. Davis will be at home
Wednesdays after July 23 at 12 Forest
avenue, Bangor, Maine.

Wilbur Austin Nash.

Mr. Wilbur A. Nash of this city died
quite suddenly in Westboro on Monday.
He was a son of the late A. Prescott Nash
of Weymouth, but had resided with his
aunt, Mrs. Henrietta Pratt on Spear
street for many months. He had been in
poor health for several years, and thought
it might improve his health if he went to
Westboro for a few weeks. He was 33
years of age and much respected by those
acquainted with him in this city. His
remains were brought to Quincy and
buried this afternoon in the Mount Woll-
aston cemetery.

A \$10,000 GRANITE JOB.

Quincy to get Contract for 36 Monu-
ments for State of Illinois.

Among those registered at the Green-
leaf Wednesday was Mr. J. S. Culver, rep-
resenting the Culver Granite Company.
Mr. Culver came to Quincy to place a con-
tract for thirty-six monuments of dark
Quincy granite which are to be located by
the state of Illinois in the Chicamunga and
Chattanooga National Military Park.

As stated above, the monuments are to
be cut from dark Quincy granite and each
monument will be in two pieces and will
weigh about ten tons. The base to be of
rock finish and its dimensions are 7-6x4 6x
1-6. On this rests a bevel-top die, three
sides and top of which are to be quarry
finish with the front polished, the dimen-
sions being 6-4x3-2x3-8.

On the front bevel the word Illinois will
be cut in raised block letters and on the
polished front will be cut the inscriptions.
The cost of these thirty-six monuments
is \$10,000.

Q. H. S. D. S.

President Marnock called the meeting to
order. In the absence of the secretary,
Miss Hay, the treasurer read the report.
The secretary and the president of '95 had
nothing to report about the inter-class de-
bate.

The entertainment was as follows:
Recitation, Miss Dunham, '96.
Essay, "The Chemical Laboratory." An
interesting account of what happens in
the chemical laboratory.

Recitation, Miss Cummings, '96. Given
clearly and intelligently.

Essay, "William the Conqueror," Miss
Hay, '96.

Recitation, Miss C. E. Healey, '96.
Niece rendered.

Essay, Mr. McIntyre, '96. "The Boston
School Regiment." A very entertaining
account of the Boston "soldier boys."

The debate was on this subject: "Re-
solved, That there is no Aristocracy in
the United States."

Affirmative—Miss Pierce, Miss Pope,
Miss Alice Sampson, Miss Mary Sampson,
Miss Sullivan, Miss Vogler, Miss Thomas.

Negative—Miss White, Mr. Barry, Miss
Beckwith, Miss Bill, Miss Briggs.

The discussion was very interesting.
Many strong arguments were advanced on
both sides. The Board of Decision de-
cided in favor of the —.

The Critic, Mr. Anderson, offered his
report, which was adopted.

Steamer City of Quincy.

Attention is called to the advertisement
of the Quincy and Nantasket Steamboat
Co., in today's LEDGER. The manage-
ment have determined to make their
steamer popular and with this object in
view they announce that on Saturday the
boat will commence making its regular
trips to Nantasket.

Next Tuesday, June 18, the boat will
commence its Boston trips. The City of
Quincy will leave Quincy Point every
morning for Boston at 7:45 and will leave
Boston on its return trip at 9:15, arriving
in Quincy in season to make its regular
trip to Nantasket.

The company also announce a reduction
in fares and hereafter the round trip ticket
to Nantasket will be but 20 cents, single
fare 15 cents.

The management have placed the price
of tickets to Boston at 20 cents for a single
fare or 10 trip tickets for \$1.50.

The City of Quincy is one of the prettiest,
fastest and safest steamers in the waters of
Massachusetts Bay and the management
have determined to make it the people's
line at people's prices and as such it is
almost assured of a large patronage which
it certainly deserves.

A Sleigh Ride in June.

The entertainment in connection with
the reception at the Young Men's Christian
Association this evening will be one of the
most unique ever given in the city. One
can close his eyes and imagine that he is
gliding along over the beautiful snow,
with the merriest kind of a sleighing party.
Not only that, but he can refresh himself
at the end of his journey with a dish of
native strawberries and ice cream. There
will be no charge for admission, and all,
both ladies and gentlemen, will receive a
most cordial welcome.

Atlantic, South and West Quincy.

Mrs. Harry Gale of Winthrop is visiting
Mrs. Charles H. Penniman of Canal street.

Merrymount lodge, A. O. U. W., in-
vited one candidate at its meeting Tues-
day night.

The Ladies' Social union of the West
Quincy church has voted to paint the
parsonage at once.

The Weymouth band will give its first
open air concert at East Weymouth next
Wednesday evening.

The laying of the rails on the Braintree
extension of the street railway will
probably be completed tonight.

The predictions were that the weather
this week would average cooler but it
seems to be averaging much warmer.

Mrs. Harry Talbot has taken up her
residence for the present with her sister,
Mrs. James P. McGovern, on South street.

A Boston paper reports John Young,
aged 45 years, to have been overcome by
heat at South Boston, Tuesday, and taken
to the Emergency Hospital.

About 175 of the Boston society of Civil
Engineers made the trip over the quarry
railroad Wednesday. The party made two
stops and enjoyed the scenery very much.

The contract for the 36 monuments for
the state of Illinois will furnish employ-
ment to a large number of quarrymen and
stone cutters and will make a big hole in
somebody's quarry.

A. A. Albee, who was arrested in Brock-
ton, Tuesday for the murder of Collins A.
Leaman, was before the District Court in
Quincy, March 31, 1895, and fined \$15 for
the larceny of chickens from Josiah W.
Thompson at Milton.

One of the graduates from Miss
Wheeler's kindergarten training class
at Chaucey Hall school, Wednesday, was
Miss Bertha N. Jameson, daughter of Mr.
and Mrs. A. M. Jameson of Wollaston.
Miss Jameson has been very successful in
her two years of study and graduated with
a high mark. She will teach the St.
Stephen's Mission school next year.

TODAY'S COURT.

The cases of Arthur L. Maxim against
Frank A. Wisley came up by continuance
for disposition this morning. Upon the
complaint for cruelly overdriving a horse
the defendant was found not guilty and dis-
charged. Upon the complaint for taking
a horse without permission, he was found
guilty and fined \$29 from which he ap-
pealed.

I Am Glad

To tell what Hood's Sarsaparilla has done
for me. I had the grip and its ill effects
settled all over me. I had cramps
in my legs and frequently I had
to get up at night and walk
torelax the mus-
cles. I also had
stomach trou-
bles. I then took
Hood's Sarsapa-

HOUGH'S NECK.
Many Cottages Already Occupied and More to Follow.

Although the season is about two weeks backward, Houghs Neck has begun to assume its summer appearance and many of the cottages have already been occupied, and new families are arriving every day so that by the first of July the unoccupied cottages will be few and far between.

The advent of water is hailed with delight not only for the convenience but for fire protection, as heretofore the only thing in the shape of fire protection this side of Quincy Centre was the old chemical and once a fire got started the building was as good as destroyed as fifteen or twenty minutes, at least, must elapse before the apparatus from Quincy arrived, and then the chances were that the tide would be out and a supply of water could not readily be obtained. But now with the hose wagon, which the Chief Engineer will probably locate here, the residents will feel comparatively safe.

Mrs. Gibbs and family of Springfield are at the Vogel cottage.

Mr. Barrett and family of Boston at the Chapman cottage.

John Cullen of Roxbury has occupied his new cottage of Bay View avenue.

The first hop of the Yacht club will be held Wednesday evening June 19.

The Casino and bowling alleys at Houghs Neck open to the public tonight under the new management. There will be music and dancing.

Henry Moebes has arrived at the Adolph cottage.

Mr. Wogan of Brockton has taken one of Harvey's cottages for the season.

Mr. Heede of Jamaica Plain and family are at the Webb cottage.

Contractor Fred H. Coulter is building a new cottage for J. Stanley Mears on Great hill.

Work rebuilding George Dunham's glass house is progressing slowly.

The pugilists will take up headquarters at the Even Tide next week.

Pierce's hotel continues to be as popular as ever and everybody who calls on him goes away satisfied.

Mrs. Kaller of Newton has taken a cottage on Darrow street.

Fred H. Coulter of Brockton is in one of Shaw's cottages.

One of the suggestive signs seen is "Chilly Tonic."

Dr. Herbert has taken a cottage on Great hill.

The street department is leveling off that bump left in the streets by the workmen putting in water pipes.

Contractor Taylor is building a new cottage on Manet avenue near the railway tracks.

Arthur Reed and family are in a cottage on Great hill.

C. A. Bray and family have taken a cottage on Weymouth street for the season.

R. H. Tobey and family of Newton are in their cottage on Manet avenue.

Arthur Shaw and family of Braintree have arrived at their cottage on Great hill.

J. J. Welch has arrived at Rock Island for the season.

Mr. Reed of Brockton and family are in the Bell cottage.

J. F. Costello has opened his bowling alley and billiard rooms. The public telephone station is also located on his premises.

Mrs. Hattie H. Connor has sold her interest in the Brockton Cafe to Boston parties.

The water pipes are being laid to the top of Great Hill.

E. F. Thayer of Houghs Neck is at the Cocobee cottage.

Mrs. Emery of the Loretto reports many of her rooms have been engaged.

Frank Packard of Brockton is at a cottage on Western road.

Mr. Schaff and family of New York are at Rock Island.

Mr. Robbins and family are at their cottage on Rock Island.

Packard & Eldridge are erecting a new cottage at Rock Island for Brockton parties.

Castle Square Theatre.
"Clover, or the Search for Luck," will be the attractive opera presented at Castle Square next week. Never heard it, you say. Why you remember Helen Bertram and Lily Post, Chauncey Olcott and DeWolf Hopper sang it. It is in a prologue and three acts. The scene of the prologue is laid in a Bavarian village. Rudolph leaves his sweetheart Stella to seek fame and fortune. The first act transpires in Paris, where he tries his luck at the gaming tables. In the second act, he is a soldier in a Norway camp. The scene of the last act is in Venice, with gondolas floating about. Stella and her chum follow him through all his adventures in various romantic disguises. The opera is a very pretty and tuneful one.

The march of the Amazons will be continued next week and all the good things of a comic opera. The young ladies are very handsome and march with remarkable precision. New costumes have just been made for them.

MUSIC OF THE WAR
Soul Stirring Songs That Inspired the Soldiers.

PRODUCT OF FERVID PATRIOTISM.

SONGS OF AFFECTION.

Brief reference has been made to "Annie Laurie" as a sentimental song that became popular in the English army during the Crimean war. So, during our own struggle, pathetic words were allied to touching music and sung around the campfires and domestic firesides. One of these, "Tenting on the Old Camp Ground," is still remembered by the old soldiers both of the north and south, and may yet be heard in many a home circle. It was composed by Walter Kittredge, who was born in Merrimac, N. H., Oct. 8, 1832, and known as a public singer and writer of songs and ballads. Having been drafted in 1862, he was preparing to go to the front when the words and music occurred to him, and in a few minutes he transcribed them to paper. At first the song was refused by music publishers, but it is said that when published its sale reached hundreds of thousands of copies.

TENTING ON THE OLD CAMP GROUND.

We're tenting tonight on the old camp ground. Give us a song to cheer. Our weary hearts—a song of home. And friends we love so dear.

CHORUS.

Many are the hearts that are weary tonight, Wishing for the war to cease. Many are the hearts looking for the right, To see the dawn of peace.

Tenting tonight, tenting tonight, Tenting on the old camp ground.

We're tenting tonight on the old camp ground. Thinking of days gone by, Of the loved ones at home that gave us the hand.

And the tear that said "goodbye."

We are tired of war on the old camp ground. Many are dead and gone who left their homes; Others have been wounded long.

We've been fighting today on the old camp ground. Many are lying near; Some are dead and some are dying; Many are in tears.

Among the authors of the time was the late Charles C. Sawyer of Brooklyn, to whom we are indebted for the following, which quickly found its way across the lines and became popular in the south. It was written in the autumn of 1861, and more than 1,000,000 copies have been sold.

WHEN THIS CRUEL WAR IS OVER.

Dearest love, do you remember When we last did meet, How you told me that you loved me, Kissing at my feet?

Oh, how proud you stood before me, In your suit of blue, When you vowed to me and country Ever to be true.

CHORUS.

Weeping, sad and lonely, Hopes and fears, how vain! Yet praying, when this cruel war is over, Praying that we meet again!

When the summer breeze is sighing Mournfully along, Or when autumn leaves are falling, Sadly brushing the long

Of in dreams I see thee lying On the battle plain, Lonely, wounded, and in dying, Calling, but in vain.

PRICE 2 CENTS.

SWITHIN BROS., Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 50 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 50 lots.

Also a few lots off Barnes avenue.

WOLLASTON.

A few desirable lots in Wollaston on Hancock street, opposite entrance to Merry Mount Park.

Will be on land at Presidents' Hill every afternoon from 2 to 4. Parties desiring lots or any information on the above properties, please call at Room 12, Durgin & Merrill's Block, Quincy, June 11.

IN THE SECOND DEGREE

Jury Found Foley, Sullivan and
Nagle Guilty of Murder.

Court Will Allow Defense to
File Exceptions.

Means Life Imprisonment for the Three Men
if the Verdict Stands.

LOWELL, June 14.—The three defendants in the Foster murder trial have been found guilty of murder in the second degree. This means, unless the verdict can be set aside, imprisonment for life.

All day yesterday was occupied by Lawyer Hamilton in his closing argument for the defense and in Attorney General Knowlton's presentation of the closing of the government's case. Those who expected a sensational ending by the attorney general were disappointed. He was conservative, but vehement and forcible. He demanded justice for the dead man and protection for the living from night prowlers and marauders.

Judge Lilley's charge to the jury was very impartial. He quoted the law governing such cases fully and instructed the jury as to what they should do in matters of doubt or uncertainty. He fully enlarged on the necessity of the

Government Proving Its Case. The prisoners should have the benefit of any doubt that might exist. The first and supreme duty of the jury was to do full justice to the best of their judgment and ability to all concerned.

Coming to the murder and the evidence, he said: If the prisoners conspired and intended to shoot to prevent arrest, they were guilty in the first degree; if there was no conspiracy and you find one man fired the shot, he is guilty in the first degree. If the shot was fired to intimidate and not to kill, it is manslaughter.

The jury was out 3½ hours. Shortly after 8 o'clock the judges were informed that the jury was ready to report. They immediately took their places on the bench. The court officers had been instructed just as the jury retired that when the time came for rendering a verdict the aged mother of Sullivan and the weeping and woe-stricken wife of the deceased were to be removed from the room. This precaution was taken to avoid a scene.

The Scene Outside. The entrance to the building were crowded, and everyone was apparently anxious to get within the doors. When the three prisoners arrived, many in the crowd met the back and ran along by its side. It was with difficulty that the crowd was pushed back far enough to admit the defendants and the officers. The three men were at once conducted to the dock, and each one sprang into his accustomed place with agility.

The courtroom was thronged when the jury filed in at 3:25 o'clock. After the usual preliminaries the foreman was asked if a verdict had been found, and he replied in the affirmative. They had found the prisoners guilty of murder in the second degree. The doctored men received the verdict calmly, not one of them expressing any emotion or showing in the slightest that they felt the weight of the sentence.

They were remanded back to jail, and their counsel were given two weeks in which to file exceptions.

Gubernatorial Plans.

BOSTON, June 14.—Governor Greenhalgh yesterday made the following appointments: Metropolitan water supply commission—H. H. Sprague of Boston, W. R. Evans of Everett, J. J. Whipple of Brockton. Old Colony commission—T. D. Davis of Plymouth, L. V. Briggs of Haverhill, Rev. S. H. Emery of Taunton. Metropolitan park commission—Augustus Hemenway of Milton, Massachusetts highway commission—N. S. Shaler of Cambridge. Commission to represent the commonwealth at the Atlanta exposition—W. C. Lovering of Taunton, H. G. Kittredge of Boston, Curtis Guild, Jr. of Boston, Mrs. Martha McDaniels of Lowell and Miss Helen M. Winslow of Boston. This summary action by the governor in disposing of a whole batch of expected and much-discussed appointments once caused general surprise at the state house.

Summarily "Fired."

MALDEN, June 14.—Of all the sensations which Malden has known in its history, the greatest came last night, when more than half the permanent police force of the city was literally "fired" and new patrolmen were appointed to fill the places thus made vacant. The alleged cause of the wholesale discharge was the action of the officers in question voting to disband the Malden Police Relief association and distribute the funds, amounting to \$700, among the 17 members of the police force. By this action members of the association received, severally, from \$300 downward.

Patriots All.

BOSTON, June 14.—The anniversary of the adoption of the Stars and Stripes as the national emblem was celebrated last night at Faneuil hall. Many Grand Army men took part. The hall was beautifully decorated. Rev. J. S. Stanford, a colored divine, opened the exercises with prayer, and was followed by Mrs. Jewell, president of the Robert A. Bell corps. William H. Thomas, H. A. Thomas, Mrs. E. R. Lord of Salem and others spoke.

Charge Changed.

BOSTON, June 14.—Mrs. Mary A. Kerrigan, whose case was continued from Tuesday last, appeared in court yesterday to answer to the charge of killing Francis J. Sullivan last Saturday. The government permitted the change in the warrant from murder to manslaughter, and the case was continued to June 26. Mrs. Kerrigan will be admitted to bail.

Double Tragedy in Waterbury.

WATERBURY, June 14.—William Browne entered the saloon of Harvey Bros. yesterday and shot William Harvey dead and then killed himself. Browne's wife and children had left him because of his dissolute habits, and were supported by Harvey, who was Mrs. Browne's brother.

Atlanta at Target Practice.

NEW LONDON, June 14.—The cruiser Atlanta is in the harbor for a few days' target practice at Jarden's bay. The cruiser will remain here until after the reunion of the Army of the Potomac next week.

Queer Doings.

PORTLAND, June 14.—John O. Jordan was a clerk in the employ of a grocer named Slater, who was arrested a few days ago on a capias. After his arrest, Slater, it is charged, transferred his stock and fixtures to Jordan without consideration, thus making Jordan a party to the fraud to defeat Slater's creditors. Jordan was arrested last night. The penalty for the fraud he and Slater are said to have perpetrated is a severe one.

Gifts to Educational Institutions.

BOSTON, June 14.—The public bequests of the will of the late Eustace C. Fitz are: Brown university, \$500; Colby university, \$500; Wellesley college, \$10,000; Newton Theological institution, \$10,000; American Baptist Missionary union, \$10,000; American Baptist Home Missionary society, \$10,000.

Stringent Measures.

WORCESTER, June 14.—In view of the scarlet fever epidemic that has again broken out in Oakdale, West Boylston, the board of health has issued orders that churches closed, and forbidden public gatherings of any kind till further notice. There have already been several deaths.

Gone After Hosler.

BOSTON, June 14.—Two police inspectors left this city last night for Monterey, Mex., for the purpose of bringing back Albert J. Hosler, who was arrested in Monclava, Mex., for the Boston police. Hosler is charged with forging the name of Henry D. Hyde on several checks.

Claimed to Be Accidental.

LYNN, June 14.—Charles Parsons, aged 12 years, was stabbed by Connie Martin, a companion new boy, last night. Martin was arrested. He claims that a crowd of boys were annoying him, and that in a scuffle he accidentally thrust a knife into Parsons, behind the right shoulder.

Canoe Overturned.

PORTLAND, June 14.—Phillip B. Turner borrowed a canoe from a friend yesterday afternoon to go sailing. Later the overturned canoe was found floating down the river. A further search discovered Turner's hat and the paddle of the canoe. It is believed that the young man is drowned.

An Old Offender.

NEW HAVEN, June 14.—Charles Warren, the horse thief captured here, proves to be a jailbird who escaped from Alfred prison in Maine. A number of horses stolen by him have been recovered by the local police. Warren is wanted in nearly every New England state for horse thefts.

Lightning's Work.

COLERAIN, Mass., June 14.—A barn owned by Dr. J. W. Cram was struck by lightning yesterday afternoon and burned to the ground. The flames communicated to Mr. Cram's house and also to the house and barn of Lucius Lyons, which were also destroyed. Total loss, \$10,000.

Given Benefit of Doubt.

MIDDLETOWN, Conn., June 14.—Rev. H. C. Randall, formerly rector of the Episcopal church in Essex, has been committed to an insane asylum in this city. He has been accused of grave misdemeanors, but it is thought they were caused by insanity.

A Hundred Years Old.

FRAMINGHAM, June 14.—Middlesex lodge, F. and A. M., celebrated its 100th anniversary yesterday. The lodge was instituted by Paul Revere.

Hard on Youngsters.

HUDSON, Mass., June 14.—Because of the fire last Fourth of July, the boys will not be allowed this year to fire off crackers, rockets or squibs.

Shower of Toads.

ROWLEY, Mass., June 14.—While it was raining here yesterday, hundreds of tiny toads came down with the rain.

New England Briefs.

The Wallace library at Rindge, N. H., was dedicated.

A class of 25 seniors graduated from the Montpelier seminary.

Lightning struck and killed three cows owned by S. W. Ford of Dover.

Rev. E. B. Willson, pastor of the North Unitarian church, Salem, is dead.

John I. Payson of Boston was drowned while canoeing in the Charles river.

The body of the 6-year-old son of Joseph Keller was found in the harbor at Bridgeport.

Rev. Joseph P. Sheafe was installed as pastor of the Unitarian church in Harvard, Mass.

Carl Zim was arrested at Lawrence for the larceny of cloth from the Washington mills.

George Cadreat, aged 15, was drowned in Horseshoe pond, Concord, N. H., while rafting.

The Brockton common council appropriated \$900 for the Fourth of July celebration.

The yearly meeting of the Society of Friends of New England convened at Portland.

The Merrimack river at Newburyport is alive with menhaden, and the seiners will shortly begin work.

Miss Bradford's will, leaving \$4000 for the support of her parrot, was admitted to probate at Boston.

Robert Kellewell, while working on a new house at Fall River, fell and sustained injuries which resulted in his death.

The state census will show Hudson's (Mass.) population to be about 5100, an increase of 40 since the previous census.

Thrown from her carriage at Waterbury and sustained injuries which will probably cause death.

Is Uncle Sam Responsible for the
Childs Cuban Expedition?

An Interesting Letter of Two
Score Years Ago

In Which Samuel J. Tilden Plainly Expressed
His Views of "Jingoism."

WASHINGTON, June 14.—If the steamer George Childs, as alleged, has carried from the United States a supply of munitions of war and armed men to aid the rebels in Cuba, the incident may raise a grave question as to the responsibility of our government. On the statement of facts, as reported to our officials, the case bears a strong resemblance to the celebrated Alabama affair, which cost the British government many millions of dollars to settle.

It cannot be said that the decision of the United States courts in the Itata case fits this and would justify our officials in failing to put forth all proper effort to detain the ship, for in that case the courts made the point that the Itata expedition did not originate in the United States and was simply a merchant vessel coming from a foreign country and receiving aboard a load of merchandise.

While it is true this load consisted of arms, under our construction of international law these were goods which may be sold and shipped to any party. In the Childs case, however, the vessel was under the United States flag, and practically the expedition originated in this country.

It is said that our government was duly advised of the intended departure of the Childs expedition, though whether the advice was in themselves sufficient to make up a prima facie case justifying the arrest of the parties or the detention of the vessel, under the terms of our own law, cannot be learned.

By the terms of the treaty of Washington, the United States bound Great Britain and itself to the doctrine that a nation is bound to use "due diligence" to prevent the departure of armed expeditions against a friendly nation. This raises the point whether the United States can be held to have exercised due diligence in the matter if it required the Spanish officials to furnish absolute proof of the nature of the expedition, or whether it should not be left to itself to secure the necessary evidence upon information being supplied to show that the departure of the expedition is probable.

If the latter view is taken, it would seem to follow that through the instrumentality of the secret service of the treasury the government might easily obtain sufficient evidence to break up quickly the organization of hostile movements in this country directed against Spain, and upon the decision of the administration as to its duty in this matter undoubtedly hinges the success or defeat of the cause of the Cuban rebels, for it is not believed that it can succeed without substantial aid from sympathizers in the United States.

A Letter of Interest.

The New York Evening Post prints a letter from Samuel J. Tilden to Secretary of State Marcy, dated Nov. 27, 1874, and never before published, protesting against the jingoism of that time.

Cuban annexation was then a popular cry. The ministers of the United States at London, Paris and Madrid, acting under instructions to confer on the question of Cuba, met at Ostend, Belgium, under the lead of Sule, the minister at Madrid, advised, in substance, that if Spain should refuse to sell the island the United States would be justified in seizing it. Mr. Tilden said:

"I hope the president's message will be in a tone of sound conservatism as respects our foreign relations, which, while observant of our rights and dignity, will quiet the public mind here and remove apprehension abroad. This is what the existing state of feeling and opinion in this country peculiarly demands at this time. The people have had a surfeit of the cheap popularity that begins in folly and ends in disgrace."

In the present state of the world our policy is to avoid difficulties with all foreign nations, to leave ourselves to grow, to milk the cow while Russia is holding her horns and England and France her legs, and not to enter upon any projects of aggrandizement or specially indulge our vanity. The very serious crisis through which the business of the country is passing induces a sober look. Even the Monroe doctrine, which is excellent if we could only agree what it is, if it won't keep until next season, might as well come in small doses.

"We don't care much now about Austria or Spain or Italy, but we would like to see somebody snub Soule or even good-natured Mason or staid and cautious and respectable Buchanan. It would be well to repeat the true American doctrine in regard to European affairs, the doctrine of non-intervention in their domestic concerns, of fair and honest friendship with all the powers and enlarging alliances with none of them. As they are at war, and each side naturally seeks our sympathy, such a declaration would be well timed."

"Our position in respect to Spain and to filibustering as well, I presume, will be stated, and our policy vindicated. Excuse me in the after-words of my thoughts. It is only the observation of the public opinion from a different standpoint, and it is my solicitude that you may have all the elements of judgment as well for the country's sake as for yours that induces me to add my mite."

Whisky Trust Illegal.

SPRINGFIELD, Ills., June 14.—The supreme court of Illinois confirmed the opinion of the lower court in the case of the people vs. the Distilling and Cattle Feeding company declaring the company to be an illegal combination or trust. The decision means the breaking up of the Whisky trust. The decision is one of the strongest arraignments of combinations ever promulgated by any court.

Warfare in Madagascar.

PARIS, June 14.—Advices from Madagascar say that the advance guard of the French expedition forced the pass of the Betsiboka on June 9 and captured Meratanano, whereupon the Hovas retreated, when the French began shelling them. Only two French soldiers were wounded; but the troops are suffering from the climate.

Important Real Estate Transfer.

George H. Brown & Co., agents for the
Briseler heirs, have sold the northerly part
of the estate of the late John Briseler to
Mr. John W. Nash. There is about 15,000
square feet in the lot sold to Mr. Nash with
a frontage of 65 feet on Hancock street.
The southerly portion of this estate has a
frontage of over 158 feet on Hancock street,
and a total area of 12,787 feet. This corner
lot is undoubtedly the finest building lot
for business purposes in the city, and the
LEDGER reporter is informed that a syndi-
cate is now considering its purchase.

A Worthy Tribute.

Through the energy and generosity of
Mr. James R. Qualey, a granite monument
has been made and erected at William
McEwan's grave in the Plain street cem-
tery.

The monument bears the name of the
noted man who for so many years ably
edited this paper, and the date 1834-1894,
the time of his life.

As we viewed the spot yesterday we
could but feel that this simple, though
beautiful stone, with its unassuming epi-
taph was just such a mark as the honest
man would have desired. A strong and
noble mark for an equally strong and noble
man.

PUBLIC INSTALLATION.

Of Officers of Granite Lodge,
O. S. S. G.

The following officers of Granite Lodge
193, O. S. S. G., were publicly installed
Wednesday evening by Grand Deputy
James Rapson assisted by Grand Mes-
senger Michael Phillips:

President.—John Lawry.

Vice President.—Arthur C. Steer.

Secretary.—John Pierce.

Treasurer.—Charles Davy.

Messenger.—Joseph Bray.

Trustee.—William D. Steer.

After the installation ceremonies there
was an interesting concert consisting of
duets by William Warrington and John
Pierce; recitation by James Rapson and
solos by Samuel Tatten, John Story, John
Collins, and Samuel Leach.

MILTON.

A special town meeting has been called
for Saturday, June 29, at 2 o'clock, to act
upon several important matters, among
which is to accept the reserved space
between East Milton and Quincy for the
street railway to build its tracks.

To see what action the town will take in
the appointment of a committee to con-
sider the question of the town's purchasing
the rights and property of the Milton
Water company.

To see if the town will instruct the Park
commissioners to purchase or take a parcel
of land in East Milton of nine and one-
half acres abutting on Adams and Squam-
um streets, and a piece of land of seven
and one-third acres on the southwesterly
side of Brook road for public playgrounds
and appropriate money for the same as
well as a sufficient sum to put the land into
suitable condition for such purposes.

To see if the town will accept the ac-
titled: "An act to authorize the town of
Milton to construct one or more systems of
sewerage and to appoint seven commis-
sioners if said act is accepted, and to
authorize the selectmen to employ a civil
engineer and to fix his salary.

The East Milton branch of the Y. L. C.
A., hold a lawn party this evening at the
residence of Mrs. R. P. Smith in aid of the
Free Home for Consumptives.

Mr. Tuell principal of the High school
held his annual reception to the graduates
and members of the High school Tuesday
evening.

A tailor store has been opened in the
Ellsworth block.

The new time table which goes into
effect next Sunday gives East Milton three
Sunday trains each way and fourteen
week day trains each way.

Children's Sunday will be observed at
the Congregational church Sunday. At
the morning service there will be ap-
propriate exercises and the baptism of infants
and at the evening service a Sunday
school concert will be given.

William S. Leavitt goes to New Hamp-
shire Saturday for a month's visit.

The Young people of East Milton were
given a reception at the Baptist church
Thursday evening. There was a pleasing
entertainment. Refreshments were also
served.

Mrs. Joseph Pierce has gone to New
Hampshire on a visit.

John Brydon has gone to New Jersey for
the summer months.

Some parties unknown stole two kegs of
paint owned by Ford & Barron from one
of the new houses on Squantum street.

John R. T. Martin is to start a vegetable
wagon.

The land about the Baptist church is
being nicely graded off and when com-
pleted will make a great improvement.
Among those at work with a pick and
shovel during the week was Rev. Mr.
McGill the new pastor, who proved that
clergymen are good for something besides
preaching.

TODAY'S COURT.

Thomas Thompson paid a fine of \$5 for
drunkenness at Quincy.

James Hone of Weymouth was arraigned
for drunkenness. Case continued until
June 29.

James Williams and Eugene Lyons were
arraigned for breaking and entering the
store of J. Marcus Arnold at Braintree
and were held in \$400 each for the grand
jury.

Sometime ago I was troubled with an at-
tack of rheumatism. I used Chamberlain's
Pain Balm and was completely cured. I
have since advised many of my friends and
customers to try the remedy and all speak
highly of it. SIMON GOLDBAUM, San Luis

Two Burglars Caught.

Officer Gallivan caught two burglars last
night who had entered the store of J.
Marcus Arnold. They were taken to the
Quincy court this morning for preliminary
hearing.

The arrest took place at about half past
one. Gallivan noticed the two men and
thought there was something crooked
about them, so shadowed them and when
his suspicion warranted got Constable
Mischler to aid him and arrested the men
in the act of burglarizing the store. The
men claim that they come from Philadel-
phia.

They were held in \$400 00 bonds for the
Superior court, and in default were com-
mitted to jail.

Honorable Mention.

We are pleased to learn that Mr. Richard
Brooks of Braintree, who for the past two
years has been an art student in Paris, has
received "Honorable Mention" at the
present "Salon" for the piece of sculpture
which he there exhibits. He was, while
pursuing his studies here, for many years
with the Boston Terra Cotta Company,
Federal street, Boston, has executed several
very fine portrait busts of well known men
in this vicinity; among them that of ex-
Gov. Russell, and Dr. T. H. Dearing.

Perhaps not all of the readers of the
OBSERVER may know just what an award
of this kind signifies, coming as it does to
an American for the first work he exhibits.
The honors of the "Salon" are divided in
"Mention Honorable," first, second and
third medals; with the crowning award of
the cross of the "Legion of Honor."

Artists frequently show their work for
years before receiving even the compliment
of "Mention Honorable," so that it is
particularly gratifying to us that Mr.
Brooks should thus early in his career re-
ceive the notice which he has.

The art world looks to the annual
"Salon" for the introduction of new and
promising artists, as well as for the latest
achievements of those whose reputations
are already established, who hope for still
higher awards for their productions.

I have two little grand children who are
teething this hot summer weather and are
troubled with bowel complaint. I gave
them Chamberlain's Colic, Cholera and
Diarrhoea Remedy and it acts like a charm. I
earnestly recommend it for children with
bowel trouble. I was myself taken with a
severe attack of bloody flux, with cramps
and pains in my stomach; one third of a
bottle of this remedy cured me. Within
twenty-four hours I was out of bed and doing
my household work. Mrs. W. L. DUNAGAN,

Quincy Teachers' Association.

The annual meeting of the Quincy
Teachers' Association was held in the
High school hall at 8 o'clock. This meet-
ing, like all the others, was large and very
interesting. The first part of the evening
was spent in transacting the business of
the association after which the following
programme was rendered:

Piano solo, Mrs. Alma Faunce Smith
Vocal solo, Mr. E. Walter Arnold
Vocal solo, Miss Mary Virginia Hastings
Vocal solo, Mr. Ferguson
Address, Miss Charlotte W. Hawes
Intermission
Miss Mary Virginia Hastings
Mrs. Alma Faunce Smith
Mr. E. Walter Arnold

Mr. Lull moved that a vote of thanks be
tendered the artists for the enjoyable even-
ing's entertainment they had furnished for
the teachers present. The motion was
passed by a unanimous vote. The entertain-
ment was certainly a superior one, and
formed a fitting close to the year's work of
the association.

The following officers were elected for
the ensuing year:

President,—C. F. Merrick.
Vice President,—John O. Hall, Jr.
Secretary and Treasurer,—Miss Geneva
Gwynn.

Executive Committee,—Willard school,
C. F. Merrick; John Hancock school, Mrs.
Helen M. West; Lincoln school, Miss
Alice M. M. Richards; Coddington school,
Miss Julia E. Underwood; Washington
school, Miss Alice S. Hatch; High school,
Miss Geneva Gwynn; Woodward In-
stitute, Miss Carrie E. Small; Wollaston
school, Miss Clara E. G. Thayer; Quincy
school, Mr. J. L. Littlefield; Adams
school, Miss E. C. Sheahan.

The Ladies' Aid Society connected with
the First Parish church held their regular
meeting Wednesday with Mrs. J. H. G.
Robinson, at her summer residence at
Houghs Neck. There were thirty-three
members present and the day was enjoyed
by all. Mrs. Robinson prepared an
excellent chowder for dinner and the
different members carried cake, etc. A
number stood until evening.

Monatiquot Lodge, K. of P., will attend
a reception to be given Grand Chancellor
James H. Flint of Weymouth, next Mon-
day. There will be a parade at 5 P. M.
Several other lodges will be present.

Friday evening the W. R. C. presented
General Sylvanus Thayer Post with a
beautiful flag. After the regular meeting
the members of the corps entered and Mrs.
E. A. Fisher made the presentation speech;
Commander Anderson responded.

BOLD ROBBERY. John Mahar, for
years, employed at A. C. Drinkwater's
tannery, lost \$130 from a trunk in his
room in Frank Lindsey's boarding house
between Tuesday and Wednesday evenings
of this week. The money was in a trunk,
and the thief burst open the lock with
some instrument similar to a chisel. Mr.
Mahar says that it is not difficult for any
one to enter the house and reach the room
without attracting attention. He has no
idea who the culprit is and there is very
little clue.

A SERIOUS CHARGE. Edwin Graves of
Braintree was arrested on Wednesday
afternoon by United States Marshal
Galloupe, on the charge of sending obscene
matter through the mails.

Graves is alleged to have advertised his
business in the different newspapers
under the head of "Oscar Wilde." He
was held in \$500 for a hearing before
United States Commissioner Fiske on
Saturday.

"Many of the citizens of Rainsville Indi-
ana are never without a bottle of Cham-

SWITHIN BROS., Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 80 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 50 lots.

Also a few lots off Bates avenue.

WOLLASTON.

A few desirable lots in Wollaston on Hancock street, opposite entrance to Mount Park.

Will be on land at Presidents' Hill every afternoon from 2 to 4. Parties desiring lots or any information on the above properties, please call at Room 12, Durgin & Merrill's Block, Quincy, June 11.

A FATAL EXPLOSION.

Seven Persons Killed and Missing In
a Fall River Harness Shop.

Jarred Buildings Within a
Half Mile of the Scene.

Engineer Placed Under Arrest Pending an In-
vestigation of the Affair.

FALL RIVER, June 15.—A catastrophe, which created the greatest excitement in this city since the Granite mill fire, occurred yesterday morning at the Langley loom harness shop on County street, a three-story wooden building owned by Henry F. Langley. A 50-horse power boiler of the Cunningham make exploded in the rear part of the basement, blowing out the sides of the building, knocking away the supports and allowing the upper floors to settle into a mass of ruins. Fire broke out in the ruins and began to burn briskly.

The firemen rushed to the scene and made heroic efforts to rescue the imprisoned work people, of whom there were 17. Shrieks from the girls in the ruins were mingled with the agonized cries of their friends, who had hurried to the scene when the first news of the catastrophe spread. Ambulance calls were sent out hurriedly, and every physician who could be reached was sent at once to the scene. The offices and the houses in the vicinity were turned into temporary hospitals.

At 9 o'clock the badly charred and scarcely recognizable body of a woman was hauled from the ruins. The fire had then been quenched, but it was still smoldering, and the work of rescuing could go on only with difficulty. Up to noon the work of search and rescue was carried on amid great excitement, and at that hour it was found that four persons had been killed, three more were missing and four had been seriously injured.

The killed were: Lella Horton, aged 17; Adele Dube, aged 18; Robert Murray, aged 21; Adolph Bellefeuille, aged 30.

Missing: Angelina McCoy, August Senecal, Philip Smith.

Injured: Thomas Barry, aged 15, badly burned about the face and crushed about the body; Mattie Desroches, badly shocked, and required medical attendance; Joseph Nuttal, scratched on left arm; Annie Hurst, struck behind the ear by flying debris; Mary Partridge, cut on the head.

When the explosion occurred, it shook every building within half a mile. It wrecked the Stafford mill windows on the east side, and in less than three minutes every operative was out of the building. There is a great deal of wreckage among the mill machinery. The force of the explosion was great enough to send bricks flying from the face and crush the boiler to the west side. The boiler was torn apart in the middle and the furnace part was blown into the building.

The narrow escapes were numerous and marvelous, and the wonder is that only 7 out of 17 are likely to have been killed. It is quite certain seven deaths at least will be the result.

Mr. Langley was at breakfast when the break came. His house was not injured, although it is within 25 feet of the wrecked shop. He says the boiler was of the Cunningham make, of steel, and only 3½ years old.

Napoleon Lange, the fireman and engineer, was lucky enough to escape without injury. There was plenty of water in the boiler. He has been arrested. The total pecuniary loss will be about \$40,000. The building was used in the red and harness business, and was filled with inflammable materials.

Something Queer About It.

NEWPORT, June 15.—Lieutenant Holman of the torpedo station yesterday afternoon set off a Whitehead torpedo (the same that on Thursday went astray). The torpedo ran 600 yards, but when that distance was reached it curved off to the left and was lost to view. The projectile was returned to the station by George Cooper, who found it on the rocks at Rose Island. The projectile was uninjured. Cooper is the person who recovered the same torpedo after it was fired on Thursday, and there is thought to be something mysterious connected with the affair. An investigation is to be held.

A Railroad Sensation.

BOSTON, June 15.—There were lively times for a while yesterday up at the rooms of the railroad commission. The occasion was a hearing on a petition of the Worcester, Nashua and Rochester road for permission to issue bonds to the amount of \$200,000, and the sensation was brought about by the confession of Director Sinclair that the road had issued \$71,500 in bonds since June 30 of last year without the approval of the railroad commissioners, and that his predecessors in office had indulged in systematic stealings amounting to 3 per cent a year on the stock of the company.

The B. and M.'s Proposition.

CONCORD, N. H., June 15.—One of the largest stockholders in the Concord and Montreal road last night gave out an idea of the proposition of leasing of the road by the Boston and Maine road. The term of the lease will be 91 years. The Boston and Maine will pay all expenses, fixed charges, taxes, rentals, besides paying to the Concord and Montreal road a sum equivalent to 7 per cent upon the total capital stock, besides an increase in the capital stock of \$12,000, the shares to be divided pro rata among the present stockholders.

Car Houses Destroyed.

WOBURN, June 15.—Fire destroyed the car houses of the East Middlesex Street Railway company. The damage is variously estimated from \$15,000 to \$50,000.

Patent Stands.

BOSTON, June 15.—The opinion of the
United States circuit court of appeals in
the case of the American Bell Telephone
company, in which the validity of the
Berliner patent is involved, was filed yester-
day. The opinion is written by Judge
Putnam. The result of the decision,
which was given some weeks ago, is that
the decree of the circuit court is reversed,
and the case remanded to that court with
directions to dismiss the bill.

A Successful Trial.

NEW LONDON, June 15.—Torpedo boat
Ericsson ran into Long Island sound 20
miles yesterday, her engines and ma-
chinery working admirably. She is said
to have made a speed averaging 25 miles
an hour with propellers working 320 revo-
lutions, when 480 is the maximum. It is
believed she will easily win a premium
when she has her trial run.

An Alleged Firebug.

HARTFORD, June 15.—At the third day
of the Dr. Malcolm Griswold trial, in
which the accused, a prominent dentist,
is charged with setting fire to his office
building to obtain insurance, Dr. Fred
Jackson, who studied with Griswold, is the
principal witness. Jackson swore that
Griswold, two days after the fire, admitted
to him that he set fire to the place.

Had Been Missing a Week.

LYNN, June 15.—Alexander Maloney, a
young man who has been missing from
home since June 4, was found in West
Lynn last night. Maloney has been insane
for some time. Since he has left home he
has been seen in Lynn woods, and for two
days officers have been patrolling that lo-
cality looking for him. He is about 26
years of age, and has been an inmate of
Danvers asylum.

Murderous Brother-in-Law.

CONCORD, Mass., June 15.—In Carlisle, a
small adjoining town, George W. Carter,
aged about 65 years, was assaulted on the
steps of his own home by his brother-in-
law, Albion Adams, aged about 55 years.
Carter was struck at least five times upon
the head. His skull was fractured in three
places, and he now lies in a very critical
condition in St. John's hospital, Lowell.

Dastardly Work.

SCOWHEGAN, Me., June 15.—Mrs. Mary
Jane Cain, aged 70 years, living on Eaton
Ridge in this town, was brutally assaulted
in her home Thursday evening by an un-
known man. The assailant, at her own
cry, knocked her insensible, beat her over
the head and broke both her arms, jaw
and three ribs. There is no clue, but offi-
cers are scouring the country.

Littleton's Holiday.

LITTLETON, N. H., June 15.—The town
of Littleton yesterday observed, by a joint
celebration, the 125th anniversary of its
settlement and 50th anniversary of its sys-
tem of public improvements. Business
was suspended, factories shut down, and
everybody was in holiday attire. The
speeches were of a historical character.

Fierce Fire in Lynn.

LYNN, June 15.—Three frame buildings
on Central avenue were destroyed by fire
this morning. The fire was discovered at
3:15 a. m. The buildings destroyed were:
Boyd's potato chip factory, Dennis' sta-
ble and Elmer E. Bray's harness and car-
riage place. The loss is estimated at
\$50,000.

Doubts Set At Rest.

LYNN, June 15.—Colonel C. O. Dodge
of Beverly, whose reported resignation as
colonel of the Eighth regiment has been a
matter of much conjecture for the past
two weeks, settled the matter last evening
by sending to Adjutant General Dalton a
letter asking to be retired.

Rhody's Labor Troubles.

PROVIDENCE, June 15.—The strike situa-
tion is unchanged. The Geneva weavers
have voted not to return to work until an
increase of wages had been granted. In
Olivette all mills except those in the
Fletcher combination and the Atlantic re-
port large accessions.

Astray in a Dory.

BOSTON, June 15.—Captain Martin of
the Gloucester fishing schooner Iolanthé,
at this port, reports that John Foy went
astray in his dory while tending trawls 11
miles off Pollock Rip lights. Foy was
33 years old, and has a wife and four chil-
dren in Charlestown.

Crooks to Be Looked After.

BOSTON, June 15.—Representatives of
the police department of every city of im-
portance in the country will come to the
Christian Endeavor convention to protect
the delegates from crooks that will swarm
to Boston while the great crowds are here.

Assault With Intent to Kill.

PORTLAND, June 15.—Edward Graffman,
whose connection with the Lewis murder
trial as principal witness for the state is
well known, was arrested yesterday in
Gorham for making an assault with in-
tent to kill on a man named Reynolds.

Sentenced For Life.

BOSTON, June 15.—A life sentence was
yesterday imposed on Albert T. Abbott,
convicted of felonious assault upon Ver-
onica E. Hancock, a Roxbury child, 5
years of age. The crime was committed
on May 13, at the child's home.

A Lucky Hun.

ASSONIA, Conn., June 15.—Adolph
Spero, a laborer in a factory here, was
notified that he had fallen heir to \$40,000
by the death of a distant relative in Hun-
gary. He will leave in a short time to
take possession of his property.

Edgemakers Out.

LYNN, June 15.—The edgemakers in the
employ of G. W. Varnoy & Co., shoe man-
ufacturers, are on a strike. The claim
they have not been paid as much for their
work as is being paid in other factories
for the same kind of work.

An Unhappy Veteran.

FOXBORO, Mass., June 15.—Captain
Henry C. Lindley, a war veteran, com-
mitted suicide yesterday by hanging. His
pension was taken from him two days ago,
and being in poor health the loss affected
his mind.

Fell Two Stories.

LYNN, June 15.—Miss Lizzie Norton, a
domestic, while washing windows, fell
from a second story window, striking on
her head and sustaining probably fatal
injuries.

Coasting.

On September 15, at Waltham, in a coasting
tournament wherein seven or eight of the leading
bicycles were represented, "The Spalding" finished
first, second and third. The greatest tribute to the
coasting ability of "The
Spalding" Bicycle was
paid by Capt. Allen of
Philadelphia. On the trip
to Glen Summit he was
the only one able to come
down the mountain with-
out a mishap, which feat
in itself should clearly establish the superiority of
"The Spalding" at coasting, when the extraor-
dinary declivity of Glen Summit is considered.

NO PAPER THE SEVENTEENTH.

The DAILY LEDGER will observe the
Seventeenth of June as a holiday. The
office will be closed and no paper issued.
See Tuesday's LEDGER for holiday news,
church notes, etc. It will be a newsy
paper.

EDITORIAL COMMENTS.

THE TRUSTEES of the library have re-
placed the high board fence between the
library and the hospital estate at the
corner, by a lower open fence. This is an
improvement to both estates, and allows
the sun to shine in the yard at the cottage,
making a wholesome corner now.

THE big European maples on Mrs.
Wales' estate, Coddington street, are
among the finest trees in the neighborhood.
This splendid variety of maple is not
common, and it is worth while to walk to
to see these solid domes of green foliage.
Spear street is one of the pleasantest at
this season; being well located too.

QUINCY BREVITIES.

Notes from Quincy Point, Wollaston,
Atlantic, South and West Quincy.

Business in general will be suspended in
Quincy Monday.

Mr. Carter of Wollaston Park at present
writing is failing very rapidly.

Auctioneer Johnson holds his first
auction in the court room building to-
night.

The grand opening of Lovell's grove
will serve to attract many people there
today.

See Tuesday's LEDGER for full report of
the observance of the Seventeenth of June
in Quincy and adjoining places.

Sanborn & Damon have had a handsome
new sign put over their store in the LED-
ger building.

The contract for the 36 monuments for
the state of Illinois has been awarded to
the Mitchell Granite Co.

The Epworth League of Atlantic will
hold a basket social on Thursday evening
next at the chapel. Ice cream and cake
will be for sale.

S. F. Willard returned from Cottage
City this morning. While there Mr. Wil-
lard supplied all the soda fountains with
his Roman Sherbet.

Merrells, Bissell & Co. call your atten-
tion to the choice lots they have left at
Wollaston. Notice that they will have an
agent on the ground Monday.

That new electric light with reflector at
the Public Library is so brilliant that it
lights up the library grounds in good
shape and is appreciated by many.

Mr. Fred Tirrell received a kick from a
colt which he was assisting his blacksmith
in shoeing, Friday, which knocked him
end over end, but fortunately was not in-
jured any.

It is rumored that a petition is to be
circulated asking the Quincy and Boston
to reduce the fare to five cents on the
Houghs Neck route. If not for transient
at least for the cottagers at the beach.

The annual convention of the Boston
South District of Epworth Leagues will
be held at Temple street (Grace Church)
Boston, on Wednesday afternoon and
evening. A large delegation from Atlantic
expected to be present.

The ladies of the Park and Downs
Union Society gave a fine entertainment
and supper, June 5, to which a large
number were present. They anticipate a
grand treat in another social next
Wednesday evening, June 19th.

A grand game of base ball will be played
on the field back of the St. John's hall, on
June 17, between two nines chosen from
the St. John's society. The teams will be
known as Destructionists and Obstruction-
ists, to be captained by Michael O'Hara
and John F. Foley.

On Friday evening at the Methodist
Episcopal church, Atlantic, Mrs. Ellen
Francis Darling, an English evangelist
and soloist of note, was present and ad-
dressed the meeting. She has conducted
very successful meetings at Bromfield
street Methodist Episcopal church, Boston.

It is rumored that City Editor Frank F.
Prescott, arrived in Yarmouth with the
press excursion on Tuesday with a very
poor appetite and a great loss in his usual
weight. Also that he was so pleased with
the steamer he hated to leave it after
reaching port. Lucky Dr. Halliwell went
with the party.

An East Boston man, whose name could
not be learned, met with quite a serious
accident Friday afternoon on Washington
street near Cronk's bakery. He was at-
tempting to get on his carriage when his
horse, a vicious animal, kicked him, caus-
ing a compound fracture of the leg. He
was carried into Cronk's bakery and a
physician summoned who ordered his
removal to the City Hospital.

Mr. George E. Taber of Campello, who
will address the Y. M. C. A. meeting in
the Presbyterian church, Water street,
Sunday afternoon, is well known in
Quincy. He is commonly known as the
"converted expressman" but is now a
foreman in George E. Keith's shoe factory.
He spends nearly all of his Sundays doing
evangelistic work. He is a man of great
spirituality as well as physical power.

—According to a new law, approved by
Gov. Morton, the coroner's office in New
York city will be open always. The new
order went into effect on Saturday night
last.

friends who wish them every happiness in
their new home in Bangor.

Cards are out for the marriage of Mr.
Benjamin Langhorne and Miss Jennie
Reith at the home of Mrs. Porterfield, on
Granite street, on Thursday evening
June 20th.

Miss Annie L. Prescott and Miss Alice
K. Prescott are visiting their cousin Miss
Kate P. Fisher in Medfield.

Mr. Golding and sister have arrived at
Wollaston Park, from their school in La
Fayette, Indiana, two weeks earlier than
usual, but none too soon, as their sister
Mary, who has been very feeble all
winter, passed to her better home the next
morning. They have the sympathy of
their many friends.

Mr. Smith and family have arrived at the
Park and are occupying their new cottage
at the beach.

Invitations are out for the wedding of
Miss Sara Jane Rea of Lovell's Corner and
Mr. Lester E. Bates of East Weymouth,
at the M. E. church Wednesday evening
June 20, followed by a reception at the
home of the bride's mother Mrs. Ellen A.
Pratt.

Monograms are much smaller than they
used to be and are placed in the middle of
the page instead of in the upper left-hand
corner.

The engagement of Miss Nellie Nelligan
of Weymouth and Mr. Michael Shay of
this city is announced and the marriage
will take place in a few weeks.

Dr. and Mrs. Hull and Miss Burham of

gone to Germantown for the summer
months.

Mr. George W. Prescott, with a few
brother editors, will spend Sunday in
Duxbury, visiting the many points of
historical interest.

For wedding invitations the paper is not
longer than wide, calling for square en-
velopes as formerly but is wide and the
envelope long and narrow.

Among those receiving invitations to
Harvard, Class Day, are: Mr. and Mrs.
Theophilus King, Miss Zuna King, Mr.
and Mrs. Thomas A. Wheeler, Miss Sara
Whicher, Mr. and Mrs. George H. Hit-
chcock, Miss Fay Hitchcock, Mr. and Mrs.

their friends at their beautiful new
colonial house in East Braintree the even-
ings of the 11th and 12th.

Ex-Gov. Ames and family moved on
Tuesday to their beautiful summer home
in North Easton.

Mr. and Mrs. W. H. White of Stoughton
celebrate their golden wedding next
Saturday.

Mr. and Mrs. Hawkes Loring of Hing-
ham celebrate their silver wedding anniv-
sary today.

Wednesday evening a pretty home
wedding was celebrated at Hyde Park at
the residence of Mr. and Mrs. William Le
Bourveau, when their daughter Miss
Annie was united in marriage to Mr.
Warren E. Stockwell of Fitchburg.

Mrs. Henry Smith of Holbrook has re-
turned home from a seven months visit to
her daughter in California.

The Foster-Perry wedding at Milford,
Wednesday, is of interest to Quincy people,
the bride, Miss Maud Marion Perry, being
a former resident of this city, where she
has a host of friends. The ceremony took
place at the Congregational church, Mil-
ford, at 2:30 o'clock, and was followed by
a reception at the residence of the bride's
parents. Miss Ethel Burke of this city
and Miss Laura Foster, a sister of the
groom were bridesmaids and Mr. Charles
H. Pennington of Quincy, Mr. Ernest E.
Perry and Mr. Charles Foster were ushers.

The bride was becomingly attired in a
brocade cream white satin, with pearl
ornaments. She wore an exquisite bridal
veil caught up with lilies of the valley and
carried a bouquet of bride roses in her hand.
Miss Burke was gown in pink cashmere
and wore large hair trimmed with pink
roses and lace. Rev. Mr. Woodbury per-
formed the ceremony and the bride was
given away by her father Mr. Theodore
Perry. Mr. and Mrs. Foster will reside in
Somerville.

Mr. and Mrs. Bachelier and Mrs.
Richards of Weymouth gave a lunch
Wednesday, Miss Annie Holbrook of
Chicago, being the guest of honor. It was
a very enjoyable affair and a reunion of a
party of tourists to the World's Fair.
Mrs. Louis Nash of this city was one of
the guests.

moved into their handsome new house on
Webb street, Weymouth, celebrated the
event with a large reception Wednesday
evening. Miss Florence Ogden came on
from New York to help receive, others to
assist were Mr. and Mrs. O. W. Allen of
Braintree, parents of bride, Mr. and Mrs.
Frank White, sister of bride, Mr. Fred
Hunt and Mr. James Hunt, brothers of
the groom. Several from Quincy were
present.

Visiting cards are thinner and lighter
and are engraved in clear script or lettered
in plain Roman capitals.

Pure Blood
Is the secret of the restoration to health
which Hood's Sarsaparilla gives.

"It gives me
pleasure to recom-
mend Hood's Sarsa-
parilla. It has cured
me of many com-
plaints, and puri-
fied my blood. I
was troubled with
my liver, had hip
disease and other
troubles, with swell-
ing of my ankles.
For a long time I
had to walk with a
cane. For several
years I was gradu-
ally breaking down. I had the grip in a
severe form. I procured six bottles of
Hood's Sarsaparilla and it built me up.
My recovery I owe to Hood's Sarsaparilla.
All my ills have gone and I feel like a
new person. I sleep well and eat heartily."
MRS. CHARLOTTE KELLY, Haywards, Cal.

Hood's Sarsaparilla
Is the only true blood purifier promi-
nent in the public eye today. Try it.

A PLEASANT EXCURSION.

One of the Many Made Possible by
the Advent of Electric Cars.

Few people are aware of the pleasant
excursions one can take from Quincy for a
small sum of money, or if aware of it have
perhaps never given it thought enough to
take it. Of course the length of the trip
taken depends greatly upon the time you
have at command for the money is so
small it is hardly worth considering.

These trips are made possible by the
almost endless chain of electric cars that
encircle Quincy and adjoining towns.

Some warm evening next week when
you are thoroughly tired with the heat and
the day's labor board one of the palace cars
of the Quincy & Boston street railway at
City Hall. Take the car for East Wey-
mouth say at 7 o'clock, hand the con-
ductor ten cents and soon you are off.

The car rounds the old stone church
and enters Washington street, and as you
spin along you will see many things that
will interest you before you reach Quincy
Point.

On either side of the street you will see
some of the prettiest private residences
of the city whose owners live with each
other in keeping up the attractiveness of
their lawns. The motion of the car
creates a breeze which fans your face and
as you skirt along the lower end of
Washington street you can not but be im-
pressed with the beauties of nature.

Reaching Quincy Point bridge a west-
ward bound car is met and after passing
that your car winds its way across the
bridge and you are in the town of Wey-
mouth. On the right is Lovell's grove,
and as you pass the strains of the music of
the band strikes your ear. On the left is
the bay before you, and in the distance
you can see the little village of German-
town and the summer resort of Hough-
ton Neck.

That little steamer coming up the bay
is the City of Quincy and if you only had
time to take a trip to Nantasket and back
in her would more than repay you.

Mounting the hill you are soon in North
Weymouth village, which is known among
the old inhabitants as "Old Spain."

Here is a sharp turn and is made to the
right and then you pass rapidly by many
pretty homes whose appearance alone
speaks for the thriftiness of their owners.

The next point of interest is the village
cemetery, a most beautiful spot, and on the
left towering far above everything is the
soldiers monument erected by the town to
commemorate the brave deeds of its loyal
sons.

Going down the hill the North Wey-
mouth depot on the South Shore railroad
is reached, and passing under its track you
begin to ascend King Oak hill from whose
summit no finer view exists in the state.

As you turn into Middle street the
village of East Weymouth is before you
with its many church spires and large shoe
manufactories. In a few moments Wey-
mouth centre is reached and here you
alight from the cars and you have travelled
6 miles and consumed about 40 minutes of
time.

At this point you will find a car of the
Weymouth & Braintree road, which you
board and are soon being carried over
Broad street toward Weymouth proper.

The ride through this street is a pretty
one and will convince you that there is
still a large amount of land within a few
miles of Boston not yet built upon.

At the end of Broad street the car turns
to the right and you are going north
through the main thoroughfare of the
village. On either side you will find
brightly illuminated stores and many at-
tractive residences. You will also get a
glimpse of the new Tufts library building
and before you know it you have entered
East Braintree. Meanwhile the con-
ductor has been along and you have con-
tributed five cents more. But money is no
object. You skirt along the southerly side
of the steam railroad track, are carried
swiftly by the rubber works, and crossing
the track near the East Braintree depot
you enter a street lined on either side with
beautiful shade trees. From here on to
North Braintree you will find much to
occupy your attention.

The car has now reached the North
Braintree depot, the end of its line, and
you find you have added 3 1/2 more miles to
your ride and that this time is a little
after 8 o'clock.

Crossing the track you enter the cars of
the Braintree and Holbrook railroad,
having just time enough to look at the
armory of Co. K, Braintree and Quincy
pet military company.

You pay another five cent price and pre-
pare to enjoy the balance of your ride.
This car turns to the right at the churches
and you are now travelling toward Quincy.
Crossing Capen's bridge a short ride brings
you to the Quincy line where you leave
this company's line and oncemore board a
car of the Quincy & Boston street railway.

You are now in Quincy again and are
travelling rapidly down Independence ave.,
over the new extension of the Quincy and
Boston. On the left you see the pumping
station and many stone sheds, which gives
employment to hundreds of our citizens,
and you also see the two old houses, each
of which was the birthplace of a President
of the United States.

Entering Franklin street your car soon
reaches the main line at the junction of
Water street and in a few minutes more
your car is brought to a standstill at City
Hall your starting point.

Upon consulting your watch you find
that it is about 9 o'clock and that you have
consumed two hours, and by a little fig-
uring you will ascertain that you have
travelled 14 miles and have expended the
enormous sum of 25 cents.

This is only one of the many pleasant
excursions made possible by the advent of
street cars.

A LOSS TO HUMANITY.

Rev. Dr. Miner Succumbs to an At-
tack of Heart Disease.

**An Earnest Temperance and
Educational Worker.**

**Brief Sketch of His Life and Labors in the
Lord's Vineyard.**

BOSTON, June 15.—Rev. Dr. Alonzo
Ames Miner, the venerable pastor of the
Second Universalist church in this city,
and one of the most noted divines of his
denomination in the country, died sud-
denly at his residence, 523 Columbus
avenue, yesterday afternoon.

His death was wholly unexpected to his
thousands of friends, and even his family
were unprepared for the stroke. Though
in his sixtieth year the venerable clergyman
was in the enjoyment of exceptionally
good health, and was still an active
worker for his church and for the many
causes with which his sympathies were as-
sociated.

Sketch of His Career.
After receiving his education in the pub-
lic schools, he taught in the schools from
his 16th to 20th year. For five years he
was at Cavendish (Vt.) academy, and from
1835 to 1839 at Tufts (N. H.) academy. In
1839 he was ordained to the ministry, and
his first charge was at Methuen, then at
Lowell, and in 1848 he was called to Bos-
ton.

During his ministry in Boston, Dr.
Miner was prominently allied with many
reform movements, principally those of
temperance and woman's suffrage. He
also took an active part in the agitation
in favor of the free public schools.

He was a member of the board of over-
seers of Harvard college for a number of
years, and from 1862 to 1875 was president
of Tufts college. He has made several
large donations to that institution.

For more than 20 years he was chairman
of the board of visitors of the state normal
at school, and was a member of the
American Academy of Political and Social
Science and of the executive committee of
the American Peace society. He received
the honorary degree of A.M. from Tufts
college in 1861, that of S.T.D. from Har-
vard college in 1863 and that of LL.D.
from Tufts in 1875.

Wollaston Entertainment.

One of the best entertainments given in
Wollaston this year was that which was
given under the auspices of Mr. W. E.
Simmons' class of young ladies on Friday
evening. Some of the best talent in Wol-
laston participated, making the affair a
marked success.

The programme was so successfully re-
ceived that each number was encored. It
included a piano solo by Mrs. Moulton;
a vocal duet by Mrs. F. A. Page and Mrs.
Jennette Noyes Rice; a piano solo by Miss
Jeannette Packard; a vocal solo by Miss
Mary Virginia Hastings; a reading by
Miss Winifred F. Howard; a vocal se-
lection by Mr. E. Walter Arnold; a read-
ing by Mr. W. E. Simmons; and a vocal
solo by Mrs. F. A. Page.

After the entertainment ice cream and
cake was served.

Bright's Disease

means a change in the Kidneys from healthy tissue to fat. The symptoms are so obscure that they may not be noticed until too late. The presence of albumen in the urine, Backache and retention of urine are symptoms of disease. If albumen is present, it will show if a small quantity of urine be heated to the boiling point in a silver spoon, when white curdy flakes will appear; or—a few drops of vinegar and a second heating may discover the albumen. Merely a white cloud may show under the test—that indicates the early stage when the disease may be cured. **Baker's Kidney Pills** if taken at this time will reduce inflammation and help the Kidneys to their normal state. If the urine shows a change, don't neglect the symptom. The pills cost 50 cents at the drug-gists. Our book on Kidney disease sent free. **Baker Pill Co., Bangor, Me.**

AN UPWARD TENDENCY

Business In General Maintaining Former Predictions.

Iron Stronger and Food Products Weaker.

What Dun's Trade Review Has to Say on Trade Conditions.

NEW YORK, June 15.—Bradstreet's today says: The recent check to the activity in general trade, taking the country as a whole, which followed the severe and unusual frosts of the close of May, has begun to register itself in relatively fewer upward spurts of prices for staples and moderately smaller totals of bank clearings. The exception to the halt is found in the remarkable exhibition of strength by iron and steel. Cotton, leather, wheat, railway and other securities have each presented a season of active demand and advancing prices, but none of them have outdone iron and steel, which, without special orders from railroad and other large consumers, have again advanced all along the line. The industry is undoubtedly in a better position today than for years.

Noteworthy decreases of prices are for wheat, 1½c, corn, 1½c, oats, ¾c, and pork 25c. If the interpretations of the late government wheat report, that it points to a domestic crop this summer of only 400,000,000 bushels, prove true, the outlook is more bullish than expected. But the government report appears to be based on the one year ago, which was notoriously an understatement.

At larger eastern cities, the clothing trade reports a good demand, with a promising outlook, notably at Baltimore. Woolen machinery in Rhode Island is only fairly employed, but cotton mills in that state and in Massachusetts have a larger number of orders.

Reports have been received of industrial activity at Detroit, Chicago and St. Louis in iron and steel, particularly at the last two cities, and better crop prospects in the regions tributary to these points, to Kansas City (except wheat in this instance), to St. Paul and to Minneapolis and Sioux Falls, where trade has been satisfactory in many lines, and the outlook for fall business is brighter. Lack of commercial activity at Omaha is due to farmers being busy in the fields, for the crop outlook in Nebraska and South Dakota is excellent. At Cleveland, Louisville and Milwaukee there has been practically no change within the week.

Dun's Review.

R. G. Dun & Co., in their weekly review of trade, will say:

The government crop reports were so much less dismal than was expected that they really extinguished for a time a host of calamitous rumors. The decidedly cheering outlook for spring wheat, which our own and other private advisers confirm, goes far to balance reports of loss in winter wheat regions, and even the light of the demonstrated deficiency of official returns of acreage, were found far more encouraging than previous accounts. Wheat declined 2½ cents with small trading.

Corn also declined about 1 cent, with better reports of growth.

The official statement of 14.8 per cent decrease in cotton acreage was quickly found, in view of revised government estimates for last year, to mean more than 20,000,000 acres now growing cotton, which much exceeds the best unofficial estimates. Cotton may be doing well for this season, and numerous advances of ¼ to ½ cent in brown sheetings, drills, bleached muslins, denims and ticks are still reported.

The wool manufacture looks for speedy settlement of labor troubles, and finds a moderate demand for low and medium heavy weight goods, while some of the cheaper lines of spring goods have been opened at encouraging results, but as better grades there is still great uncertainty about prices.

In shoe manufacture the season for temporary suspension is near, but shipments from the east for June and July have been 14 per cent larger than in any previous year. The demand naturally slackens, but is still quite large.

The output of pig iron in June was but a trifle larger than in May, 1,37,244 tons, against 159,554 a month ago and 174,029 two years ago. Stocks unsold were reduced in May 96,507 tons by stoppage of many Mahoning, Shenango, Illinois and Virginia furnaces, which afterward resumed.

The anthracite coal trade does not maintain the improvement recently reported, but faith being charged again, the price has declined 35 cents. The coke producers about Connellsville have not yet made open declaration of their new compact, but contracts are being made at \$1.35 for the last of the year with provision for advance if wages rise.

Failures for the past week have been 241 in the United States, against 232 last year.

Canadian Prospects Bright.

Bradstreet's says: Advances from Montreal are that the upward tendency of prices for leather has checked business with manufacturers of shoes, as the retail trade anticipate a reaction. There is a noticeable improvement in demand for staple goods throughout the province of Quebec compared with last year. In Ontario collections are made more promptly and business in wholesale lines is fairly active. The hay crop in Nova Scotia and Prince Edward Island is reported excellent, as are the cheese industries and the fruit crop in the latter. Trade remains quiet in New Brunswick. There were 21 business failures reported from the Dominion this week, against 27 last week.

Four Persons Killed.

LONDON, June 15.—A dispatch to The Standard from Vienna says that the thunder storms and lightning continue with fatal results in different parts of Austria-Hungary. Two peasants were killed yesterday near Fankirchen, and two girls were killed and 10 persons injured and 135 cattle destroyed between Bakes and Csaba in Hungary.

Sverdrup Declines.

CHRISTIANIA, June 15.—M. Sverdrup, the leader of the Moderates, who was asked by King Oscar to form a new cabinet, has declined the proposition.

Destructive Fire at Berlin.

BERLIN, June 15.—A fire in the Victoria warehouses destroyed the buildings and their contents, involving a loss of 1,400,000 marks.

STIVETT'S HARD HIT.

Chicago Braced Up and Took a Well-Played Game From Boston.

BOSTON, June 14.—Aching with the sting of Thursday's crushing defeat, the Chicago braced up and defeated the home team by a score of 7 to 4. Anson and his colleagues took kindly to Stivett's shoots, and batted him at will. "Happy Jack," working live a beaver in the broiling sun, had plenty of speed, but a lack of curves. With his usual swing he would send ball after ball up to the Chicago men, only to be sent out for the Boston fielders to chase. Manager Seale stood this until the seventh inning, when he sent Nichols in to pitch and "Charlie" fared but little better.

Taylor to Surrender.

STOCK FALLS, June 15.—An agreement has been reached between the friends of Absconding Treasurer Taylor and Attorney General Crawford, whereby Taylor will return to Pierce Tuesday next and surrender. He will pay over all the money he has on hand, amounting to \$45,000. Taylor will then plead guilty, and Judge Gaffey has agreed to call a special term of court, and sentence him to the penitentiary for two years. It is further agreed that before the expiration of this sentence the governor will pardon him out, and thus save his citizenship.

Not Allowed to Practice.

WASHINGTON, June 15.—N. C. Price of this city and Jenny R. Root, nee Chapman, of Waterbury, have been disbarred from practice before the interior department, the former for demanding illegal fees in a pension case and the latter for having associated in pension business with her father, who had been previously disbarred.

Three Men Drowned.

HALIFAX, June 15.—Three men were drowned at Orwell, P. E. I.—Edmund Cutt, John Hughes and James Duley. John Hughes went in swimming while the others remained on the shore, and what beyond his depth Hughes took a cramp. The others went into the water to rescue him, and all three lost their lives.

Will Pay For Damages.

BERLIN, June 15.—The North German Gazette learns that the Brazilian government has acknowledged the claims of the German settlers for compensation for damage done their property during the late revolution in Brazil, and has made offers which present a basis for an early settlement of the question.

Two Promotions.

WASHINGTON, June 15.—Vivian Brent has been appointed first assistant in the interior department at \$275 a year. Robert W. Hunter has been appointed assistant attorney at \$250 a year, in Mr. Brent's place. Both appointments are in the line of promotion.

Divorced From Unfaithful Wife.

LONDON, June 15.—Jacob Pineus, the American trainer of the Croker-Dreyer horses, has been granted a divorce from his wife, an English woman, whom he married in 1894, on the grounds of infidelity.

A Great Disappointment.

HENNESSY, O. T., June 15.—The gold fever which recently struck the territory is being dispelled. An assay of the dust shows it to be merely composed of zinc copper and about 300 gold, not enough to pay for washing.

SWITHIN BROS., Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 50 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 70 lots.

Also a few lots off Ba'es avenue.

WOLLASTON.

A few desirable lots in Wollaston on Hancock street, opposite entrance to Merry Mount Park.

Will be on land at Presidents' Hill every afternoon from 2 to 4. Parties desiring lots or any information on the above properties, please call at Room 12, Durgin & Merrill's Block, Quincy, June 11.

THE CLINTON CRISIS.

Over Two Thousand Operatives Leave the Lancaster Mills.

Demand an Increase of 20 Per Cent in Wages.

At a Mammoth Mass Meeting They Vote to Stand Firm For Their Rights.

CLINTON, June 18.—There is a big strike on at the Lancaster gingham mills in this town. Last Friday 133 of the weavers went out on strike. These weavers had been put to work on a new pattern of weaving without getting a raise in wages, which they claimed they were entitled to. At a mass meeting of the Weavers' union, held Saturday, it was voted not to inaugurate a general strike until so ordered by the union, but yesterday, as soon as the looms started up, disensions arose and the weavers began to talk strike.

A meeting of the weavers in the old mill was held, and word was sent to the new mill that a strike was on, and the weavers there were unanimously voted to cooperate. Word was quickly returned that the new mill operatives would stand by the old.

Then the 1500 weavers marched out through the gate. A consultation was held in the street and it was decided to hold a mass meeting in the afternoon. After the weavers went out the most intense excitement ensued within the mills. The next action was the going out of the operatives of all the mills. A fair estimate showed that 2000 persons were out.

During the noon hour quiet ensued around the mill gates, which were guarded by police.

Result of Meeting a Secret.

At 2 o'clock the town hall was packed to overflowing. The utmost secrecy prevailed, none but operatives of the Lancaster mills being allowed within.

The strike was fully and ardently discussed, and it was unanimously voted not to return to work until the old scale of wages was given.

A committee of two from each department were appointed to make out a schedule of wages, which is to be presented to Agent Weeks. If this scale is accepted the operatives will return.

The weavers' scale of 1893 was 47 cents a cut. The scale as at present paid is 37 cents a cut.

The meeting adjourned to Friday evening.

Agent Weeks said to a reporter: "I have but little to say regarding this latter going out, as I am not satisfied as to their grievance. They have not said anything to me, and I do not see as I can say anything regarding the strike."

Mr. Weeks stated that if nothing regarding coming back was done the mill would be shut down by tomorrow night.

The mill has been the mainstay of Clinton for years.

Wealthy Eccentric's Funeral.

COMPTON, R. I., June 18.—The funeral of Cyrus Holden, a wealthy resident of Arctic Hill, was held yesterday and was the most remarkable probably ever held in this state. Among the selections played at the house and at the grave were: "Auld Lang Syne," "Star Spangled Banner," "Old Oaken Bucket" and "Blue Bells of Scotland." Holden was never outside of Rhode Island but once in his life, and on that occasion he got on the wrong train and was carried into Connecticut before he knew it. He was worth \$100,000.

Was an Old Free Soiler.

FALL RIVER, June 18.—Hon. Joseph E. Dawley, who died at the age of 79, was buried yesterday, and his funeral was attended by many well-known people from surrounding places. He was a state senator for two terms. In politics he was a Free Soiler until the organization of the Republican party, since when his political faith has been that of the Republican party. He was clerk of the first court organized in Fall River.

Full Charge Will Be Given.

EXETER, June 18.—The trustees of the Phillips-Exeter academy have extended a call to Professor Amen of Poughkeepsie, N. Y., to become principal of the school. It is authoritatively stated that the trustees signed an agreement not to interfere with Professor Amen's management of the academy, placing it in his sole charge, and so giving him power to select his own corps instructors and to outline his own policy.

Ready For Practice.

NEWPORT, June 18.—The torpedo boat Cushing arrived here yesterday, having made the passage from New York in a little over nine hours at an average speed of 15 knots. The Cushing will begin torpedo practice at once. Lieutenant Fletcher, who has been in command of the Cushing for several years, is soon to be relieved by Lieutenant Smith, now attached to the torpedo station.

Long Sufferings Ended.

WORCESTER, June 18.—Henry M. Smith died in this city yesterday after a sickness of two years. He was a graduate of Amherst in the class of 1851, and was from 1853 to 1875 connected with various Chicago papers in an editorial capacity. He returned to Worcester in 1879, and had served two terms in the Massachusetts legislature.

Want Wages Increased.

FALL RIVER, June 18.—The Slasher Tenders' union has sent a communication to the mill owners asking for an increase in weekly wages from \$9.72 to \$10.80 on all ordinary yarns. On yarns over 40s they want \$12 a week, and ask that 51 hours constitute a week and extra pay for all work over that time.

Feared the Prison Cell.

LYNN, June 18.—Ira C. Abbott, 55 years of age, was found dead with his head in a tub of water by his young daughter. Abbott was arrested June 3, charged with assaulting two small colored girls, and on their evidence he was held in \$1000 for the grand jury.

Gilbert's Trial Monday.

Boston, June 18.—The trial of Angus D. Gilbert on the indictment charging him with the murder of little Alice Sterling in Savin Hill, Dorchester, is ready to proceed on Monday next. The judges who will preside at the trial have been decided upon. They are Judges Dunbar and Sheldon. The summoning of jurors has been completed, a venire of 120 men, out of which to draw, if possible, the requisite 12, having been ordered by the chief justice.

Joel Nickerson Dead.

SOUTH DENVIS, Mass., June 18.—Captain Joel Nickerson, one of the oldest and best-known citizens, died at his residence yesterday, aged 82 years. For many years past he has been engaged extensively in the culture of grapes and manufacture of wines, which are well known and have a high reputation.

Reunion of Soldiers.

WORCESTER, June 18.—The 37th annual reunion of the Fifty-Seventh Massachusetts Regimental association elected Captain Anderson, S. A., of Belchertown, president; F. D. McFarland of Worcester, G. H. Brigham of Marlboro, H. H. Paine of Palmer, Henry Clasen of Fitchburg, vice presidents.

Dory Fox Spoken.

NEWPORT, June 18.—The captain of the schooner Julietta reports speaking the dory Richard J. Fox, Saturday 120 miles east-southeast of Sandy Hook. The Fox is bound to Queenstown from New York with only the owner on board. When hailed she had been at sea 52 hours.

Backbone of Strike Broken.

PROVIDENCE, June 18.—A thousand operatives went to work at the Atlantic mill yesterday, and there are 800 looms in operation there. At the Fletcher mills there was an increase of 20 weavers, and the former operatives at both these plants are coming back to take their old places.

Drowned in the Cocheo.

DOVER, June 18.—Mary Breen, aged 9 years, daughter of Mr. and Mrs. Michael Breen, was playing in a boat in the lower Cocheo river when the motorer perished, and she jumped overboard and was drowned.

Held in \$1200.

Boston, June 18.—Alfred L. Barry, the lawyer who was recently arrested in New York for alleged forgery and brought back to this city on Saturday, pleaded not guilty, and his bail was fixed at \$1200.

Took His Own Life.

NEWTON, June 18.—J. B. Murphy, one of the leading business men of the Nonantum district, committed suicide yesterday. His body was found floating by the neck from a beam in the loft of his barn.

Firebugs at Work.

WORCESTER, June 18.—The Goodell house and barn in Westboro, owned by Michael Lyons, was destroyed by incendiary fire. Twelve cows and two horses were burned. Loss, \$1000.

Cleveland and Carlisle Endorsed.

PORTLAND, June 18.—At a meeting of the Young Men's Democratic club a resolution was passed endorsing Cleveland's anti-free silver letters and Secretary Carlisle's patriotic speeches.

New England Briefs.

J. Warren Storer, a prominent farmer of Camden, Me., died of apoplexy.

Mrs. Hannah Lovett of Nashua observed the 106th anniversary of her birth.

Edward Root of Cobalt, Conn., was drowned in the Connecticut river by the capsizing of a boat.

Extensive forest fires are raging in Sterling, Conn., having burned over several hundred acres of woodland.

Fifty Italian laborers on the waterworks at Boothbay Harbor, Me., disagreeing with contractors about pay, are on a strike.

The New Haven Heading and Plumbing company of New Haven has been placed in the hands of a receiver. The assets are placed at \$25,000.

General Craigill, chief of engineers of the army, has gone to Nantasket, Mass., to attend the annual meeting of the American Society of Civil Engineers.

The Bridgeport police are looking for William Raymond, who has passed a number of forged checks upon merchants in that city and got \$100 of their money.

George Robinson at Williamstown, Mass., was committed without bail on a charge of an attempt to commit an indecent assault on Jennie Carr, aged 14.

Dr. John M. Parker, a veterinary of Haverhill, who was some time ago bitten by a dog, is in the Pasteur institute, New York city, undergoing treatment for hydrophobia.

The Fall River aldermen granted a franchise to the Fall River Electric Light company to bury its wires. The city gets four electric free and reserved the right to purchase the conduit after eight years.

Insurance Reorganization.

New York, June 18.—The World says: A secret meeting of the directors of the Equitable Mutual Fire Insurance company was held yesterday afternoon, and it was unanimously resolved to reorganize the company. The books of the concern were carefully gone over, and it is understood the directors agreed personally to assume the payment of the outstanding losses.

Bicyclers have spread the news that the Greenleaf in Quincy, Mass., kept by Mr. Hayden, is a particularly attractive house, where a first class dinner is served.

The steamer City of Quincy was heavily patronized Sunday and Monday, the boat being more than crowded at every trip. On some trips passengers were left on the wharf.

Cards are out for the graduation exercises of Thayer Academy, Braintree, on Saturday afternoon, June 22, at one o'clock. Reception will follow from three until seven o'clock.

The Scandinavian Mechanics' association, St. Augustine society of South Boston, and the Ladies' Aid society of South Boston, were among the parties at Lovell's grove, Monday.

But one Quincy gentleman has a life insurance of over \$50,000. Mr. James Edwards of School street is insured for \$100,000; only 139 in Massachusetts being insured for a larger sum.

The Quincy & Boston street railway appeared on remonstrance at Weymouth, Saturday, to granting the Braintree & Weymouth company a parallel location on Broad, Madison, Station and Commercial streets.

The funeral of Mrs. Peter Williams was held Sunday afternoon at 3 o'clock from Christ's church and was very largely attended. The burial service of the Episcopal church was read by the rector Rev. Walter Russell Breed, and the interment was at Mt. Wollaston.

Judge James H. Flint of Weymouth, the newly elected grand chancellor of the Knights of Pythias, was tendered a reception Monday by Delphi lodge of Weymouth. There was a parade in which many neighboring lodges were represented. A banquet and fireworks followed.

The 10.15 p. m. train from Boston was omitted from the Lexington timetable on Saturday. Two minor corrections have also been made today. The PATRIOT had a good idea of the service Quincy stations should have, but should not have included the time of trains which don't stop. It will be revised this week.

There was some lively hustling on the Duck's Nest alleys, Wollaston, on Monday, for the two Bunker Hill silver cups, which Steward Williams offered as prizes for the highest scores with regulation and candle pin balls. Edmund S. Taylor was high man on the regulation alley with a score of 512. The candle pin cup was tied between G. F. Briggs and V. J. Emery; each knocking over 290. On the bowl off Briggs defeated Emery 90 to 71.

FOURTH OF JULY.

To Be Celebrated at Atlantic in a Patriotic Manner.

A very large and enthusiastic meeting was held at Music hall, Atlantic, Friday evening, June 14th, to consider the expediency of celebrating in a suitable manner the Fourth of July.

A committee of ten of the leading citizens were appointed to retire and formulate a plan which they did, and reported as follows, which report was unanimously adopted.

The committee organized by the choice of Stephen O. Moron, chairman, and J. H. Younan, secretary.

Voted,—To recommend an antique and horrible parade in the morning.

Voted,—To recommend a forenoon entertainment by the Squantum Yacht club.

Voted,—To recommend an entertainment for the children in Music hall in the afternoon.

Voted,—To recommend a band concert.

Voted,—To recommend fire-works in the evening.

Voted,—To recommend that a bicycle race be held during the day.

Voted,—That all citizens be requested to illuminate their residences in the evening.

Voted,—To recommend that a committee of five gentlemen be appointed this evening to solicit funds for the celebration and the following committee was appointed from the floor: Elijah G. Hall, Charles R. Safford, Henry L. Hallett, James H. Cunningham, Joshua E. Drew.

Lovell's Grove Opening.
The formal opening of Lovell's grove under the new management took place Saturday and was attended by a large number.

A series of sports was held during the afternoon which resulted as follows:

Three-fifth mile bicycle race—James Dunn, Jr., first; R. W. Emerson, second; A. L. Stephenson, third. Time, 1 minute, 6 seconds.

One mile open—Emerson first, McDougal second; Quimby, third. Time 3 minutes, 6 seconds.

Two mile—R. W. Emerson, first; Quimby, second; Stephenson, third. Time, 7 minutes, 3 seconds.

One mile handicap—Emerson, first; Stephenson second; Dunn, third. Time, 2 minutes 45 seconds.

Boys race, one mile—Skinner, first; Gallagher, second; Mainot, third. Time, 3 minutes, 15 seconds.

The ball game between the Institutes and Lovells Grove nine resulted in a victory for the former by a score of 21 to 1.

During the afternoon and evening a yandeville entertainment was given in the largest tent and was dancing in the pavilion. There was also concert by the National band of Boston.

Sunday School Festival.

The annual summer festival of the St. John's Sunday School was held Monday afternoon and evening at St. John's hall. The attendance in the afternoon embraced most of the scholars of the Sunday School, and they were all well pleased with the efforts of their fellow pupils, two young strangers, gave some very pleasing renditions which were heartily applauded. In the evening the elder people attended in good numbers. Down stairs refreshment tables were in charge of the young lady teachers, and during the afternoon and evening they were kept quite busy. At ten o'clock fireworks were set off from the vacant spot opposite the hall. Rev. F. A. Cunningham, the director, worked hard for the success of the festival, and is much gratified at the result.

Car Accident at Weymouth.
Two cars of the Quincy & Boston came together at North Weymouth Monday afternoon but fortunately caused but little damage.

Motorman McCloskey had his hand injured and passengers were shaken up. The car for East Weymouth was on time and waited five minutes at Thomas corner for the other car, but as it did not appear the waiting car started and had almost reached what is known as burial hill, when rounding a curve a car was seen coming down the hill toward them. An effort was made to avert an accident. It was partially successful as the headway had been greatly reduced when the cars came together. The car dashers were injured somewhat.

The Late Mr. Carter.
Mr. James D. Carter, a well known resident of Norfolk Downs, died at two o'clock on Sunday morning of cancer of the stomach after an illness of three months' duration.

Mr. Carter was a southerner by birth, having been born at Greenboro, Maryland, in 1832.

When the Quincy estate was taken by Wood, Harmon & Co. and developed, Mr. Carter was one of their right hand men in its disposal. He was in Wood, Harmon & Co.'s employ up to the time of his death, and resided on the old Jenkins farm.

A Great Blessing

My wife and I have found in Hood's Sarsaparilla. She had rheumatism very severely, with ankles and legs badly swollen, and hardly able to get up and down stairs without help. Many other remedies failed, but Hood's Sarsaparilla entirely cured her. It was only shortly after that I was taken with the same complaint, affecting my limbs and legs, so I just tried the same medicine with the same result. My wife and children take Hood's Sarsaparilla whenever they feel the need of a medicine and it immediately makes them feel better.

PREMIER'S ULTIMATUM

No Desire on Government's Part to Rush Action on School Question.

Opposition Claims Question of Political Exigency.

Attorney General Refers to Illiteracy in the Catholic Schools.

WINNIPEG, June 18.—Premier Greenway in the legislature yesterday, in moving the adoption of the resolution which was to be Manitoba's answer to the Dominion government regarding separate schools, said he merely proposed to introduce the matter, leaving the full discussion of the subject to members who might follow him.

There had been no desire on the part of the Manitoba government or, so far as he knew, on the part of their followers, to rush hurriedly into the discussion of this important subject. Some of the separate schools advocates had been very much afraid of the government pursuing a course that governments sometimes pursue in such cases—that was, to take advantage of the very strong feeling that existed in the province when that remedial order from Ottawa was made public and ask the views of the people on the subject.

But the government did not adopt such a course, as he was of the opinion that such a question as this would be destroyed outside of a political campaign. He understood the Dominion to say to Manitoba: "You must restore the old state of things." This Manitoba could not do. Many leading Roman Catholics had stated to him that they had no desire to return to the school law existing prior to 1890. Catholics of the east did not understand what the state of things then was, or it would not be demanded. Premier Greenway's speech was loudly applauded.

From a Catholic Standpoint.

Mr. Armstrong, who represents a French Catholic constituency in the legislature, was the first member of the opposition to reply. His attack on the government was a very mild one, chiefly confined to the point that it was a case of political expediency with the Greenway government, not that they were in favor of national schools, but that it was their only salvation at present to pursue that policy. The broad stand taken by politicians of the older provinces should be, he held, followed in this matter. National schools were good, but separate schools were also a necessity.

Attorney General Sifton arose to second the premier's motion. The constitutional side of the question was dealt with in all its phases, the attorney general taking the position that the latest judgment of the imperial privy council was not mandatory on the Dominion government. Manitoba, he asserted, could not comply with the terms of the remedial order and maintain an efficient school system, such as a young, growing province demanded.

He then referred to the alleged illiteracy existing under the schools as controlled by Catholics and the schools as they existed today. He hoped that before long, with one language and one school system, the different nationalities would unite as one people. In concluding, he hoped the results of the reply of the Manitoba government to the Ottawa government would be that the present school system would be discontinued.

Majority Favor Gold.

CINCINNATI, June 18.—The Enquirer has counted the returns from 50 of the counties in Kentucky. These 50 counties have 480 of the 880 delegates to the Democratic state convention of June 25. They are classed on the money question as follows: Instructed for gold, 397; instructed for silver, 142; uninstructed, 131. As to preference for governor, the classifications are: Instructed for Clay, 294; instructed for Hardin, 292; uninstructed and doubtful, 74.

Many Employes Benefited.

CLEVELAND, June 18.—The National Malleable Casting company have notified their employes of an increase of 10 per cent. At the works of the Eberhard Manufacturing company notices were posted of a 10 per cent. increase. It is understood that other big iron concerns of the city will follow the example set by the two industries named.

Hard to Place the Crime.

MONTGOMERY, Ala., June 18.—Morris & Co., bankers, sent on Saturday a \$10,000 package to a New York bank, insuring it as usual. Shortly afterward the mail pouch was found out open. Charles Armstrong, a postoffice employe, returned the package Sunday, claiming he had found it in the street. Armstrong was arrested.

One Life Lost.

NEW ORLEANS, June 18.—The Union Cotton Press, situated at the corner of South Peters and Terepsichore streets, was the scene of a terrible explosion yesterday, which resulted in one man being killed and a dozen wounded, and seven or eight missing. At the time of the explosion the boilers were being tested.

Recognition of Merit.

WASHINGTON, June 18.—The corporation of the Columbian university of this city decided to tender the presidency of the university to the Rev. B. L. Whitman, now president of Colby university. It is believed his acceptance is assured, as he has known for some time that the tender was likely.

Loss Upwards of a Million.

UNION CITY, Tenn., June 18.—The boilers at the waterworks exploded yesterday, killing the engineer instantly. The cause was the letting of cold water into the boilers. The city is now without water and fights. The property loss amounts to upwards of \$1,000,000.

New Jersey Tragedy.

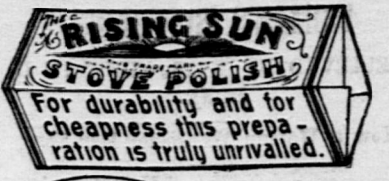

TRENTON, June 18.—Frederick C. Floyd, a farm hand, aged 40, shot Hattie Cloyd, a domestic, of this city, fatally wounding her, after which he killed himself. Unrequited love was the cause of the tragedy.

Getting Ready For Duty.

COLON, June 18.—The Panama railroad is coaling the United States cruiser Monterey, which will return to Georgetown to embark the United States Nicaraguan canal commission.

Portugal's Serious Loss.

LISBON, June 18.—The chamber of deputies was destroyed by fire yesterday through the carelessness of a plumber who had been at work there.

In Honor of Heroes.

LOUISBURG, C. B., June 18.—The unveiling of the historical monument to the memory of the New Englanders who took part in the capture of Louisburg, and who lie buried there, was carried out with great success. The day was fine, and about 3000 people visited Louisburg on the occasion, many of them to see the ruins of the ancient fortress for the first time.

The first train from Sydney to Louisburg, besides the American and Halifax visitors, carried about 400 people, and a second train brought many more. The warship Canada, the cruiser Curlew and vessels in the harbor all displayed bunting. Arriving at Louisburg the visitors and their guests were driven to the grounds. The monument has been erected to the king's bastion, in a commanding position, on land donated for the purpose by Mr. LeVatte, a gentleman of French descent.

Meeting of Noble Women.

LONDON, June 18.—The 19th annual council of the National British Women's Temperance association began in the City Temple yesterday. The proceedings were opened with devotional exercises, after which the roll of officers and delegates was called. Then came the reading of the report of the national executive committee, at the conclusion of which the presidential address was delivered by Lady Henry Somerset.

Pope's Decree Corroborated.

WASHINGTON, June 18.—A second decree has been received from Rome concerning the obligation to Catholics to remain out of the Knight of Pythias organization. It states that there appears to be reason why the decree of last December should not be made public in dioceses, and all archbishops and bishops are accordingly directed to promulgate the decree without further delay.

Murderer Will Die.

LANCASTER, Pa., June 18.—Joseph Westgate, an iron worker, 42 years of age, shot and killed his mother-in-law last night. He then shot himself in the head, inflicting fatal wounds. Westgate, when in drink, so violently abused his wife that, with their two children, she left him four years ago and lived with her mother. Revenge is said to have been the motive for the crime.

Choice Fell Upon Hampden.

LONDON, June 18.—Viscount Hampden has been appointed governor of New South Wales. He has been a member of parliament at different times since 1893. He has also been captain in the Coldstream Guards and surveyor general of ordnance in 1883-5.

Will Not Let Up on Taylor.

DEADWOOD, S. D., June 18.—Governor Sheldon and Treasurer Phillips state that property of an amount more than Taylor's defalcation has been turned over by Taylor and his bondsmen. Notwithstanding this, the case against Taylor will be pushed.

Pennsylvania's Forest Fires.

BRADFORD, Pa., June 18.—A terrible forest fire is raging in the Kinzua valley. A message from Mount Jewett states that a special train had just left that place for Kusbegu with all the men and hose that the town could spare.

Naval Fleet at Kiel.

KIEL, June 18.—The Russian, French and Italian squadrons, which are to take part in the opening of the Baltic and North Sea canal, arrived here yesterday and exchanged cheers with the German guard ships.

How is this for longevity? Mrs. Betsey Hunt, the oldest person in Sudbury, died at the remarkable age of 99 years 7 months. Her father, Walter Rogers, was upward of 90 years old. Adam Rogers, the grandfather of Betsey Hunt, was born in Marshfield and lived to be 104 years old. She was one of 10 children whose united ages were 998 years, or an average of 99 2/3 years. Seven of these children lived upward of 100 years. One was another 105, and a third, 104. It is noted that American history cannot duplicate this average age record. Walton Rogers, a brother, living in Sudbury, is 87, Daniel is 82 and Lucy, a sister, 95 years.

Choice For President of National
League Favors McAlpin.

Pennsylvania's Views on the
Questions of the Day.

Wrangling Among Some of the Delegates From
the Southern States.

CLEVELAND, June 19.—President Tracy of the Republican league arrived from Chicago last night and has been consulting with Secretary Humphrey and the executive committee. Members of the committee think the fight is the field against General McAlpin of New York, with the chances in favor of McAlpin.

Among the visiting statesmen who attracted most attention were Governor Brown of Rhode Island, Governor Nelson and ex-Governor Merriam of Minnesota, ex-Governor Moody of Oregon, and the officers of state leagues. Senators Carter and Dubois are eagerly sought after, as they are recognized as the leaders of the silver movement, and all western delegates want to meet them. The silver enthusiasts are greatly disappointed over the attitude of the mountaineers and the colored men from the south. The southern delegates say the Democrats of the southern states are dividing on the silver question, and they want nothing done at this convention on that question, and that if the issue is forced they will vote with the eastern and other delegates against free silver, so as to have an issue against the Democrats that will break the old lines of race prejudice. The southern delegates are for a policy of expediency, and say the old Whig element of the south is for "sound money" as well as for protection, and that the solid south can be broken by the Republicans declaring plainly in favor of both these principles.

Pennsylvania's Interests. The Pennsylvania delegates are co-operating with the Tariff league, and working with the southern delegates for protection and "sound money" without regard to the contest for president of the National league. The southern states are more largely represented than in former years. There is a movement to avoid any decisive action whatever now on the tariff, silver or other disputed questions, and they hold the annual meeting next year, after the Republican national, so as to avoid embarrassment of anticipated action on issues that are to be contested.

There are here now leading Republicans who have never attended league meetings before and who are here in the interest of McKinley, Reed, Allison and others for president. D. D. Woodmansee, president of the Ohio league, withdrew as a candidate for national president because of McKinley's candidacy for president, and now the Ohio delegation does not know what to do. The eastern men insist on their supporting General McAlpin, and the western delegates threaten to do otherwise such action against McKinley. Mark A. Hanna, Congressman Burton and others are trying to see what is the best thing to do for McKinley.

Chauncey M. Depew is expected tonight, and will be forced to speak, although he will remain here but a short time. Miss Helen Boswell of New York was the first lady delegate to arrive and the only one from the east. In the western states ladies as delegates are not so rare.

A Good Word For Cornell. LONDON, June 19.—Truth, commenting upon the Cornell football team, says: After the nauseating twaddle sent here about the Cornell crew it is a treat to find them a very pleasant set of fellows, perfectly frank and open in every way and only too anxious to show and explain to a roving visitor all about their boats and methods. Although not big men, they are strong and wiry, and they have been coached to almost machine perfection and a similarity of style that speaks volumes for their coaching.

A Good Showing. WASHINGTON, June 19.—The civil service commission has submitted to the president a report supplemental to the one laid before congress at the beginning of the last session, which is the 11th annual report of that body. Up to January, 1895, the whole number of persons employed in the civil service of the United States was about 200,000, one-fourth of whom were classified under civil service rules.

Important Contracts. WASHINGTON, June 19.—The contract for furnishing the postal guide to the post-office department for the fiscal year has been awarded to George F. Lasher. The contract for furnishing post route maps for the next four years was awarded to the Gillen Printing company.

Work of Insurgents. SANTIAGO, Cuba, June 19.—The insurgents have destroyed a large plantation owned by Theodore Havemeyer of New York and Senor Hidalgo, of the firm of Hidalgo & Co. of Havana, who represent the Ward Line Steamship company.

Cleaves' Appointments Confirmed. AUGUSTA, June 19.—All appointments made by Governor Cleaves were confirmed yesterday. The hearing for the petition for the pardon of Stain and Crowwell will occur at the August meeting.

Dry Kiln Burned. BAY CITY, Mich., June 19.—Fire at Bousfield's wooden works destroyed the dry kiln and contents, and for a time threatened the company's entire plant. The loss is about \$50,000.

A FORECLOSURE FILED.

New Phase In the Whisky Trust
Litigation at Chicago.

Officials Will Show Where
Money Was Spent.

Contesting Counsel Air Their Eloquence in
Mastery Manner.

CHICAGO, June 19.—Some of the evidence to be used in the Whisky trust cases has been taken before a master in chancery here, but when Greenhut and ex-Secretary Hennessy were called, nothing could be elicited from them.

The attorneys for the trust, however, did not care so much for this, as they claim to have everything in their possession necessary to make out a case against Greenhut and the others, and will spring their evidence at the proper time. In the meantime they have their letters and telegrams locked up where they are secure. They show, it is said, where hundreds of thousands of dollars of trust money has gone, to whom it was paid and how it went.

J. B. GREENHUT.

Pursuant to a determination to hasten the judicial sale of the trust property, the reorganization committee summoned to its relief an officer of the United States court, Receiver McNulta. This official, through his attorney, presented a petition rehearsing his appointment to office and the reasons why he considered the sale not alone judicious, but necessary. In this petition Receiver McNulta made admissions contrary to his previous statements concerning the estate. He said he is meeting with exceedingly sharp competition in the conduct of the business; that he believed the distilleries should be closed from July 1 to Oct. 1; that the Cattle Feeding contracts could not be renewed by him to good profit; that enormous expense for rentals, insurance and service would be incurred in that time and that the properties would be injured during the period named.

For the Central Trust company Edwin Walker dismissed his bill for foreclosure of the trust property. This renewed the original bill, amendments, denunciations, etc. from the case. Mr. Walker, though, filed another bill praying the appointment of a receiver, which has the same purport. It was filed on behalf of Charles Lindsley, owner of 100 shares of stock.

Between the Legal Lights. After the "delay" bills were out of the way the petition of the receiver was read. To this Attorney Judah made vigorous objection on behalf of Nelson Morris. He demanded that the receiver make a detailed exhibit of the assets in his possession. Mr. Walker made a similar protest. These tactics annoyed the reorganization interests, and one of the attorneys, with a spectacular wave of his arm, said to Mr. Judah: "We don't care to be bothered by such musketries." Mr. Judah retorted: "Well, the musketries are very much present, and you may be made to feel their bills before you are through."

The answer to the petition for the judicial sale, made by Mr. Greenhut, was then taken up. Before considering it in detail counsel for the reorganization committee gave the history of the litigation in which the trust has been involved since the receivership. The point was made that J. B. Greenhut, in his first bill for a receiver, asked for the sale to which he is now objecting. The terms of the proposed sale were then discussed and the reorganization committee stated that it desired that the property should bring the largest price possible.

Attorney Paxton of Cincinnati, representing the Union and two other distilleries leased to the trust, made a statement of his case to the court, and told how his properties had been dismantled and practically destroyed. He asserted, however, that he earnestly desired a judicial sale, and wished to place no obstacles in the way of such a plan.

Continuing, the reorganization counsel said: "This answer to the petition for a judicial sale is made by a man who was removed from the receivership because he admitted to this court that he had sold 150,000 shares of the company's stock short when he was conniving and preparing the scheme for wrecking the estate. He is today short of the stock and this fight is a 'bait' move. It is a stock jobbing scheme, pure and simple, and has been such from the beginning."

The conditions and benefits of the sale were discussed at length. It is thought that the decision will be reached before July.

SWITHIN BROS., Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 80 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 70 lots.

Also a few lots off Bates avenue.

WOLLASTON.

A few desirable lots in Wollaston on Hancock street, opposite entrance to Merry Mount Park.

Will be on land at Presidents' Hill every afternoon from 2 to 4. Parties desiring lots or any information on the above properties, please call at Room 12, Durgin & Merrill's Block. Quincy, June 11.

EDITORIAL COMMENTS.

THERE is no question but that the entrance of Quincy into the Metropolitan water system would involve an expense of over \$300. Such being the fact, was not the order of Councilman Adams illegally adopted by the City Council on June 10? Section 16 of the City charter says, "every such ordinance, order, resolution or vote shall be read twice, with an interval of at least three days between the two readings, before being finally passed, and the vote upon its final passage shall be taken by roll call."

The resolution of Mr. Adams was read but once and was declared passed by a vote of 12 to 10. If illegally passed it opens the way for any taxpayer to secure an injunction when the assessment is levied. Better try again. The resolution may not be as successful another time.

THE SUM of \$33,000 was at first regarded as sufficient to build a pumping station for the sewer system, a structure which would answer all practical needs. The engineer of the State Board thought Quincy should have something better, something that would be more ornate, and therefore he jumped the figures up to \$41,000. Wouldn't it be consistent to spend \$8,000 additional to beautify a sewer pumping station in an isolated spot, when the Mayor and City Council object to spending \$4,000 or \$5,000 additional for a brick school house rather than one of wood?

The Morning Fire.

The alarm from Box 64 at 6:53 o'clock this morning was rung in for a brisk fire in a closet in the upper part of a house on Hunt street, Atlantic, occupied by a family named Chanck.

Mrs. Chanck arose about 6 o'clock leaving the children asleep up stairs. While at work about the house she noticed the presence of smoke and upon opening the door of the closet, which was in the room where the children were asleep, the flames burst out in her face.

Prompt work of the department kept the fire from spreading, although it worked out upon the roof in some places. The loss will not exceed \$25.

As stated above the fire started in a closet which was full of clothing, and it is supposed that matches in the pockets in some way became ignited.

K. & L. of H. Visitation.

Maple lodge, K. & L. of H., received a visitation Wednesday evening from Evening Star lodge of Somerville. The visitors some fifty in number came all the way on the electric cars, having chartered a special car which brought them as far as Neponset bridge where the Quincy & Boston had another special car in waiting.

The visitors came more especially to witness an exemplification of the degree work by the degree team of Maple lodge and they expressed themselves as more than pleased with this work.

After the work of the evening ice cream and cake was served and a social time enjoyed.

Electric to Brintree.

The new extension of the street railway to Brintree will be opened Saturday, but there will be no demonstration of any kind. Sunday, cars will commence making regular trips, leaving Quincy on the hour and half-hour, and returning leave the Brintree line at 15 minutes past and 15 before the hour.

Q. Y. C. Hop.

The Quincy Yacht club's first hop of the season was given at the club house on Wednesday evening. These hops have been for years among the leading society events of the summer season. There was such a large party in attendance that the hall was almost too crowded for comfortable dancing. The hop was managed for the House committee by Mr. C. Eaton Pierce. The music was by Peter's orchestra.

QUINCY BREVITIES.

Notes from Quincy Point, Wollaston, Atlantic, South and West Quincy.

A good job is being done by the city on Beale street.

L. J. Pastor, Ph. G., is making a success of the Phenix pharmacy.

C. F. Carlson has all the popular novels, and the price is only five cents.

From 2 till 10 tomorrow, Auctioneer Crane will sell pictures, mirrors and rugs.

Not until today was the last of the Quincy census returns forwarded to the State House.

Hodensan tribe of Red men of Wollaston will visit Nahant lodge of Brintree this evening.

Quincy's Young Men for June is out. It is illustrated by a scene at the boys' camp at Silver Lake.

The reduction of fares on the N. Y. N. H. & H. R. R. between Quincy and Boston has not taken place yet.

The improvement to Albert Keating's estate on Washington street made by moving his fence back is a good one.

The Sunday school of the Centre Congregational church will hold its annual picnic at Merry Mount park on Saturday, June 29.

Mrs. Samuel F. Howard of Wollaston is at Hyannis for a few days. Mrs. Howard is a guest of Supt. French of the N. Y. N. H. & H. R. R.

The assistant engineer from Atlantic had a hard time locating the fire this morning, and it was some time before he arrived at the scene of action.

Monday evening will be observed by John Adams Council, R. A., of Wollaston, as ladies night. It is the 18th anniversary of the formation of the order and a grand treat has been prepared.

Judge Pratt occupied the bench at the District court this morning, and W. M. Marden officiated as clerk. Judge Humphrey and Clerk Churchill were at Dedham attending the dedication of the new court house.

A boy in a dog cart, driving a mustang from Boston to the beach, had an exciting runaway on Hancock street about 11 A. M. Wednesday, the animal starting near the Atlantic station and running to Beale street. No damage.

If our business houses desire some patronage from Brintree they should advertise in the Brintree OBSERVER, published by Geo. W. Prescott & Son at Quincy. The opening of the street railway will bring many to this city next week and thereafter.

The Woodward Institute closes today. The parents were entertained from ten to one. The display of drawings excelled all previous exhibitions. Another year there will be a graduating class, and with an enlarged building the Woodward will be firmly established.

City Clerk Keith will call to public attention the fact that whoever willfully defaces or removes any notice relating to the registration of voters, voting list, or notice or warrant for an election is liable to a fine of three hundred dollars or imprisonment in jail for one year, or to both such fine and imprisonment.

Wednesday a well known resident of Centre street drove to City Square and putting his horse in French's stable went to Boston. Later in the day he returned to Quincy, but in the mean time he had forgotten all about his horse and therefore took the car for home and it was not until his arrival there that he discovered that he had forgotten his faithful animal and that another journey to the centre was necessary.

A public meeting at which all citizens of Wollaston and vicinity are invited to attend will be held at the K. of H. hall on Saturday evening, June 22, at 7:30 o'clock to discuss the sewerage question. As Wollaston has a large number of clever speakers who always take an advance view of public questions the meeting will be interesting not only to that ward but to the entire city. Councilmen Bryant and Nickerson have it in charge.

There was a very pleasant gathering in the parlor of the Universalist church Wednesday afternoon, it being the closing meeting of the Ladies Association for this season. Nearly all the members were present. At the close of the business meeting there was a little souvenir to each member given by Mrs. Whiton of Hingham and presented by the president. The company adjourned to the vestry where a very tempting 5 o'clock tea was enjoyed after which they separated with many kindly wishes to meet again the first Wednesday in September.

I have two little grand children who are teething this hot summer weather and are troubled with bowel complaint. I gave them Chamberlain's Colic, Cholera and Diarrhoea Remedy and it acts like a charm. I earnestly recommend it for children with bowel trouble. I was myself taken with a severe attack of bloody flux, with cramps and pains in my stomach; one third of a bottle of this remedy cured me. Within twenty-four hours I was out of bed and doing my housework. Mrs. W. L. DUNAGAN, Bon-aqua, Hickman Co., Tenn.

DEBATE ON DEBATING.

A Difference of Opinion on Its Importance at High School.

Mr. Marnock, '95, president, took the chair Wednesday at the weekly meeting of the High School Debating society. Miss Cashman, '95, secretary, offered her report. The board of decision for last week decided that there is no aristocracy in the United States.

The entertainment was as follows: Essay, Mr. Barry, '95. An entertaining account of a visit to the "White Squadron." Recitation, Miss Hay, '96. A tribute to Hawthorne.

Essay, "My First Attempts at Tennis," Miss Vogler, '95. A humorous view of a charming pastime.

Recitation, Miss Melzard. A selection from Evangeline.

Essay, Miss Thomas, '95, read by Miss Jones, '95.

The debate was on this subject,—"Resolved, that debating is the most important exercise at the High School."

The affirmative was taken by Miss Burns, Miss Cahill, Miss Coyle and Miss Dunham. The speakers in the negative were: Miss Emery, Miss Garrity and Miss Gavin.

The critic, Miss Jones, '95, then gave her report. The Board of Decision decided in favor of the affirmative.

Welcomed to Quincy.

The reception given Wednesday evening by the members of Christ's church to their rector and his new bride was a very pleasant occasion, and a society event. It was limited almost wholly to attendants at the church, but the parish house was none too large for the many who desired to extend a welcome to Mrs. Breed.

The reception was as informal as possible. Prominent gentlemen of the society acted as ushers, and one and all congratulated their rector and extended best wishes to his charming wife. Mrs. Breed was gown in white crepon trimmed with satin ribbon and lace and ornamented with diamonds.

The chapel was artistically decorated with oak branches, garden flowers and daisies. Ice cream, wafers and lemonade were served by Wales.

GOOD TEMPLAR FLAG

Represents an Army of Six Hundred Thousand Ardent Workers.

Boston, June 20.—The flag of the Good Templar order will be very much in evidence during the latter part of the month, when the supreme lodge meets in Boston. It consists of a white ground, upon which is a red Maltese cross, and in the centre a representation of the globe.

It has been planted in every English speaking state and nation, the advance agent of civilization in many foreign lands. Under its colors is enlisted an army of 600,000, battling for the home and the best interests of every land. Its field-work; its watchword—home protection; its motto—Faith, Hope and Charity.

CABINET STEPS OUT.

Climax of the Crisis With Austria Has Been Reached.

VIENNA, June 20.—Prince Windisch-Graetz had an interview with the emperor yesterday, when he formally presented to his majesty the resignations of the Austrian ministry.

The emperor has accepted the resignations of the Austrian ministry.

The emperor has sent an autograph letter to Prince Windisch-Graetz warmly thanking him for his self-sacrificing devotion to the country and its interests, and conferred upon him the Grand Cross of the Order of St. Stephen.

He also sent gracious letters, and has conferred decorations upon the other retiring ministers.

The emperor has requested Marquis de Baequehem, minister of the interior in the late Austrian cabinet, to hold himself at the emperor's service. This is supposed to indicate that he will be the next premier.

Nipped in the Bud.

COLORADO SPRINGS, June 20.—A daring but unsuccessful attempt to rob the Exchange National bank occurred here yesterday. Ed Hutch divulged the scheme to the sheriff, and both the bank officials and the sheriff were prepared for the desperadoes, whose names are Fred George, Mike Kennedy and Robert McFarland. Hutch participated in the plot, but only as a lay figure. George entered the bank and pointed a gun at the cashier's head.

The cashier sounded a burglar alarm, whereupon the sheriff and several deputies captured George and Hutch, who were in the bank, while several deputies easily captured Kennedy and McFarland, who were on watch outside the bank building.

For Free Coinage.

DES MOINES, June 20.—The prohibition convention nominated the following state officers: For governor, Frank Bacon; lieutenant governor, E. P. Atwood; supreme court judge, J. W. Rogers. The resolutions declare for woman suffrage; for the free coinage of silver and gold at the ratio of 16 to 1; the government ownership and operation of railroads; the revision of immigration laws; for Sunday observance; public schools and unalterable opposition to any diversion from the fund of maintenance of sectarian schools and for the income tax. They denounce the mulatto law, and the Republican party as the author of the law.

Postoffice Statistics.

WASHINGTON, June 20.—The net increase of receipts at all postoffices throughout the country during the year ending March 31, 1895, was \$1,739,953. The total number of presidential offices is 3466. The salaries of 1067 postmasters are increased and 893 decreased. The gross increase of receipts was \$1,894,092 and gross decrease \$154,139.

McLaughlin Sent to Prison.

NEW YORK, June 20.—Judge Barrett sentenced ex-inspector McLaughlin to two years and six months in state prison. Judge Barrett by sentencing McLaughlin to state prison, deprived him ipso facto of his position as inspector of police, so that there could be no question as to his legal status when he was sentenced.

Remarkable Showing of American Schools.

WASHINGTON, June 20.—Dr. Harris, commissioner of education, in his report for the year 1894, shows that the total number of pupils in all schools was 15,530,298, an increase over the previous year of over 450,000, in spite of hard times.

Manitoba's Answer Endorsed.

WINNIPEG, June 20.—A vote on the school debate was reached at 10:30 last evening. All the amendments were voted down and Manitoba's answer refusing to re-establish separate schools was adopted.

No Need to Worry.

ST. JOHN, N. B., June 20.—The trouble in connection with the loan bill has proved to be a false alarm according to information received by the council from London, but no official statement is made.

Many Persons Perished.

ST. PETERSBURG, June 20.—The town of Danilow has been the scene of a great fire which destroyed several public buildings, a church and numbers of private houses. Several persons met death in the flames.

Guilt of Murder.

NEW YORK, June 20.—The jury in the case of William Caesar, the West Indian negro, charged with the murder of his common law wife, Mary Martin, rendered a verdict of murder in the first degree.

—The encouraging business outlook of the flouring industry is shown by the report of Bradstreet's seventy-five cities east of the Rocky mountains show that more than 227 important manufacturing concerns started between April 1 and June 1, by reason of which 55,000 employees have secured work. But an additional and significant fact is found in the statement that the number of no fewer than 175,000 industrial employees have been advanced within this period an average of ten per cent. Sixty-nine of these men received the advance without striking.

HOME RULE FOR CUBA

May Be Offered by Spain If Insurgents Will Quit Fighting.

Mother Country In Need of Men and Money.

Non-Combatants and Property Equally Respected by Both Sides.

BOSTON, June 21.—That Cuba will be granted a measure of autonomy by the mother or stepmother country, rather than to let her achieve her independence, is now regarded as certain by those who know General Campos, and are on the inside as to the opinions of the business men and non-combatants of the island. E. P. McDonough of Boston has just returned from the island. He has had exceptional advantages for knowing all about the island, her people and the conditions of the rebellion. In an interview Mr. McDonough said, among other things: "Havana doesn't know anything about the war that is being carried on down in Santiago. Business is good and everything points to a successful year for the merchants. "At the same time the revolutionists have the best of it where they are making their fight, and it is now common property that large concessions will be granted by Spain to bring the war to an early close. "General Campos is thought well of by the Cubans as well as the Spanish. I don't think a hair in his head would be touched if he was to fall into the hands of the insurrectionists. "Spain needs money badly, and she needs men still more. The troops now there are sick, half-starved, unpaid and are deserting to the enemy. "General Antonio Maceo is at or about Manzanilla with the colored insurrectionists, while General Gomez with the white troops are to the north in the vicinity of Puerto Principe. The insurgents are well armed with repeating rifles and machine guns. The insurrectionists take horses and guns, but nothing else, and respect property so that even in Santiago business is carried on as usual, and business there is good besides."

McDonough also states that he was informed that \$10,000,000 of American money is now at stake at Santiago through the lack of an American war vessel. While other nations have war vessels there, he said, the United States did not have one two weeks ago, at the time he left. McDonough said he knew that Marti was dead beyond the shadow of a doubt. He was killed on the west bank of the river at Remanuganos, a point between Santiago de Cuba and Bayamo. The Cubans, McDonough thinks, are stronger than their opponents, though less in number. They are more active and possess greater endurance. He thinks the end will probably come soon, especially since the Spanish soldiers are not only disaffected on account of money troubles between them and the government, but the climate and disease are doing fatal work among them.

Fight With a Maniac.
SPRINGFIELD, June 21.—Thomas Flanagan, 28, an inmate of the insane ward at the city almshouse, died there under peculiar circumstances. Early Monday morning Bert Finley, the keeper, who was making his usual morning rounds, entered Flanagan's room, when the latter sprang upon him, inflicting a cruel injury. Then began a struggle for life on the keeper's part. At last he struck the lunatic over the head with a chamber vessel, knocking him unconscious. Flanagan was taken sick soon afterward and died Tuesday night. Medical Examiner Brock viewed the body yesterday, and said the man died from a nervous shock brought about by the fight.

Dedham's Celebration.
DEDHAM, June 21.—Yesterday was a red letter day here, for the shire town of Norfolk county again dedicated its courthouse, newly remodeled and now a beautiful and shapely structure of granite, while the county of Norfolk celebrated its 102d birthday. It was a great day for Dedham, proud of its nearly 300 years of existence, and for the county that has given so many prominent men to the state and nation. From various sections of the state came leading men, who took active part in the ceremonies.

Warned Out.
BOSTON, June 21.—The state house commissioners yesterday submitted a letter of warning to the executive council for the entire vacation of the Bulfinch building. The adjutant general, the assistant sergeant-at-arms, the commissioner of provincial laws, the board of registration, and even the barber shop are invited to find other quarters. The document was addressed to the governor and states that the lives of the occupants of the building are in danger until the work of underpinning walls is completed.

Sons of Veterans Adjourn.
FARMINGTON, Me., June 21.—The second day's session of the 13th annual encampment of the Sons of Veterans of Maine was devoted to routine business and a memorial service in honor of Colonel John C. Black of Auburn. The installation of officers followed. Last evening the encampment closed with a band concert and public camp fire.

QUINCY BREVITIES.

Notes from Quincy Point, Wollaston,
Atlantic, South and West Quincy.

Mrs. Albert Turner of Miller street has
gone to China, Me.

The only lively place in Quincy on the
Fourth will be at Atlantic.

The class of '95, Q. H. S., will hold their
reception next Thursday evening.

The local stores are beginning to stock
up with Fourth of July explosives.

The telephone company is putting many
of its wires on Hancock street in a cable.

The two new cars for the Quincy & Bos-
ton arrived at South Quincy this morning.

Rain is needed very badly and unless
soon falls great damage must be done to
vegetation.

Secretary Colton attended the conven-
tion of national Y. M. C. A. physical di-
rectors at Springfield on Thursday.

The first car over the extension of the
street railway to Braintree will leave City
Hall Saturday afternoon at 2 o'clock.

Would it not be a good idea for the Wol-
laston Cycle club to have its bicycle races
at Atlantic on the morning of the Fourth?

What has become of that committee of
fifteen who were to consider the feasibility
of a social organization to be known as the
Quincy club?

A large gang of men will be put at work
Monday morning building the street rail-
way extension to East Milton and it is
expected that the line will be completed in
about two weeks.

Auctioneer Crane had a large number of
of callers this morning to look at the
pictures, rugs, etc., which he is auctioning
off this afternoon in the court room
building.

Hon. John F. Merrill of Quincy was on
the court house at Dedham, and Clerk
Churchill of the Quincy court was one of
the ushers.

Auctioneer Johnson hopes to see the
ladies at his sale tomorrow afternoon at
70 Hancock street, when bargains will be
offered in Japanese goods and other
articles. He will also sell in the evening.

During the dense fog over the harbor
yesterday morning, the steamer City of
Quincy went ashore at Lovell's island, but
floated off at high tide uninjured. She
was making the early Boston trip.

Elder Peter Kerr, of South Boston, gave
a very interesting report of the meeting of
the late Presbyterian General Assembly, in
Pittsburg, to which he was a commis-
sioner, at the First Presbyterian church,
last evening. There were many visitors
present.

If our business houses desire some
patronage from Braintree they should ad-
vertise in the Braintree Observer,
published by Geo. W. Prescott & Son at
Quincy. The opening of the street rail-
way will bring many to this city next
week and thereafter.

John Adams Council, Royal Arcanum,
has perfected all the arrangements for the
celebration next Monday evening, June
24th, at K. of H. hall, of "Royal Arcanum
Anniversary," and a rich treat is promised
and expected to the members of this coun-
cil and their ladies, who it is hoped will
attend in goodly numbers. The eminent
musical sketch artists, Hobart & Howlett,
talented and versatile and whose repertoire
is extensive and varied, and their produc-
tions bright, novel and bubbling with con-
tinuous melody and harmless fun, have
been specially engaged for the occasion.
Their entertainment will occupy the better
part of two hours after which refreshments
will be served. The entertainment will
commence at 8 o'clock promptly and only
members and their ladies will be admitted.

The beautiful court house at Dedham
was appropriately dedicated on Thursday.
From all parts of the county the sons of
Norfolk gathered to celebrate the event.
The Committee of Arrangements did finely
and every part of the exercises were a
credit to them. The speeches were nume-
rous and appropriate; the music excellent;
and the menu very fine.

There are others, but this one fact
is convincing, there isn't a range manu-
factured on earth today that will give
such delightful service as The Glenwood.
Inspection solicited. New ranges on trial
for those who wish. Henry L. Kincaide
& Co.

ATLANTIC'S PROGRAMME.

Generous Contributions to Fund
and Good Committees at Work.

Atlantic will celebrate the glorious
Fourth in a manner that will do credit to
the village, or rather ward.

The first meeting in the interest of this
event was held last week and several com-
mittees appointed. Thursday evening
another meeting was held at Music hall
and was very largely attended and con-
siderable enthusiasm was shown.

Harry W. Read presided and James H.
Cunningham was secretary.

The committee on soliciting funds re-
ported that nearly \$300 had been con-
tributed and they had not yet finished
their labors.

The other committees reported progress.
The plan of the celebration, as now
laid out, is as follows:

Antique and horrible parade to start in
the vicinity of 8.30 in the morning.

At 9.30, the Squantum Yacht club will
take out sailing parties.

At 10 o'clock, a bicycle race.

At 10.30 o'clock, game of base ball, prob-
ably between local team.

In the afternoon there will be an enter-
tainment for children at Music hall, in the
vicinity of 2 o'clock.

Then there will possibly be a game of
ball between two juvenile nines.

At 5 o'clock there will be a band con-
cert.

The day will be wound up by a grand
display of fireworks and a band concert in
the evening.

The following committees were ap-
pointed from the floor:

General Committee,—Stephen O. Moxon,
James Churchill and Harry W. Read.

Music,—Fred Pierce, William Nelson,
Joshua E. Drew.

Squamant Yacht club entertainment,—
Joshua E. Drew, Wm. Campbell and Mr.
Coombs.

Bicycle races and other sports, except
base ball,—J. E. Alger, Charles L. Coe and
Charles Cherrington.

Children's entertainment,—Charles R.
Safford, George H. Sherwin and Eben
Stocker.

Parade,—Frank A. Tilton, David C. Nel-
son, Stephen O. Moxon, Cornelius M.
Duggan, Thomas Clare.

Base ball,—James H. Cunningham, L. D.
Gurney and Fred S. Moxon.

Fireworks,—I. Wellington Moody, George
H. Sherwin and Herbert S. Barker.

Refreshments,—George O. Melzard, Jacob
Kolb and George H. De Huff.

Finance,—Elijah G. Hall, Eben Stocker,
Fred Pierce, Charles R. Safford and Henry
Hallist.

The sub-committees will arrange their
several programmes and will report at the
next meeting of the citizens, which was
left subject to the call of the general com-
mittee.

Braintree Graduation.

Last evening the Town Hall was uncom-
fortably packed with people to witness the
grand annual event of our public schools,
the High school graduation exercises.

The audience is always large at these
exercises, but this year the two electric
lines enabled many more than usual to at-
tend and there was scarcely standing room.

The 7.25 car from Braintree carried all
the passengers that could possibly be made
to adhere to the numerous projections.

At eight o'clock the members of the
High school marched down the aisle to
their places at the front. The seniors
seated themselves in a semicircle on the
stage and the chorus sang the first number.

The following exercises were then given
by the graduating class:

March. Song—"Now to the Lord," by the school.
Prayer. Rev. A. H. Ross.

Words of welcome. Albert E. Fisher.
Declaration—"Charles Sumner," by John A. Ryan.

"A Subterranean Vision," by Ada B. Cobb.
Song—"Spring Song," by the school.

Annals of a Quiet Neighborhood. "Description of Hillsboro," by Annie M. Crosby.

"Some Local Celebrities," by Cora Wyn W. Lang.

"A Ramble and an Autumn Sabbath," by Nina B. Gage.

"Color in Nature," by Nina B. Gage.

Song—"Dreamland," by Nina B. Gage.

"To Heights Beyond," by Bessie A. Leonard.

History. "Mamie Orr," by Grace T. Whitmarsh.

Prophecy. "A Summer Morning," by the school.

Charge to '95. Frank A. Gannon.

Reply to '95. Herbert F. Plummer.

"Vale, Vale," by Wallace W. Dana.

PRESENTATION OF DIPLOMAS BY DR. H. L. DEARING.

"Auld Lang Syne," by the school.

The graduates were: Ada Burnham,
Cobb, Annie May Crosby, Nina Belle
Gage, Cora Wyn W. Lang, Bessie Hath-
away Leonard, Mamie Orr, Grace Tower
Whitmarsh, Everett Howard Cain, Wal-
lace Winfield Dana, Albert Eugene Fisher,
Arthur Bates French, Frank Gannon,
Noah Jackson Kingsbury, John Arthur
Ryan, Ernest Augustus Vinton.

These young men acted as ushers.
R. H. Orr, chief usher. E. G. Gouillard,
Charles French, F. McDowell, C. H. Gage,
H. Vinton and John Arnold.

I have two little grand children who are
teething this hot summer weather and are
troubled with bowel complaint. I gave
them Chamberlain's Colic, Cholera and
Diarrhoea Remedy and it acts like a charm. I
earnestly recommend it for children with
bowel trouble. I was myself taken with a
severe attack of bloody flux, with cramps
and pains in my stomach; one third of a
bottle of this remedy cured me. Within
twenty-four hours I was out of bed and doing
my household work. Mrs. W. L. DUNAGAN,

Accident Averted.

There was a narrow escape from a
serious accident at the West Quincy depot
Sunday morning. The 9.24 inward train
instead of waiting on the switch for the
outward train to pass, steamed by the de-
pot just as the outward train made its ap-
pearance. Both trains were moving slowly
and the engineers seeing the danger ap-
plied the brakes and succeeded in stopping
the trains within about four feet of each
other. Had the trains been running at
any speed a head-on collision must have
taken place and probably a serious loss of
life.

Atlantic Sociable.

The young people of Memorial Sunday
school decorated the chapel in a unique
and attractive manner Wednesday even-
ing, and the bazaar booths were loaded
with articles on sale. Refreshments were
served by the Japanese young ladies.
During the evening Mr. W. H. Owen sang
a tenor solo and Miss Gertrude Austin of
Cambridge gave selected readings. A
group of little girls presented the dialogue,
"The Prize Doll," and older girls gave the
cantata, "A Quarrel Among the Flowers." Also
the piano solo by Miss Gertrude Hall
should be mentioned. Mr. Henry H.
Faxon gave a liberal donation and the
bazaar was well patronized by the public
and so made a success.

Bicycle Accident.

H. W. Adrian, the granite manufacturer,
was enjoying a bicycle spin Thursday
evening when he met with a serious acci-
dent at the Adams street railroad crossing
near Field's corner. Two companions had
crossed in safety, but the gates were
dropped in front of him and he dashed
into them. He was knocked insensible,
and did not recover for twenty minutes or
more. He received scalp injuries.

The Good Templars.

At the regular meeting of Merry Mount
lodge, No. 55, I. O. G. T., held Thursday
evening, five candidates were initiated.
Official visits were received from Grand
Counsellor W. L. Hathaway and Joel T.
Watson L. D. The representative from the
Grand lodge complimented the lodge and
its officers upon the excellent manner in
which the ritualistic work had been per-
formed. He also expressed his satisfaction
at finding the lodge in such a prosperous
condition, one hundred having now joined
the lodge since it was instituted—a little
over one year ago.

Communications were received from
various lodges notifying their intention of
being present and participating in the
sports at the union picnic to be held at
Downer Landing, under the auspices of
Merry Mount lodge. Full arrangements
for this grand gathering of Good Templars
have now been completed and courtesies
have been extended to a representative of
this paper to be present.

Next week will be a busy one among
the Good Templars of the state. On
Wednesday 29th, the International
Supreme Lodge will convene at Boston.
This event will be the greatest that Mas-
sachusetts Good Templary have ever known.
On Tuesday evening, June 25, meetings
will commence in Association hall, Y. M. C.
A. Building, corner Boylston and
Berkley streets, in connection with the
session of the Supreme lodge, and con-
tinue eight days. All the meetings will
be interesting, but two especially so. The
public reception tendered the Supreme
lodge by the Massachusetts Grand lodge on
Tuesday evening, June 25, will be of
great interest. Every lodge in the state
will be represented and when possible will
attend in a body, each member of the
order wearing their regalia. The other
important day is Thursday. At 4 P. M. a
convention photograph at Institute of
Technology will be taken; at 6 P. M. a
reception by Gov. Greenhalge in Copley
hall, and at 6.30 P. M. a banquet for 1,000
plates in Copley hall, with Wm. Leonard,
P. G. C. T., as toastmaster. The Quincy
lodge will leave Quincy at 6.40 P. M. and
meet Wylie lodge at 18 Essex street at
7.30 Tuesday evening. Each member
of the order is entitled to bring a friend
who is not a member. Particulars may
be obtained from James Cleverly, Quincy
Point, who has charge of the details.

Adams Gold Medal.

There are a third more candidates for
the Adams gold medal this year than last
year. Twelve young men whose names
are given below will contest on Monday
for the prize:

William Merrill Leavitt, Marshfield Hills.

Roy Farrell Duffield, Quincy.

George Edward Adams, Quincy.

Gilbert Ray Kent, Wollaston.

William Henry McGrath, Quincy.

William Andrew McCabe, Quincy.

Stacy Baxter Southworth, Quincy.

Henry Alexander Wason, Quincy.

Harry Warren McCabe, Quincy.

Arthur Bates Holden, Quincy.

Walter Hinckley Nichols, Wollaston.

John Loring Eldridge, Quincy.

Can't Prove Bribery.

HARTFORD, June 21.—Rev. C. A. Pid-
dock has informed Senator Palmer, sec-
retary of the Mason investigating com-
mittee, that he will not appear before the
committee, and that he has no witnesses
to name nor any evidence to produce to
prove bribery or corruption on the part of
the senate. The investigation will, there-
fore, probably end.

Harvard Hasn't Seen It.

CAMBRIDGE, June 21.—Professor Ames,
chairman of the Harvard athletic com-
mittee, in referring to the Oxford-Cam-
bridge challenge, said the document said
to have been mailed from England had
not yet been received by the committee
and that that body would not consider the
matter until it was at hand.

In Boston's Slums.

BOSTON, June 21.—At a meeting of the
Boston common council last night a spe-
cial committee reported on the condition
of tenement houses in this city. In the
North End the committee reports that
houses were overcrowded, and that in
many dwellings fruit dealers stored their
stock in sleeping rooms, where in some
cases six persons slept at one time. The
poor sanitary condition of many tenement
houses and the carelessness of many land-
lords was reported as a menace to the
health of the city.

Skipped Out of Jail.

BOSTON, June 21.—Jeremiah Donovan,
who was serving a six months' sentence in
the house of correction at South Boston
for assault and battery on a policeman,
had been at work in the gas house, and in
some way eluded the guards. He had five
months to serve.

—Attorney General Harmon is sound on
the money question. "I want the Ameri-
can dollar to be just as good as anybody
else's dollar," he says, "and with that
qualification I do not care what it is made
of. But in the present situation it seems
to me mere folly to talk about the free
coinage of silver. The only way we float
the silver we now have is by attaching an
implied greenback to every silver dollar;
or, in other words, by the government's
promising to redeem it with a gold dollar,
if necessary to keep the two equal. Of
course there is a very narrow limit to the
government's ability to do that; besides,
I know of no reason why it should do it."

more hospitably entertained than last
week in Nova Scotia. It was a hearty
welcome at Yarmouth and Halifax, and
all along the route, the invitations to stop
over being too numerous for the limited
scheduled time. It was possible to accept
one or two and considerable pleasure was
crowded into the few moments.

The Yarmouth Steamship line, with
four trips a week, offers a popular route to
those who enjoy a sea voyage. A little
rougher weather is not objectionable and
even the swell is preferable to a long ride
in dusty, stuffy cars. We left Boston at
noon on the 10th and it was a delightful
sail out of the harbor. During the night
we entered a fog which continued to
envelop us at Yarmouth after our safe
arrival.

The Grand Hotel was our headquarters,
and a credit to any city. The industries
were visited during the morning, and in
the afternoon the excursionists were the
guests of the citizens, who took them for
carriage drives. Our guide was William
Law, M. P. P., formerly of Worcester,
Mass., and we saw and learned much of
Yarmouth and the Province.

Late in the afternoon President Baker of
the Yarmouth line and his estimable wife
gave us a reception at his beautiful
residence.

In the evening the Yarmouth band ser-
naded us, and later the citizens visited us
at the hotel. It was an enjoyable evening,
enlivened with music, and light refresh-
ments added to the sociability.

In the morning we were off for Kentville.
The Dominion Atlantic railway, through
the courtesy of whose management the
party was enabled to enjoy the interior
delights of the Land of Evangeline, is a
notable example of what British capital
and enterprise, combined with American
ideas, can produce in the way of quick
and comfortable rail transportation. Its
already famous express, the "Flying Blue-
nose," as it has been happily named, is
one of the finest trains in this country. It
runs between Halifax and Yarmouth, con-
necting at the latter point with the steam-
er for and from Boston, running as it
does through the beautiful Annapolis
valley and around the shores of Minas
and Annapolis basins, presents to the eye
of the tourist the very cream of Nova Scotia's
scenic attractions and most of its
historic ones.

One of the most beautiful books of sum-
mer travel ever issued is that just out
entitled "Beautiful Nova Scotia," and
gotten out by the Yarmouth Steamship
Company. It can be had by sending the
necessary postage (ten cents) to J. F.
Spinney, Lewis Wharf, Boston.

A day was spent at Kentville, and here
also the citizens took us for a long drive.
Here we met Mr. Donald C. Crisholm, who
worked some years ago in Quincy, and
drove with him. The "Look-off" was the
objective point, and it was a grand pan-
orama that was spread out from this ele-
vation; it was a scene of verdant, sunlit
garden-land and water of surpassing
beauty. There could not possibly have
been a more perfect day on which to feast
the eye on Lookoff's splendors. The
morning mists had risen and clarified the
air in their passage back to the Bay of
Fundy, leaving it as clear and serene as if
a thunder storm had lately passed. At
the feet of the press pilgrims and their
entertainers, in the foreground, lay the
fertile and well-kept lands of the farmers
of Pereaux; then, stretching away into the
seemingly limitless distance to the west
and south, came the great farms and
orchards of the entire Cornwallis valley,
the pride and glory and material substance
of Canning, Canard, Kentville and Wolf-
ville, and a score of other prosperous
communities. To the north and east
glimmered the silvery waters of the
"storied Basin of Minas," a ribbon of fog
floating lazily in toward the Cornwallis
river. Over all this cheerful world in
miniature shone the bright sun, obscured
now and again by fleeting clouds that sent
the shadows chasing each other over the
bright green carpet 650 feet below—the
whole making up a picture that simply
held the beholder spellbound with awe and
admiration.

We were to spend the night at Hal-
ifax and reluctantly we returned to Kent-
ville, and were soon speeding by rail
through a beautiful country to that "old
world" city. A committee from Halifax
joined us en route and outlined their plans
for the morrow. At the depot twenty-five
barouches conveyed the party of nearly 100
in a procession through the principal streets
to the Halifax Hotel.

Friday was a very busy day. From 7 A.
M. until midnight it was receptions and
drives, interspersed with a harbor ex-
cursion, and refreshments at several
points, concluding with a comic opera in
the evening at the theatre. During the
day we were transferred from committee
to committee, and we found Halifax a
most hospitable city.

Saturday morning we were called at 4.40
(Boston time), dined at 5.40, and at 6.40
were off for Yarmouth, a day's journey.
A special train gained an hour's time at
Annapolis and the Mayor and citizens had
planned for an hour's drive to the old fort
and about town. Behind Mr. D. R.
McClelland's speedy pair we did Annapolis
after dinner, and it was a pleasant
break in the long day's journey.

At 7 P. M. we embarked on the Yarmouth
at Yarmouth for Boston. The voyage
home was without ill effects, and thus ter-
minated a most enjoyable outing. We can
fully endorse the resolutions adopted by the

excursionists and therefore print them in
full:

WHEREAS—The joint excursion of the
Massachusetts and Suburban Press associa-
tions, returning from its visit to Nova Scotia
with the memory of a pleasant and profitable
week spent in the land of Evangeline, the
garden of the provinces, a section full of
historical interest, and dear to the heart of
every son of New England; be it therefore
Resolved—That the thanks of this visiting
party of the New England press are due, and
are hereby tendered, to Hon. L. E. Baker,
president and manager; J. F. Spinney, Esq.,
agent, and F. K. Robbins, traveling
agent of the Yarmouth Steamship company,
(limited).

To P. Giffins, general passenger agent,
and J. P. Masters, Boston agent of the
Dominion Atlantic railway, for the many
courtesies extended in perfecting arrange-
ments for the excursion and for kind atten-
tions rendered during the trip.

To Chas. T. Wilson, manager of the finely
appointed Grand Hotel Yarmouth; to the
citizens' committee for the delightful and
through their beautiful city and its suburbs;
to Mrs. L. E. Baker for the social afternoon
reception at her beautiful home; to the Yarmouth
band and orchestra for their sweetly
discouraged music; also to the local press and
to the citizens of Yarmouth, generally, for
their cordial reception and entertainment in
the evening.

To Mayor Ryan and the citizens' com-
mittee of Kentville, for the delightful and
enjoyable drive in the historic dyke lands of
the Acadia, and the mountain drive to
the "Lookoff," where the charm-
ing view of the beautiful valley of Cornu-
wallis, the Grand Pre meadows and the
entire "Evangeline land" formed a picture
which will long linger in the memory of
their delighted visitors; also for numerous
other courtesies during our brief tarry with
them.

To the city of Halifax, the Press of Hal-
ifax and the Province of Nova Scotia, for
their unbounded hospitality during our tarry
at the hotel, and to all the citizens of
Messrs. Hessel and Sons of the Halifax
Hotel for their untiring zeal to make our
stay pleasant in every way.

To the mayor and citizens of Annapolis
for their courteous attention during our
brief halt in their beautiful town en route to
Yarmouth on our homeward trip.

To the officers and crews of the steamers
"Boston" and "Yarmouth," and to all
others who in any way contributed to make
our visit to Beautiful Nova Scotia a most
enjoyable and notable event.

On one of the afternoon trains passing
through Braintree Wednesday was a frame
work attached to the side of the locomotive
inclosing a man engaged in testing the
engine, with regard to speed, consumption
of coal, etc. Technology students are in
the habit of using this method to get
practical readings. The frame is attached
near the cylinder and the man sitting in
such a position has the appearance of being
in an extremely perilous one.

Yesterday, Ruth, widow of Jonathan

94th birthday.

There is to be another celebration when
the circuit of the Braintree and Weymouth
electric road is completed through South
Weymouth.

Saturday afternoon about forty members
of the Braintree Literary Working club

Visitation and Election.

Hodosenaw Tribe of Red Men of Wol-
laston received a visit from the Warriors'
Degree staff of Nahanton Tribe of South
Braintree last Thursday evening, and a
hunter was raised to the warrior's degree
in the most approved style.

Great Mislinewa Clas. Penny was
present, and made a long talk, as did many
of the visiting brothers.

The tribe elected chiefs for next term as
follows:

Prophet—Hon. Henry O. Fairbanks.
Sachem—Allison H. Mackenzie.
S. Sagamore—J. H. Jordan.
J. Sagamore—P. R. Glass.

Representative to Grand Council of Mass.
—Wm. A. Jordan, P. S.
Alternate Representative—T. J. Hen-
nessy.

One member was admitted by card.
After the council fire was quenched a feast
of corn and venison was served in the
banquet hall, and all present expressed
themselves as having spent a very pleasant
evening.

CHRISTIAN ENDEAVOR.

Bible For the Week Beginning June 23.
Comment by Rev. S. H. Doyle.

Topic—The world for Christ; our world
for Christ—Acts 21, 1-11. (A missionary topic.)

The Jews divided the world into two
classes of people—those who were Jews
and those who were not Jews, whom
they called gentiles. They thought that
all of God's grace and favor was reser-
ved for themselves alone. But in the in-
cident narrated by Peter in our topical
reference God taught them differently;
that the gospel was to be preached to
the Holy Ghost given to the gentiles as
well as to the Jews. The middle wall
of partition between them was fallen to
the ground. Then was no more Jew and
gentile, circumcision and uncircumci-
sion, but all men one in Jesus Christ. Jew
and gentile for Christ meant the world
for Christ.

The world justly belongs to Christ.
He made it, He sustains it, and He died
for it. Christ died for the whole world
and not for a part of it. This was the
lesson that God taught Peter and the
Jews. The benefits of the gospel were
not to be confined to the Jews alone, but
gentiles as well as Jews were to be the
recipients of its blessings. Christ wants
the world. He gave His disciples com-
mand to preach the gospel throughout
all the world. This should be sufficient
for every Endeavor. It should be our
great joy and delight to satisfy all the
desires of Christ, and particularly this
desire for the salvation of the whole
world.

The world wants and needs Jesus
Christ. No sooner had Peter seen the
vision teaching him that the gospel was
for the gentiles than three men
stood before him ready to direct him to
the place when the representatives of
the gentile nation were ready to re-
ceive him and the gospel. The world
wants the gospel. The time was when
many parts of the world were closed to
Christ, but it is no longer so. Every
door is open, and from every clime and
nation comes the Macedonian cry,
"Come over and help us." The world
is ready for Christ. Souls are hungry
for the bread of life. Open doors, open
hands, open hearts, stand ready to re-
ceive Him. The world is ready. Are we
ready to send Christ to the world? The
world needs Christ. He is the only one
who can satisfy it. God has made the
human soul for Himself, and it is rest-
less until it rests in Him in Christ.

There is no true peace until Christ
speaks peace. He is the only one who
can save the world, for there is salva-
tion in none other.
To win the world for Christ our worlds
must be for Christ. We must have our
affections centered upon Him alone and
consecrate ourselves entirely to Him.
We must be ready to sacrifice and deny
ourselves in order that we may send
Christ to all the world.

QUINCY DAILY LEDGER

VOL. 7. NO. 145.

QUINCY, MASS., SATURDAY, JUNE 22, 1895.

PRICE 2 CENTS.

SWITHIN BROS., Real Estate

Having opened a Real Estate office in Dargin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 80 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 70 lots.

Also a few lots off Bates avenue.

WOLLASTON.

A few desirable lots in Wollaston on Hancock street, opposite entrance to Merry Mount Park.

Will be on land at Presidents' Hill every afternoon from 2 to 4. Parties desiring lots or any information on the above properties, please call at Room 12, Dargin & Merrill's Block.

ITALIAN AND A PISTOL

Figure In Another Tragedy In One of Boston's Streets.

Shooting Will Undoubtedly End in Death.

Perpetrator Claims He Thought a Member of the Mafia Was Pursuing Him.

Boston, June 22.—The West End was the scene of another Italian shooting affair about 10 o'clock last night, which will undoubtedly prove fatal. Gioacchino Cocchiara, aged 38 years, who runs a barber shop at 177 Cambridge street, and lives in the rear of his shop, shot Antonio Armilias, 30 years old, in the side and neck, the shooting taking place in the front of the shop.

The two men had been together nearly all the afternoon and had been drinking together, and the police claim that there had been a dispute over the attentions paid by Antonio to Cocchiara's wife, and that Antonio came back to the shop just before the shooting to settle the affair with his friend. He had been in the shop but a few minutes when he came running out, and as he did so witnesses state that two shots were fired.

As the shots were fired, Antonio stumbled and fell upon the sidewalk, and as he fell Cocchiara

as he lay upon the sidewalk, both of which took effect, the first two shots having gone wide of the mark.

Patrolman Gallagher, on whose route the shooting took place, and who was close by, heard the shot and hastened to the scene, and none too soon for the safety of the assailant.

An excited and constantly increasing crowd had gathered on the scene, and were shouting "Lynch him! Lynch him!" as the officer rushed up. The crowd tried to get at the man who did the shooting, and although the assailant was frequently struck by the crowd, Patrolman Gallagher was enabled to keep them at bay until help arrived.

Cocchiara was brought in and placed before his victim at the hospital, who positively identified him. Cocchiara was then taken to the station and locked up, and a charge of assault with intent to kill, and this charge will be changed to that of murder in the event of Armilias' death.

At the station Cocchiara gave his version of the shooting, that he has been pursued by the Mafia, and for that reason he has kept arms about him or within reach, and that as he was in front of his shop he saw a man approach him whom he knew was one of the Mafia and after him.

Cocchiara is a well-known character, being, it is said, the man who turned up the Italian murderers in the famous Cunningham murder in Milton a few years ago, and he has claimed since that time that he was a marked man by the Mafia for the part he took in this case.

The police who are at work upon the case think that he is using this as a shield to try and escape the consequences of his shooting Armilias by making it appear that he shot him accidentally, mistaking him for one of the Mafia.

Class Day at Harvard.

CAMBRIDGE, June 22.—The class day of the Harvard class of '95 is now a thing of the past. Harvard's class days vary very little from year to year. The same program is carried out in the morning, and the same kind of class day girls are always there, and one year's festival is much like another's. The weather yesterday could not have been improved upon. As usual there was little done in the morning aside from literary exercises in Sanders. The exercises here were unusually interesting and the oration by Edward H. Warren was greeted with tumultuous applause. The other part of the day was given to the poem by C. M. Flannery and the ode by C. E. Noyes were fully up to the standard of class day productions. The struggle at "the tree" for flowers was unusually lively. Fireworks, the singing of the glee club in the yard, the playing of the band and mandolin clubs on the lawn school steps and dancing in the gymnasium passed away the evening.

Bullet In His Hip.

WORCESTER, June 22.—George C. Gordon, a member of the graduating class at the Worcester Polytechnic institute, was accidentally shot in the hip about four o'clock yesterday morning by a fellow student. The wound is not considered necessarily fatal. The students refuse to divulge the name of the young man who did the shooting.

Deadly Sewer Gas.

BOSTON, June 22.—Harry Ward, George F. Chase and Patrick Maloney were overcome by sewer gas while at work in a manhole in East Boston yesterday. Ward was carried along by the water, and was taken out at an opening 200 feet distant. He died soon afterward. Maloney and Chase were revived after hard work.

Coal From Cape Breton.

BOSTON, June 22.—Schooner Viator of Boston has been chartered to carry coal from Sydney, C. B., to Boston and Portland for the Boston and Maine Railroad corporation during the summer months. It is understood that several other American schooners have been chartered for the same trade.

A New Haven Scandal.

NEW HAVEN, June 22.—City Attorney Matthewsman yesterday issued warrants for the arrest of Rev. Rufus T. Cooper (Methodist) on a charge of gross indecency and unnatural conduct. Cooper surrendered at police headquarters and was released under \$500 bonds.

Three Against One.

PORTLAND, June 22.—A man named Coney was held up by three men last night while walking down Plum street. He was struck a severe blow over the head, inflicting a dangerous wound. The men failed in their attempt of robbery, but made good their escape.

Free Use of a Revolver.

PORTSMOUTH, June 22.—While in an intoxicated condition James Armstrong discharged a 38-caliber revolver in proximity to his wife, but the ball went into the ceiling. Armstrong was locked up, as it is said that he intended to shoot his wife.

Kent Set Free.

PAWTUCKET, June 22.—Through the efforts of ex-Mayor Carroll of this city, John C. Kent, an American citizen, imprisoned in England on the charge of being a dynamite 11 years ago, has been released through the intervention of the state department. This information was made known through a letter received from Secretary of State Olney yesterday afternoon.

Arrested For Murder.

PITTSFIELD, June 22.—Coroner Bates denies the report that the death of Dewitt Curtis was due to alcoholism. He says there were marks of blows on his head. William Wickson, wanted for complicity in the crime, was arrested at Cambridge (N. Y.) yesterday.

Verdict Against Crowley.

BOSTON, June 22.—In the superior court, Richard Crowley was found guilty of manslaughter in causing the death of John E. Burns on May 4 by severing his jugular vein with a carving knife. The jury was out only 15 minutes. The defense has filed exceptions.

Important Court Decision.

BOSTON, June 22.—The supreme court yesterday granted a writ of prohibition against the justices of the municipal court where the petition had suffered judgment by default of a debt, but had had a discharge in insolvency before the action was brought.

Contrary to Law.

MADISON, Me., June 22.—The law provides a fine of \$100 and costs of court for a single violation of the prohibitory law. Judge Paine has just placed a fine of but \$50 on the proprietors of the Weston House for selling liquor on Sunday.

Terribly Mangled.

SWAMPSCOTT, Mass., June 22.—Libbie E. Sutherland, aged 7 years, was returning from school yesterday on the railroad track when she was struck by an express train. Her head was horribly battered and both legs cut off.

Both Sides Held Out.

AMESBURY, Mass., June 22.—The strike among the 900 operatives of the Hamilton mills will be one of endurance. The conference between the strikers and Agent Quinn of the corporation yesterday afternoon produced no results.

Old Fighters Meet.

SHELBOURNE FALLS, Mass., June 22.—The 10th regiment held its 28th annual reunion here yesterday. Bunting decorated the buildings, and the hospitality was unstinted. About 150 of the old veterans were present.

No Time to Lose.

BIDDEFORD, June 22.—The residence of Joseph Coffin at Biddeford Pool was burned to the ground yesterday morning, and the occupants had barely time to escape. The fire was probable of incendiary origin.

Strikers Fix up a Schedule.

CLINTON, June 22.—At a mass meeting of the Lancaster mills' strikers a schedule of prices, to be demanded of the company, was adopted. A committee was appointed to present the demands to Agent Weeks.

Day of Trout Fishing.

BUZZARD'S BAY, June 22.—Mr. Cleveland and Joe Jefferson drove to Sandwich, where they were joined by the latter's eldest son. The party then went trout fishing, and did not return until evening.

EDITORIAL COMMENTS.
It has been stated openly on more
than one occasion recently in the City
Council that Mayor Hodges was opposed
to brick schoolhouses. Although His
Honor was present on these occasions, he
has not personally contradicted the state-
ment or authorized his friends to do so,
and his supposed stand has been used as a
powerful lever by the advocates of wooden
structures, against an appropriation for
brick schoolhouses. This is the chief
reason why the orders for brick have been
unsuccessful, and account for the delay in
providing necessary school accommo-
dations. Thursday the LEDGER reiterated
the statement and has succeeded in bring-
ing out the Mayor, although it is difficult
to place him now. He now informs the
LEDGER that he is not opposed to brick
schoolhouses, but is against the erection of
any more cheap buildings. Under certain
circumstances he would veto brick and
under others he would veto wood.
Perhaps he is opposed to the erection of
any school house this year, so that he may
say the debt was reduced, regardless of the
needs. Yet in his inaugural message he
said: "The overflowing condition of the
existing schools has necessitated the pur-
chase of these lots (at Norfolk Downs and
West Quincy) and the immediate con-
struction of schoolhouses thereon."

Oh! no! the LEDGER did not predict
a higher tax rate, yet it is not improbable.
What the LEDGER did say was: "Nothing
but an increased valuation will reduce the
tax rate." And we will stand by the state-
ment. In the natural course of events
there should be a reduction, as the rate
last year was a record breaker, the highest
in the history of the town and city. The
emergency does not exist this year as last
year for an extension of the debt, as the
maturing debt for ordinary city expenses
is not excessively large. It is over \$12,000
less than in 1894, and together with the
increased revenue for water would have
reduced the rate over \$1 per \$1,000 but for
the increase in current expenses.

Grammar School Graduation.
Diplomas will be presented to the gram-
mar school graduates on Thursday after-
noon at the new High school building.
Each school of the city will give either a
concert, recitation or a piece of music and
there will be choruses by all. Mr. Henry
T. Bailey, agent of the State Board of
Education, will give a fifteen-minute talk,
and the School Board will present the di-
plomas. After the exercises a private re-
ception to the graduates will be given by
the principals.

Large Consumption of Water.
Since June 7, over one million gallons
of water have been pumped per day at the
city water works, and this week the average
has been over a million and one-half gal-
lons. There has been no overflow at the
reservoir since May 29, but in May, 1894,
it did not overflow but a few days in the
month. During 1892 and 1893 the reser-
voir filled during the latter part of June,
and it will this year with the average rain
fall.

Overruled.
The Boston Journal says, in the case of
John Graham vs. Charles L. Badger and
others of Quincy the full bench of the
Supreme Court overruled the defendant's
exceptions and the plaintiff's verdict
stands. This was an action of tort to re-
cover for personal injuries caused by the
fall of an iron block from a derrick upon
the plaintiff, who was working in the de-
fendant's stone yard. The fall was due to
the breaking of a rope at a point where it
had been spliced, and the main question
was whether the Superior Court was right
in refusing to rule that the mere breaking
of the rope was not prima facie evidence of
negligence on the part of the defendants.

THE SOCIAL REALM.
Large Quota of Pretty Quincy
Young Ladies at Harvard.
CLASS DAY A GRAND SUCCESS.

Weddings, Anniversaries, Engage-
ments and Personals.

Class Day at Harvard is the one great
day of the year with the college men and
their lady friends, and yesterday was no
exception to former years. The weather
was favorable and large numbers attended
from this city, not returning home until
late in the evening. No city in this vicin-
ity was better represented than Quincy,
both as to numbers and smart gowns.
Never have more pretty dresses been seen
here than those worn yesterday, and the
college men are to be congratulated on en-
joying so charming a bevy of young
ladies.

Cards are out for the marriage of Miss
Jessie Newell Prince and Dr. Frederick
Winslow Rice at the Congregational
church, Brighton, Tuesday evening,
2 July. Miss Prince has the best wishes of
the teachers of Quincy.

The exercises in declamation by students
of Adams academy for the Adams gold
medal, always a society event, will be held
Monday, in the First church. Prizes for
excellence in studies will also be awarded.
A general invitation is extended to all
people interested in the school. The
judges will be Mr. R. F. Claffin, Mr. C. F.
Adams, 2d, and Mr. Charles Warren.

Mr. John B. Brennan and Miss Nellie J.
Barry were married at Randolph, Thurs-
day, the nuptial mass being celebrated by
Rev. J. J. Keegan. They were accom-
panied by Mr. William P. Brennan and
Miss Nellie Duff.

The silver anniversary of Hon. and Mrs.
Charles Hunt Porter on Monday evening
next will be a society event of the week.
Quincy's first Mayor will long be popular
in the city and State, and now that Mrs.
Porter is in good health it will be a happy
occasion. They also have the assistance of
three promising sons to make the anni-
versary a grand success.

Cards are out for the wedding Tuesday
evening June 25 at the Unitarian church,
Dorchester Lower Mills, of James Henry
Bourne, Jr. and Miss Mary Louisa
Knight.

The engagement is announced of Miss
Lena Morrison of Dorchester to Mr. Harry
G. Benthall of Mattapan.

The graduation exercises at Thayer
academy, Braintree, were held this after-
noon in the Academy hall at one o'clock,
to be followed by a reception and dance
from three to seven.

Several of the handsome gowns worn at
Class Day, at Harvard, yesterday, are to be
worn at the reception at Thayer Academy,
Braintree, this afternoon.

A pretty open-air wedding was held on
the grounds of Rev. A. E. White last week
in Cambridgeport. The bride Miss Melissa
White of Chelsea is a relative of Mr. White
who performed the ceremony and gave the
couple a reception. Mr. White is the
popular pastor of the First Universalist
church in this city.

The engagement is announced of Miss
Kate Wilder of Neponset and Mr. Joseph
A. Nevins of Brookline.

Mr. and Mrs. Millard P. Bryant of Wey-
mouth are going to Jay, Maine, next week
for a few weeks' visit.

Mrs. J. B. Jones of Weymouth Heights
sailed today from Boston for Europe to be
gone until September.

Mr. and Mrs. Melvin French of East
Braintree, tendered Mrs. French's mother,
Mrs. Charles Gardner, a birthday party,
Wednesday evening, at their home. A
large gathering was present to congratu-
late Mrs. Gardner on reaching the good old
age of 87 years.

Miss Lizzie Fairbanks of Weymouth is
at Nantasket.

More than 150 couples attended the
annual reunion of Brockton high school
alumni association last evening and it was
a grand society event. Literary exercises,
supper and dancing.

The spread given by Mr. Deleavere King
and Mr. Carl Noyes yesterday at the home
of Mr. Noyes, Cambridge, was one of the
largest and most enjoyable ones given dur-
ing the day. There was dancing on lower
floor of house and refreshments were served
on the lawn. Owing to the popularity of
Mr. King and his family the five or six
hundred invitations sent out by him were
very generally accepted.

At the residence of Mr. and Mrs. Waldo
Cushing on Hollis avenue, Braintree,
there was one of the prettiest weddings
of the season Wednesday evening. The
bride was Miss Elizabeth Leavitt Vaughan
daughter of Mrs. Susan E. Vaughan of
Boston, and the groom Mr. Owen Gifford
of Chelsea, son of Mr. George Gifford of
New York. At eight o'clock Rev. George
Boynton of Newton performed the cere-
mony before the immediate relatives
and friends of the bridal couple. Miss
Helen Anna Robinson, of Asheville,
N. C., was the maid of honor and the bride
was attended by two train bearers, Master
Joseph B. Thaxter, 3d, of Hingham, and
Miss Marion Burroughs of Chelsea.

The marriage of Mr. Frederick W.
Miller of Quincy and Miss Maude G.
Rhodes of Jamaica Plain is announced to
take place at the residence of the bride
June 25.

There was a fashionable wedding at
Braintree, on Tuesday evening, when
Miss Mabel Hayward Smith was united in
marriage to Mr. Francis Diman Bond of
Weymouth. The bride is the daughter of
Mr. and Mrs. Frederick R. Smith of Hay-
ward street.

Mr. and Mrs. Jacob Kolb of Olive street,
announce the engagement of their daughter
Miss Hattie B. to Mr. Henry Von Euden of
Botoolph street.

Mr. John C. Randall and family of
Adams street are at North Chatham for the
summer.

Mr. Stetson Foster of Hingham is to
travel through Scotland this summer, com-
bining business and pleasure.

Dr. and Mrs. Hardy of Beacon street,
Boston, are at Hingham for the summer.

Mr. and Mrs. Edward Dehon Blake
have closed their house on Marlboro street,
Boston and are at Hingham for the summer.

Mr. and Mrs. Eben Standwood and
daughter Audrey have arrived home from
Europe after an absence of a year.

A pretty home wedding took place in
Hingham Monday evening at the residence
of Mr. and Mrs. Charles A. Mead when
their daughter Miss Fannie Louise and
Mr. Harry L. Bicknell were united. After
a trip to New Hampshire the happy couple
will be at home at 45 Wrentham street,
Dorchester.

SHED AND QUARRY.
The Granite Industry of City in a
Healthy Condition.

The fund for the monument to be
erected to the memory of Harry McGlenen
has nearly reached the desired sum. Let
us hope that Quincy may secure the con-
tract. The amount subscribed thus far is
\$1,066.

The Blue Hill Granite Co., have com-
menced active operations in its quarry.
There is scarcely a yard of any size that
does not use the pneumatic tools which are
a great saving to labor and do excellent
work.

A trip through Quarry street will con-
vince one that considerable business is
being done and that the street is terribly
dusty especially so when a four or six
horse stone team happens to be passing.

Pont Bros. are giving employment to
about twenty-five cutters.
Now that the rush of Memorial Day is
over, work has slackened off some, yet all of
the firms have more or less orders on hand
and the prospect is good for increasing
trade.

The new polishing mill of Joss Bros. is
about completed, the machinery for which
is being furnished by Badger Bros. The
firm will also put in the pneumatic tools.
The shipments of granite from West
Quincy during the month of May was
11,224,550 pounds and from South Quincy
8,167,902 pounds.

The Michigan Marble and Granite
Dealer's association will probably visit
Quincy when they come East in August.
The stone yards and quarries close their
places of business Saturday noons during
the warm weather thus giving the men a
half holiday.

Cook & Watkins have a contract for a
large mausoleum for Washington, D. C.,
to be of Concord granite. It will require
about twenty-five cars to transport.

Quincy granite was one of the granites
selected by the commission for the base-
ment and sub-basement of the new court
house at Baltimore, Md.

The granite for the 33 monuments for
the state of Illinois will be quarried in
Hitchcock's quarry.

S. Henry Barnicot and McIntosh &
Sons have put in pneumatic tools.
Swingle & Falconer last year turned out
on an average one monument a day and
they intend to beat that record this year.

The Lyons Granite Co., has added
another large cutting machine to its plant
and they are turning out some fine work.

A monument is proposed to Stephen C.
Foster, author of many of the negro
standard melodies.

A very handsome panel has recently
been designed by H. W. Beattie for a monu-
ment to be erected in the Chickamanga
battlefield to the 121st Ohio Infantry.

For the Ledger.
A Suggestion as to Fares.
There is no doubt in my mind that the
N. Y., N. H., & H. R. R. will be obliged
to make some reduction in the rates to
their regular patrons, as their passenger
traffic shows a perceptible falling off on
account of the rapid advances in the
electric service in the surrounding towns.
By regular patrons, I mean those that
travel in and out every working day during
the whole year, and not those who go to
some seashore resort for two or three
months, and travel very little the rest of
the year. It is not right that those that
use the road for the two or three months of
the year should get the same rate for
travel as those that use it every working
day. The latter class is a "certainty" to
the railroad. They practically pay the
running expenses of the road.
A reduction, and a scheme that I think
would be satisfactory to the latter class
would be something after this.

We now travel about 313 days in the
year—some less, on account of holidays
and vacations out—826 trips at 9 cents (the
present rate would be \$56.34. My scheme
is that the rate per year to the regular
patrons be reduced to \$48.27 divided into
monthly payments as follows, commencing
July 1st.

The book for July to be marked No. 1
and to be sold for \$5.00 at the expiration
of July the patron presents the "stub" of
book No. 1, and he is sold book No. 2, for
\$4.87, he gets No. 3, on presenting the
"stub" of No. 2, for \$4.75, and so on: 4
for \$4.65; 5 for \$4.50; 6 for \$4.25; 7 for
\$4.00; 8 for \$3.75; 9 for \$3.50; 10 for
\$3.25; 11 for \$3.00; and the 12th one for
\$2.75, making a total for the year of
\$48.27. If he should be away a month he
gets the next numbered book to his last
one while his neighbor has one number in
advance of him.

This will make the "summers" pay a
trifle more than they are now paying, for
the first month.

On July 1st, 1896 start over again with
book No. 1. Have the book made out to
an individual, and have him use it only.

No person to have a book below the
price of the last one, \$5.00 till he shows the
stub of his previous one.

By such a scheme the regulars will get
a fair reduction and the "summers" will
practically pay what they now do, and the
R. R. will probably get as much, if not
more of a revenue than they now do.

The Presbyterian society in Wilson's
hall is encouraged in its work. A large
congregation should hear Rev. Mr. Hard-
well on Sunday.

QUINCY BREVITIES.

Notes from Quincy Point, Wollaston,
Atlantic, South and West Quincy.

We need rain.
Only twenty cents to Boston by boat.

Moonlight excursions on the City of
Quincy next week.

L. M. Pratt & Co. invite you to sample
their favorite cream root beer next week.

Mr. Ira Litchfield of this city has been
restored this week to the list of pensioners.

There will be 223 graduates from the
grammar schools this year, over fifty being
from the Willard.

The little rain Friday night was ap-
preciated, although it would have been more
so if there had been more of it.

John G. Thomas is out with a handsome
new wagon, the neat lettering on its side
reading "State, Gravel and Tin Roofers."

Next week will be a busy one among the
schools for the exercises of the High and
grammar schools and the Adams Academy
are to take place.

The bill in equity case of W. G. Sheen
vs. E. P. Howland, executor, has been set-
tled out of court by mutual agreement, and
Mr. Sheen has returned to Bristol.

The annual picnic of the Ruggles street
Baptist Bible school is being held at
Lorels Grove today and an interesting
programme has been arranged for their
entertainment.

THE BUSINESS OUTLOOK
Continues to Be Exceptionally Favorable in
Nearly All Branches.

New York, June 22.—Bradstreet's today
says: The feature of the business week is
the customary check to activity in trading
in staple articles of merchandise, due to
the near approach of midsummer, with
the accompanying stock-taking in some
lines.

In addition to this, perhaps the only
other feature not pointing to improve-
ment is the reaction of prices of cotton,
coal, wheat flour, wheat, corn, oats, pork
and lard from previous relatively high
levels. In almost all other directions re-
ports on the business situation and out-
look are exceptionally favorable.

Notwithstanding the reaction in the
price of cotton, cotton goods in some in-
stances are higher, with the market quiet
and likely to remain so until after July 1.
Woolen goods are quiet, with mills fairly
well employed where labor troubles have
not interfered. Trading in wool has been
very heavy.

The remarkable strength of the demand
for iron and steel continues, perhaps, the
most striking feature.

Another large bank clearings total from
41 cities in the United States this week—
\$1,076,000,000, the highest of the season.
Evidence of the maintenance of a relatively
large volume of trading, as purely specula-
tive transactions have declined in volume of late.

At eastern cities the approach of mid-
summer begins to show itself vaguely, in
some lines by checked volumes of sales,
and in others through preparations to
send out travelers on July 1 to take orders
for fall delivery—shoes and textiles at
Boston and Providence, staple merchan-
dise of all varieties at New York, shoes
and textiles at Philadelphia and Pittsburg,
and shoes, hats and clothing at Baltimore.

FOR THE FROZEN NORTH.
Peary Relief and Scientific Expedition Leaves
Brooklyn Today.

New York, June 22.—The World says:
The steamship **Portia** sails from Brooklyn
today, and will carry the members of the
Greenland scientific expedition of 1895 to
St. John's, N. F. Here they will board
the steam barkentine **Kite**, and will sail
for Greenland about July 1.

The trip was uneventful and was made
simply to test the road. This afternoon at
2 o'clock regular trips were commenced
and passengers from Quincy were landed
in the woods at the Braintree line. Another
fare is necessary, even if one wants to go
only to the North Braintree churches.

Much dissatisfaction is expressed at the
refusal of the Braintree road to allow the
Quincy cars to run over its line to the
churches and an indignation meeting of
citizens of Quincy and Braintree is talked
of.

Wollaston Cycle Club.
At the annual meeting of the Wollaston
Cycle Club held Friday evening the fol-
lowing officers were elected:

Vice President.—H. A. Thompson.
Secretary.—B. A. McLane.
Assistant secretary.—H. W. Haskins.
Treasurer.—F. J. Flood.
Captain.—E. H. Riley.
1st Lieutenant.—A. Stephenson.
2d Lieutenant.—James Thomas.
Ensign.—Harry Stephenson.
Bugler.—A. Raicho.

Trustees.—G. W. Brown, H. C. Sey-
mour, J. B. Lewis.
Directors.—J. B. Lewis, H. C. Seymour,
G. W. Brown, E. H. Riley, H. A. Thomp-
son, H. W. Haskins, C. F. West.
Steward.—F. L. Merrill.

As Mr. B. A. McLane resigned as sec-
retary of the 4th of July race committee all
communications should be addressed to
Mr. H. C. Seymour, Wollaston.

The race committee reported progress
and that the first prize will be a \$150 tan-
dem donated by the Quincy Bicycle Com-
pany, and the time prize will be a \$50
diamond.

Mr. C. F. McCarr resigned as delegate
to the C. C. C. and Mr. W. L. Hopley
elected.

Holmes—Simmons.
The marriage last evening of Mr. Fred-
eric Harper Holmes of Plymouth to Miss
Maisy Florence, eldest daughter of Mr.
Walter E. Simmons of Central avenue,
Wollaston, was one of the most prominent
events of the month.

The house was most artistically decorated
with a profusion of field daisies, roses and
mountain laurel, and during the assem-
bling of the guests, which was, however,
on account of a recent bereavement in
the groom's family, limited to relatives and
a few intimate friends, a quartet, com-
posed of Dr. and Mrs. George B. Rice and
Mr. and Mrs. Wesley Bartlett, sang, con-
cluding with the Lohengrin wedding
march, upon the advent of the bridal pro-
cession in the parlors.

The ceremony was performed by Rev.
James E. Bagley of the Wollaston Unitar-
ian Church, assisted by Rev. James T.
Black of East Boston, the bride being
given in marriage by her father.

The groom was attended by Dr. J. Holbrook
Shaw of Plymouth as best man, while the
attendant maid of honor for the bride was
her youngest sister, Miss Kate B. Sim-
mons.

The ushers were Mr. E. H. Mace and
Mr. Walter E. Simmons, Jr., a brother
of the bride.

The bride's dress was cut plain, in
princess style, in white silk brocade.
She wore an opal and pearl necklace and
tulle veil, and carried the conventional
bouquet of bride roses. The maid of
honor was attired in a blue silk, with an
overdress of white muslin, trimmed with
white silk. She carried pink roses.

Amid most hearty congratulations the
happy couple departed on their wedding
trip, on the return from which they will re-
side for the summer at their cottage at
Brawston's Point, Plymouth, and will be
"at home" after Sept. 1 at the Worcester
Academy, Worcester, in which educational
institution Mr. Holmes is a valued in-
structor. Among those present were Mr.
and Mrs. A. Shuman, Mr. and Mrs. S. C.
Hadley and Miss Hadley, Mr. Edward
Hadley, Capt. and Mrs. E. L. Robbins,
Mr. and Mrs. Sylvanus Smith, Rev. and
Mrs. I. Simmons of Danbury, Conn., Mr.
and Mrs. Alfred J. Cumming and Messrs.
Fred and Charles Cumming of Newton-
ville.

The wedding presents were beautiful in
quality and numerous in quantity, and
attested to the popularity of the bridal
couple, Miss Simmons being a general
favorite among the younger people of
Quincy.

The remembrances included choice sil-
ver and cut glass in great variety, in dainty
caskets, and articles for adornment and
practical use in their future home.

A reception followed the ceremony for
the relatives and friends, Mr. and Mrs.
Holmes being assisted in receiving by Mr.
and Mrs. W. E. Simmons, parents of the
bride, and the groom's mother, Mrs.
Frederic Holmes.

BRAINTREE EXTENSION.

Two Fares Necessary to Go Beyond
the Boundary Line.

About 9 o'clock Friday night a special
car loaded with railroad officials, business
men and others, left City Hall for a trip
over the new extension to Braintree.

When the car reached the new rail there
was a booming of cannon and the burning
of tar barrels along the line to which was
added a display of fireworks caused by the
wheels of the car grounding on the pavers
as it went along.

The trip was uneventful and was made
simply to test the road. This afternoon at
2 o'clock regular trips were commenced
and passengers from Quincy were landed
in the woods at the Braintree line. Another
fare is necessary, even if one wants to go
only to the North Braintree churches.

Much dissatisfaction is expressed at the

TODAY'S COURT.

Owen F. Smith of Weymouth was sent
to the House of Correction for three
months for assault on Rose Smith, his
wife.

George T. Laing of Quincy was arraigned
for drunkenness. Case continued until
June 24.

Deafness Cannot be Cured
by local applications, as they cannot reach the
diseased portion of the ear. There is only one
way to cure Deafness, and that is by constitu-
tional remedies. Deafness is caused by an in-
flamed condition of the mucous lining of the
Eustachian Tube. When this tube gets inflamed
you have a running sound or impulse hear-
ing, and when it is entirely closed Deafness is
the result, and unless the inflammation can be
taken out and this tube restored to its normal
condition, hearing will be destroyed forever;
cases cure out of ten are caused by catarrh,
which is nothing but an inflamed condition of
the mucous surfaces.

We will give One Hundred Dollars for any
case of Deafness (caused by catarrh) that can-
not be cured by Hall's Catarrh Cure. Send for
circulars, free.

Coasting.

On September 15, at Waltham, in a coasting tournament wherein seven or eight of the leading bicycles were represented, "The Spalding" finished first, second and third. The greatest tribute to the coasting ability of "The Spalding" Bicycle was paid by Capt. Allen of Philadelphia. On the trip to Glen Summit he was the only one able to come down the mountain without a mishap, which feat in itself should clearly establish the superiority of "The Spalding" at coasting, when the extraordinary declivity of Glen Summit is considered.

WHERE IS FERNALD?

Possibility That He May Be Visiting
the Granite State.

Two Persons Think That They
Saw Him.

Relatives, However, Think the Missing Man
Is in New York.

BOSTON, June 24.—Two reports tending to trace the movements of the missing Oscar Fernald have been received by his people at their home in Somerville.

Both show opposite courses pursued by the bridegroom-elect, and, if either is true, an apparent reason might be easily assigned for his journey to either destination.

A bicyclist, it is stated by Mrs. Fernald, who has recently returned from a trip into the northern part of New Hampshire to Somerville, told an intimate friend that he met a man in Durham, N. H., the Thursday following Fernald's disappearance, who would answer to the description of Oscar.

The cyclist stated that they both halted by the roadside and entered into conversation. He asked the stranger his destination and received an answer that he was bound for the northern part of the Granite state.

Just From Somerville.
He further asked him from whence he came. The stranger stated that he had left Somerville but a few days previous.

Mrs. Fernald states that she was told that the bicyclist said that upon arriving in Boston he read of the disappearance of Oscar, and was immediately struck by the minute resemblance of the man he encountered in Durham to the man described in the papers.

Mrs. Fernald stated to a reporter that it might be possible that Oscar went to New Hampshire, as she has a sister living in Middleton, N. H.

She has dispatched a letter to her sister and is awaiting a reply.

The other report states that a man saw Oscar on the road to Portsmouth. He was walking along the highway. The man who saw him did not know him at the time, but stated that the description which he later read of the missing man tallied with the description of the man he met on the highway.

No member of the family, however, believes in either report. It is their opinion that Oscar is somewhere in the vicinity of New York.

Trolley Off.
NEW BEDFORD, June 24.—About two miles from this city an electric car, containing 60 people, while going down a steep hill at terrific speed jumped the track and turned over, injuring 30 of the occupants, and at least one will die.

The car was demolished and the passengers thrown in every direction. The shock overturned the trucks and under gearing, and several persons were pinned to the earth. A score lay on the road, in the ditch and on the side of the road, covered with blood and dust. Several infants were among the passengers, and some of the little ones were bruised and stunned. The accident was caused by a broken car wheel.

Leopard Wanted Gore.
BROCKTON, June 24.—A panle was created at Highland park yesterday afternoon by a leopard in the "zoo" bending the bars of his cage and attempting to escape. A bulldog ran around the cages snapping and biting until a leopard thrust his paw between the bars of his cage and crushed the dog. The leopard attempted to draw the dead animal through his cage, and when the keeper stopped him, the leopard started to force his way out. A stampede ensued, and the park was emptied in a few minutes. The big animal was prevented from forcing his way out.

Higher Taxes in Maine.
AUGUSTA, June 24.—Heretofore some town assessors have been in the habit of assessing property at two-thirds, three-fourths and at a fair market value, while others have taken the value at which the property would bring at a foreclosure sale. The state board has now established the rule of setting the value on property at a fair market figure. This rule, together with taxing furniture above the statute limit, heretofore neglected, will increase taxation to a large amount for 1896.

Mourning by Co-Laborers.
BOSTON, June 24.—A service in memory of the late Rev. A. A. Miner, D.D., was held in People's Temple yesterday afternoon. An audience completely filling the church was present, and many pastors of different denominations and others paid tribute to their late co-laborer. Rev. Justin D. Fulton delivered a memorial service in Music hall on the life and work of Dr. Miner.

Lewiston Catholics' Pride.
LEWISTON, June 24.—The corner-stone of the new Dominican monastery and adjacent to St. Peter's Catholic church was laid yesterday afternoon with impressive ceremonies. When the addition is completed the church will have the largest seating capacity of any in New England.

Enjoyed Ocean Breezes.
BUZZARD'S BAY, June 24.—The president and his family spent a quiet Sabbath at Gray Gables. The weather was warm, but the verandas of the president's cottage looked invitingly cool and shady. The inmates of the cottage seemed to be enjoying its shelter to the fullest extent.

Called From Indiana.
BOSTON, June 24.—Rabbi Hirschberg, who has been officiating for four years at Fort Wayne, was yesterday elected rabbi of the Union Park street congregation of Boston for three years. This is the largest Jewish congregation in the city. Rabbi Hirschberg is 25 years of age.

Crooks Captured.

NORTH ANSON, Me., June 24.—It is believed that the gang of burglars who have been operating in this section for several weeks has been broken up by the arrest of Anson Skillings and Fred Walker. Stolen goods were found in Walker's possession.

Will Fight It Out.

WINTHROP, Me., June 24.—Mrs. Haynes was arrested for pointing a toy revolver at Hiram Rockwood, because he forbade her harvesting upon land of disputed ownership. She is under bonds, and she proposes to fight the case in the courts.

Died in Camp.

COLERBROOK, N. H., June 24.—Dr. Edward Spaulding, more than half a century one of the best known physicians of Nashua, died suddenly near here yesterday. He was 82 years old. Besides being a prominent practitioner, he was also well known for his connection with politics and public works. He was mayor of Nashua in 1884 and a member of the governor's council in 1878. He leaves a large fortune.

A Brutal Husband.

PROVIDENCE, June 24.—John Dougherty, 40 years old, a laborer, living at 17 Kane street, is under arrest on a charge of attempting to kill his wife, Bridget. Mrs. Dougherty was so severely beaten by her husband that she will probably die. Dougherty was jealous of his wife.

Peacemaker Stabbed.

GREAT BARRINGTON, Mass., June 24.—John Broderick was probably fatally stabbed Saturday when trying to separate Frank Scott and Charles Parrott, who were engaged in a drunken brawl. Scott, who drew the knife, was arrested.

Schools Closed For Safety.

AUGUSTA, June 24.—There have been 11 cases of diphtheria in Waldoboro within the past 10 days. Isolation and disinfection have been resorted to, and as further precaution four schools have been closed. Only one death has occurred.

Alleged Bigamist Arrested.

OLD ORCHARD, Me., June 24.—S. B. Howard was arrested here yesterday at the instigation of his bondsmen. He was recently arrested in Boston on the charge of bigamy, and was taken to Lewiston, where he was released on bail.

Trio of Thieves Bagged.

BRIDGEPORT, June 24.—John O'Neill, John Higgins and Walter Foley were arrested yesterday for breaking and entering Benedict's jewelry store. Jewelry, silverware and watches to the value of \$500 were recovered.

Got Thirty Cents Each.

NEW LONDON, June 24.—The Thomas Opera company of 22 people disbanded here, owing to poor business and a lack of funds. There was only enough money left to give each member of the company 30 cents.

Old Bank to Close.

PROVIDENCE, June 24.—The stockholders of the Jackson bank of this city have voted to have the bank go into liquidation. The institution was incorporated in 1859 as a state bank.

Littlefield's Body Found.

LEWISTON, June 24.—Charles Littlefield suddenly disappeared from Auburn over six months ago, and Saturday night his body was found in the Little Androscoggin river.

Held For Examination.

SACO, June 24.—A man giving the name of Thomas was under arrest here on the charge of having tried to pass checks, which are thought to have been forged.

Lucky John Robbins.

BRIDGEPORT, June 24.—John G. Robbins of this city, formerly steward at Hotel Thatcher, has probably fallen heir to \$100,000 by the death of a relative.

The Women of Today.

NEW YORK, June 24.—The new woman was largely in evidence at the Clifton race track yesterday at the turnfest of the Atlantic division of the North American Turner Band. Not less than 500 athletic maidens from the various verities in the New England and Atlantic states were present. Besides the women, 2000 Turners took part in the competitions. In the marching the women compared very favorably with the men. They did fancy wheeling in a way that astonished women of the old school.

Maimed For Life.

NEW YORK, June 24.—Some one placed a bomb on the speedway yesterday afternoon. Joseph Emerson, 11 years old, colored, picked it up and it exploded. This created a stampede on the speedway, and several horses ran away. None of the occupants of the vehicles were injured, but Emerson had all the fingers of one of his hands blown off. The reason for placing the bomb on the speedway is a mystery.

Rebels Decapitated.

SOFIA, June 24.—The insurrection in Macedonia is spreading. Numerous insurgent bands, armed with martini rifles, are opposing troops. Three cart loads of killed have arrived at Pelnika. The heads of the rebels are displayed in the streets. A body of insurgent troops have surrounded the troops in the village of Gherman. The troops have been resisting for five days.

Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 80 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 70 lots.

Also a few lots off Bates avenue.

WOLLASTON.

A few desirable lots in Wollaston on Hancock street, opposite entrance to Merry Mount Park.

Will be on land at Presidents' Hill every afternoon from 2 to 4. Parties desiring lots or any information on the above properties, please call at Room 12, Durgin & Merrill's Block.

Locked But Stolen.

John Mason was unable to take his
planned bicycle trip Sunday for someone
at present unknown, stole his wheel Satur-
day night. After business hours Jack
visited a tinsmith to have the
finishing touches put on, or perhaps taken
off his face, leaving his wheel securely
locked on the sidewalk outside. When he
came out to go home he found that he
would be obliged to walk, for his wheel
had gone and nothing remained to mark
the place where he left it but parts of the
broken chain with which it was locked.
It is thought that the party who took
the wheel left town on the late outward
train.

Mr. Wilson's Claim.

Quincy, June 23d, 1895.
EDITOR DAILY LEDGER: Now that the
city has received such a handsome sum of
\$5000 from the bondsmen of the contractors
of the Willard school house, would it not
be well and just to consider the claim of
Mr. John Wilson, who supplied the con-
tractor with such a large amount of
material for the building, and by the
failure of E. H. & I. H. Cushing lost his
all, and was made a poor man. The city
received the benefit of it and now Mr.
Wilson's claim should have a careful con-
sideration by the City Council. JUSTICE.

The Sewerage Question Discussed

in Ward Five.

REPRESENTATIVE MEN SPEAK.

Some Difference of Opinion as to
Method of Payment.

There was a large attendance of repre-
sentative men at the meeting held in the
K. of H. hall, Wollaston, on Saturday
evening to discuss the sewerage question.
The meeting was presided over by Council-
man Bryant.

The meeting was unanimous for
sewerage. Mr. George F. Pinkham in the
course of his remarks advocating sewerage
said that Wollaston would undoubtedly
vote three to one in favor of the sewerage
bill. As the bill, as shown at the meeting
by Councilman Bryant, Rice and Pinkham,
is well drawn up, guarding the interests of
the taxpayers with zealous care, it is un-
doubtedly a safe estimate.

If you wish to interest a man touch him
on his pocket book. As property owners
begin to realize that in building a sewer it
enhances the value of all realty in the city
they take more than a passive interest in
the success of the measure. Quincy stands
today almost alone among her sister cities
with the unenviable distinction of being
without a sewer. It is a blot upon her fair
name. If the city was situated like Brock-
ton with no outlet, then delaying its con-
struction would be excusable, but with the
city of Boston placing its immense Moon
Island basins and outlet at the service of
the people at a small rental, it is criminal
carelessness to longer delay its building.

There was some difference as to how the
cost should be apportioned and as to
whether a rental should be charged.

Councilman Bryant on opening the meet-
ing made a strong plea for sewerage. It
was more than a local question, it interest-
ed every person in the city.

Chairman Rice of the Committee on
Sewers, who followed Councilman Bryant,
said in part that the one system would
take care of the sewage of the whole city
including Quincy Point.

The act which we have is particularly
broad in allowing us to adopt any outlet
for our sewage which will meet with the
approval of the State Board of Health.

With the idea of getting an outlet at the
least cost, and at the same time conducting
our sewage as far away from the Quincy
shores as possible, we have entered into
negotiations with Boston, to connect with
their outfall sewer at Squantum Head,
which are likely to be closed in a few days.

The plans and estimates have all had in
view the large future growth Quincy is
sure to have, especially if this act is adopt-
ed. The act is particularly broad in al-
lowing Quincy to adopt any system of pay-
ment which it chooses, not conflicting
with the public statutes. This allows
every citizen to have a voice in the settle-
ment of the details, if the act proposed is
adopted the 9th of July.

Ex-Mayor Fairbanks

Expressed himself as strongly in favor of a
system of sewerage, and believed that in
many sections of the city, it was an
absolute necessity in order to protect the
public health. A system of sewerage
would add much to the future growth and
prosperity of the whole city. The plan of
collecting the sewage at one central
place, and then pumping into the Boston
system was certainly a better plan, than
the first proposed system. Still he re-
gretted that Section 13 of the proposed act
was not more plain, for it did not inform
the citizens what plan the City Council
would adopt to pay for the cost, leaving it
optional to the City Council to say
whether two-thirds or one-half of the cost
would be assessed upon the estates, and
also whether this assessment was to be
per front foot, area or valuation, and these
important matters ought to have been dis-
cussed and settled before asking the citi-
zens to vote.

Personally, he believed that assessments
upon the land were unjust and unfair, as
the tax for benefits received would not be
equal. He believed that the only just
method, was for the city to pay one-half
of the cost, and the entire property of
the city be assessed for it, on the ground
that it benefits the whole city, the other
half should be paid for by those who
receive the benefit on the line of the
system, by the rental system.

For instance, if the proposed system is
to cost \$400,000, then one bond of \$5,000
and interest \$8,000, would come due the
first year for the city to pay for its one
half; then for the other half, one bond
\$5,000, interest \$8,000, maintenance \$6,000,
making \$19,000, to be paid by the
estates, charging every one alike who has
the benefits. If it is deemed best that the
city pay the running expenses, then there
would be \$13,000 to be charged upon the
estates, the first year, this charge growing
less each year, as interest would decrease
and the number of users on the line in-
crease, and this rental charge would de-
pend upon the number who use the sewer.

In the city of Marlboro the rental
charge to take care of 1-2 of the cost and
maintenance, is \$4 to \$6 per year, and
this plan seems to be more fair and just
taxing for equal benefits, than assessing
per front foot, area or valuation, for it can
be readily seen by the assessment plan,
that an estate which has a small frontage,
pays a small tax per front foot, in com-

parison to most of the places in the out-
lying wards, and yet the benefits are the
same, namely, to get rid of impure water.

If the act is broad enough to have the
Council adopt such a method if investiga-
tions proved it to be the most just, then he
was in favor, but there were some doubts
on the matter, but he would have been
better prepared to vote, if the Council had
considered the different methods, and had
come to some definite conclusion so that
the citizens could know just what was the
plan proposed to have the system paid for.

He believed that it would cost at least
\$10,000 per mile including the main line,
but the cost per mile was not so important,
as we must have sewers, and digging is
more expensive in Quincy than in many
other places, but the method of paying for
the same is of vital importance and he
regretted that the Council did not care-
fully consider all these methods, and come
to some conclusion, before asking the citi-
zens to vote upon an act that admits of so
many different plans.

The order which Marlboro adopted to
which Mr. Fairbanks replied, reads as
follows: "The order provides that the
rentals shall pay one-half the sum required
to pay the interest on the bonded debt, the
sinking fund requirements and the main-
tenance which is as follows: Interest, \$10-
200; sinking fund, \$8588; maintenance,
\$1,000; total, \$19,708. One half to rentals,
\$9,854."

The other speakers were ex-Water Com-
missioner Whitman, ex-Councilman Nick-
erson, ex-Councilman Roberts, Mr. W. F.
Lakin and Mr. T. H. Kingston.

The Tombstone Case.

Patrick J. Bergen was held in \$500 bonds for his appearance before the superior court for defacing and removing a monument over the grave of his brother, Michael J. Bergen at Calvary cemetery on March 11 last. This was the case where the inscription, "The beloved husband of Mary A. Bergen" was removed by relatives, because said Mary married within sixteen months of Mr. Bergen's death.

Sometime ago I was troubled with an attack of rheumatism. I used Chamberlain's Pain Balm and was completely cured. I have since advised many of my friends and customers to try the remedy and all speak highly of it. **SIMON GOLDBAUM, San Luis Rey, Cal.**

ADAMS GOLD MEDAL.

Annual Exercises by Students of Adams Academy.

HONORS TO JOHN L. FLDRIDGE.

Other Prizes Also Awarded for Work of the Year.

The annual prize declamations of the Adams Academy were given at the Adams Temple this morning and as on previous occasions were largely attended. The exercises this year were somewhat longer than last year, and each number was delivered in a manner that reflected credit to Prof. Tyler and his corps of instructors, and it was with considerable difficulty that the judges were enabled to decide to whom should be awarded the gold medal and the master's prize.

Toussaint L'Ouverture, W. Phillips
William Merrill Leavitt, Marshfield Hill.
The Loyal Subject, Beaumont and Fletcher
Roy Farrell Duffield, Quincy.
The Afghan War, W. E. Gladstone

Henry Alexander Wason, Quincy.

War Inevitable, P. Henry
Harry Warren McCabe, Quincy.
The Bondman, Massinger
Arthur Bates Holden, Quincy.

The Murder of Lovejoy, W. Phillips
Walter Hinckley Nichols, Wollaston.
Marino Faliero, Lord Byron
John Loring Eldridge, Quincy.

*Not a candidate for Master's Prize.
The judges were Messrs. R. F. Claffin, C. F. Adams, 24, and Charles Warren. While they were out reaching their decision as to prizes, the alumni prize oration, written by Fred Lincoln Hewitt of Wollaston, was delivered by that young man; his subject was "Julius Caesar," a notable character well handled.

The judges awarded the gold medal to John Loring Eldridge, and the master's prize to William Henry McGrath, both of this city. The prizes for general excellence, scholarships, translations, etc., were awarded as follows:

For General Excellence.
First class—Charles Wesley Wilder of Wollaston.
Second class—Arthur Bates Holden of Quincy, and Ross Kittredge Whiton of Quincy Point.

Third class—Fred Lincoln Hewitt of Wollaston.
Fourth class—Lawrence Lyons of Quincy.

For Scholarship.

Was awarded to Edward Harmon Virgin of West Quincy.

For Translations.
Charles Wesley Wilder of Wollaston, Henry Francis Barker of Quincy, Lewis Whiton Hall of Marshfield, Joseph Costa of Quincy, George Maurice Sheahan of Quincy.

The Anderson Prize
Was awarded to George Edward Adams of Quincy Point.

The graduating class this year is composed with one exception, of Quincy young men and is as follows: George Edward Adams, Henry Francis Barker, Herbert William Barker, Israel Damon, Charles Allen Howland, Walter Chambers Jones, Henry Jacob Kolb, William Merrill Leavitt of Marshfield Hills, Walter Leslie Sargent, Edward Harmon Virgin, Henry Alexander Wason, Charles Wesley Wilder.

I have two little grand children who are teething this hot summer weather and are troubled with bowel complaint. I gave them Chamberlain's Colic, Cholera and Diarrhoea Remedy and it acts like a charm. I earnestly recommend it for children with bowel trouble. I was myself taken with a severe attack of bloody flux, with cramps and pains in my stomach; one third of a bottle of this remedy cured me. Within twenty-four hours I was out of bed and doing my housework. Mrs. W. L. DUNAGAN, Bon-Aqua, Hickman Co., Tenn.

NEW LINE OF ELECTRICS.

The Extension to Braintree Opened—Half Hourly Trips.

The new extension of the Quincy & Boston street railway was opened to the public Saturday afternoon. Car No. 30 left City Hall as the old town clock struck the hour of two, having on board President Graham, Superintendent Weeks, Superintendent Anderson of the Quincy railroad, ex-Councilman Thompson, Joseph T. French, several reporters, and a number of conductors and motormen who were temporarily off duty.

Albert Paulin was in charge of the controller, while Munroe Perry handled the register rope.

The trip up was somewhat longer than was anticipated, as the tracks were covered with gravel which had to be swept off. When the Braintree line was reached the car waited until 3.15, for the car on the other line and then started for Quincy, the return trip consuming about ten minutes.

Regular trips were then commenced, leaving City Hall on the hour and half hour, and returning leaving the Braintree line at 15 minutes past and 15 minutes of the hour.

The travel over the new line was not very heavy during the afternoon and evening as its opening was not generally understood.

The new line carried a large number of passengers on Sunday, some going through to Holbrook, Brockton and Highland park. The through passengers thought it was another fare at every mile post. Many came from Braintree, Holbrook and beyond to Quincy and some went to Houghs Neck and Nantasket.

There is no doubt however but what this route will become popular.

The Saturday Scores.
There was some good shooting at the Wollaston traps on Saturday. Bates was high man with 34 out of a possible 50. Whitman and Tucker were close on to his heels with 33 each.

The score out of a possible 50, with the exception of A. A. Lincoln and Thompson, whose score is out of 25:

F. N. Bates	34
H. W. Marsden	23
H. T. Whitman	23
C. W. Tucker	23
C. V. Starret	26
*P. Kelly	27
*Paolucci	30
N. N. Atwood	14
A. A. Lincoln	21
Geo. Thompson	20

*Not members.

TODAY'S COURT.

Martin F. Smith of Randolph was fined \$50 and sentenced to the House of Correction for 3 months for keeping a liquor nuisance at Randolph.

Grisio Palmico of Weymouth was fined \$10 for assault on his wife.

Richard Yeo and Thomas Blesedell were arraigned for mutual assault at Milton. Blesedell was discharged and Yeo was fined \$10.

Thayer Graduates.
The salutatorian of the class of '95 which graduated from Thayer academy on Saturday was Pauline C. Wilkins of this city; the valedictorian, Laura Frances Allen.

The other graduates were: Mabel Francis Alden, Jessie Russell Arnold, Clara Baylies Cornell, Josephine Louise Kelley, Mary Avery Lincoln, Louise Mitchell, Sophie Gifford Thayer.

A reception and dance followed the exercises.

Burglary at Weymouth.
The store of Mrs. Ella Davis of North Weymouth was entered by burglars sometime during Sunday night, and a large quantity of silk underwear, jewelry, etc., taken, the value of which was about \$110.

Entrance was had by breaking a pane of glass and then turning the window catch.

THE SUNDAY SERVICES.

Children's Sunday at a Wollaston Church—A. C. E. Badge.

Children's Sunday was observed at the Wollaston Unitarian at Sunday mornings service. The pulpit and platform were decorated with a profusion of flowers.

There was a pyramid formed by twelve little children at the rear of the platform. It was a pretty sight and added to the attractiveness of the scene. The pastor, the Rev. James E. Bagley, preached an interesting sermon to the children. Three children were christened: Arvin, son of Mr. and Mrs. F. A. Page; Madeline, daughter of Mr. and Mrs. Horace G. Kent; and Mary Almada.

The theme of the sermon at the Quincy Point church, Sunday morning, was "The Christian basis of contentment, independent of the attainments of others," based on the parable of the laborers.

The usual services were held at the Centre Congregational church, Sunday. In the morning Rev. Mr. Bryant preached from Joshua 24:15—Choose you this day whom ye will serve.

A committee, consisting of Mr. Will Sidelinger and the Misses Rose Drake and Bessie Carter was appointed by the Christian Endeavor of Quincy Point to secure appropriate local badges and obtain a banner. The young people acquitted themselves creditably in conducting the evening meeting. A little more earnestness and feeling of personal responsibility would make an unusually effective society of our young people.

"Differences and Indifferences" was the subject of Rev. Preston Gurney at the Wollaston Baptist church Sunday morning, the text being found in Acts 18:17. The chapel was very prettily decorated with Christian Endeavor flags.

On Wednesday of this week the Wollaston Baptist Missionary society will Foreign meet with Mrs. Sparrow. It is expected that a missionary agent to return to Africa will speak, and all ladies are invited to attend.

A newly organized Bible class is a feature of the Sunday school at the Point. New recruits are solicited.

Weymouth Man Drowned.
William F. Kenney of South Weymouth who has been in the asylum at Taunton for some time, was returned home Saturday night as cured. During the night he got up and wandered away. Searching parties were out all day Sunday looking for him but were unsuccessful. This morning William Tirrell while fishing at Whitman's pond discovered the body. It is supposed he was seized with an attack of insanity and wandered into the pond and was drowned.

"Many of the citizens of Rainville Indiana are never without a bottle of Chamberlain's Cough Remedy in the house," says Jacob Brown, the leading merchant of the place. This Remedy has proven of so much value for colds, croup and whooping cough in children that few mothers who know its worth are willing to be without it.

OPPRESSED BY SPAIN.

Pastor Wilson Thinks Cubans Have Good Cause For Uprising.

Says De Campos Is a Pledge Breaker and Murderer.

Would Have Uncle Sam Recognize the Insurgents as Belligerents.

New York, June 24.—The Cuban revolution was the subject of preludes to the services in the Eighteenth Street Methodist church yesterday, Rev. Dr. Wilson having the following to say on the subject: "Bathed in sunshine, yet bedewed with tears and blood, 150 miles from our southern coast lies a land of flowers and beauty—a land of fair women and brave men—whose soil is red with the gore of children slain, and filled with mothers, sisters and wives bereft of those who died trying to free them from the heels of a despot."

"The government of Spain in Cuba has been distinguished by cruelty of the most outrageous nature from the beginning to now. The deprivation of all creoles or native Cuban population of political, civil and religious liberty, exclusion from all public stations, combined with the heavy taxation necessary to maintain the large standing army and navy of Spain and its corrupt officials, is only a part of Cuba's wrongs."

"In the present insurrection the burden is not left wholly to the negroes and mixed races, but loyalty on the peninsula has coaxed to such an extent that many men of Spanish birth are taking part in the present uprising. No government that denies to the people educational, civil and religious liberty can be free from the rebellion of its subjects."

De Days Gone By.
Dr. Wilson then recited the history of previous insurrections, and said that in 1848 the sympathy of the people of the United States for Cubans was such that President Polk proposed to transfer Cuba to the United States by the payment to Spain of an indemnity of \$100,000,000. This proposition was rejected, as was also a similar one made 10 years later. Dr. Wilson referred to Captain General Campos as "a pledge breaker and a murderer of men, women and children."

In the evening sermon Dr. Wilson said that the Spanish government imposed a tax on the Cubans that was equal to 50 per cent of the country's productions. The wrongs which drove the revolutionary fathers of 1776 to arms against the British crown if multiplied a hundred fold would be small compared to the wrongs of the Cubans. They are fighting for civil and religious liberty, and the pursuit of happiness, for the right to live in peace, and to enjoy the proceeds of their own labors.

"Let us have done with Spanish domination in America. It has been from the beginning a carnival of rapine and blood. Let the government of these United States recognize these Cubans as belligerents and receive their representative at Washington as soon as they have a government to represent."

The Czar Displeased.
ST. PETERSBURG, June 24.—The czar, in a conversation with a member of the foreign office, expressed himself as displeased with the unworthy behavior of the Paris populace over the visit of the French fleet to Kiel. He added that he thought that the ostentatious restraint of the French squadron did not accord with the intention of President Faure and M. Hanotaux, the French foreign minister. His majesty referred in the harshest way to Emperor William's eminently peaceful speech, which, he declared, found a joyful echo in his own heart.

Murder and Suicide.
ST. LOUIS, June 24.—At Webster Grove, Dr. Frank Zeitel shot and instantly killed Mrs. Jane Peterson, his sister-in-law. Mrs. Peterson's sister, Mrs. Horish, attempted to stay his arm and received a bullet in her breast. Zeitel then sent a bullet into his own brain and dropped dead. They had quarreled over a trivial division of property.

In Bad Business.
UTAH, Cal., June 24.—David Oldham, a deacon of the Baptist church, has been arrested for robbing the Mendocino stage a week ago. He had as an accomplice a man named Hilton, who has confessed, implicating Oldham. The robbers secured \$1000, and the officers have recovered Hilton's share.

Fast Cycling.
CHICAGO, June 24.—Alfred Mather, beating a day's rest, General Miles at Fort Hamilton, N. Y., to General Merrin, arrived here yesterday afternoon, having made the trip of over 1200 miles by bicycle in 13 days 7 hours and 45 minutes. This beats the western record by 1 hour and 15 minutes.

Coasting.

On September 15, at Waltham, in a coasting tournament wherein seven or eight of the leading bicycles were represented, "The Spalding" finished first, second and third. The greatest tribute to the coasting ability of "The Spalding" Bicycle was paid by Capt. Allen of Philadelphia. On the trip to Glen Summit he was the only one able to come down the mountain without a mishap, which feat in itself should clearly establish the superiority of "The Spalding" at coasting, when the extraordinary declivity of Glen Summit is considered.

A SOUND THRASHING

Administered to Farmer Leonard by Whitecaps of Athol.

Victim Alleged to Have Abused His Wife.

Warning Had No Effect and He is Now Under a Doctor's Care.

ATHOL, Mass., June 25.—Athol has had another visit from the whitecaps, this time at Riceville. At midnight five masked men made a call upon Farmer Judson B. Leonard, aged 45, lassoed him with a large strap, pulled him from bed, took him to the barn, dragged him around the yard, then strung him to a tree, and, after removing what few clothes he had on, gave him a terrible thrashing.

Farmer Leonard presented a very sorry and much dilapidated appearance. Some time ago there was circulated reports that Leonard was unkind to his wife, and that he was accustomed to beat her.

These stories came to the ears of some of the members of the whitecap band, and they immediately gave him notice that unless better reports were heard, he would receive a visit from them, and that the call would not be a social one.

It would seem that the whitecaps thought their warning did not have sufficient effect, for during the small hours of the night Leonard's slumbers were rudely disturbed.

The whitecaps produced a strong strap, and having fastened it securely about Leonard's neck they began a race around the yard, first one and then another taking turns at the burdensome end of the leather halter.

After having satisfied their craving for this sort of sport, they drew up in front of a large maple tree.

Having securely fastened him, they removed what scanty clothing Leonard had on and proceeded to give him

A Very Thorough Whipping.

So effectual was this part of the work that Leonard's body shows plainly the evidence of his night's experience, and no one who saw him had any difficulty in believing his story that he had been visited by whitecaps. His back bore red welts and black and blue spots.

So severe were his injuries that he called a physician to administer relief from his pain, and along with the man of medicine he summoned Sheriff Doane to alleviate his suffering feelings.

It is stated that Leonard thinks he would be able to recognize one or two of the members of the party, and that he desires to have these suspects arrested.

For Killing Alice Sterling.

BOSTON, June 25.—The trial of Angus D. Gilbert, charged with the murder of little 8-year-old Alice Sterling on April 10 last, was begun yesterday. The principal features of the day's proceedings consisted in the jury of 12 men from the traverse jury of 30 summoned for the case, the application for stay of proceedings on the part of the defense in the morning, and in the afternoon the presentation of the case for the prosecution by the attorney general's aid, Assistant District Sighrue, and the subsequent testimony and cross-examination of Dr. Draper, the medical examiner, witness for the prosecution. Gilbert appeared very cool and collected, not to say indifferent.

Six Rounds Were Enough.

BOSTON, June 25.—Dan Creedon of Australia and Billy Hennessy of Boston met here last night to settle the question of the middleweight pugilistic championship of America. They were scheduled to fight 20 rounds, but only six were necessary. A few stiff left handers from Creedon, followed by a right swing on the jaw, knocking Hennessy out in the sixth round. He did not regain consciousness for 10 minutes. Creedon was overweight, tipping at 174 pounds to Hennessy's 145, but the latter conceded the difference.

Victory For Foreigners.

NEWTON, June 25.—Pim, the English champion, and Mahoney, the Irish player, met Chase and Hobart in a tennis game yesterday. Both foreigners won. Mahoney's long reach gave him a decided advantage over his opponent. He was quick and decisive, and played a brilliant game. Pim fairly outclassed Chase at every point, losing what games he did lose by his own misplays.

May Be Too Late.

CONCORD, N. H., June 25.—Governor Basile yesterday issued a proclamation to the next legislature calling for an appropriation of \$1000, to be paid for the arrest and conviction of the persons who rifled the safe of the state treasury recently. The proclamation was necessarily in this form, as the statutes do not provide for the direct offering of a reward by an official.

Shooting Scrape at Augusta.

AUGUSTA, June 25.—Michael Burns, a local politician, fired two shots at Harry Hopkins, a liquor dealer, yesterday. One shot penetrated Hopkins' sleeve. No wound was inflicted. The two are brothers-in-law, and the shooting is the outcome of a family feud of long standing. Burns was committed to jail in default of \$10,000 bonds.

Encouragement For Lowell Teachers.

LOWELL, June 25.—The school board last night adopted a rule providing for tenure of offices during good behavior and efficiency for school-teachers who had been elected for three consecutive years and recommended for said tenure by the committee on teachers. It was also voted to substitute paper for slates in the schools.

Juvenile Temperance Work.

BOSTON, June 25.—The International Institute of Juvenile Workers began its

annual session in Berkeley Temple yesterday afternoon. There being no special business to come before the institute, there was some discussion of the proposed division of the juvenile pledge, and the institute adjourned till today.

The Amesbury Strike.

AMESBURY, Mass., June 25.—There was a big exodus among the Hamilton mills' strikers yesterday. Twenty-five went to Manchester, N. H., 15 to Exeter, 15 to Lisbon, Me., 10 to Fall River and 30 to Lawrence. A large party left for Waltham today. There is no other change of note in the strike situation here.

The Tramp Nuisance.

NEW BEDFORD, June 25.—The suburbs of this city have lately been infested with tramps. County Sheriff Hawkins and a posse of deputies visited one woods north of the city yesterday and captured 11 apparent vagrants, who had established a colony there. The tramps will be committed to jail.

Battle Waxes Warm.

NEW BEDFORD, June 25.—John F. Meaney and John Durkin of this city were arrested last night on warrants sworn out by ex-Mayor Bennett, charging them with attempting to bribe voters. This makes four arrests in a week for a similar offense, and it is expected others will follow.

Captain and Money Missing.

BEVERLY, June 25.—Captain James R. Clark, master of the fishing schooner James R. Clark, has mysteriously disappeared, and with him some of the money belonging to the owners. The owners say the amount missing is about \$3500, and that the crew's share will be paid to them.

In a Prohibition Town.

SKOWHEGAN, Me., June 25.—The first liquor raid and seizure in five years created great consternation among dealers here yesterday afternoon. Sheriff Viles searched the restaurant managed by Edward Ponomlow, and secured a truck load of beer, wine and whisky.

One Combination.

PROVIDENCE, June 25.—All the athletic clubs at Brown university, including the football and basketball teams, tennis and rowing clubs are to be united under one association. Each club will have its own manager, however, and he will be responsible to the association.

A Visit From Thurber.

BUZZARD'S BAY, June 25.—Private Secretary Thurber spent a few hours at Gray Gables yesterday. Mr. Cleveland was away fishing, so Mr. Thurber went to the official documents he brought with him for Mr. Cleveland's consideration, and returned to Marion.

Won't Yield.

PROVIDENCE, June 25.—A committee from the striking operatives at the Providence, National and Sarnac mills had a five hours' conference with Proprietor Fletcher yesterday afternoon. Mr. Fletcher refused to make any concession whatever.

Albee Pleads Not Guilty.

PLYMOUTH, June 25.—Arthur A. Albee, charged with the murder of Collins A. Leaman, was arraigned in court yesterday and pleaded not guilty. The court appointed counsel for Albee. No time was set for the trial.

Whitecaps' Work.

WORCESTER, June 25.—Masked men took J. B. Leonard, a farmer, living in a village near Athol, out of his bed and lashed him unmercifully. It is claimed that Leonard abused his young wife.

Probably Resulted From Accident.

BOSTON, June 25.—Michael Lyons, 48 years old, was found dead in a doorway in the Roxbury district last night. It is thought death resulted from injuries received in an accident some time ago.

Hicks Sent to Jail.

SACO, June 25.—C. B. Hicks, charged with trying to pass checks which apparently were forged, was arraigned in court yesterday and held in \$500 for the grand jury. He was locked up in jail.

The Challenge That Never Came.

NEW HAVEN, June 25.—Captain Sheldon of the athletic team says that neither he nor Charles H. Sherrill, in New York, have as yet received any official challenge from Oxford and Cambridge.

Malden Man Killed.

MALDEN, June 25.—Francis E. Lewis of this city, aged 38, was walking on the railroad track, and in crossing from one track to the other, stepped directly in front of a train and was killed.

SWITHIN BROS., Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 80 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 70 lots.

Also a few lots off Bates avenue.

WOLLASTON.

A few desirable lots in Wollaston on Hancock street, opposite entrance to Merry Mount Park.

Will be on land at Presidents' Hill every afternoon from 2 to 4. Parties desiring lots or any information on the above properties, please call at Room 12, Durgin & Merrill's Block.

EDITORIAL COMMENTS.

DID ANY of the members of the City Council ever stop to think, when they grant locations to the telephone company to erect poles, of the expense the city is put to? In the orders granting these locations it is stipulated that the top two feet shall be reserved for fire and police alarm wires of the city, and therefore nearly all of the wires of the fire alarm circuits are on the poles of the telephone company.

When the telephone company is granted a change of location nothing is said in the order about its standing any of the expense to which the city is put to change its wires and it amounts to considerable in the course of a year.

Take for instance the new location granted on Hancock, Elm, Granite, Adams and other streets. The telephone company is putting in new poles and on Hancock street they are on the opposite side of the street from where they originally were, and the telephone company has put its wires in a cable. The fire department has also got to change its wires, and in order to keep them clear it will be necessary to trim all the trees, let alone the time required to shift the wires from one side of the street to the other.

In order to do this it will require two or three men, and, as the fire department has only one man for that purpose, the others will have to be hired and the city will have to pay the bills. The appropriation for fire alarm is limited.

The City Council should consider these things when it grants locations and should have a clause in the order that the company to whom the location is granted should bear the expense of changing the fire alarm wires.

In New York city telephone rates have been reduced one-half. Why is it that the New England Telephone company still continues to charge such exorbitant prices. Our citizens should demand at once a reasonable deduction from old-time prices, or assist in starting a new company.

A Quiet Wedding.

The marriage of Miss Mary Elizabeth Hardwick of Quincy and Mr. William E. Alden, formerly of Auburndale, this morning was strictly private, only the immediate family being present. The ceremony took place at eleven o'clock, the Rev. Edward Norton officiating. Mr. and Mrs. Alden sail tomorrow for an extended trip abroad. Miss Hardwick has been prominent in church, charitable and literary work and her many friends will wish her bon voyage.

The Bicycle Races.

From present indications there will be a large number of participants in the bicycle road race in the Centre on the morning of July 4. A fine list of prizes are being prepared and applications for entry blanks are being received from all the crack riders. The race is to be 12 miles and the course is as follows: Start to be made from near the First church, Hancock street, Quincy avenue, Howard street, South street, Washington street. To starting point, which is four miles and the race will be three times around this course.

The bow of the Pilgrim was considerably damaged Sunday when the steam yacht went ashore on the spit near Bug light.

GRAMMAR GRADUATES.

The Total 223—The Willard Class
Largest Ever Graduated.

On Thursday the eight grammar schools of the city will send forth 223 graduates. The total is two less than last year, but an increase over all other years. The Adams class of 42 in 1893 was the largest class ever graduated in Quincy, but this year the Willard class of 52 takes this distinction. The only other school to graduate more this year than last year is the Quincy, which with 34 is but one behind the Wollaston, which stands second in numbers. The number for five years—1887, 1890, 1893, 1894 and 1895—is given below:

	'87	'90	'93	'94	'95
Adams,	22	27	42	36	28

SILVER ANNIVERSARY.
 Hon. and Mrs. Charles H. Porter
 Entertain Many Friends.

It was a gay scene Monday evening at the residence of Hon. and Mrs. Charles H. Porter, so pleasantly situated at the junction of Adams and Hancock streets. The grounds were brilliantly illuminated with numerous Chinese lanterns, and the sweet strains of the Cadet orchestra enlivened the occasion.

Quincy's first Mayor and his estimable wife had been married twenty-five years and this was their silver anniversary. On June 23, 1870, the Rev. John D. Wells then pastor of the First church, had united them in the holy bonds of matrimony, the bride being a daughter of Dr. Charles S. French.

Mr. and Mrs. Porter received in the parlors, and never in Quincy were a couple the recipient of so many congratulations, the line being unbroken from eight until ten. Their three sons, Mr. Charles H., Jr., Mr. Henry W., and Mr. Robert B. acted as ushers.

Among the 400 to 500 guests were State and City officials, members of the School Committee, business associates, Masonic brothers, neighbors, relatives and friends, young and old.

Cook of Boston served salads, ices, strawberries, etc., in the dining room, and in another room chocolate and lemonade. The principal decorations of the interior were roses. On a summer's evening like this, however, the veranda and grounds attracted the people, and the garden party was a very enjoyable one and a pretty scene to all passing.

Mr. and Mrs. Porter were showered with tokens, but the gifts were not displayed.

HOUGH'S NECK.

The rage of a yachtsman who landed at Hough's Neck Sunday was an amusing incident to a great many. He had rowed ashore and was returning to his yacht when a woman took one of his oars. Wasn't he mad, and didn't he swear? He jumped overboard in pursuit, regardless of boots and clothes, and the young lady thought he was not to be fooled with and surrendered the oar. With this ship etiquette?

The side wheel steamer Katabdin of 1234 has been towed to Hough's Neck and will be dismantled and burned for old metal. She was the oldest of the Boston & Bangor fleet. In 1863 when built and for many years thereafter she was the largest passenger steamer running on Penobscot. She is 241 feet long, has a 35 foot beam, and is 11 feet deep.

James McConnell the Quincy fruit dealer met with a mishap today, his wagon being capsized.

Deafness Cannot be Cured

By local applications, as they cannot reach the seat of the disease. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a running ear, or, in other words, when it is entirely closed Deafness is the result, and unless the inflammation can be taken out of the ear, the hearing cannot be restored, and the tube restored to its normal condition, hearing will be destroyed forever.

One Hundred Dollars for a cure of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Robber's Victim.

CHICAGO, June 24.—C. H. Birch, cash receiver for the West Chicago street railway, at the Armitage barns, was shot and fatally wounded early yesterday morning by a man who attempted to rob him of the day's receipts. No arrests.

Explosion on a Steamer.

CHICAGO, June 24.—By the explosion of a steam valve on the whalbeck Christy, a Columbus of Waukegan two men were killed and 13 were dangerously injured. The steamer was racing with a rival.

The civil service rules have been extended to include the employees of the government printing office at Washington, who number from 2500 to 3000 persons. This ensures their tenure of office during good behavior, and affords relief to the public printer from the demands of senators and congressmen for places for their constituents. It is said that during the sessions of Congress his time is so occupied with these demands that no time is left for attention to the public business.

Coasting.

On September 15, at Waltham, in a coasting tournament wherein seven or eight of the leading bicycles were represented, "The Spalding" finished first, second and third. The greatest tribute to the coasting ability of "The Spalding" Bicycle was paid by Capt. Allen of Philadelphia. On the trip to Glen Summit he was the only one able to come down the mountain without a mishap, which feat in itself should clearly establish the superiority of "The Spalding" at coasting, when the extraordinary declivity of Glen Summit is considered.

A DEMOCRAT CHOSEN.

W. F. Curtin Elected President of Lowell Common Council.

Deadlock of Six Months' Duration Is Broken.

City Business, So Long Delayed, Can Now Be Resumed.

LOWELL, June 26.—The Lowell common council deadlock is broken. William F. Curtin (Dem.) was last night elected president on the 10th ballot by the defection of two Republicans from their party associates, in consideration of the great needs of the city for money with which to carry on public business. The deadlock was preceded by caucuses, heretofore.

After two ballots had been taken and no election made, Councilman Howard arose and said that for six months the council had been voting to elect a president. The firemen, policemen and others were waiting for their pay, and everything is at a standstill. "I think things have gone on long enough," he continued, "and I shall vote for some member of the opposite party for president some time this evening and break the deadlock."

His remarks were received in silence. A few minutes afterward, however, there was a very animated session. Several states were in danger. Councilman Garvey (Dem.) wanted a recess. So did Councilman Morse (Rep.). Neither succeeded. Finally Mr. Garvey said he should vote for Mr. Hartwell (Rep.). But the latter withdrew his name, and the Republican vote was so scattered that the

Garvey Faction Couldn't Find It. Two ballots were taken in which the box was stuffed—that is, 23 ballots were cast when there were only 22 members present.

Councilman Curtin then made a speech and a motion by which the members individually passed up to the clerk's desk and deposited their votes. This stopped the ballot box stuffing, and the ballots from the fifth to the ninth went on, with the Republican vote scattered, and that of the Democrats alternately upon various of their members, according to the order previously agreed upon.

By the ninth ballot it had become evident that the Republicans were waiting for the turn of either Councilman Curtin or O'Day, and when the 10th ballot was taken a shout from the committee room

Announced a Choice. It was Curtin. He received 13 votes, Councilman Rivet (Rep.) 8, and Councilman Morse (Rep.) 1. Councilman Curtin was then declared elected and escorted to the chair, where he accepted the office in an appropriate speech.

It is uncertain whether he received two or three Republican votes. It was necessary that he receive two at least, assuming that all his party men voted for him according to agreement; but it is said that one Democrat voted for a Republican, and that his vote made good by that of a third Republican.

After the decision was announced the chair entertained a motion, which was passed, to press the ballots, and they were placed in the custody of the clerk. The rules of the count and the joint rules were adopted.

An order was passed for the payment of bills due and properly approved, and a resolution was passed under a suspension of the rules for a loan of \$800,000 in anticipation of taxes.

These three votes will enable money to be borrowed, and it is expected that the city who have waited, many of them six months, to be paid.

Dean Langdell Honored. CAMBRIDGE, June 26.—The Harvard Law School association yesterday held the most noteworthy of the nine annual meetings which have taken place since its organization. The reason for this was that the occasion marked the completion, by Professor Christopher Columbus Langdell, the dean of the school, of 25 years of service in the school. All the members of the association and the school joined in expressing their grateful recognition of the debt owed to Professor Langdell, not only by the law school, but by the cause of legal education throughout the English-speaking world.

Preacher Under Fire. KENNEBUNK, Me., June 26.—A council of ministers of York county Baptist churches was held here to investigate charges of falsehood and misrepresentation made against Rev. W. M. S. Lowell. It is alleged that when he came here to accept a pastorate he represented himself as a pastor of good standing in the Baptist denomination, whereas, it is alleged that Mr. Lowell was deposed from the denomination by a church council at Scranton, Pa., for dishonesty and debt, and was therefore no longer a Baptist minister. The case is not finished.

Hurricane, Lightning and Hail. NORWICH, June 26.—A storm which assumed cyclonic proportions, accompanied by lightning and hail, struck Norwich yesterday afternoon. C. H. Hulbert's barn was demolished. Thomas Pearson was blown 200 feet. A. A. Maynard, Mrs. C. L. Swan and Abbie L. Hale were struck by lightning, but escaped serious injury. The roof of the grand stand at the New London county fair grounds was blown off, and about 600 feet of fence laid low. Hail was drifted about the parks six inches deep. Crops are greatly damaged.

Got Diplomas Like Harvard's. CAMBRIDGE, June 26.—The Radcliffe college commencement exercises were held yesterday in Sanders theater. Addresses were made by Dean Irwin of Radcliffe and President Eliot of Harvard. Twenty-three degrees of A. B. were conferred. Seven graduates received the distinction of cum laude and seven others the

distinction of magna cum laude. Three received the degree of A. M. This is the first year that graduates of Radcliffe have received a diploma similar to the Harvard diploma.

Two Records Splintered. MANCHESTER, N. H., June 26.—Bicycle races by electric light were held here last night. Harry E. Caldwell of Manchester rode half a mile, unpaced, flying start, in 1m. 41.5s. Nat Butler of Boston went a mile, flying start, paced, in 2m. 7s., that, breaking Caldwell's record of 2m. 13.5s.

Head-On Collision. REVERE, Mass., June 26.—There was a bad collision on the Boston and Maine road here yesterday, which caused heavy damage to rolling stock and great inconvenience to traffic by a blockade. A misplaced switch sent an express into a gravel train. It was a head-on collision, and both engines were badly wrecked and gravel cars scattered across the tracks. No one was seriously hurt, but both engines were bruised and passengers on the express shaken up.

An Unfortunate Fellow. CAMBRIDGE, June 26.—Albert W. Lorey, an ex-postal clerk at the Boston post-office, who was sentenced to a term of two years' imprisonment in the East Cambridge jail for stealing letters, is insane. He will be taken to the insane hospital for United States prisoners at Washington. Lorey has continually brooded over his imprisonment, and the death of his mother and sister while he was in jail weighed heavily on his mind.

We'll come to Boston. BOSTON, June 26.—Delegates to the international convention of the Independent Order of Good Templars were tendered a reception last night at Association hall. Grand Chief Templar Wythe of Massachusetts welcomed the delegates on behalf of the Good Templars of the state. A large man Allen, representing Mayor Curtin, extended the freedom of the city of Boston. Many addresses were made.

New Sweden's Celebration. CARIBOU, Me., June 26.—New Sweden yesterday celebrated the quarter-century of the foundation of the Swedish colony. W. F. Thomas, Jr., ex United States minister to Norway and Sweden, and who 25 years ago brought the first colony of Swedish immigrants to Maine, delivered the principal address. The town was filled to overflowing with Swedes and other citizens from adjoining towns.

Ran Without a Certificate. NEWBURYPORT, June 26.—Steamer Merrimac, a passenger boat running between Haverhill and the mouth of the Merrimac, has been fined \$500 by Collector of Customs Mackintosh of this port for violation of the law regulating steam vessels, by running without a certificate of inspection. The owners will petition the secretary of the treasury for a remission of the fine.

Quickly Finished. LOWELL, June 26.—Dick O'Brien of Lewiston, pugilist, put out Jack McDonough of St. Paul in 10 seconds last night. McDonough didn't have time to strike a blow, for in opening O'Brien landed a body blow driving McDonough to the ropes, and then swinging cleanly on the jugular dropping the westerner. McDonough claimed he was not put out.

Prefers Hill to Powers. LEWISTON, June 26.—It is stated that when Joseph H. Manley returns from Europe he will write a letter to Governor Powers of Houlton asking to be released from his pledge to support that gentleman as the Republican nominee for governor. It is said that Mr. Manley will support John F. Hill of Augusta for the nomination.

Strikers Give Up the Fight. PROVIDENCE, June 26.—The striking weavers of the Atlantic mills met last evening and voted to go to work. This decision was arrived at after a prolonged and heated discussion, and it terminates the most bitterly contested of the series of strikes that has been in progress in Olneyville during the past three months.

Fatally Shot. WATERBURY, June 26.—The Turners were parading last night. Mrs. Wiedman was watching the parade from a third story window, when a pistol was fired, and she was fatally wounded. James W. Cook was placed under arrest and may be charged with the responsibility for the shooting.

Lightning at New Bedford. NEW BEDFORD, June 26.—During a heavy thunderstorm a house on the outskirts of the city was struck by lightning and badly shattered. The only inmate, a woman, was knocked from a chair and stunned, but she recovered later.

An Alleged Robber. BANGOR, June 26.—Cynthia Page, 20 years old, of Bangor, was arrested yesterday on a charge of larceny of money and diamonds from the house of Miss M. L. Edmunds of Brookline, Mass. She was taken to Boston.

Deal Mules and Drunkards Hit. HARTFORD, June 26.—The committee on humane institutions reported a bill to the house prohibiting the marriage of any man or woman to any other man or woman who is deaf and dumb, an epileptic or an inebriate.

Without Discrimination. PROVIDENCE, June 26.—All the help in the Providence National worsted mills went to work yesterday—that is, as far as showed up and asked for employment. There was no discrimination against the strikers.

To Fly For \$1000. WALTHAM, June 26.—Sanger, Johnson and Tyler will participate in a match race for a purse of \$1000 in gold at the Waltham track July 4. The race will consist of mile heats, best two out of three.

Strikers Need Aid. AMESBURY, Mass., June 26.—The only new feature of the Hamilton mills strike is the announcement that the strikers have asked aid from the weavers' unions at Saco, Biddeford and Fall River.

SWITHIN BROS., Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 80 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 70 lots.

Also a few lots off Bates avenue.

WOLLASTON.

A few desirable lots in Wollaston on Hancock street, opposite entrance to Merry Mount Park.

Will be on land at Presidents' Hill every afternoon from 2 to 4. Parties desiring lots or any information on the above properties, please call at Room 12, Durgin & Merrill's Block.

EDITORIAL COMMENTS.

HAIL TO Mayor Keith!—Daily Ledger.
Mayor Keith says it is not hail that is
wanted, but rain.
Well, we are willing he should reign for
a few days. The alumni of the Quincy
High predict that the riot act will be read
if any one drops a lead pencil.

THE ACTION of the the School Committee in appointing a committee to provide additional school accommodations at West Quincy and Norfolk Downs, shows that there is pressing need of new buildings at these points. The School Committee has certainly given the city government sufficient notice that these buildings would be needed, and the delay must be to them aggravating. Rents may be more expensive than interest, while the accommodations will be inferior and the progress of the pupils retarded.

THE QUINCY merchants who recognize that the patronage of their customers is the measure of their prosperity are fully alive to the advantages derived from home consumption, and should be anxious to keep the money spent in the city in circulation where it will do the most good. Money put in circulation among the townspeople, and not spent outside of its limits, does some real benefit to the place, for our merchants receive the benefit from it, and in return they should gladly patronize such home enterprises as benefit them. This patronage of home industries; this pride in local institutions, especially those which contribute wages to the people here, should be encouraged to the utmost, for the interest of one member of the community must necessarily effect the interests of the whole. A dollar spent in Quincy benefits the merchants of Quincy. A dollar spent with the merchants, or in any line of business represented here, will bring back its full reward, and like the bread cast on the waters, will return, even after many days.

THE CHAIRMAN of the Committee on Sewers of the City Council informed the people of Wollaston that every citizen will have a voice in the settlement of details if the sewer act is accepted July 9. They may be given a hearing but this is not obligatory, and it gives them no vote, and they will be powerless to prevent the adoption of any system the City Council may think best. The LEDGER has previously advocated the rental system, and is pleased that it has so able a champion as ex-Mayor Fairbanks. It would give the city a perpetual revenue from those who are the most benefited and would avoid all assessments, which in many cases would be burdensome. In the case of the city of Marlboro, which has been quoted, the annual rental is but \$4 to \$6. Very few if any escape at such a low figure now, while it is not uncommon to pay \$10 or \$20, and some over \$50 annually.

The sewer act is defective if it does not admit of the rental system. It is defective in another particular. It compels abutters to pay one-half the cost practically in cash, interest being charged if an apportionment is made. Yet the city takes forty years to pay the debt. If the bonds are equally apportioned, which we believe is necessary, but \$100,000 will mature during the ten years, yet the abutters will have paid in \$200,000 during this period.

But Quincy needs a sewerage system, and it is not our purpose to delay the matter. The sewerage act with all its defects should be accepted, when it is hoped that the City Council will give some earnest thought to the method of payment. They will be relieved of all other details, as sewerage commissioners will be appointed upon the acceptance of the act, who will have exclusive authority to construct, repair and operate all sewers.

JUNE MARRIAGES.

Brilliant Church Wedding at Wollaston Congregational Church.

LEAVITT--PRESCOTT NUPTIALS.

Miss Margaret M. Badger Becomes Mrs. J. Francis Merrill.

In response to the invitations of Mrs. George Russell Prescott the Wollaston Congregational church was packed from door to pulpit, Tuesday evening, to witness the marriage of her youngest daughter, Miss Minnie Parker Prescott, and Mr. Amos Towle Leavitt, son of Mr. Moses Leavitt of Hampton, N. H. The list of invited guests numbered 700 and included people prominent in business and social life in this city, together with a large representation of friends from Boston and the suburbs.

The floral decorations of the church were elaborate and strikingly beautiful. The front of the altar, pulpit and organ were banked with palms, and other potted plants, in front of which leafy screen the marriage ceremony took place.

At a few minutes past eight o'clock the bridal procession, led by the six ushers, passed up the left aisle to the pulpit, the bride, wearing a simple robe of ivory white satin, en train, with pearl trimmings and tulle veil, carrying a bouquet of lilies of the valley, being escorted by her brother-in-law, Mr. Ralph J. Saxe. She was preceded by the maid of honor, her cousin, Miss Theodosia Weld Smith of Everett, who was gowned in a blue silk and carried a bunch of white roses. Preceding the maid of honor were the two bridesmaids, Miss Mae Arnold Lincoln and Miss Helen Louise Foster, gowned in white silk mulle, trimmed with sprays of pink roses, and carrying bouquets of the same flowers. Following the bride came the little flower girl, Miss Marion Eddy Lewis, who was prettily dressed in a white silk mulle, and carried a hat tied in basket shape, filled with flowers.

At the pulpit the Rev. Edward A. Robinson, pastor of the society, awaited with the groom and his best man, Mr. John Howard Osborne of Whitman, the coming of the bride.

Around the group as the last strains from the Wedding March from Lohengrin, as played by Mrs. Alma Farnce Smith, floated on the air, stood Messrs. George Everett Pratt of Boston, James S. Whiting, Charles P. Hutchins and Chester L. McIntock of Wollaston, George A. Gleason of Dedham and Fred T. Little of Melrose. The ushers wore dainty gold pins with pearl centres.

At the conclusion of the service the organ pealed forth Mendelssohn's Wedding March as the procession slowly moved down the aisle and out of the church, preceded by the little flower girl who strewed roses in the path.

After the ceremony an informal reception was held at the home of the bride's mother on Farrington street, at which only the relatives and a few immediate friends attended. The presents were very elaborate.

The groom has for several years been connected with the large wholesale grocery house of Silas Pierce & Co. of Boston.

After their wedding tour Mr. and Mrs. Leavitt will reside on Lincoln avenue, Wollaston.

Merrill--Badger Wedding.

A quiet wedding was solemnized at West Quincy Tuesday evening when Miss Margaret Maria Badger, one of West Quincy's well known young ladies, became Mrs. James Francis Merrill.

The ceremony took place at the residence of the brides on Crescent street and was performed by Rev. Edward Norton in the presence of the immediate families only.

Mr. George L. Badger was best man and Miss May Merrill bridesmaid.

An informal reception followed the ceremony, after which Mr. and Mrs. Merrill left for a brief tour, returning from which they will reside at 43 Crescent street.

July Magazines.

Godey's magazine for July appears in a cover by Lincoln, and presents a most attractive appearance among the magazines of the month. The table of contents as usual offers many and varied articles, and cannot fail to interest every member of the family. The reproduction of the famous pictures of the "Battle of Gettysburg" is appropriate for the anniversary of this stirring event which changed the history of our country.

Most readers will be surprised to learn, as any one may from an excellent illustrated article in McClure's magazine for July, how the telegraph has now crept in to the remotest crannies of the earth, and is transmitting its hundreds of millions of messages a year at a constantly lessening cost in money and trouble to the public.

The same number contains a dramatic chapter from the history of "Tammany" the autocratic reign of Tweed, with all its barbaric and illicit splendors, splendors maintained by the theft of untold millions of public money.

The new Town Hall at Marshfield was dedicated Tuesday, the address of the day being delivered by Col. H. A. Thomas of Weymouth.

OTHER BUSINESS TRANSACTIONS.

A Committee Appointed to Pro-
vide Accommodations.

The School Committee held its regular
monthly meeting Tuesday evening Messrs.
Crape, Burns, Gurney, Page, Record,
Harlow and Sheahan being present.

It was voted that the next meeting be
held the last Tuesday in August.

A petition signed by the principals of the
several schools was received setting forth
the advantage of appointing a special
trust officer who shall visit the several
schools of the city as often as possible and
look after the matter, as the petitioners
could not properly attend to it.

This petition was placed on file.

The Finance committee reported the
following unexpended balances:

Salaries \$30,246.65
Fuel \$2,514.52
Janitor \$2,557.60
Transportation \$315.90
Books and supplies \$3,556.41
Evening schools \$1,766.40

The following text books were adopted:

Whitney & Lockwood's English gram-
mar, in place of Patterson's, for the High
school.

Ellis, Thomas, Fisk and Scudders
histories for reference books.

Fry's New England Grammar School
geography.

A committee consisting of Messrs.
Burns, Gurney and Record was appointed
to find accommodations for pupils at West
Quincy and Norfolk Downs in September
in case no new buildings have been
erected.

The following teachers were elected.

CAR OVERTURNED.

A Solitary Passenger Severely In-
jured at East Milton.

There was a very narrow escape from a
serious railroad accident at East Milton
this morning.

The 9.19 inward train was just pulling
out of the depot when part of the trucks
of one of the cars broke which caused the
car to overturn and before the train could
be stopped the car had been dragged some
feet and was quite badly smashed.

Fortunately there was but one passenger
on that car at the time, Mr. Shaw of Forest
Hills. He, however, was thrown about
and quite seriously injured, it being
thought at first that he had been killed
outright. He was carried into the drug
store and later removed to his home.

A wrecker was sent out from Boston to
clear the tracks, but it was some hours
before through service was resumed.

NARROW ESCAPES IN BATTLE.

Reminiscences of Close Calls Related by
New Hampshire Veterans.

Most of the New Hampshire men here
had an honorable record of service in the
civil war, and when they meet their re-
miniscences are often highly interesting. A
group of them were telling recently of
"close calls." One said:

"I was talking with a comrade during
an engagement when he suddenly felt of
his side, saying, 'I'm shot.' I advised
him to go to the rear. He soon returned,
holding the battered remnants of a silver
watch on the stump of his second finger,
bawling its dilapidated condition and the
fact that the day before he had paid
\$5 for the watch. The man had been
standing with his finger over the watch
pocket in his trousers, when along came
the bullet and cut off the finger and spent
its force in the works of the watch."

"Later in the day," continued the nar-
rating, "I lay down during some heavy
firing, with my forehead touching the
butt of two alder bushes, when a bullet
buried itself directly opposite my fore-
head."

"The closest call I ever saw," said a
man of 45 years' experience in the navy,
who was with Porter during the civil war,
"was when a shell came along and
took off the head of the man next to me
and stunned me for 15 minutes. And yet,
while these escapes were constantly
occurring, other men seemed to be follow-
ed by a fatality to be wounded at every
engagement."

"I think I had the closest shave of you
all," came from another of the group.
"The governor of Maryland, who was my
friend, offered me the lieutenantancy of a
regiment then forming. I told him I had
but one good eye. I couldn't see to dodge
the bullets well enough. The friend who
accepted the offer was killed in the first
engagement of the regiment."—Washing-
ton Capital.

LOSS TO INSURGENTS.

Operations in Western Cuba Crippled
by Killing of Cassalles.

Childs Filibustering Expedi-
tion Comes to Grief.

Some of its Members Were Reduced to the
Verge of Starvation.

WASHINGTON, June 25.—Official con-
firmation has been received from Havana
as to the engagement between Major
Gaspar Delgado, with his Spanish com-
mand, and Cassalles, with insurgent
forces. Cassalles and two others were
killed and the band dispersed.

The engagement is said to have been
especially important because of its locality.
It occurred on the plantation of San Jose,
near Ploetas, province of Santa Clara.

This is the point nearest to Havana that
the insurgents have reached. There was a
decidedly gloomy feeling over their prox-
imity to the capital, because their com-
mander, Cassalles, first enlisted in the
Cuban volunteers in the service of Spain,
and afterward deserted to the insurgents.
His death, it is claimed, will break up the
operations nearest Havana.

Childs Expedition a Failure.

Word reaching official quarters in
Washington, indicates that the filibuster-
ing expedition which was believed to have
gone to Cuba on the steamer George
Childs has met with disaster. The boat
was located after reaching Jamaica, but
nothing definite has ever been heard at to
the party beyond vague statements that
they had landed at some remote point on
the Cuban coast.

The last of these reports was two weeks
ago on the 7th inst., since which time
there has been no mention of what the
band was doing. Information now reach-
ing officials here leads to the belief that
the party did not reach Cuba, but met
with disaster off Florida, resulting in ex-
treme hardship to its members.

Six of them have returned to Key West
in a ramshackle condition, having lived on
crabs in the marshes of the keys off the
Florida coast. From the fact that there
has been no trace of the party in Cuba,
the officials here believe that those who
have suffered such hardships in the key's
swamps are the main band of the Childs'
party.

In view of the developments as to the
Childs' filibustering party, it is not im-
probable that the United States cruiser
Raleigh will turn her attention to them.
She left Key West two days ago without
any definite orders, and it is possible
she has received the information
which now reaches here.

Which Is Right?

KINGSTON, June 25.—A dispute has
arisen here between the American and
Spanish consuls regarding the steamer
Bridgton, which put in here in a half-
drunken condition, when her captain saw
due to her having encountered a se-
vere storm. The Spanish consul here
alleges that the Bridgton is a filibusterer,
while the American consul and the cap-
tain of the ship deny the charge. The
only deny it. The British government
has refused to take any action against the
Bridgton, on the ground that no evi-
dence has been brought which shows that
she is a filibusterer.

Daily Provided For.

WASHINGTON, June 25.—Secretary Olney
has sent the question raised as to who
is to pay the expenses of employing cus-
tom house inspectors engaged in ferreting
out filibustering expeditions, by authoriz-
ing the use of so much as may be neces-
sary out of the fund of \$500 appropriated
to the diplomatic and consular approxi-
mation bill for the enforcement of the neu-
trality act.

More Tangled Than Ever.

ST. JOHN'S, N. F., June 25.—The govern-
ment was beaten on a snatch vote in the
assembly yesterday. Their prestige is fur-
ther damaged by statements copied from
Canadian journals that the Canadian pre-
mier, Bowell, recently stated that the
Newfoundland government had made sev-
eral applications to them for financial help
before the overtures for union began.

Gold Reserve Intact.

WASHINGTON, June 25.—The treasury
gold reserve, as the result of the Belmont-
McKean episode, is intact in \$1,000,000 in
gold yesterday, because intact again for
the first time since Dec. 14, 1894. It
stands now at \$100,530,353. There is still
owing from the syndicate \$9,000,000 in
gold.

For Two Reasons.

LONDON, June 25.—Lady Henry Somer-
set and Miss Frances Willard have inter-
viewed several government officials about
presenting the polygraph petition. They
met with rebuffs, owing to the ministerial
crisis. It is doubtful whether parliament
can accept a petition signed by aliens.

A FOE TO HUMANITY.

The Drink Traffic So Considered by the Order of Good Templars.

Great Progress Made In Mission Work Abroad.

Doings of the Supreme Lodge's First Day's Session at Boston.

Boston, June 27.—Immediately after the opening of the session of the Independent Order of Good Templars, Right Worshipful Grand Master De Mann appointed a credentials committee, who reported 200 candidates in waiting, and the candidates were initiated.

Joseph Mallin, right worthy grand counselor, in his report, gives an extended report of the various grand lodges of the Old World contributing to the mission funds, and dwells, to some extent, on the generosity of the grand lodges of Scotland and the grand lodges in the British isles.

The membership in the juvenile branch of the order as well as the adult shows a slight decrease in sections affected by the late financial depression.

All through the United States the order was neither gaining nor losing members.

The membership, according to the report, is 500,000, of which the juvenile branch claims 100,000.

There are 84 grand lodges, representing 1200 subordinate lodges, composed of nearly all the nations in the world.

The Order's Aims.

In his annual address the right worthy grand templar has drawn the attention of the members to the fact that though a loss in membership is reported, it should be put down as a gain when the experience of other organizations within the past two years is thought of.

Among other things he says: "We are not here to help our fellow men, but to devise ways and means whereby we may eventually throw the rum power overboard, and rid the world of the accursed international cancer."

"Should we not strive for that end with unceasing vigilance, when the flag of our proud countries float o'er land and sea with equal protection for the saloon and for our homes, churches and schools? Age, more, as by this to the saloon the danger to our homes, churches and schools is increased, and a withering blight flung in their pathway."

"We come together to open the 37th session of this international supreme body, for the purpose of legislating for the purity of our countries and homes, and protecting them from the poisoning pestilence of the drink."

In his report, an superintendent of missions for the western hemisphere Dr. Mann gives praise to several of the foreign missionaries.

Mission Work.

In regard to the mission work on the other side he has this to say: "I must be permitted to speak of the work of one of our lecturers on the other hemisphere. I allude to Sister Gray, who has done, in the face of untold obstacles and unpleasant opposition, a grand and praiseworthy mission work. She has traveled in foreign lands, introduced and planted the order where it had few or no friends, worked in different tongues, translated our rituals, etc."

"She has been instrumental in establishing the order in Holland, Switzerland, Bavaria and Saxony, among people to whom total abstinence was a new revelation, and, moreover, has done some very effective work in Paris."

In closing his address Dr. Mann paid particular attention to giving praise to the entire executive of the supreme lodge.

After the appointment of the committee was voted to hold sessions daily from 9 to 12 a. m. and at 2 to 5:30 p. m. and in the evenings. No session, however, will be held Thursday morning. After the further transaction of business the lodge adjourned for the day.

Harvard Commencement.

CAMBRIDGE, June 27.—The Harvard college class of '96 yesterday graduated 908 men. Besides the usual graduating exercises, the board of overseers had the regular commencement day meeting, the different college classes had spreads and the alumni ended the formal observance of the day by the annual dinner. Several men of note, according to the custom, received honorary degrees. The degree of LL.D. was conferred on Charles Francis Adams, '96; John Chipman Gray, '96; Fitzward Hall, '61; Alfred Oliver Wendell Holmes, '61; Alfred Thayer Mahan and Sir Frederick Pollock. The honorary degree of D.D. was conferred on Rev. George A. Gordon, D.D. These gentlemen received the honorary degree of A.M.: William Astor Chandler, George Dock, Wendell Phillips Garrison, '61; Joseph Jefferson, the player, and Roswell Park.

The Gilbert Trial.

BOSTON, June 27.—In the superior criminal court yesterday, after Mrs. Sterling, the mother of the murdered girl, had finished giving her direct evidence, she pointed her finger at Gilbert, the prisoner, and said: "That man has killed my darling child." The outburst took everybody by surprise, and there was a silence of several seconds before the cross-examination resumed. Mrs. Sterling became hysterical, and several times pointed to Gilbert, charging him with the murder of little Alice. During the entire time Mrs. Sterling was on the stand, she never took her eyes off the prisoner. The latter stood the ordeal well. Mrs. Sterling's evidence closed the case for the commonwealth.

Charged With Incendiarism.

EXETER, June 27.—A year or more ago the buildings of John H. Thyng at Brentwood were burned under mysterious circumstances. Yesterday Edith

U. Thorne, a girl of 14, was arrested at East Hampton as the incendiary and is now lodged in Exeter jail. For three years she was a servant in the Thyng household. Although so young, she was married a few months ago.

Coroner Will Investigate.

AMESBURY, June 27.—There is yet no solution to the mystery surrounding the death of Otto France, whose body was found at Sandown, N. H., on Sunday. The murder theory is still entertained by many. County Commissioner Hoyt has empaneled a coroner's jury and the inquest will occur at once.

Denies Wrongdoing.

PROVIDENCE, June 27.—The defense in the Dexter Cockcroft \$20,000 alienation case was heard in the common pleas yesterday. Mrs. Dexter taking the witness stand to deny the allegations made by her aged husband. She said she had never been intimate with Cockcroft, and that her husband had treated her harshly.

Bad Note For \$8000.

WILLIMANTIC, June 27.—A forged note for \$8000 on the town of Windham was presented to Selectman Barrows yesterday for collection. It is signed by O. H. K. Risley, former cashier of the First National bank, and bears post-imitations of the signature of the treasurer of the town. I. A. Culverhouse, who succeeded Risley as cashier, discounted the note to the First National bank of Rockville shortly before the closing of that bank by Examiner Dewey. Culverhouse is now on his wedding tour.

The Yale-Harvard Race.

GALES FERRY, Conn., June 27.—Harvard men are elated over the crew's performance yesterday in doing a half mile over the slowest part of the course in 2m. 42s. The crew's stroke varies from 34 to 38, while Yale runs considerably slower, the highest they have attempted being 35. Indications point to an attempt by Harvard to set a hot pace from the start, spurring to get a winning lead early in the race and trusting to their powers of endurance to keep ahead.

A Bad Smashup.

AMESBURY, Mass., June 27.—Four persons were seriously injured in an electric car accident, on the Haverhill and Amesbury Street railway, about two miles from here last night. A car ran into a heavy two-horse-draw. It struck the draw with great force, smashing in the forward part of the car and throwing the passengers violently to the ground. The draw was wrecked.

Distinguished Visitors.

BUZZARD'S BAY, June 27.—Secretary and Mrs. Carlisle and Secretary and Mrs. Morton arrived at Buzzard's Bay yesterday afternoon. They are the guests of the Misses Hamlin, sisters of Assistant Secretary Hamlin. Mrs. Cleveland remained at Buzzard's Bay yesterday to enjoy the harvesting of the bay crop.

Attack of Lepthophobia.

SOMERVILLE, June 27.—The city council last evening voted to investigate the manner in which the business of the committee on highways and of the superintendent of streets had been transacted. The investigation is a result of the recent purchasing of a stone crusher by Superintendent Eames.

Family All Remembered.

ARISTIDA, June 27.—The will of the late Hon. Hall C. Burleigh, after disposing of personal effects, divides the remainder of the estate into 66 shares, 12 shares going to his widow and the other 54 being equally divided among his five daughters and ten sons. The estate is estimated at \$50,000.

Lowell Found Not Guilty.

KENNEBUNK, Me., June 27.—Rev. Walter W. S. Lowell, who was tried by a council of Baptist ministers, charged with falsehood, misrepresentation and having an ungovernable temper, was yesterday adjudged not guilty. Mr. Lowell has handed in his resignation to take effect Aug. 1.

Radiator Fell on Him.

LYNN, June 27.—John Harrison, employed by the L. A. May Furniture company, was fatally injured by a 1200 pound radiator falling on him. Albert T. Connor had a leg broken. The men had upended the radiator in order to put tackle around it when it fell back upon them.

A Fair Offer.

NEWPORT, June 27.—It is reported that the Herreshoffs of Bristol have made an offer to the government to build a torpedo boat for the current month will exceed the expenditures. The treasury balance sheets for the month now show a surplus instead of a deficit, and as the expenditures are unusually light toward the end of the month, it is expected that the surplus will continue to grow from now until July 1. The treasury is \$46,221 behind in the matter of receipts and expenditures for the current fiscal year.

Editor Will Live.

SOUTH BEND, O. E., June 27.—R. W. Patterson, register of the United States land office at this place, and City Marshal Williams, died, while J. L. Isenberg, editor of The Daily Wave, is badly wounded, the result of a street fight last evening. Isenberg will recover. The cause of the tragedy was a criticism of Patterson written by Isenberg on his paper.

Wrylaid by Enemies.

GAINESVILLE, Fla., June 27.—F. R. Anderson, who has been receiving secret information and letters from Cuba, left his boarding house, saying that he was going for another Cuban letter. Pistol shots were heard shortly afterward, and on investigation Anderson was found, face downward, on a vacant lot unconscious. The cause of the affair is a mystery.

Completely Broken Down.

NEW YORK, June 27.—Dr. Buchanan, the wife-murderer, has given up all hope of being saved from the death chair. His lawyers have given up the fight for his life, as Buchanan has no money with which to carry on the fight. Buchanan is completely broken down.

A HOSTILE MAJORITY.

Salisbury Ministry Find They Have a Hard Road to Travel.

Dissolution Is Likely to Occur Within a Week.

National Liberal Federation Gives Notice of Its Intended Program.

LONDON, June 27.—Conservative leaders seemed to have opened Pandora's box in forcing the Rosebery government to resignation. The latter have clearly the best of the situation.

Lord Salisbury is compelled to make a cabinet with a hostile majority, and as events are now trending, will be obliged to go before the country with at least some indication of policy about present burning social questions.

Joseph Chamberlain, having precluded the present situation, has been disappointed in his ambitions. He demanded the chancellorship of the exchequer, but Lord Salisbury refused and offered him the secretaryship of state for the colonies which he unwillingly accepted.

The fact that Lord Dufferin has been summoned from Paris has excited some uneasiness. It transpires that the present state of relations between this country and France is serious. If not threatening, it has been suggested that Lord Dufferin has been asked to undertake the lord-lieutenancy of Ireland, but the fact is that he cannot be permitted to leave Paris until the Anglo-French relations are much improved.

Mr. McCarthy last night issued an appeal to Ireland to start a special election fund, and it is said that Edward Blake, M.P., formerly from Canada, has opened it with a personal subscription of \$500.

Blake will probably be asked to contest Derry City, which the Nationalists hope to win from the Tories. The McCarthy calculation is that they will win three seats from Redmond and five from the Ulster Tories, while they may themselves lose two; so that they expect a net gain of six. This is provided Healy does not raise a flag of revolt, which up to the present time he has shown no signs of doing.

Dissolution Next Week.

According to the latest information, dissolution will take place next week. The members of the McCarthy party have nearly all returned to Ireland to make preparations for the struggle. Redmond has stated that he will contest every seat in Ireland, which declaration might be interpreted that he is receiving other than Irish financial support.

Baron Halsbury has been appointed lord chancellor in succession to Lord Herschell, and Austin Chamberlain, Joseph Chamberlain's son, will probably be junior lord of the treasury.

The Times says that Lord Salisbury offered the chancellorship of the exchequer to Mr. Goschen, but he preferred the admiralty office.

It is noteworthy, says The Times, that Sir Michael Hicks-Beach (who has been chosen for chancellor of the exchequer), is free from currency heresies.

Four Irish sympathizers have guaranteed \$20,000 (\$10,000 to the anti-Parnellites for an election fund).

The National Liberal Federation Manifesto says that home rule is the first and foremost of measures to be pushed, and there are also mentioned the employers liability bill, the Welsh church disestablishment bill, the Irish land bill, the one man and one vote bill, the local veto bill (local option), the factory and workshop bill, and sweeping reforms for dwellers in towns and country are demanded in the interest of the whole nation.

Perhaps the most important feature of all in the manifesto is the insistence that the policy formulated in the Leeds program shall be persevered in until it is established beyond all question that where the two houses of parliament come in conflict the will of the representative chamber shall prevail.

Conservative leaders, seemed to have opened Pandora's box of troubles in forcing the Rosebery government to resignation. The latter have clearly the best of the situation.

Encouraging Figures.

WASHINGTON, June 27.—For the first time in many months the treasury receipts for the current month will exceed the expenditures. The treasury balance sheets for the month now show a surplus instead of a deficit, and as the expenditures are unusually light toward the end of the month, it is expected that the surplus will continue to grow from now until July 1. The treasury is \$46,221 behind in the matter of receipts and expenditures for the current fiscal year.

SWITHIN BROS., Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 80 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 70 lots.

Also a few lots off Bates avenue.

WOLLASTON.

A few desirable lots in Wollaston on Hancock street, opposite entrance to Merry Mount Park.

Will be on land at Presidents' Hill every afternoon from 2 to 4. Parties desiring lots or any information on the above properties, please call at Room 12, Durgin & Merrill's Block.

EDITORIAL COMMENTS.

THE N. Y., N. H. & H. management, or, to put it more definitely, Supt. Sanborn, is coming in for some pretty strong censure on the way the 5.20 p. m. outward train is made up. It has been from one to two cars short every night, compelling from 50 to 125 people, including a large number of ladies, to stand from Boston to Wollaston and Quincy. That is not right, and in view of the sharp electric competition with which the road is having to contend, shows that there is short sighted management somewhere. If the road thinks that it has a cinch on the local traffic it will find, when it is too late, that it has made a serious mistake. If the management does not remedy the difficulty the railroad commissioners are to be appealed to.

THE CLASS OF 1895.

Graduating Exercises at the Quincy High School.

ADDRESS BY GEO. H. MARTIN.

Sed Quid Temptare Neebit the
Motto; White the Color.

The graduating exercises of the Class of '95 of the Quincy High School were held Wednesday evening, in High school hall, and the class has the distinction of being the first one to be graduated from the grand new building. Not only has the class had pleasant surroundings, but the study room of the building provided the best hall which any of the recent classes have had for graduating exercises; large and attractive with good acoustic qualities. Of course there was a full house, but not the appearance of such a crowd as in Hancock hall or the old Town hall. The hall was prettily decorated and all the surroundings tended to make the graduation a success.

Heretofore all graduates have taken individual parts, and every member was qualified to speak this year, but in view of the increasing numbers an innovation was made; the number of speakers being reduced, and an address by Mr. George H. Martin being included. More time was also offered for music, and a strong programme was presented under the direction of Mrs. L. C. Smith.

The graduates of the regular course numbered twenty-five as follows: Eva Bassett, Lillian Kimball Bates, Daisy Claire Bemis, Anastasia Luella Bryan, Eva E. Bryant, Mary Agnes Cashman, Mary Coyle, Mary A. Dinne, Eloise Perry Flood, Ellen M. Greany, Ellen Gertrude Haley, Laura Jane Jones, Mary Beatrice Keating, Mary Josephine Leary, Daisy Maud Lowe, Sarah Constance McGovern, Mary Laura Pierce, Catherine Capen Pope, Alice Farnum Sampson, Mary Frances Sampson, Mary Rosella Sullivan, Ida Laverna Thomas, Barbara Earle Vogler, Annie Zita White, John Barry.

There were also ten graduates in the business course: Edith Rowe Graham, Gertrude White Hall, Alexander Charles Marnock, James Edgar McInyre, Dale Mudgett, Dora Mildred Mudgett, Alfred Nelson, John Warren Northcott, John Fidele Provano, Walter Louis Winlock. The programme was as follows:

1. Music, "The Dawn of Day," Arranged from Samuel Reay By the School.
2. Salutatory, "The Unruly Member," Mary Frances Sampson.
3. Class History, Catherine Capen Pope.
4. Music, Barcarole from "La Muette de Portici," Amber Violin Obligato by Mr. Joshua E. Hanson.

By the French Classes.

5. Address to Undergraduates, Mary Beatrice Keating.
6. Debate, "Resolved, That the New Education is Superior to the Old," Daisy Claire Bemis, Alice Farnum Sampson, Affirmative. Ellen M. Greany, Mary Agnes Cashman, Negative.

7. Music, Vocal solo, "Tell Me, O Bird of the Merry Green Wood," Franz Abt, Eloise Perry Flood.
8. Valedictory, "Ideals," Sarah Constance McGovern.

9. Music, (a) "Hymn of the Fisherman's Children," From "Zampa" By the School.

Assisted by the High School Orchestra: Mr. Joshua E. Hanson, Misses Dargin, Laing, Lord and Perry; and Messrs. Kelly, Marnock and Mitchell.

- (b) "Union and Liberty," F. Flood Words by Oliver Wendell Holmes By the School.

10. Address, Mr. George H. Martin, Member of the Board of School Supervisors, Boston.

11. Music, Class Ode, tune, "How can I Leave Thee?" Words by Ellen M. Greany. By the Class of 1895.

12. Presentation of Diplomas, Emory L. Crane.

13. Music, "High School Bells," A. F. Lord Words by Frederic Allison Tupper, High School. Solo, Miss Flood. Duet, Misses Flood and Bates. By the School.

Class color, White.

Class motto, "Sed Quid Temptare Neebit."

Director of Music, Mrs. L. C. Smith.

Accompanist, Miss Daisy C. Bemis.

Leader of Orchestra, Mr. Joshua E. Hanson.

The LEDGER wishes that it might present each individual part. The salutatory, class history, address to undergraduates and the valedictory were all excellent, but considerable interest seemed to centre in the debate, and the arguments will be published in full, beginning in the LEDGER tomorrow. The other parts will be found in full in the July Golden Rod.

The vocal solo by Miss Flood captivated the house, and the applause was long continued.

Mr. George H. Martin

Was happily introduced by Superintendent Lull. He said it was a pleasure to accept an invitation to be present, as it was in Quincy he began as principal. That was the old education sure. The country was indebted to Quincy for the inspiration given to education. Why was it not hall

was large enough to accommodate all who wish to attend High school graduations. Not because it was a free show, but because the graduates were our boys and our girls; the whole community were interested in them. It was the public schools, and public schools were for the public good. True the expense had increased until Massachusetts now expends ten millions annually. But the money is wisely spent. Learning is profitable. That is the principle. How wise the fathers were and how true they acted. No man lives to himself. All use the fruits of others learning. Nature's secrets and powers are open only to trained minds, and many were yet to be revealed. Many were today giving their children a better chance in life than was offered them. This is what the public schools are doing socially. They are also taking all nations and Americanizing them. No one pretends we are more intellectual today, but there has been progress socially. All the new studies have a wide public benefit. He told the class of 1895 that they were specially favored, reminding them of the large number who had begun school life at the same time who had been unable to continue at school. They had received freely and were expected to give freely to the community.

Joseph M. Sheahan, M. D., was expected to present the diplomas but at the last moment he was unable to be present, and Emory L. Crane, the chairman of the Class Committee, took his place. He modestly said he did not fill it, but school and audience were pleased with his remarks. The graduates should not consider that they had finished their education but that they had been taught to teach themselves. He congratulated the young ladies and the young men, and his closing wish was, may you live long and prosper.

Each graduate was applauded when the diplomas were presented, and the young man very liberally.

Two of the songs were original. The class ode by Miss Greany will long be popular with the class, and "High School Bells" published by Mr. Tupper and dedicated to the class will doubtless be sung at many graduations, as it met with favor. This evening the class of 1895 give a reception and dance at High School hall.

Presentation to Miss Jessie Prince.

Miss Jessie Prince, for eight years supervisor of drawing of the public schools of Quincy and Milton, was presented with a beautiful gift on yesterday afternoon, at the Codington schoolhouse, before a happy assemblage consisting of the Superintendent, Mr. H. W. Lull, together with the teachers of the Quincy schools over which her jurisdiction reached.

The event was the severing of the connection of Miss Prince with school life, on the occasion of her marriage with Dr. Frederick Rice, a prominent young physician of Brighton.

The gift consisted of a beautiful Mexican onyx and gilt pedestal an onyx and gilt banquet lamp to correspond and a very choice piece of Royal Dresden in the form of a vase.

Mr. Lull in his usual off-hand, genial way made the little presentation address. He opened his remarks by telling why he had assembled the teachers, as though it were an ordinary teachers' meeting. He told why he thought it advisable for them to meet together at the end of the school year as well as at the beginning as just now they know best their successes and failures and how best to plan for the ensuing year. "Now," said he, "is the time to make our good resolutions for the coming year."

Finally he came to the point of the meeting, and told how he had commanded Miss Prince to "assemble herself" at the Codington School house, Quincy, at 4 o'clock on Tuesday afternoon. This he said, was the only command he had ever made to her, and he emphasized it with a ten cent stamp. He reviewed briefly her work in her specialty in Quincy, telling how she had been pioneer in her work and to what a noble climax she had brought it. Miss Prince was the first to text book in drawing, and to introduce in their stead blank paper, teaching the pupil to draw what he could see for himself instead of what he could copy from the flat page. Today, so great has been the following in this good work, that one may count upon the fingers of one hand the towns in Massachusetts in which the old fashioned text books are in use.

Miss Prince replied, in accepting her gifts with their accompanying good will, in a few well chosen and appreciative words. May God bless and prosper her in her new field, and may all the happiness which now appears in her horizon, increase and ascend to the zenith of her life.

QUINCY BREVITIES.

Notes from Quincy Point, Wollaston, Atlantic, South and West Quincy.

A young lady clerk is advertised for.

The committee on Sewers and Drains of the City Council met Wednesday evening.

The street railway are now selling 100 ride books on the Houghs Neck line for \$5.

Charles H. Johnson sold today the estate of John Gray on Main street to E. W. Newcomb.

The Quincy graduates from Harvard this year were Delcavere King, R. S. Pitts and J. T. Whichever.

W. F. Lofgren is building a fine large house and stable on Willard street for Robert J. Teasdale.

Many members of the local lodges of Good Templars will attend the picnic at Downer Landing Friday.

A delightful shower at noon but it should continue two days and two nights. Perhaps we will get more today.

The class ode of the High school graduates carried the class of '77 back to old times, for it was to the same tune.

It is expected that nearly 200 entries will be received for the 12 mile bicycle race in Quincy on the morning of July 4.

The steamer City of Quincy makes a moonlight excursion tonight to Minot's Light and on Saturday to the floating theatre.

Only one boy graduate, and he not large enough for a short stop, was the remark of one of the gentlemen at the High school graduation last night.

During the coming summer the basement of the St. Chrysostom church will be fitted for occupancy and ready for the Sunday school session beginning Sept. 1st.

It was reported Wednesday that the Mr. Shaw, injured in the railroad accident at East Milton was Mr. John Shaw of Quincy. It was not, however, for the gentleman injured came from Forest Hills.

The shoe manufactory of John E. Drake on Summer street was entered by burglars Wednesday night and 24 pairs of shoes stolen. Entrance was made by breaking a window.

Only two of the trains to Boston on week days stop at all the stations. Six do not make a stop while six others stop but once. With 32 trains Quincy is at present very well accommodated.

It is possible that the Quincy & Boston may be able to run its cars to the Braintree churches and if it does so they will issue an eight cent transfer to South Braintree or Weymouth Landing.

Surprise for Teachers.

The teachers of the Quincy school were the recipients of a very pleasant surprise Wednesday noon. Mr. Natt Churchill, the janitor, desired in some way to express his esteem for the teachers, so he enlisted the interest of his niece, Mrs. Mabel Ramsdell, and together they prepared as fine a collation as was ever spread in Atlantic. The table was laid in the school hall at noon and three or four invited guests came in to help on the fun.

The merry hour was all too quickly passed and then Principal Litchfield and Rev. Mr. Yeoman expressed in warm terms their thanks to the givers. As the company adjourned many warm words in praise of the janitor were spoken by the various teachers. It is the wish of all Atlantic that the present force at the Quincy school may all be retained for next year.

Recognition of Pastor.

A service of recognition of the pastorate of Rev. C. A. Parker, over the Calvary Baptist Church, will be held in Dobie's hall on Friday evening, June 28, at 7.30. The sermon will be preached by Dr. Blackburn of Cambridge. Other addresses will be "The pastor at work," Rev. J. B. Wilson of Dorchester; "The church that draws," by Rev. L. S. Bowerman of Randolph; "Welcome to the Association," by Rev. J. W. Brigham of Boston; "What a church stands for in the community," by Dr. Eaton, state secretary of Baptist Missions. A cordial invitation is extended to all the churches and friends of Quincy to be present.

Sunny Hour Club, Wollaston.

The members of the Sunny Hour club, connected with the Unitarian society, gave a delightful reception and entertainment in honor of their parents at the church vestry on Wednesday evening. The programme, which was followed with refreshments, included:—

Nervousness

Cannot be permanently cured by the use of opiates and sedative compounds. It is of opiates and sedative compounds. It is too deeply seated. It is caused by an impoverished condition of the blood, upon which the nerves depend for sustenance. This is the true and only natural explanation for nervousness. Purify, enrich and vitalize the blood with

Hood's Sarsaparilla

and nervousness will disappear. Hood's Sarsaparilla will give vitality to the blood and will send it coursing through the veins and arteries charged with the life-giving, strength building qualities which make strong nerves. If you are nervous, try Hood's Sarsaparilla and find the same relief of which hundreds of people are telling in their published testimonials. Get

Hood's Pills

HOUGHS NECK.

The Sea Side Colony Putting on
Summer Activity.

Another week will see the great incoming
tide of summer residents, for this week the
schools in nearly all places close their
doors for the summer vacation and then
it is that people pack their trunks and
head for the shore. Many people have
already arrived and each pleasant day sees
others wending their way toward this
pleasant summer resort. There are, how-
ever, many cottages yet unoccupied,
although the larger part of them have
been engaged and from all indications this
year will be one of the most successful
at Houghs Neck.

Frank Ryder and family of Somerville
are at the Englewood cottage.

Money enough has been raised to
water the streets and it will be done as
soon as the city water is turned on.

Mr. Hartford of Ashmont is in a cottage
in Great Hill.

Work breaking up the old Katahdin
has not commenced as yet, as it is thought
it will be purchased and made into a
barge.

Mrs. John O'Neil of Roxbury is at
Warren cottage.

The residents of the Neck are fortunate
in always being able to obtain fresh fish
and lobsters at George W. Peterson's market.

Mrs. Laura Eastman is at Dot cottage
and has as guests Mr. Matthew Macomber
and Mr. Warren.

Mrs. Leonard of the Woodbine cottage
is entertaining friends from Pennsylvania
this week.

COLD WATER BANQUET

A Feature of the Good Templars' Convention at Boston.

General Neal Dow Tendered an Ovation.

Leaders in the Temperance Army Eat, Drink and Make Merry.

Boston, June 28.—The banquet extended by the grand lodge of Good Templars of Massachusetts to the officers and representatives of the international supreme lodge of the order took place last evening in Copley hall, and was a most successful affair. Plates were set for 1000 persons, and nearly that number were present.

The affair demonstrated clearly what some are disposed to deny, that a "cold water" banquet can be thoroughly enjoyable and delightful. The feast of reason and flow of soul which followed the viands of a more material nature made the occasion one of the pleasantest in the history of the supreme lodge conventions.

Willard O. Wyllie formally welcomed the visitors in behalf of the grand lodge of the state, and introduced Brother William Leonard, P. G. C. T., of Salem, as toastmaster.

Mr. Leonard extended a hearty greeting to the Good Templars. Mr. Leonard expressed his regrets at the absence of several of the speakers, and then called for the first toast.

Dr. Mann of Brooklyn responded to "The International Supreme Lodge." Dr. Mann devoted himself mainly to a cursory review of the history of the order. He said it began its courtship in New York state in 1841, and was married to the cause of total abstinence in 1853.

Since that time over 8,000,000 people have taken the pledge. Its membership includes men in every walk of life, lawyers, ministers, tradesmen, soldiers, sailors and statesmen, including a great many members of congress, and several vice presidents.

John D. Baker first mayor of Beverly, responded to the toast "The Commonwealth of Massachusetts." He spoke of the early days of the order.

Dow Heartily Welcomed.

Neal Dow was next introduced as the "Grand Old Man" of America, the "Captain of the Old Guard," whose watchword was "Never Surrender." At the call of the chairman, three monstrous cheers and a tiger were given for Neal Dow.

Mr. Dow, in response to the toast of "The Old Guard," began with a story about Mr. Rush, who, in the frigate Constitution, went to England on state business. The frigate on leaving met with a terrible storm in the channel. The officers finally gathered on deck in despair. The boatswain was asked for advice and bluntly counseled the hoisting of the mainsail. It seemed almost mad proceeding, but the ship got away into the open ocean and was saved.

The temperance cause is not in a very good state in this country, and especially in Massachusetts. What is needed is to hoist the mainsail on the prohibition vessel, in other words, to meet the enemy at the polls with Christian votes, squarely and boldly, and vanquish the liquor interests there.

Mr. Dow said that the Democrats in Maine once thought the people wanted prohibition repealed. Every effort was made, and the usual elaborate campaign followed. When the election was held it transpired that out of 31 state senators, the Democrats did not elect any. That was an emphatic declaration that the people of Maine did not want grogshops.

When the Ladies' convention was speaking, the audience refused to be quieted until he came out again and addressed them.

In response to this hearty reception, Mr. Dow quoted from the Christian of "The City of Boston," brought the greetings of the mayor, and expressed his hearty sympathy with the work of the order. Among other things he said that there were no barmaids in this country.

J. Turner Rogers responded to the toast "India." He told of the introduction of the order into India by Rev. Leonard Hill. Willard O. Wyllie responded for "The Grand Lodge of Massachusetts." Before being allowed to speak he was greeted with three cheers and a tiger. Joseph H. Malins of England responded for "England and the Continent."

Miss Agnes Sutherland of Scotland responded for "The Sisters," and Congressman Nelson Dingley, Jr., of Maine spoke for "The United States." W. B. Hannon of Jamaica spoke in behalf of his jurisdiction, and told the story of his conversion while an English sailor. Mrs. Othella Myhrman, secretary of the order, said that there were 200,000 members of the order who could not speak English.

Rev. Alfred Noon, secretary of the Total Abstinence society, spoke for "The Sister Societies." The rest of the toasts were as follows: "The Subordinate Lodges," Joseph A. Fanny of Boston; "The Juvenile Department," Miss Jessie Forsyth, Boston; "The International Character of Our Order," Louis Beauchamp, Hamilton, O.; "The Invited Guests," George B. Katzenstein, Sacramento.

Defenses' Claim in Gilbert Case.

Boston, June 28.—When court opened in the Gilbert murder trial yesterday Lawyer Doherty, for the defense, announced that, in consequence of the frenzied utterances of Mrs. Sterling, mother of the murdered

girl, made Wednesday at the close of the case for the commonwealth, he has filed a motion requesting that the case be taken from the jury, on the grounds that such utterances would prevent the rendition of an impartial verdict. The jury retired while the lawyer presented his motion in full, which, after considerable discussion was denied.

Infant Murdered.

BRATTLEBORO, Vt., June 28.—Stella Deane, a domestic employed by Fred Wilson, was arrested yesterday charged with the murder of her illegitimate child. Charles D. Rice is also under arrest, charged with being an accessory to the murder and father of the child. The child was found in a starch box in a lot of rubbish on the bank of Sutton's river June 12. The body was that of a well-developed male child. Around the neck was a piece of apron string drawn so tight that it had evidently caused strangulation.

A GALLANT CONTEST.

Yale's Spurt Won the Freshmen's Triangular Race at New London.

NEW LONDON, June 28.—Yale pluck rescued another athletic event from the clubhouse of Harvard again here in the triangular freshman race between Yale, Harvard and Columbia.

It was far and away the grandest exhibition ever given of freshmen track in the history of American university rowing, and was won only after the gamest uphill fight ever witnessed here.

Columbia took the lead at the start. Harvard passed her less than 100 yards from the beginning of the race and held till just as the mile post was passed. Yale then secured a slight lead, but Harvard apparently pulled ahead again and led till the last mile. Then Yale made a heroic spurt, and finished a winner in the closest race ever rowed here and in the hardest freshman race known. The official time follows:

Yale.....10:28
Harvard.....11:33
Columbia.....11:54

Yale pulled uniformly a 38 stroke, Harvard a 40 to 41 and Columbia a 38 to 40.

George Adee, official timekeeper, says Yale's time at the mile was 4m. 58s., Harvard's 4m. 58 1/2s. Yale was only 10 feet ahead.

Expired at the Wheel.

GLOUCESTER, June 28.—A letter reports that Captain Joseph Ryan of the schooner A. D. Story died on board while on the fishing grounds at Iceland. The crew had left the vessel to attend to a net, leaving no one on board but the captain and cook. The vessel was under way, and a strong breeze sprang up, when the captain, who was at the wheel, suddenly expired.

Woman's Relief Corps Officers.

FARMINGTON, Me., June 28.—The 13th annual convention of the Woman's Relief Corps of Maine closed last night. The following officers were elected: President, Mrs. S. L. Pascal, Rockport; vice-president, Mrs. L. A. Hickford, Auburn; chaplain, M. I. P. Wing, Moulton; conductor, Mrs. Huff, Portland; guard, Mrs. L. M. Kinney, Waterboro.

A Social Call.

BUTZARD'S BAY, June 28.—President Cleveland yesterday received a call from Secretary Carlisle, who came over from Marion on the government steamer Verben. The visit was merely of a social nature. Secretary Morton did not accompany Mr. Carlisle, but enjoyed a fishing trip down the bay from Marion.

Met Off Nauseat.

BOSTON, June 28.—Schooner Lamper, reported here in collision with the schooner Fred Jackson off Nauseat. The Lamper was standing down on a southwest wind, when suddenly the Jackson loomed up ahead, and the collision occurred. The Lamper sustained damage estimated at \$1000. The Jackson was not badly hurt.

Ways Completed.

BRISTOL, R. I., June 28.—The work on the ways to be used in launching the Defender was completed yesterday afternoon, and what work remaining to be done can be finished just as well with the boat in the water. Everything is in readiness for the launching.

Seeking a Pardon.

BOSTON, June 28.—Stearns Kendall Abbott, serving a life sentence in the state prison for the murder of Mrs. Maria S. Crew of Groton, in 1880, has petitioned for a pardon. Many prominent people recommend the granting of the same.

Missed His Footing.

BROCKTON, June 28.—Charles Willis of the Brockton baseball team, tried to jump on the front platform of a moving electric car and fell under the wheels. His left arm was broken and he was badly bruised.

New England Briefs.

Flint Bros' shoe factory at Salem was damaged by fire. Joseph D. Burke was appointed assistant keeper of the light station at New London. Several mills at Fall River were compelled to shut down on account of a circus being in town.

THE POLICY OF PARNELL

The Proper One for Irishmen to Follow, According to Redmond.

Chamberlain Urges an Immediate Dissolution.

Salisbury-Bannerman Episode Brings Forth an Apology From the Premier.

LONDON, June 28.—John Redmond has issued the manifesto to the Irish people, declaring that the Liberals quitted office without the slightest explanation to the Irish people, and with neither a promise nor a guarantee for the uncertain future nor a suggestion of an apology for the shameless past.

The lesson of all was clear, distinct and emphatic that they must revert to Parnell's policy and have a national representation independent of all English parties, having regard alone to the Irish sentiments and Irish rights.

Chamberlain's Side.

Mr. Chamberlain has issued an address to his constituents in West Birmingham. Its tenor is similar to that of Mr. Balfour's address. The new colonial secretary emphasizes the necessity of dissolving parliament at the earliest time possible. He blames the Liberals for not dissolving parliament. He adds that the policy of the new government cannot be suitably discussed until after the dissolution, but he declares that the Unionists are absolutely agreed, if the elections place them in power, to lay aside the wild projects of constitutional change and constructive legislation forming the staple proposals of the last government and to devote their principal attention to constructive measures for social reforms. At the same time they will prepare to maintain the defensive resources of the empire and to seek by all legitimate means to extend British influence and commerce in the vast regions under the British flag.

Mr. Chamberlain will make no further address to the electors previous to his nomination.

Inquiries show that the appointment of Chamberlain as secretary of state for the colonies is met with great satisfaction in colonial circles. Chamberlain has always been favorably disposed towards the colonies, and recognizes the importance of strengthening and developing their resources. The various colonial agents in London are making arrangements to visit and take leave of the Marquis of Ripon, the retiring colonial secretary. They will afterwards visit Chamberlain.

The Salisbury-Bannerman Incident.

In the house of lords yesterday Premier Salisbury announced that he hoped to obtain the queen's consent for a dissolution of parliament on July 8.

Lord Salisbury said the time had not yet arrived for a declaration of policy to be made in behalf of the Conservative party. The latter, he added, only had one policy at present, and that was to dissolve parliament as soon as possible.

Lord Rosebery expressed surprise at the government declining to disclose its policy. Continuing, the ex-premier asked for an explanation of the Marquis of Salisbury's strange proceedings in sending to Mr. Bannerman, the secretary of state for war, on Tuesday, for the seals of the latter's office.

The Marquis of Salisbury said that Lord Rosebery's statement was incorrect. What occurred was that after Friday's vote in the house of commons he (Salisbury) thought it desirable to appoint a new minister for war forthwith, and therefore he sent to Mr. Bannerman to ask him if it was convenient for him to deliver his official seals to the sovereign earlier than the other ministers, and if he did not desire the trouble of going to Windsor himself he could deliver them to his (Salisbury's) private secretary.

The Earl of Kimberley asserted that the Marquis of Salisbury had sent his secretary to Mr. Bannerman just as he would send a footman on an errand, and he thought the action of the marquis was extremely discourteous.

In reply, the marquis said that if Mr. Bannerman thought the marquis had acted discourteously he begged to express his extreme regret for the occurrence and felt very sorry for it.

Lord Rosebery accepted the apology of the Marquis of Salisbury on behalf of the late secretary of state for war, and the house adjourned.

Coasting.

On September 15, at Waltham, in a coasting tournament wherein seven or eight of the leading bicycles were represented, "The Spalding" finished first, second and third. The greatest tribute to the coasting ability of "The Spalding" Bicycle was paid by Capt. Allen of Philadelphia. On the trip to Glen Summit he was the only one able to come down the mountain without a mishap, which feat

in itself should clearly establish the superiority of "The Spalding" at coasting, when the extraordinary declivity of Glen Summit is considered.

QUINCY BREVITIES.

Notes from Quincy Point, Wollaston,
Atlantic, South and West Quincy.

The watering carts are taking a rest.
Quincy Yacht club race at 3 o'clock this afternoon.
J. P. Clark of Walker street, is to move to Norfolk, Va.

Superintendent and Mrs. B. J. Weeks are in Exeter, N. H.

A number of Atlantic people went on the Neponset excursion Thursday.

Mr. J. J. Taylor of Atlantic is confined to his house with rheumatism.

Mrs. James Pollock of New York is visiting her parents in this city.

The unknown man killed by the cars Monday night will probably be buried today.

B. F. Fay & Co., of Boston, began work today on the new pier for the Squantum Yacht Club.

Mr. and Mrs. E. H. Sanborn of Wollaston are expected home from their southern trip today.

The City Treasurer will pay the State Aid on Saturday forenoon, as the office closes at 12 o'clock.

Frederick J. Mills, Lieutenant Governor of Idaho, made his brothers, F. R. and C. P. Mills of Wollaston, a brief visit this week.

Work on the East Milton extension was commenced at West Quincy this week and the rails are now laid as far as Crescent street.

Handsome new signs placed on Durgin & Merrill's block today announce that Swithin Bros. have a real estate office in the building.

Miss Rose McCambly has returned to her home in Cambridgeport, after a few days' visit with Mrs. Ellen Slavin of Charles street, Atlantic.

Boom Quincy granite! No better granite than Hardwick's was ever quarried, and we are pleased to call attention to their advertisement today.

The report of Engineer Noyes to the City Council relative to a sewer system will appear in full in the PATRIOT this week. Voters should read it carefully.

On and after this day all Boston trips of the steamer City of Quincy will be discontinued. Don't fail to take the excursion to the floating theatre on Saturday evening at 7.15.

Messrs. William Cannon, George Hardwick and Frank Walsh are to spend Fourth of July week at one of Stanley Mears' cottages, opposite the Club house, Houghton Neck.

Miss Annie Dyer of South Braintree, who, with her father, spent the past winter in Egypt and the Holy Land, will relate her experience at Memorial church, Atlantic, Sunday morning, July 7.

It is more than probable that the cars of the Quincy & Boston street railway will commence to run to the Braintree depot and then issue transfer checks to South Braintree and Weymouth.

If it rains on the 27th it will rain for seven weeks, was a prediction. Again the weather of the last Friday usually governs the following month. Perhaps we will get more rain in July than we want.

Master Edward J. Fegan, the youngest son of one of Quincy's esteemed assessors, distinguished himself by carrying off two medals, the highest honors in both his classes at Boston College, on Monday evening.

The Board of Water Commissioners at their meeting last night voted to instruct the Superintendent to cut off the city water from all consumers who have not, before July 1 paid their bills for the current six months.

The Rev. Charles F. Clarke of Cambridge gave an illustrated lecture on "New York, historic, picturesque and religious," at the close of the prayer meeting in the First Presbyterian church, Thursday evening. The lecture was very interesting, and a vote of thanks was extended to the lecturer at the close.

GRADUATION DAY.

Joint Exercises at the High School
Building by

GRAMMAR SCHOOL GRADUATES

Fifteen Minute Talk by Henry T
Bailey of State Board.

It was the proper thing to hold the grammar school graduation at the High school building. Not only is the new building well adapted for the purpose, but such a well appointed structure will inspire in the graduates a longing to attend school there next fall. It is thought that about 150 of the 215 will enter.

Over 800 attended the exercises, the programme being as follows:

March, Nellie E. Lord and Sadie F. Emery,
Q. H. S., '95.

Chorus, "Where'er I go," The Schools
Graduating, Quincy School

Invocation, "Father in Heaven," The Schools
The Adamses, Adams School

March, Daisy C. Bemis, Q. H. S., '95
Director of Music, Mrs. L. C. Smith.

The music was particularly fine, the choruses being unusually strong. The boys were heard too, particularly in "The Battle Hymn of the Republic." The boys' trio by Elmer Ricker, Frank Appleton and James Mounick of the Coddington was one of the features. The part sung by the large class from the Willard received enthusiastic applause and was repeated. Principal Merrick was the leader and his whole soul was in the production, and he was showered with congratulations at the success.

The concert recitations were all excellent, the large classes being together in word and infection. The audience was not as enthusiastic in applause as it should have been in appreciation of the work.

Mr. Bailey's address was wholly to the graduates but interested all. He said it was probably the desire of the young men to become rich and of the young ladies to marry rich husbands. There is in this city a treasure house to which you have been given the keys. Wisdom was better than rubies. He was glad so many were to enter the High school; they should determine to go through and graduate. Pious was necessary.

To those not going to the High school, his advice was to do some thing well. But what you must do; and second, that which you want to do, be it drawing, singing, fancy work or anything. That which you love to do may become that which you want to do, and by which you earn a living.

Education was a power for right. Do yourself what is right and you cannot make a failure of life. He wished very great success to graduates. May God bless you.

Chairman Crane of the School Committee in presenting the diplomas told the story of complexed Arabian who had diplomas to present and the good fairy. The fairy considered no speech necessary. He said the School Board congratulates you. He was assisted by the sub-committee in handing out the diplomas.

The different schools were distinguished by their class colors, as follows: Adams, canary; Coddington, blue; John Hancock, lilac; Lincoln, white; Quincy, pink; Washington, crimson; Willard, green; Wollaston, rose.

The largest room in the world is the room for improvement. We can see no room for improvement in Taylor's Anti-Headache Powders, for they beat any other powder now before the public. They are guaranteed absolutely harmless and will cure any headache in a few minutes. And being a purely vegetable compound, they can be taken as often as desired. At L. J. UNGENTLEMANLY ACTIONS.

Delegate Taylor Unleashed His Tongue at the Louisville Convention.

LOUISVILLE, June 28.-I. C. Ford was nominated for state treasurer and L. C. Norman for auditor by the Democratic state convention. W. J. Hendricks, the present attorney general, was nominated for that office by acclamation. B. Swango was nominated for register of the land office on the third ballot.

The day's proceedings were of a more harmonious nature than those of the preceding two days, until last evening, when the warmest fight of the convention developed in the race for secretary of state.

In this contest there were named as candidates: J. S. Johnson, State Treasurer Hale, Charles W. Metcalfe and John W. Heady, present secretary of state.

The first ballot was announced by the chairman as: Hale, 229; Metcalfe, 229; Heady, 280; Johnson, 150.

It was then moved and carried that the candidate receiving the smallest vote on the next and each succeeding ballot be dropped. Johnson and Heady withdrew from the race, leaving only Hale and Metcalfe. This caused great excitement, many counties addressing the chair at the same time and demanding their votes be changed.

The entire Louisville delegation, which had been passed announced that its entire vote would be cast for Heady, which would have insured his nomination. The Johnson men attempted to delay the announcement of proceedings, but without effect. At this time Virgil Taylor crowded directly in front of Chairman Berry and cried loudly, "Fraud, fraud, and you, the chairman of the Democratic committee of Kentucky."

"Sit down, or I will have you attended to," retorted Mr. Berry.

"Damn you; we will have justice," returned Taylor, and then he burst into a string of oaths, which he directed against the chairman.

Metcalfe withdrew, before the ballot was concluded, in a neat speech, and urged that the nomination of Major Hale be made unanimous, which was done.

Friends Out in Force.

NEW YORK, June 28.-John L. Sullivan enjoyed a reception in the Madison Square Garden last night that must have done the "old fellow's" heart good. The occasion was a benefit to Sullivan, under the auspices of Corbett. An army of fighting men entertained the crowd from 8 o'clock until 11. A friendly set-to between Sullivan and Corbett closed the entertainment. Corbett simply played with the "old fellow," tapping him when and where he pleased, and letting him land on the breast and shoulder now and then. Three pretty, but short rounds were spared, and the people went home satisfied. The benefit netted Sullivan between \$7000 and \$8000.

A Legislative Deadlock.

ST. JOHN'S, N. F., June 28.-Stormy scenes occurred in the legislature yesterday in the sitting over retrenchment. Even the government supporters objected to reductions, and a government caucus had to be called to reduce obstinate members to submission, and it is doubtful if it will prove successful. Premier White-way's refusal of any information in the matter of Corbett and a request for a loan from Canada is accepted as equivalent to the admission of the charge made.

A Sickening Sight.

COLUMBUS, O., June 28.-Michael McDonough, the Kenton wife-murderer, was hanged this morning at the penitentiary annex. The rope cut deep into the neck when the body dropped, severing the trachea and jugular vein. The blood spurted over Dr. Jones, then flowed in a torrent to the stone floor of the room. The heart ceased in 11½ minutes. He fell only seven feet. McDonough was 60 years of age, and his neck did not have the muscular resistance of a young man.

Six Firemen Killed.

MINNEAPOLIS, June 28.-Six firemen paid the penalty of death last night for their faithfulness in trying to save the property of others. Several others were seriously injured, and it is thought that there may still be more dead who have not yet been extricated from under the ruins of the walls which fell and crushed them. The property loss consisted of the entire demolition of the building occupied by McDonald Bros., dealers in crockery china ware and gas fixtures.

Cyclist in a Bad Row.

BUFFALO, June 28.-Two bicyclists ran into three men and one of the wheelmen named Schoen was thrown to the ground. As he picked himself up the pedestrian, who had been sent sprawling, grappled with him, and Schoen whipped out a knife and cut the other, Edward Leventich, across the jugular. Then his brother interfered, when Schoen turned the knife against him, cutting his abdomen.

Another Pearl.

NEW YORK, June 28.-Park, Melbourne & Co., agents of the brig Pearl, which has been reported seized as a Cuban filibuster at Port Maria, Jam., say that the vessel mentioned, and not possibly be theirs. They believe that some filibuster vessel has adopted the name Pearl.

Able to Be Removed.

WASHINGTON, June 28.-Miss Mary A. Dodge will be taken from the Blaine residence and sent to her home in Salem this afternoon. She will occupy a special car. Miss Dodge is daily growing stronger, and is anxious to get home.

Hamilton's Snap.

NEW YORK, June 28.-Mayor Strong yesterday afternoon removed Subway Commissioner Amos J. Cummings and appointed Thomas L. Hamilton, a Republican, in his place. The salary of the office is \$3000 a year.

For Charity's Sake.

ST. PAUL, June 28.-Editor Thompson yesterday gave up The Dispatch to the ladies of this city and a mammoth edition was issued, both in size and in circulation. It was published for the benefit of local charities.

No New Jurors.

ST. LOUIS, June 28.-No new jurors were secured in the Fitzsimmons case. The defense has 19 peremptory challenges left and the people have 11. Only seven jurors have thus far been secured.

The Usual Shindy.

CORK, June 28.-The factional fight in Cork has stopped the scrutiny of the polls, and the result of the election will not be known until this evening.

Japs Preparing to Fight.

HONG KONG, June 28.-Japanese warships are assembling at Makund and preparing to attack the Black Flags.

Pure Blood

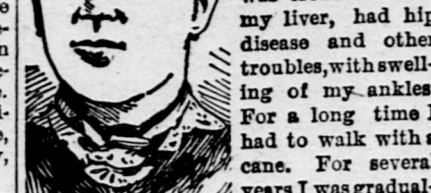

Is the secret of the restoration to health which Hood's Sarsaparilla gives.

"It gives me pleasure to recommend Hood's Sarsaparilla. It has cured me of many complaints, and purified my blood. I was troubled with my liver, had hip disease and other troubles, with swelling of my ankles. For a long time I had to walk with a cane. For several years I was gradually breaking down. I had the grip in a severe form. I procured six bottles of Hood's Sarsaparilla and it built me up. My recovery I owe to Hood's Sarsaparilla. All my ills have gone and I feel like a new person. I sleep well and eat heartily."

SWITHIN BROS., Real Estate

Having opened a Real Estate office in Durgin & Merrill's Block, we are prepared to show plans and give prices on some of the finest house lots offered for sale in this city in recent years. These lots are embraced in the following tracts of land:

PRESIDENTS' HILL.

This land was formerly the country residence of C. F. Adams. It overlooks the ocean, and the view both seaward and inland is unsurpassed in this vicinity. The grounds are covered with rare and costly shade trees, a very desirable feature of a lot, and the farthest portion of the property is within four minutes' walk of both electric and steam cars. Persons wishing a fine lot in a first-class locality would do well to inspect this property before purchasing.

CRANCH HILL.

Probably better known as Adams' Field. This property embraces the present links of the Quincy Golf Club, and is situated in the heart of the city. The land is high and dry, and the streets through the property are wide and straight. The lots are good size, the prices moderate and terms very reasonable. No better lots for a man of moderate means have ever been offered in this city.

WEST QUINCY.

Land formerly known as the Dell estate on Willard street, borders on Blue Hills reservation; is handy to works, and is less than five minutes' walk to electric cars, West Quincy depot and schools. This property comprises about 80 lots.

HILLSIDE TERRACE.

On Grove street, near quarries and sheds; good lots, low prices; small amount down and small monthly payments. This property comprises about 70 lots.

Also a few lots off Bates avenue.

WOLLASTON.

A few desirable lots in Wollaston on Hancock street, opposite entrance to Merry Mount Park.

Will be on land at Presidents' Hill every afternoon from 2 to 4. Parties desiring lots or any information on the above properties, please call at Room 12, Durgin & Merrill's Block.

MORE TROOPS NEEDED.

Spaniards Appear to Be Unable to
Cope With Insurgents.

Detachment of Guerrillas Fall Into a Trap.

Compelled to Retreat After Fierce Fighting
Against Great Odds.

HAVANA, June 28.—That there is real
cause for alarm may be gathered from the
fact that General de Campos has cabled to
the Spanish government asking for the
prompt dispatch of large reinforcements
of troops from Spain.
Advised recently here from Santiago de
Cuba say that an insurgent force, number-
ing about 400 men, has made an attack
upon Tiarriba, in the province of Santiago
de Cuba, and that they were repulsed, are
now in flight and are being pursued by the
Spanish troops.
Details have been received of a desperate
fight between a portion of the insurgent
force under Maximo Gomez, in the prov-
ince of Puerto Principe, and 70 of the
auxiliary troops of the Spanish govern-
ment, known as guerrillas, under Captain
Agüero.

The engagement took place the day of
the raid upon San Geronimo, when the
fort at that place was captured, and its
garrison of 90 men were made prisoners,
shortly after the capture of El Mulato and
its garrison of 25 men.

The 70 guerrillas were surprised by the
vanguard of Gomez's force, commanded
by Nicolas Mirabel, and there was great
slaughter on both sides, the fighting being
mainly with machetes, the deadly wood-
chopping sword used by the Cubans, as
well as by the inhabitants of the South
and Central American republics.

The guerrillas were out on a recon-
noitering expedition and unexpectedly
came across the insurgent vanguard,
consisting of about 400 men. At first the
guerrillas imagined they had only a com-
paratively small body of men before them,
and their commander, Agüero, called
upon the insurgents to halt, crying out,

"Who Goes There?"
"Spanish forces," was the reply of the
insurgent leader, Nicolas Mirabel, as his
men continued to advance rapidly upon
the government guerrillas. Twice or
three times more did the guerrillas try to
halt the insurgents, but the latter pushed
on quickly until, finally, their leader, see-
ing that the guerrillas were in an awk-
ward position, cried:

"At the macheta!" This cry showed
the government force that they were con-
fronted by insurgents and not by a de-
tachment of Spanish guerrillas as they
had been led to believe, and the mach
being their then off the guerrillas re-
plied to the then off repeated cries of "At
the macheta," with volleys from their car-
bines as they commenced to retreat before
the vastly superior force of insurgents.

The fact being that time to time almost
surrounded the guerrillas fought while
retreating.

But, eventually the government soldiers
and the insurgent troops became mixed
up in a terrible hand to hand combat,
which soon became little more than a
massacre of the unfortunate guerrillas.

The insurgents, in the meanwhile, had
been reinforced until they are said to
have numbered 1500 men, composing the
main body of men under command of
Maximo Gomez.

The guerrillas fought heroically, shout-
ing, "Viva Espana!" as they defended
themselves as best they could against the
superior numbers of the insurgents, or
available behind which to shelter them-
selves as they fired as fast as possible at
the insurgents, who

Pressed Forward on All Sides.
For one hour the fight lasted, and noth-
ing could be heard but the cracking of
carbines, the shouts of the combatants
and the clashing of machetes, and it is
believed that few, if any, of the guerrillas
escaped being killed or wounded.

Captain Agüero led his men gallantly
until an insurgent slashed at his horse's
head with a machete, and put a terrible
gash in the animal, causing it to fall and
throw the guerrillas leader heavily to the
ground.

The insurgents engaged with Agüero's
guerrillas are believed to form part of the
men which recently burned the body of
towns of El Mulato and San Geronimo
after capturing them.

The forts and garrisons of those places
and the news of this fresh disaster have
caused, it is said, a very uneasy feeling in
official circles. Be that as it may, there is
no doubt that, if the government officials
are willing to admit these disasters to the
Spanish army in Puerto Principe within a
few days, and that from the capital of
that province that the situation of affairs
there must be very grave indeed, and may
prove much more so when Macao, who is
reported to have made his way from the
province of Santiago de Cuba into Puerto
Principe, joins his forces to those of Gomez.

Spain Hears the News.

MADRID, June 28.—Premier Castillo an-
nounced that the ministry has received a
dispatch from General de Campos notify-
ing the government that 14,000 additional
troops will be required to enable him to
undertake an offensive campaign in Cuba
after the rainy season is over. The state-
ment has caused some excitement.

Britishers Too Much For Him.

HONG KONG, June 28.—The Chinese gen-
eral has repeatedly demanded the with-
drawal of the British forces, and on one
occasion guns were trained on the foreign
settlement, but the British men-of-war
Spartan, Rainbow, Red Breast, Plover
and Pique, cleared for action, when the
Chinese commander rescinded the order.

Future Contests Unlikely.

LONDON, June 28.—Expressions of re-
gret on the part of the Oxford and Cam-
bridge authorities are heard, owing to
Harvard's refusal of the challenge of Ox-
ford and Cambridge. There is little con-
fidence expressed that a contest can be
arranged this year, and some doubt as to
future years.

Making Amends.

SHANGHAI, June 28.—The persecution of
foreigners in the province of Szechuen
has been issued ordering the damage done
to the property of the missionaries and others
to be repaired.

BRAINTREE.

Bora Wednesday, a girl to Mr. and Mrs.
H. A. Tripp.

There were seven ministers of different
denominations at the First church Sunday.
Two new cars have been received by the
Braintree & Weymouth road and placed in
commission.

The Universalist Literary club have dis-
continued their regular meetings during
the warm season.

Miss Florence Gilman left Tuesday for
Meredith, New Hampshire, where she will
spend the summer.

The prize winning yacht Beatrice has
been having a coat of paint put on and
her centre board altered at the Fore River
Engine Company's yard this week.

Mrs. John Stiles, formerly of this town,
who it will be remembered was taken
suddenly ill and conveyed to Taunton, has
so far recovered as to enable her to return
to her former home in Nova Scotia.

Last Sunday the Braintree street rail-
way conductors collected 3,500 fares, 400
more than the previous record.

Braintree is invited by Weymouth to
send her contingent to the grand, horrible,
trade and military parade at Weymouth
and East Braintree the morning of July
4th.

Wednesday evening saw a happy gather-
ing at Odd Fellows' hall on Pearl street.
It was the eighteenth anniversary of the
Royal Arcanum, celebrated by Monastiquet
Council, Number 987.

Next Sunday, June 30, will be observed
by the Universalist society as Children's
Day.

At the regular afternoon service there
will be opportunity for those desiring to
unite with the church to do so. There
will also be little children to be christened.
Sunday evening at seven o'clock an
excellent concert will be rendered by the
Sunday School. The public are cordially
invited.

MILTON.

The attempt to hold Episcopal services
at the White church last Sunday evening
was a failure and should be a lesson to
those who originated it. Copies of the
Episcopal service had been printed for the
use of those who attended, and it was
announced that Congregational service
would be held in the morning and Episco-
pal in the evening. At the evening
service, the clergyman and choir, not being
familiar with the Episcopal service, got
slightly mixed and made a farce of the
affair. It would be better that each de-
nomination attended to its own services.

Mr. Shaw who was injured in the rail-
road accident Wednesday is having hard
luck for he had recently come from a
hospital where he had been confined from
injuries received from a railroad accident.
A special town meeting will be held on
Saturday, at two o'clock, to act upon
several matters of importance. The report
of the warrant committee was issued on
Thursday, and recommends the appropri-
ation of \$31,000 for park purposes; that a
committee of five be appointed to consider
the question of the purchase of the Milton
Water company, also to consider the ques-
tion of entering the Metropolitan Water
system; that the town accept the reserved
space on Willard street for the street
railway.

The graduation exercises in the schools
were held this week.

There was a boys' one-half mile foot
race at East Milton last Saturday, prizes
being taken by Talbot, Delory and Eaton.

Another Episcopal service was held
Tuesday evening at Elsworth hall being
conducted by Rev. Mr. Breed. It was
then decided to hold regular services after
the second Tuesday in September. In the
mean time a meeting will be held to select
church officers and to arrange for the
meetings.

CLASS OF '95 RECEPTION.

A Pretty Party at the High School Hall Last Evening.

In accordance with the time-honored
custom of the graduating class of the High
school, the class of '95 gave a reception to
its friends Thursday evening.

Heretofore it has been necessary to hold
these receptions in some public hall, but
this year the class had the honor of not
only being the first to graduate from the
new High School building but the first to
hold its reception in the school hall.

The gathering Thursday evening was a
large one, as well as one of the prettiest,
for the school girls were in full force.

Light evening costumes of varied hues
prevailed and the bright happy faces of the
sweet girl graduates heightened the effect
wonderfully.

At the right of the rear end of the hall
seated in a cosy corner were the matrons:
Mrs. Tupper, Mrs. Isley, Miss Thompson,
Miss Fish and Miss Follensbee, while on
the platform with a background of plants
and ferns was Wilson's orchestra.

Dancing was in order until midnight,
there in charge of the floor being Mr.
George W. Holden, '88, Mr. C. Eaton
Pierce, '90, Mr. Percival A. Hall, '87, Mr.
William L. Thomas, '91, and Mr. John
Reardon, '90.

The order was made up of the more
modern dances and included several
promenades which was a pleasing innova-
tion.

Refreshing drinks were served during
the evening in one of the side rooms.

BICYCLE RECOVERED.

The Thief Sentenced for One Year in
House of Correction.

Inspector McKay completed his first
piece of work since appointment to his
new office, when he brought to Quincy,
Thursday night, George Loud, who by his
own confession stole the bicycle of John
W. Mason from Granite street Saturday
night.

As soon as the matter was reported he
forwarded the number of the machine to
Boston, and Thursday afternoon Loud was
arrested.

It seems that Loud visited a pawn shop
on Federal street and informed the keeper
that he had a bicycle he wanted to sell.

He was told to bring it in. Then accord-
ing to Loud's own story he came to
Quincy with the express intention of steal-
ing a wheel. He first thought he would
take it from in front of the store but de-
cided to wait, and when Mason went to
the barber's shop he followed him and stole
the wheel.

He then took it to the pawn shop where
the proprietor agreed to give him \$40 for
the wheel, \$20 cash and the balance
Thursday.

Loud closed the bargain and took his
\$20. Thursday afternoon he came back
after the balance of his money.

Inspector Whitman of Boston, who had
located the wheel, was in waiting for him
and placed him under arrest and notified
Inspector McKay, who brought him to
Quincy.

Loud claims to belong in Springfield,

NEW AND THE OLD.

Able Arguments in Debate at High
School Graduation.

VERY INTERESTING FEATURE.

Resolved, That the New Education
is Superior to the Old.

The debate at the graduation of the class
of '95 of the Quincy High school was con-
sidered the best feature. Today the LED-
GER prints the opening argument of Miss
Daisy Claire Bemis, to be followed by the
other arguments:

I am quite sure I can do my cause
no greater service than to call your
attention to our own school building
and its equipments. Those among
the audience who are parents, will
remember their school privileges,
and comparing the then and now will
appreciate my first point, that, the
equipments and buildings of these
modern schools are far superior to the
old.

Bronson Alcott, the well-known
author, speaking of schools in the
early part of the present century,
said that until within a few years no
studies have been permitted in the
day school but spelling, reading and
writing. Arithmetic was taught by
a few instructors one or two even-
ings a week. Slates were unknown
for school use until after the Revolu-
tionary War, and blackboards have
been common only during the past
fifty years. Boys were taught some-
thing of the first four rules of arith-
metic in Connecticut, the first of the
century, but girls were never taught
it.

We now have every facility for
experiments in our laboratories, and
our libraries are richly stored with
every conceivable book of learning,
free for our use for reference, study
or amusement. Not so fifty years
ago. You will remember tuition
was charged in all public schools
fifty years ago, to those able to pay,
while now, the schools are entirely
free to all of school age. Text books
and other necessary appliances are
also free. Examine our walls.
Note the pictures, maps and busts,
and think of the dreary school walls
of former days. Bishop Temple
says, "Correct education is the power
whereby the present ever gathers
into itself the results of the past,
and transforms the human race into
a colossal man whose life reaches
from the creation to the Day of
Judgment."

The most important item of im-
provement that belongs to the recent
history of education is the intro-
duction of professionally trained
teachers. The first Normal school
established in the United States
recently celebrated its fiftieth an-
niversary. It is the experience of
superintendents, that graduates of
Normal schools continue to improve
in skill and efficiency for many
years. Every year teachers are
more carefully trained and much is
expected of them. Graduates of
colleges and Normal schools are
placed before all others, and a pro-
fessional training is absolutely re-
quired.

We all know the detriment to
pupil which constant changing of
teachers occasions. In other days
marriage was preferred to teaching,
by our girls, for they were poorly
paid and inconveniently lodged—
higher salaries are paid, consequently
our teachers are able to support
themselves, and pupils are thereby
benefitted; in most cases, teachers
also.

It is very easy for one in favor of
an improvement in method to con-
vince himself and others that there
is such an inferiority in the former
method of education that it may be
styled a failure. Never has the
subject of education engrossed the
attention of intelligent people so
fully as it does to-day, and the boys
and girls of the coming generation
will derive far more good from their
school training than has ever been
realized in the history of the human
race.—Daisy C. Bemis.

larceny of a bicycle valued at \$100 from

Baking Powder

Put a layer of hulled berries in a deep dish, sprinkle with powdered sugar, and cover with whipped cream. Arrange another layer of the berries, and continue with alternate strata of sugar, berries, and cream until the dish is full, heaping the cream on top. This should be done just before the dish is to be eaten, and berries, cream and bowl should all be thoroughly chilled.

Mrs. Esther C. Mack, who died in 1887, left in trust, until the death of Dr. Mack, who has just died, \$200,000 to erect an industrial school for the purpose of teaching the females of the poorer classes of the city, such useful and monumental arts, occupations and trades, which they can support themselves honorably and profitably.

Bear in mind that at this charming resort at North Weymouth, opposite Quincy Point, we have ample room to care for a large party and the general public at the same time, as there are two groves, base ball grounds and everything that goes to make Lovell's Grove the most place to spend a summer day or evening.

Just the place for a Sunday School picnic or to take your family for a day's outing. In fact Lovell's Grove this year means the CONCENTRATION OF DELIGHTS.

When the half mile mark was reached the Yale boys had a lead of two lengths, and they showed down to a stroke of 35, but the veterans of the crimson still kept their stroke about 40. The water was smooth, and the conditions were everything that could be desired for a good race. The body work of the Yale crew was excellent, while that of the Harvard crew became worse.

At the mile, Yale had increased her lead to three lengths, and the men were rowing like a machine.

Both crews splashed a good deal over the 1 1/2-mile line, but the Yalesians soon recovered an even stroke of 37, and the Har-

vard men were unable to cut down the three lengths lead at the two-mile mark.

The Yale boat was steered by Coxswain Clark as straight an arrow, but the Harvard coxswain seemed to lose control of his boat. At the 3 1/4 mile flag the boat's course changed, and it made a big turn, losing a length before being straightened out.

At this point it was plainly seen that, barring accident, Yale would win in easy fashion, as they increased her lead constantly, though gradually. The body swing of the crew continued regular and steady. The Harvard men seemed to swing out of the boat.

Harvard's stroke was increased to 41, but Yale kept pegging away at 37 as the third mile was finished. When the three-mile flag was reached Yale had a lead of five lengths, and was gaining steadily. A stretch of rough water was met here, and both crews splashed considerably, but, as before, the Yale men got back into their swing in good shape.

The Harvard boys were lacking in steadiness and failed to act together. They held on bravely, although certain defeat was practically unavoidable. They were six lengths behind at the beginning of the last half-mile of the race, and the crew showed signs of the wear and tear of the struggle.

The Yale men, however, lit up their stroke from this point and rapidly gained another length by their increased efforts. The Harvard crew held on pluckily, but they were outclassed. The Yale men with each movement of their oars seemed to get further ahead, and, amid the firing of cannon, blowing of whistles and cheers of the spectators, which made a perfect pandemonium, the New Haven coxswain passed the winning flag easy winners by nearly 10 lengths.

Jennings, who was substituted for Hollister in the Harvard crew, rowed remarkably well, and the critics were loud in praise of his rowing.

At a meeting of the Yale crew last night, Ralph B. Treadway was chosen captain for the ensuing year.

Harvard will hold a meeting for the election of a crew captain after the race. No reason was given for this deferment of the election.

ONE MORE FOR ELIS.

Harvard Boys Simply Not In It In the Race at New London.

The Yales Had Nearly Ten Lengths to Spare.

Finished in Fine Trim While Their Opponents Were Exhausted.

NEW LONDON, June 29.—Yale won her fourth consecutive victory over Harvard in the university boat race here, and won easily by nearly 10 lengths, the official time being 21m. 30s. The conditions of the water and wind could not have been more favorable. Harvard had a slight advantage at the start, but when a mile had been rowed Yale was 1 1/4 lengths in the lead. Ellis crew rowing with a surer stroke than the Harvard men, who splashed a little over the entire course. The story of the race is told in the record of the official time, which is as follows:

Miles	Yale	Harvard
1	2:00	2:00
2	2:00	2:00
3	2:00	2:00
4	2:00	2:00
5	2:00	2:00
6	2:00	2:00
7	2:00	2:00
8	2:00	2:00
9	2:00	2:00
10	2:00	2:00

Two members of the Harvard crew were badly exhausted by the time the course had been rowed, but the Yale men appeared fit for a continuation of the work and rowed at a quarter of a mile without easing up their stroke.

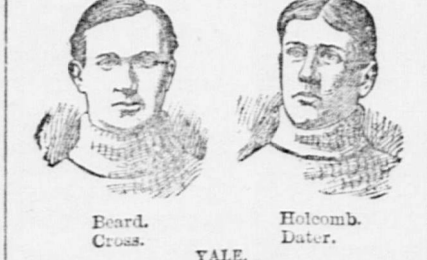

Longshore. Treadway. YALE. Armstrong. Langford.

The phrase "Yale has won!" has become such a monotony in college athletics that it is hardly possible that yesterday's race will startle anybody. Amid acres of masts and spars, forests of fluttering flags and labors of the scurrying crafts of all kinds, Yale's brawny young giants composing the eight-oared crew pulled their shells over the finish line on the Thames river with an easygoing stroke that bespoke confidence that Harvard could not, under any circumstances, beat them out.

Crews never responded more promptly to the referee's warning to be ready than did Yale and Harvard. Scarcely had the whistle blasts of the referee's boat, Dora, died away than the Harvard lads walked from the beach at Red Top, bearing their shells. On the same instant, up at Gales Ferry, the men from Yale trudged down the float from their boat-house with their shells.

Both crews were soon in their seats and they pushed away from the float at almost the same instant. Yale dropped into her position on the west side of the course, Harvard having the eastern place on the course.

Beard. Cross. YALE. Holcomb. Dater.

Promptly at 4:43 the signal was given, and both crews caught the water at the same moment. Harvard started with a quicker stroke, but the Yale boat soon found its stride, rowing about 40 strokes a minute, while Harvard was doing 41.

The Yale men, who were on the west side of the river, rowed evenly, and their shells shot through the water very smoothly, while Harvard's craft sagged between strokes.

When the half mile mark was reached the Yale boys had a lead of two lengths, and they showed down to a stroke of 35, but the veterans of the crimson still kept their stroke about 40. The water was smooth, and the conditions were everything that could be desired for a good race. The body work of the Yale crew was excellent, while that of the Harvard crew became worse.

WEEKLY TRADE REVIEW

Records a General Improvement in Business in all Directions.

NEW YORK, June 29.—R. G. Dan & Co.'s weekly review of trade says:

The half yearly report of failures next week will include about 600, against 7039 for the first half of last year, and liabilities of about \$88,000,000, against \$91,578,132 last year. But for the decrease in the aggregate would be nearly 23 per cent less than last year and the manufacturing liabilities 20 per cent less, but including it the manufacturing liabilities will be about \$49,000,000, against \$41,570,102 last year, and the trading \$45,000,000, against \$52,445,978 last year, while miscellaneous liabilities were only \$2700, against \$7,850,072 last year.

Business is better, although the crop outlook affecting prospects beyond the near future is a little less distinct.

Speculation has even spread to the wool market, and with an advance of about 1 cent in prices the sales have been the largest ever known for any week—14,007,900 pounds against 6,835,640 in 1892.

Shipments of boots and shoes from the east for four weeks have been \$89,896 cases, against \$92,500 for the same weeks last year, which was the largest record for that month, but the fact shows how imperfectly the number of cases reflects the general condition. The prevailing preference is still for low priced goods, while the demand is good for the season. Leather continues strong, and hides, in spite of large imports, do not decline.

A Wave of Reform.

OMAHA, June 29.—The demand for municipal reform in Omaha has become so pronounced that the business men and citizens, regardless of party feelings, united in the publication yesterday of a proclamation calling for the organization of a movement looking to the introduction of business methods in the city government. The members of public indignation have been fanned for several months by the alleged corruption now existing in municipal affairs.

Declared to Be Insane.

HALIFAX, June 29.—A German sailor named Holzhauer shot and nearly killed Captain McNeill of the bark J. P. Marsters when the vessel was a couple of days out from New York on her way to Denmark. He was sent here for trial, and yesterday was acquitted of attempting murder on the grounds of insanity.

Hastings Hanged in Effigy.

HAZLETON, Pa., June 29.—Governor Hastings was hung in effigy from a pole here yesterday on one of the most prominent streets, as the result of the dissatisfied faction over his veto of the Quaker county bill. The figure was cut down by order of the mayor. Who suspended the figure is not known.

Seven Seamen Killed.

HOLSTENAU, June 29.—Seven persons were killed and several were wounded by the explosion of a boiler of a steam launch belonging to the German warship Kurfuhrst Friedrich Wilhelm. The United States and other warships here have their flags at half-mast as a result of the accident.

Becoming Quite Regular.

KLAMATH FALLS, Or., June 29.—The fifth robbery within the past three months of Klamath Falls and Agor stages was committed last night near here. This time both the north and south bound stages were stopped by a party of highwaymen. He rifled the mail pouches.

Distilleries to Close.

PITTSBURGH, June 29.—There are 45 distilleries in the Pittsburgh district, and all of these will be closed before July 10. At the present time there is a greater amount of whiskey in the warehouses and store rooms of the distilleries than was ever before known.

Fishermen Astray.

HALIFAX, June 29.—The Gloucester fishing schooner Kille Morrissey lost two of her crew while fishing on the Grand Banks on the 19th. They were Samuel Dunnett and Stephen Lourette. It is hoped they were picked up by some other vessel.

Coasting.

On September 15, at Waltham, in a coasting tournament wherein seven or eight of the leading bicycles were represented, "The Spalding" finished first, second and third. The greatest tribute to the coasting ability of "The Spalding" Bicycle was paid by Capt. Allen of Philadelphia. On the trip to Glen Summit he was the only one able to come down the mountain without a mishap, which feat in itself should clearly establish the superiority of "The Spalding" at coasting, when the extraordinary declivity of Glen Summit is considered.

EDITORIAL COMMENTS.

AN ARTICLE published in Boston Evening Transcript by Mrs. W. T. Babcock, entitled "An Old Cook Book," is a review of the first cook book published in New England, which in 1838 had reached its 22d edition. The household hints, directions for soap-making, dyeing, etc., are interesting and entertaining as well as Mrs. Child's moral remarks as to the general extravagance of womankind in appearance as they parade Cornhill in butterfly array.

Young Men's Christian Asso.

Mr. J. E. Merritt is attending Dr. Sargent's summer school for physical work at Harvard college.

Secretary Colton returned Thursday from Springfield, where he has been assisting a seven days' conference on educational work, in connection with the International Training school. The success of the granite cutters evening school last winter has brought the Quincy association very prominently to the front.

Next Monday evening the Bible class, which has just completed the study of the four gospels, will have a review and examination.

Rev. Harry C. Voorman of East Milton, Secretary-Treasurer of National Union for Practical Progress, will address the men's meeting Sunday at 3.30 p. m. on the subject of Christian Patriotism.

The society which Mr. Voorman represents is a union of Social reform and Religious organizations for the promotion of Practical reforms, and at the present time is devoting its energies to arouse the public to the Armenian question. Dr. Philip S. Moxon of Springfield is the president.

The association has been the recipient of several additions to the reading room and library during the past week. Mr. Henry Faxon called a few days since and left a beautiful bound volume of "Boston of Today," Mr. Henry Thore of West Quincy has contributed "Pushing to the Front" or Success under difficulties, published by the Riverside Press and one of the best books ever written for young men.

Friends of the new Boston Daily Standard have made the Association a present of a year's subscription. For these the management express sincere thanks and hope that others will follow the example of these gentlemen. Now would be a good time for some patriotic citizen to present a flag to fly over the rooms. This with the Association pennant would be greatly appreciated.

Good Templars Picnic.

The Good Templars picnic at Downer Landing arranged for yesterday did not take place. The committee of arrangements decided to call the picnic off and hold it on Wednesday, August 7. Disregarding the decision of the committee, about fifty from Quincy, holding picnic tickets, went to the gardens and there spent a very sociable and enjoyable time. Owing to the inclement state of the weather the party found they were the only visitors there. Later they were joined by Good Templars from Foxboro, Scituate and Hingham. The paraphernalia for the sports being all there, the contests in a small scale were indulged in. Miss Ella Chubbuck won the prize of all present by the excellent manner in which she sang into the phonograph, "I don't want to play in your yard." A small fortune for the manager was soon collected from those who desired to hear the song repeated. The picnicers returned about six p. m.

Dorchester Mutual to Celebrate.

Next Tuesday will be the 40th anniversary of the Dorchester Mutual Fire Insurance Company and the board of directors, with former members, will observe it by a drive and a dinner. Several gentlemen interested in fire insurance and allied business have been invited to join the party, which will sit down to a luncheon at the company's office in Neponset at 11.30 A. M. At noon carriages will be taken for a drive through Quincy and neighboring towns, the return trip being over the new roads built by the Metropolitan Park Commission through the Blue Hills reservation. At 4 o'clock dinner will be served at the Old Dorchester Club.

THE SOCIAL REALM.

A Week of Weddings and School Exercises.

VACATION SEASON AT HAND.

People Off For the Mountain and the Seashore.

Weddings and wedding anniversaries have vied with the school graduations and receptions in making the week a very social one.

Mr. and Mrs. George H. Morrill are receiving the thanks of the people of Norwood for their contemplated gift of a public library building. It will be of granite and a memorial to their daughter Miss Sarah Bond Morrill who died in Florida a few months ago. Mr. Morrill is proprietor of Morrill's ink works.

Dr. Everett has a notable article in the Atlantic Monthly, "The Ship of State and the Stroke of Fate."

A sacred concert will be given tomorrow evening at 8 o'clock in St. Francis' church, South Braintree, the occasion being the opening of the new organ. Professor Wrigley of this city will conduct the organ recital, assisted by Mr. Frank A. Mahan, baritone; Mr. Joseph Joyce, tenor, and Mr. Daniel Padula, bass. A grand chorus has been trained for this occasion and the concert will be first-class in every respect.

Mr. Daniel E. Haley of Weymouth, the imitable "Dan," will be the central attraction at the annual summer festival of St. Mary's Sunday school, to be held on July 4.

The beautiful grounds of Col. Packard near the PATRIOT office are very attractive; more so, perhaps, than the most of our readers are aware. Many of our citizens usually pass on the westerly sidewalk and are not conscious of the beautiful beds of attractive plants just on the other side. They are the finest we know of in the city; are soul-lifting and inspiring, and worthy the attention of all who may pass up or down Hancock street. The Colonel is worthy of much praise for the time and labor he bestows to prepare such beautiful designs for the public to enjoy.

The engagement of Mr. James Reid of Quincy Point and Miss Hattie M. Sprout of South Quincy is announced.

Mr. and Mrs. T. A. Watson, of Braintree, left town last week for Upper Canada with Prof. Crosby of the Institute of Technology. There are several Technology men in the party and the expedition is to study the geology of the region. Mr. and Mrs. Watson will go through Lake Champlain and stay a few days at Toronto and the Ottawa river. They return by the way of Albany and the Catskill mountains.

Miss Mamie Frazier of Toronto, Canada, is visiting Mrs. O. B. Battles of South Braintree.

The principals of the public schools were kindly remembered by the graduating classes. The LEDGER has already noted some of the presentations. Mr. Pollard of the Washington received a fruit basket; Mr. Knowland of the Adams a calendar; Mr. Merrick of the Willard several individual gifts; Miss Dearborn of the Coddingdon an Etruscan wreath pin, a set of cuff buttons and studs, and a beautiful bouquet; Mr. Litchfield of the Quincy four choice books, also a picture.

Miss A. B. Danforth, instructor at Thayer Academy left Monday for South Bristol, Maine.

Among the hills of Danbarton, N. H., there was a wedding of interest to Quincy people, on Thursday evening, Miss Carrie Evelyn Weeks, daughter of Mr. N. C. Weeks, and Mr. William W. Parry being united in marriage by Rev. Mr. Peck, at the residence of the bride's sister. Mr. and Mrs. Parry will reside in Quincy.

Miss Pauline Curtis Wilkins of Quincy Point delivered the Latin salutatory at the graduation exercises at Thayer academy, Braintree, last Saturday.

Mrs. L. C. F. Smith, the instructor in music in our public schools, and Miss Fannie F. French, the instructor of sewing, have rented half of Mr. John O. Hall's house on Hancock street, and will make this city their permanent home. Both have been very successful as special teachers.

Mr. and Mrs. A. F. Dicknell of West Hingham announce the engagement of their daughter, Mabel F., to Mr. J. Q. Litchfield of Atlantic.

Dr. and Mrs. Charles A. Pitkin and daughters, Miss Ethel Guild Pitkin and Miss Carol Pitkin, of Braintree, leave next week for a five weeks' visit to Syracuse, New York.

Harry Winslow is spending his vacation in the Pine Tree state.

I. Freeman Hall, a former principal of the Washington school, at Quincy Point, has accepted the superintendency of schools in the new city of North Adams. He resigns a similar position at Arlington and Belmont.

The golden wedding of Mr. and Mrs. William H. White was celebrated at Stoughton June 21.

The church wedding of Miss Jennie Florence White and Mr. William Hodson Leavitt at Randolph Wednesday evening was a grand affair. The bride, a daughter of Mr. and Mrs. Daniel B. White, was gowned in white satin, en trainee, tulle veil. Miss Helen White, the bride's sister, was maid of honor, and there were four bridesmaids and four ushers. Mr. William H. Hodson was best man.

Miss Lillian F. Curtis of North Weymouth was among the graduates from Wellesley college this week, receiving the degree of bachelor of arts.

There was a pretty wedding Tuesday at the residence of Mr. Joshua Horton of Braintree, when his daughter, Miss Anna L. Horton and Mr. L. Frank Holbrook of Holbrook were united by Rev. Mr. Baker of South Weymouth. The bride was dressed in blue silk with lace and ribbon trimmings. Miss Cora Chandler of South Weymouth, the bridesmaid, was attired in white lace.

Mr. B. F. Clapp, who has been residing in this city the past year, has returned to Weymouth.

Miss Laura F. Allen of Thayer academy has been admitted to Boston university and Miss Nellie L. Mitchell of Quincy to Smith. Miss Clara B. Cornell takes the examinations this week for Radcliffe.

The engagement of Miss Fannie Merrill of East Braintree and Mr. Marden is announced.

Mr. Henry A. Johnson and family have returned from an extended tour in Europe to their home on Quincy avenue, East Braintree.

Mr. and Mrs. John A. Fogg and John S. Fogg of Weymouth sail from Boston today for a two months' trip to Europe.

Miss Grace W. Emery of Wollaston paid a flying visit to Holbrook this week. She was formerly a teacher there in the grammar school.

Mrs. Everett M. Pope and son Lawrence visited Mrs. M. A. Hamilton in Holbrook this week.

It was very kind of the principals of the public schools to furnish all graduates with ice cream on graduation day. All parted with "A happy vacation."

Mr. and Mrs. Frederic Allison Tupper left today for Shelburne Falls where they will spend the summer.

Stephen A. Foster attended the reunion and dinner of his class at Tufts on Thursday evening, at the Pacific house, Nantasket. He was graduated in 1887.

Among those who received the degree of Bachelor of Laws at Harvard this week was Lewis Bass, Jr., of Quincy.

Miss Jennie Ellis and Miss Esther Ellis are visiting their grandmother in Stockton Springs, Maine.

Better Accommodation.
The following letter needs no explanation! We believe Mr. Sanborn will see to it, and that passengers will not be obliged hereafter to stand all the way from Boston to Wollaston.

N. Y., N. H. and H. R. R. Co.,
SUPERINTENDENT'S OFFICE,
Plymouth Division,
Boston, June 28, 1895.

Mr. James S. Whiting, Wollaston, Mass.:
DEAR SIR:—I am in receipt of yours of the 27th inst. and in reply beg to say that this is the first time that lack of accommodation on the 5.20 P. M. train from Boston has been called to my attention.

I have given instructions to have the trouble remedied and trust you will have no further cause for complaint.

Yours truly,
J. C. SANBORN,
Superintendent.

Pensions Misunderstood.

In reading of the list of pensions granted the word reissue often appears which leads many to believe that the government is getting generous. This is however an error for reissue means simply this, that a new set of pension papers have been issued to the pensioner and that the amount of his pension has been reduced from its original amount, and that his application for an increase has been refused. A number of Quincy pensioners can testify that the above is the fact for they have had the experience.

Our Joker says the cheapest way to get table board (bored), is to take a gimlet; and, speaking of Economy, leads us to remark that any one looking for a Refrigerator can save money by going to Gryn's Coliseum.

SAILED IN THE RAIN.

The New Gismonda and Sphinx Entered on Friday in

THE QUINCY YACHT CLUB RACE.

Gleaner, Swirl and Sphinx the Probable Winners of Legs.

The second championship race of the Quincy Yacht club was sailed off the club house Friday afternoon in a rain storm. The wind at the start was light from the east and later shifted to the southeast. It was 3.20 when the preparatory gun was fired and five minutes later the first class was under way.

The Gleaner was the first to cross the line with the Beatrice a good second and the Eulalie third. The latter boat was late in arriving and was therefore handicapped nearly a minute and a half. On the reach to Raccoon the Beatrice split her sprinker and lost some valuable time. The Gleaner continued to hold her lead and finished a good first. The Eulalie withdrew on the home stretch.

The most interest was centered in the second class, for the new boats were out, including C. F. Colby's Gismonda. It was expected that the Adams boys would be out in the Rooster, but she did not put in appearance.

The Swirl and Koashk crossed the line together, followed by the Opeechee and Gismonda. The latter boat had trouble with her steering arrangement at the start and was obliged to lower her peak, which put her back some.

Owing to the heavy mist it was impossible to watch the progress of the second class the first time round but on crossing the line the time was as follows:

	h.	m.	s.
Swirl	4	27	25
Opeechee	4	28	52
Koashk	4	29	20
Gismonda	4	31	30

On the reach from the stake boat to Raccoon the Swirl showed her reaching powers and rapidly drew away from the Opeechee.

The mist had now lifted and a pretty view was had of this class. On the beat to windward from Jack-knife to the buoy between Grape and Sheep Island the Koashk overhauled the Opeechee and passed her finishing a good second.

In the third class there were but two boats, Arthur Keith's new boat the Sphinx and the Sunbeam.

The Sunbeam crossed first, but was overhauled by the Sphinx which took the lead, and upon crossing the line the first time round led nearly three minutes, which lead she held throughout the balance of the race.

As but few of the boats had been measured the judges decided not to attempt to give the correct time.

The judges were: Commodore C. F. Pettengill, George Saville and Eben W. Sheppard.

The summary:
FIRST CLASS.

A Great Blessing

My wife and I have found in Hood's Sarsaparilla. She had rheumatism very severely, with ankles and legs badly swollen, and hardly able to get up and down stairs. Many other remedies failed, but Hood's Sarsaparilla entirely cured her. It was only shortly after that I was taken with the same complaint, affecting my limbs and hips, so I just tried the same medicine with the same result. My wife and children take Hood's Sarsaparilla whenever they feel the need of a medicine and it immediately makes them feel better.
